THE FLYING SAUCERS IN THE BIBLE.
**EZEKIEL 1:15** As I was watching the living beings, behold a wheel above the Earth next to the living beings, on the four sides.

1:16 The appearance of the wheels and their work was similar to the color of chrysolite. And the four of them had the same appearance. **Their appearance and their work were like a wheel amidst a wheel.**

1:17 When they walked, they moved to their four sides; they did not return when they walked.

1:18 And their rims were high and atrocious and full of eyes around the four sides.

1:19 And when the living beings walked, the wheels walked along with them; and when the living beings arose from earth, the wheels arose.

1:20 Where the spirit moved them to go, they went; where the spirit moved them to go, the wheels also rose following them; for the spirit of the living beings were in the wheels.

1:21 When they walked, the wheels walked, and when they stopped, they stopped too; likewise when they arose from earth, the wheels arose along with them; for the spirit of the living beings was in the wheels.

1:22 And above the heads of the living beings an expansion like a marvelous crystal appeared, extended over their heads.
The divine Eternal Father explains the terrestrial world:

The geometry with which a flying saucer is born, is called first geometry; and it represents in the flying saucer's own history, its anniversary of geometric birth; and each physical form that the vessel had in its birth, is celebrated with parties and joy, by all the galactic family of the respective flying saucer; for joy without any complex is the one that reigns among these creatures; they live the same joy which at any instant is lived in the Kingdom of Heavens; they are eternal imitators of what is of the Kingdom; in a flying saucer, the psychology of the daily living among its crew, is not influenced by only one world, as it happens to the human creature in his trial of planetary life; for them the cosmos with no limits, represents the country with no limits; and because their Universal Country has no limits, they have no complex of limits.

Eternity is for them a limitless source of joy and perfection; in them philosophy represents all the existences that there have been, there are and there will be; for they give and take life away in their respective solar verbs; reincarnations are requested to them; they represent God's infinite causes, in their respective solar hierarchies; the greater is the power they have in their solar verbs, the greater is the benefit they feel, within God's perfection; in the families of the flying saucers divine covenants are made among them, which perpetuate laws of ultra-antiquity; in which death does not count to them; they see and talk with relatives who existed as such, before the present planets and suns were born; they see them in marvelous solar televisions; and it so happens that as eternity passes by, some become colossal giants, and others continue in a microbe size; this is due to many causes, proper to the determinations of the free will, which is requested to God; many improve themselves in their own reincarnations, giving preference to bodies of greater geometric expansion; and others continue improving themselves in the microcosm; in one or another case, the choice came out of oneself.

In the flying saucers one is born and lives for eternities, which escapes every human mental calculation; and one of the infinite paradises of the universe is constituted by the flying saucers; which to a greater hierarchy of power, they transform themselves into paradises of infinite hierarchies; in the geometry of the flying saucers are the histories of other vessels; which means that the geometric cherubs, had already previous experiences; in this law there are two forms of them; multitudes of cherubs had similar reincarnations, and also multitudes did not have them; in the everything above everything of a flying saucer, there are infinite evolitional histories; and many meet again, after not having seen each other for trillions and trillions of centuries; and the most moving encounters that the human mind can imagine, are witnessed amidst an infinite emotion of celestial multitudes; the emotional in them turns into love music; a divine music that if it was heard, it would paralyze every heart; for the creature feels attracted and he/she is carried to sensations which remind them
their place of origin in the infinite universe; for even the emotions recognize each other; and ones over the others cannot subtract themselves from the magnetic fascination, which the superior hierarchy lovingly exerts over the minor one; in the flying saucers, the relationship between them contain no selfishness at all; for they are not subdued to sensations of trials, as it happens with the human creatures; their sensations play at any instant with the sensations of the infinite; they live a living universe; they are not isolated and lacking of the fascinating communication among them and matter; as man is; the crew of the flying saucers starts daily and in every moment, divine conversations with multitudes of molecules; there is a marvelous understanding in them; which makes the philosophy in their daily hustle and bustle to be angelical; and they plan and analyze everything from the Kingdom of Heavens’ point of view; the supreme goal for them is the Kingdom; for they know and see that what is of the Kingdom has no equal.

The geometry of the flying saucers, can materialize any geometry in the vessel; this law of transformation lends itself sometimes to surprise the cosmic credulity; for many flying saucers, by imitating their superior, disguise themselves; festivity is infinite in them; the geometry in a flying saucer, also looks for its own geometric perfection; and it learns something from each solar parent; the solar parents are infinite in their teachings; they represent the divine Father Jehovah within the own flying saucer; just as His First-born Solar Son Christ, represented Him on Earth; the teachings of the solar crews, are done within a divine conceived plan; this divine teaching plan has got many ways of manifesting itself; on Earth it manifests itself by making the human minds think; and by making them think, the human minds generate ideas about the cosmos, which they did not even think to generate; for their minds were into other things.

The geometry of a flying saucer is the same geometry that the world will see on the solar television; this means that the own solar television becomes a flying saucer and vice versa; for the First-born Solar Son shall demonstrate it just as he demonstrated the conversion of water into wine, in the old world; matter is transformable by solar power; the geometry of a flying saucer is of every color; its own essence makes it assimilable to the laws of the planetary natures; the geometric cherubs come into contact of instantaneous covenant with the geometric cherubs of the Earth; this law makes every vessel coming from space to be able to land on Earth; if there was no covenant, dangerous perturbation would take place in the planet’s magnetism; there would be the risk of unbalancing the Earth’s polar axle abruptly.

DIVINE ORIGIN OF THE SILVER VESSELS

ALPHA AND OMEGA
DIVINE ORIGIN OF THE SILVER VESSELS; PROPULSION SYSTEMS; MATTER IS VELOCITY AND VELOCITY IS MATTER; THE SOLAR TRINITY VISITS THE WORLDS IN THESE VESSELS; THEIR DIVINE HIERARCHIES; ALPHA AND OMEGA. - Nº 52.-

Yes little son; I see you are somewhat sad; I know the cause; I know before you went through the bitter experience; there are envious people in every job; who sow discord among their brothers; but, there is little time left for these demons; it is written that they shall not touch even a hair of your head; so, forget them; everything has got its time; let us go over the instruction; since that is why you came to this world; to teach them the New Revelation; sooner or later the demons of selfishness, see the light; the flying saucers are vessels of the solar fire; their propulsion is magnetic; this magnetism comes from the own living suns; this magnetism is different in an infinite degree to that of the Earth; the magnetism of the Earth is subscribed to a microscopic little point; lost and suspended in the immensity of the space; its own vessels built with this magnetism, are limited; they do not have the seal of eternity; the flying saucers have huge nozzles; through which solar magnetic lines get in and out; these magnetic lines are of such an intensity that they can provoke catastrophes in the worlds of the space; they are controlled by the solar parents’ minds; the propulsion is by means of a covenant between a magnetic sun and a divine solar cherub; the cherubs are fire creatures; they are in the own matter; they form the immense army of the divine Father Jehovah; they are all His creatures which were created since the beginning of every eternity; the spiritual universe is the cause of every doctrine that is taught in the worlds that have an oblivion of their past; the spiritual eternity refers to the spiritual universe; if there was no spiritual universe, you human creatures would not have continuity in your evolution; the concept that one is eternal one way or the other, gives strength for hopes; the concept that one may have of one’s own future is the supreme trial of faith; there is no other greater one; this uncertainty before the future, was requested by the human spirit; and it was conceded to him/her; everything that makes the spirit advance is conceded to him/her; the human creature by requesting the oblivion of his/her past, what they
requested was to subdue themselves to the trial of faith; this trial is in direct relation to the Holy Scriptures; when the spirit comes to the planet, he/she is not so abandoned; they have the Scriptures within their reach; for that is how they requested it and so was it conceded to them; all the spirits are of fire; they are from the spiritual universe; what happened to each one in their past, they will know it; one comes to the material planets, from a determined place in space; the divine intelligence has got dwellings in the entire infinity; the universe is an entire movement within movement; you are going to know for the first time the Alpha and Omega of the universe that surrounds you; which has created the greatest mystery in every mind; for that is how you requested it in the Kingdom; and it was conceded to you; you wanted to have experience in mystery; mystery is as relative as infinite is the universe; in the universe the silvery vessels are the ones that direct everything; they come and go; their number is like the molehills in a dessert; the flying saucers see everything; and they communicate everything to the Creator of life; they also learn in concordance to their hierarchy; the spiritual power among the hierarchies of the infinity, is the creative magnetism; it is the essence of knowledge turned into power; this essence is the salt of life of each creature; and everything has cost them a sweat on the face; nothing is for free in the universe; the law that was given to Earth of earning the bread on the sweat of one's face, is a universal law; it is for all the worlds; before the Earth was born, this law was already taking place among the infinite galaxies; the Earth shall come to an end and this law shall be the light in future planets earths.-

This celestial drawing explains how the construction of a flying saucer is in the remote suns; in this construction infinite suns participate in every dimension; when a vessel
is being created, solar intelligences emerge; it is a call for reincarnation; to being born again in a philosophy whose basis shall be the materialized velocity; it is a transformation in the Most Holy Trinity; the gray disks are cherubs of a living magnetism; disposed to solidify other living virtues; for the entire creation is born from magnetic covenants; a flying saucer is an agreement among suns; everyone contributes to the realization of the vessel; just as on the Earth, in which many intelligences contribute to the construction of the terrestrial equipment; what is up above is the same as down below; there are covenants up above and down below; between up above and down below, there is an infinity; in which infinite worlds which came out of knowledge and expanding themselves in knowledge gravitate; the Universe of the Flying Saucers is between the infinite diversity of worlds; known in the Kingdom of Heavens as Silvery Vessels; like the Earth, the silvery vessels live eternal evolutions; their power and greatness have no limit; they advance parallel to the advancement of the universes; the flying saucers represent the very old philosophies of worlds that do not exist anymore where they were gravitating in the space; past and vivid greatness in an unknown cosmos for the gender; for the Father had, has and shall have many planetary dwellings; even you terrestrial children, eternities ahead and living in another world, you will say: I lived on a remote and microscopic planet called Earth; there I experienced the philosophy of the little monkey of flesh; the worlds disappear and the spirits remain with the experience; with the knowledge; their future body is born from it; the flying saucers fulfill the same law; for the divine justice is everywhere; there is living knowledge up above as well as down below; to witness the construction of a silver vessel, is to witness the living supreme experience; the marvels of the Earth disappear before so much greatness; and the remembrance of what was witnessed is never erased from the spirit; and he/she takes this revelation from world to world; behold the cause of a genius of the space; or of a galactic writer; or an innovator in equipment that has to do with magnetism; for the own intuition has been magnetized in a greater degree; a magnetization done in another point in space; it is like being of fire of a certain degree; and suddenly one receives a portion of fire of a greater degree; the virtues that add up to 318 in the human spirit, are of a living fire; and they have a hierarchy in their own quality; one who has a greater degree in his/her calorie, that one is the hierarchically superior; this law which is in your own selves, is fulfilled in all the Thinking Expansive Universe; up above and down below; in the macro and in the microcosm; in their infinite heavens; in the microbe and in
the colossal; it has always been like that in the eternity; each world, each flying saucer, each sun represent a calorie of fire, which came out of another fire; of the fire of knowledge; matter and spirit are the same thing; they are fire; fires manifested in different free wills and which came out of the Father’s divine fire; Whose calorie surpasses what is known; and so shall it be forever and ever; for the divine Father expands Himself in everything imagined; He has been expanding Himself before the present worlds which gravitate in space were born; there are creations of the Father, which shall never be known by the creatures of the universe; for they are unreachable; the flying saucers represent a solar science among other infinite ones; no one in the universe can proclaim himself that he has arrived to the most superior in knowledge; such a profound and fatal error; for the more one knows, the less one knows; only the Father knows everything; that was the error of the so-called satan; who being an angel of a solar category, believed he had the sufficient power to mandate the entire universe; the true history of the demon shall be known just now; for he is the first to fall in the Final Judgment; for he who knows more, more is demanded from him; has it not been propagated in the world that satan is wise for being old? Therefore he is one of the first to fall; he who does it pays for it? That is how it was requested in the Kingdom of Heavens; the silver vessels have a construction that must be classified; for knowledge is not the same in all the creatures; knowledge is as relative as the material worlds are; matter and spirit are relative in an infinite and eternal degree; the flying saucers that have visited the Earth, are of the category Alpha and Omega; and their forms are diverse and infinite; when these vessels are built, the following happens: The suns or solar luminaries, receive a telepathic call; which constitutes the divine universal telepathy; proper of the first-born suns; the scope of this telepathy reaches all the points of the universe; and it is a loving call; it is a call to the free will of the suns; it is a call done by some solar hierarchy; it is a call destined to create living covenants; it is a call to combine magnetisms of different mental power; there every one learns from everyone; there the celestial communism with a philosophy of children reigns, amidst a joy, which is unknown among the human beings; the suns which come from very remote systems of life, gather together in a determined point in space; they are real carnivals of living fire; suns of all the colors that one can imagine; and the divine Father is in every one; as it was taught to you, God is everywhere; the highest solar hierarchies see Him; others intuit or have a presentiment of Him; just as it can be seen in the celestial drawing, the suns form an Omega Circle; in the center is
the solar parent of higher hierarchy; which means the one that has the greater power of creation over the elements of the universe; only the Father is insuperable; I shall explain to you little son the divine equation with which these dazzling vessels are constructed; the equations that came out of the Universal Trinity have nothing of being complex; as it happens with the equations of the Earth; which many times they do them with double intention; to put difficulties on the one who studies; instead of making them easy and simple, they make them almost inaccessible; they shall be judged and accused before the world of intellectual selfishness in the teaching; Divine Father, What is the justice for these spirits who teach putting difficulties? I shall tell you little son; for you have come to the world to teach how the justice that each one requested in the Kingdom of Heavens is; every author of every knowledge, who exposed equation before the world, and he did it with double intention, must add all the seconds gone by in the time he exposed such equations; up to the right instant in which he saw the light of this divine Revelation; as you know, each second of violation is one celestial point less, in the addition of each one; and each celestial point in the violation, is one heaven less that the selfish spirit has; the divine equation of the Trinity covers the causes of the spiritual and material universes; a flying saucer = a cosmic vessel of a solar origin = a mental magnetic force of the suns Alpha and Omega = a Trinity composed of infinite suns = a celestial philosophy which has three solar magnetic lines = a Triune of solar covenants = a trillion of trillions of suns of the galaxy Trino in eternal expansion = an energy composed of infinite solar cherubs = intelligences which govern the molecules of the entire universe = a solar square of mental fire tricepted in infinite solar free wills = a vessel of the universe with mental propulsion = a vessel crewed by solar trinities = a solar circle which came out of a right angle of 90° of the solar coronas of infinite suns = Alpha and Omega in the triception of a solar angle = a vessel of silvery metal with infinite intensities of brightness = a cumulus of mental magnetism of infinite colors = a celestial time within the vessel = a celestial second is equivalent to a terrestrial century = a relative time within eternity = a living space which was born along and at the same instant with the silvery metal = a vessel which is at the same time infinite, for the mental power has no limit = an eternal succession of hierarchies of vessels, and keeping each one their free will in the eternity = a creative power of divine justice = vessels which see everything; they penetrate the colossal and the microscopic; they are up above and down below; they penetrate the planetary dwellings and all the
dimensions = they become invisible and disappear at a mental speed = they penetrate the suns and travel for eternities; when they leave a world, they do not find them when they return because of their trips to the infinity = vessels which outlast the own material universe; only the divine Father can eliminate the silvery vessels = vessels that have 318 solar virtues in eternal expansion = 318 solar colors in an infinite variation and intensity = a geometry made into mechanic-metal = a vessel that has so much magnetism that it can stop the rotation and translation of a planet = rotation is Omega circle and translation is Alpha line = a vessel that has immense laboratories where ideas generated by all the thinking creatures are selected = creators of future worlds; for from each microscopic and invisible idea a future planet is born = the divine parable that says: One has to be very little and humble, to become great in the Kingdom of Heavens; to become a world; all the ideas that each one generates constitute their own heaven; each one makes his own heaven, and the silvery vessels are the ones in charge of building those heavens; the ideas do not die; they travel physically to space; they are the galactic seeds; if the idea generated by the creature is bad, the spirit has created his own hell; and if the idea is good, the spirit has created his future paradise = a vessel which daily communicates with the prophets and first-born sons un infinite worlds = a living telepathy from which living doctrines are born = a Revelation which shall amaze the world of knowledge = an intellectual revolution of the Earth; Orient against Occident = the Final Judgment for the planet Earth = a weeping and gnashing of teeth in an immoral world = fall of the exploitative materialism; the great beast of the Holy Scriptures = fall of the rock of the human selfishness; called Catholic Church; fall of a false morality and a false history on a planet called Earth = a vessel that carries in itself, the same inheritance of the Father; the same inheritance that the thinking creatures of the planet Earth have; what is up above is the same as down below = a vessel with all the geometric dimensions; they even penetrate the human body or the center of the Earth; they penetrate everything; they surround the worlds and they do it invisibly; when they let themselves be seen, they do it by celestial mandate; for every human spirit is trialed in its beliefs; for he/she was taught by divine mandate to cultivate faith = a vessel that has eight vibrations or initial movements of solar vibration; these movements are fluids of solar fire; and they are finite at the same time; they multiply themselves in one sole common vibration = a vessel in which the doctrine of the Celestial-Communism reigns; and they are as joyful as a terrestrial child; these solar creatures wear light-blue
dungarees; a symbol of work to them and a symbol of space; they have a black belt in which there is a magnetic control; generally, they order their impulses by mental agreement; these creatures read the minds; they see in the dark; inside the vessels, they either levitate or fly; they seldom walk and hardly ever talk too; their language is musical and very short; they do not need writing; for they talk to matter and the objects; they are telepathic in what is material and spiritual; for them uncertainty like the human beings have does not exist; they read the future in proportion to their hierarchies; the older they are, the more they know; and penetrate the future more; they almost never read the future; they do it for respect; only when it is necessary; and when a moral experience comes from it; they do the contrary to what certain human creatures do; who try to read the future to others and they trade it; they sully a sublime law; they shall be shamed before the world; a great number of the so-called fortune-tellers deceive the gullible; so shall these false prophets be deceived too, in remote worlds; when they request to be born again in order to pay their own deceits = the flying saucers are the vessels which see the birth of the worlds; they accompany them from the spaces when they still are microscopic sparklets; they guide them as one guides a baby; they influence by loving magnetism; each world is born a baby; just as their creatures are born; for the Father’s inheritance is the same for everyone; within their respective laws; there is equality for matter as well as for the spirit = a flying saucer has got every knowledge to study and understand the unknown worlds; there is everything in the Father’s flock; the Universal Trinity is everywhere by means of these vessels; they write daily and in every instant, wonderful galactic histories; living legends which are transmitted from world to world; that is how you know the story of the Earthly Paradise; one knows everything by means of these vessels; they are like celestial messengers of the divine Father; the divine Creator can manage everything by Himself; for He knows everything; but, He lets His children learn; gain experience in remote worlds; just as the wise men of the Earth try to conquer space; what is up above is the same as down below; there is a purpose up above as well as down below = the flying saucers know the human history; for they witnessed the preparations before the divine solar birth; for the suns also have individuality and sex; they have what you have; what is up above is the same as down below; everything has a mother nature; a living mother, a living nature; negating one’s divine mother is to negate one’s own eternity; for the own eternity has a mother; nobody is disinherited; neither matter nor spirit; for all of you are born with the same rights; the divine Solar
Mother Omega, is the new Revelation; which shall make millions of creatures who have negated her in the trials of life cry; and who have even ridiculed her; a new evolution on Earth is initiated with her; the Science Omega is born with her; or Spiritual Science; the science that leaves is the science Alpha; the science of the beginning or materialistic science; Omega judges Alpha; and they complement themselves into a New World; in a new philosophy; a new destiny; a new planetary symbol; the Matriarchy gets initiated with the Solar Mother Omega; women govern the world; men and women should have always governed equally; in the Kingdom of Heavens there is no discrimination at all; everyone is equal in their rights; everyone got to know the divine Celestial Communism before coming to trial the human life; the illusion of the life you chose influences the oblivion which is born in your spirits; that oblivion for the humility in your daily lives was requested by your own selves; and it was conceded to you; and you were warned that every oblivion is weighed in the Kingdom of Heavens; every request in the Kingdom is a destiny that must be fulfilled in some planet of my creation; there are requests for up above as well as for down below; every request if being born again; for the creation that comes out of the Father is irresistible; everyone wants to trial the everything; everyone wants to be the closest to the Creator of the universe; everyone competes in heaven to please the Father; but, once they arrive into the worlds, many forget what they promised in the Kingdom; despite the fact that the divine Father puts the Holy Scriptures in their destinies, in their ways; He never abandons them; in despite of it, many spirits abandon themselves; they become spiritual rocks; they believe that they will never render account of their acts; when they arrive to the point where they came out of, these spirits cry and curse the custom they cultivated in such or such world; the oblivion of the Father which is translated in forgetting His divine Commandments, is the oblivion among the oblivions which the spirit regrets the most; the excessive comfort is one of their causes; pleasure when it is neither controlled nor meditated, spoils the creature; that is what shall occur to the world very soon when the Doctrine of the Lamb of God spreads more; which once more, is a living Doctrine for living creatures; it shall be millions and millions the creatures who will curse their own customs; for one second less of that time in some violation, is enough for the creature violator of the law of goodness not to enter the Kingdom of Heavens; never in eternity has it happened; just as the divine parable of the camel and the needle teaches it.-

ALPHA AND OMEGA
Chapter 4

CONSTRUCTION OF THE FLYING SAUCERS

ALPHA AND OMEGA
CONSTRUCTION OF THE FLYING SAUCERS; HOW THEIR MOLECULES EMERGE; THE SOLAR MATHEMATICS; THE SOLAR GEOMETRIC POINT; AN UNKNOWN MAGNETISM; THE NUMBER 318 IS BORN ALIVE. - Nº 53.-

When the solar fluids which are magnetic forces are concentrated in one sole point, an impact of fire of infinite colors is produced; this impact remains recorded in all the suns of the corresponding hierarchies; for each sun is not unique; no one is unique; only the Father is; by their own hierarchies and old age, the solar parents have an infinite inheritance; just as on the Earth the terrestrial parents multiply themselves; in the solar hierarchies, the everything reverberates in the everything; at every instant these creatures know what is taking place in different points of space; it is as if they were watching them on a mental television; this power is not the same in everyone; the older a solar creature is, the more power he/she has; just as on the Earth; in which an adult knows more than a child; for he/she has lived more; his/her expansion is greater; what is up above is the same as down below; the suns are materialized virtues; they are living philosophies; just as you the human beings, who being creatures of one flesh, you are thinking individualities; the difference is not in the origin; for everyone had the same beginning; the difference is in each one's knowledge; in the acquired knowledge; in the spiritual merit; in the sweat on the face; for everything costs; not only on Earth; but in the entire universe; for the divine Commandments are not only for one world; the Father's creation has no limits; for the Father has many dwellings in space; there are many inhabited worlds; there are planets earths as there is sand in a dessert; the flying saucers are also infinite; like the sand in a desert; or as molecules has the planet Earth; and even that is microscopic; it disappears before the infinite; just as the little sparklets of the planets emerged, so do the molecules of the creation of a silvery vessel emerge; and they carry in their elements all the movements of a planet; all the physical laws of the universe; for it is the same fire with which the universes were born; it is as it was said, the everything reverberates in the everything; just like a sensation or pain reverberates in all the creature of flesh; what is up above is the same as down below; so it is that every flying saucer, penetrates in galaxies, knowing their
laws; this does not mean that it is almighty; only the Father is Almighty; it means that it can penetrate in all the worlds, as your mind can imagine; but, that does not mean that it penetrates the entire universe; one never stops from exploring the Father’s creation; it has never happened since there are material universes, nor shall it ever happen; the molecules of the silvery metal, also carry the 318 virtues of the human spirit; for they were also human; they were very little and humble, to become great in the Kingdom of Heavens.

Yes little son; so it is; the number 318 is born living; which means that it feels; that is how the flying saucers are born too; when these vessels feel that they feel, they see and hear everything that is happening around them; they are born with a free will; and they keep it through all eternity; they see their process of materialization; they see how the silvery metal invades them and they feel that they are passing to another dimension; they feel that they are being born again; and that a past is being left behind; just as the thinking creature who intuits a spiritual past; what is up above is the same as down below; in the drawing one can see eight colored little squares; these correspond to eight solar vibrations; to each solar vibration, a torrent of molecules flow; these solar squares represent the human geometry; the only one that was born with the human spirit; the human germ was born from the solar square; the human seed was born; and it corresponds to the individual point of view that each human being has of the universe; point of view is imperfection; it corresponds to the planetary dust; a planet is a little point lost and suspended in space; when a silvery vessel is created, the same thing happens; disregarding how gigantic the vessel can be; only the Father is infinite; for He creates everything; in the drawing one can see yellow lines which form white squares; it represents the philosophic innocence of matter
and spirit; this color is a first time of a creature which shall be a flying one; during its entrance to other dimensions, this time is called Process of Magnetic Saturation; it corresponds to the process of birth of a creature of flesh; better known in the Kingdom of Heavens as reincarnation; which means the return to a matter or galaxy called flesh; and it is also a return to a determined dimension; to a point where it must recognize itself; before arriving to that point, the spirit sleeps; but it is a sleep-life; for it sees, feels, and hears; it is an attribute of its innocence; which lasts while it travels through the infinite; and as it is getting closer to the point of recognition, what it sees, feels, and hears is like a universe which is being left behind; and it starts in him/her the oblivion of his/her past; that is how it also occurs with certain silvery vessels; they have an oblivion of their past; they do not remember in which point of the infinity they were created; they only know that they were created by divine mandate; and that the great suns provide them with the daily food; the solar magnetism; and they know that there is one God only; in the drawing one can see a black zone; in which lightnings of solar fire can be seen; it means that every evolution always struggles against an imperfection; the color black is a color of darkness; and it is at the same time a magnetism in a state of decision; for everything is living in the expansive universe of Father Jehovah; magnetism in these vessels, is a creative force within the own creation; it differs from the human magnetism in that this is governed by such magnetism; in the flying saucers the spiritual creatures are the ones that govern; becoming the worlds and dimensions of the infinity subordinate intelligences; for the solar frequency of their molecules are a product of those; it is like the child who recognizes the Father; the minor frequency submits itself to the greater one; this Revelation explains the following: From the same instant in which the divine Father initiated His creation, old age emerged in it; a world is born for it came out of an idea which is older than such world; and the idea belonged to the creatures of the old world; for the material worlds disappear but the ideas do not; the ideas that you generate daily in your daily lives, travel to space; the future planets are born from them; for it was written: One has to be very little and humble, to become great in the Kingdom of Heavens; whatever littler to the degree of being invisible than an idea? What does one think and create in the mind and one cannot see? Certainly your ideas constitute what is the most microscopic you have; that is why it was written: Each one makes his own heaven; for the ideas are born from your own minds; likewise the flying saucers are born from the suns; who are older mental fires; the human mind is a minor mental fire;
both are fire; up above as well as down below; and wherever the mind directs itself to, is fire; which is manifested in infinite forms; for variety in the Father’s creation is infinite; that is why it was written: There is everything in the Lord’s vineyard; this divine variety makes other universes exist and other universes within others, in the Thinking Expansive Universe; here the human calculation does not count; for before it, there have been infinite mathematics of other planets earths; which are not in space anymore; and before that there were future worlds; not only earthly worlds; which are almost unknown in the Kingdom of Heavens; colossal worlds; in which one of the molecules of these worlds is infinitely bigger than your planet Earth; but this does not mean that those colossal worlds are the limit; no; for there shall never be any limits at all; there was not any, neither is there, nor shall there be; for the ideas which came out of those gigantic creatures, create other worlds even more gigantic; and thus go back through all eternity; as far as your mind can imagine; these worlds belong to the macrocosm; and your Earth to the microcosm; Macro is greater and micro is minor; that is why my divine Solar First-born Son Christ said: Where I am from, you cannot go; he referred to these colossal worlds; He came to visit you from there; actually, he came to a world-hell; where little monkeys of flesh hated one another; they enslaved one another; they exploited one another; they deceived one another; it was in other words, a world-hell; a world which created and still creates its own yokes; for the philosophy that was chosen by the human beings, contains good and evil; and the reason of its existence is to trial life; either one goes for good or goes for evil; the creature has a free will; between good and evil, the divine Father put the Holy Scriptures; and gave the Ten Commandments as a morality of the daily living; which have been perpetuated through the centuries; I never allow my creatures to be left in mental abandonment of what is to come; every world and every sun have their own Scriptures; no one is disinherited in the universe; everything is living justice; the flying saucers have as a principle a mandate; no solar father gives himself orders; just as no terrestrial father does; up above as well as down below, divine mandates are fulfilled; the Ark of Covenants is the law of agreements between the divine Father and His creatures; it is a symbol of materiality in the spirit; its creative psychology is the psychology of life; a point of view, which is not human; for the human life was created; it did not create itself; although it is an inheritance from the divine Father; the human creature and all the forms of life, did not witness their own births; for the beginning of life is a dream which is being recognized as it
increases its activity; the state of solar innocence, is the solar dream; the Solar Mother Omega keeps in her divine very core, the eternal beginning of new planetary philosophies; the solar fire is the only creator of every matter and every spirit; both come out of the same point; the cause in only one; as only one is the Creator; one with an infinite diversification; the molecule is a microscopic part of the Trinity; each creature is a saturation of solar magnetic fire; it is a different equilibrium in each one; not all the creatures think in the same way; for the vibrations with which they were saturated, did not have the same space and time; in the most microscopic dimension of calculation; each individuality is a proportion of a solar magnetic variation; it is like the microscopic detachment of a colossal fire; this detachment includes spirit and matter; the creatures and their planetary dwelling; their microscopic dimension with their corresponding eternity; when a flying saucer is created, the same thing happens; which means that matter and spirit are created at the same time; with the same rights; both are born with free will; nobody is first but the Father; in every creation; for first is the Creator, and then the creation; just as on the planets; first the creature is born, and his civilization afterwards; what is up above is the same as down below; and when creating, the divine Father does it with a common and egalitarian justice; neither matter nor spirit are separated from each other not even a microscopic instant of time; no one can say to be first over the other; behold the law of the Celestial Harmony; the eternal succession of molecules and spirits which go on forming the chain of images and resemblances of God; the entire Thinking Expansive Universe is a sensation already lived by Father Jehovah; matter and spirit come out of Him; and everything that exists and shall exist; that is why your Creator is perfect; for if the children fulfill the law of the sweat on the face, is because the Eternal Father has already fulfilled it; this corresponds to the divine Revelation that says: God is everywhere; and to understand this, it is necessary for the creature to start understanding him/herself; for what is of the children is of the Father; the time in which everyone shall know how things were done has arrived; the situation of each one in relation to the universe in which one lives; a new beginning of existence shall emerge; a beginning that has always existed; the human oblivion was an oblivion which was requested by each one; and it was conceded to them; for the human life is a living trial; one of the infinite forms of life that exist in the Father’s dwellings; for the human number disappears before His infinity; the human error is and has always been, to believe that one is unique; such selfish thought supposes the existence of a selfish
Father, too; he who limits the infinity, limits the Father who created the infinity; the silvery vessels are an eternal beginning; for they were the Father’s creations; they are a living and eternal relativity; for before them, there were others; and from them others, others; and so on up to where your mind can imagine; the flying saucers are one of those infinite antiquities; and one of its missions and glory is to study the civilizations of unknown worlds to them; just as humanity wants it so; what is up above is the same as down below; visiting worlds is normal to them; just as you visit unknown places on your planet; which means that these vessels shrink themselves to such a size, that they penetrate into your molecules and ideas; and you do not notice it; when your ideas travel to space, the silvery vessels are waiting for them there; which have as a mission to guide them through the infinity; the vessels of solar fire are intermediaries between the worlds and the Creator; the divine Father gives them the opportunity to learn the laws which are proper to their solar hierarchies; just as He gives the little human monkeys the opportunity to trial theirs; there are trials up above as well as down below; nobody gives orders to him/herself; the final judgment of your customs already lived, demonstrates that nobody gives orders to him/herself; in order to attain heaven, the spiritual control is necessary; whose salt is the living morality; the salt of life, which gives way to other lives; for every salt is born again; for it comes out of the spirit; and it is as expansive as the universe itself; the flying saucers are a product of the salt of life of very old creatures; they were born and expanded themselves, just as you do; Were you not taught that every spirit is born again? What are you amazed of then? To be born again is to enter into bodies of flesh again; and it is to come back again to the planet which one inhabited; or to come back to new planets; to be born again is to be transformed again; it is to learn new knowledge; new philosophies; new experiences; for he who is not born again, does not enter the Kingdom of Heavens; with no spiritual merits, it is impossible; the divine parable of the camel and the needle says so; the material merit and the terrestrial possession are worthless in the Kingdom; only the philosophy of work is worthy; it is true that to produce material advancement, one has to make an effort; but not enslave oneself to the extreme of forgetting the divine Commandments; the divine justice makes use of your intentions; every intention is weighed in the Father’s dwelling; wherever it comes from the infinity; the human intention is influenced by illusion; for his own attention gave it an excessive importance; he fed his own mind with mundane things; proper of the world; and not of spirituality; a weeping and gnashing of teeth was attained
by humanity; for just a microscopic illusion in a microscopic time is enough for no having the right to enter the Kingdom of Heavens; I ask the world of licentiousness and comfort: What do you understand for adoring your God and Creator above everything? The term above everything, includes your comfort; one certainly cannot serve two masters; two philosophies; either one serves God or one serves illusion; you yourselves requested to adore me above everything in the request of trials of life; and your Father conceded you the law; as my universe is living, my divine laws are not dead words; they are as living as you are; they have a free will as you have; they have got all the rights, which you have; nobody is less before the Father; your promises made in the Kingdom of Heavens, were divine covenants with the own virtues you have; the compromise is in your thinking and your intentions; with microscopic creatures; which in the Kingdom of Heavens are known as divine Cherubs; behold the supreme Revelation of creation; the divine cherubs are mentioned in the Holy Scriptures; now the world shall know its divine celestial story; every spiritual covenant with an ark of matter is a living agreement; it is the Alpha and Omega of every life; it is the point where one came out of; for every living thing has got its beginning; all of you were humble with microscopic geometry; which means microbes; for it was written that one has to be very little and humble, to become great in the Kingdom of Heavens; your growth started from the microscopic, and the most microscopic thing that your mind can imagine are your ideas; they are so microscopic that you can only feel them but not see them; they are a detachment from your spirit; and not from your eyes; although the vision also creates colossal worlds; you were solar ideas born from the suns Alpha and Omega; that is why your body of flesh has electricity; for the spirit was born from fire; and the body of flesh was born from the spirit; just like the solar crews; who from their mental fire produce the silvery metal of the flying saucers; they create gigantic ideas; which are attended in the space by other solar hierarchies; and so on successively; the solar hierarchies become First-born Son and constitute themselves into Universal Trinity; they are constantly near the divine Father; and they receive His divine orders by infinite means; among them the universal telepathy; the same one used by my divine Solar Son Christ; and who promised you to return like a shining sun of wisdom; for he is a First-born Son; it is the same which the prophets used; for every humble is generally a great one in the Kingdom of Heavens; and even being them great, the colossal suns compete before the divine Father to be the littlest; for they know that no one is greater than
the Father; and they know that every humble is great in the Kingdom; humility and joy are the first ones; for the Eternal Glory is an eternal carnival; and its divine dwellers live the loving communism with a philosophy of a child; almost no one knows your planet there; it was written that it was and is a planet-dust; the Kingdom of Heavens is the macrocosm; limit does not exist in anything there; that means what was written: From dust you are and to dust you shall return; it means that there are infinities of existences left to be fulfilled by the human creature on infinite microscopic planets; it is an eternal birth form world to world; for the spirit is born again; it reincarnates again; which is the same; a law can be expressed in infinite forms; and it is always the same law.-

DIVINE SOLAR NUMERICAL CALCULATION

ALPHA AND OMEGA
DIVINE SOLAR NUMERICAL CALCULATION
WITH WHICH THE FLYING SAUCERS ARE
CONSTRUCTED; HOW THE SILVERY METAL
EMERGES; THE SUNS MATERIALIZE THEIR
INDIVIDUALITIES.- Nº 54.-

Yes little son; the silvery vessels are a product of a solar-mental calculation; this calculation is done by greater or minor knowledge; each solar mind is composed of infinite solar lines; all of them coincide in one sole point; thus creating the point-molecule by square section; this square section is composed of a trillion of trillions of trillions of divine mental-solar cherubs; it is a materialized square at an instantaneous speed; this square has trillions of molecules of other dimensions; it is a microcosm within other microcosms; the point-molecule remains saturated by all the vibrations lived by the solar parents; it is the salt of the solar knowledge; this saturation is a reincarnation of covenants between the molecules of the spirit and matter; the collision of both in a form of magnetic lines, produces a silvery matter; the silvery color is the eternal influence of milk which every creature absorbs in each existence; the point-molecule is so microscopic that one can see the vessel coming from the invisible to the visible; there is neither any terrestrial instrument nor shall there be one that can see such marvel; one has to be born again and have a more evolved science to achieve it; the point-molecule is also known in the Kingdom of Heavens as solar geometric point; behold the eternal cause of all the geometries; they are living geometries which get expanded creating infinite worlds with them; the numeric calculation is put into effect by a loving expansive magnetism; a solar parent does not need to make an effort in his mental calculation; every solar calculation is produced by a consecutive law; a little mental point drags along the one that precedes it; the solar mind is also composed of little points; they are microscopic suns of wisdom, and according to each sun’s hierarchy, their little points penetrate in a greater or minor proportion in the microcosm and the macrocosm; each solar mind traverses what is subordinated to its magnetic power; it can also traverse what it does not know; which constitutes to request new knowledge in the Kingdom of Heavens; nothing is done without the permission of the Father; up above as well as down below; the mental power of the solar luminaries, is a power of living fire; eternally
subordinated to the divine fire of Father Jehovah; the minor fires live and get expanded around the greater fire; which also underwent the experience of being minor, very little and humble; and become the greatest in the Kingdom of Heavens.

This celestial drawing shows how the solar fluids enter into the construction of a flying saucer; the solar fluids are magnetic forces which in their own heat carry the vibratory waves from which matter is born; in the solar fluids are all the movements that the planets have; among others rotation and translation; what is up above is the same as down below; the beginning of all the movements that a planet has, is initiated in the same instant in which this emerges as a microscopic sparklet of the suns; every movement is in its birth a beginning of fire; it is born as a temperature; which starts becoming solid along with the planet’s matter; when a flying saucer is built, the same thing happens; what is up above is the same as down below; the magnetic lines represented by black dotted lines penetrate amidst a colossal calorie in a little point made empty; this little point is an agreement among infinite suns which participate in the construction of the flying saucer; it is a divine covenant where the mental fluids must meet; the little point turned into emptiness is too; it is a divine covenant among the cherubs of nothingness and the cherubs of materialization; if they do not agree, nothing is constructed; another point of emptiness is chosen in the immense space; they have hierarchies as the own infinity; the construction of these vessels look like enormous balls of fire which assimilate themselves to all the suns; existing a loving communism between the vessels and the suns; the vessel is in the suns and the suns in the vessel; the everything above everything; the solar trinity is materialized in a celestial vessel which shall be eternal and preexistent to the own material worlds; for it was constructed by divine
creatures whose magnetism is as immense as a sun is immense; as immense is the living form they have; the dimensions of these vessels are simply terrifying to the human proportions; they would cause such terror if the world saw them, that it would paralyze itself; in its nature and in its creatures; because the three of them are fire; the flying saucers, the planet and the creatures; all of them have the same origin; matter and spirit come out of the same cause and manifested in different free wills; every geometric form has a living free will; and the natures of the planets are geometric creatures; whose elements were created with the same laws with which the flying saucers are created; what is up above is the same as down below, that is why these vessels perturb the atmospheres of the planets; it is the magnetic hierarchy which reveals itself; the terrestrial vehicles feel the presence of something superior; their molecules within their own laws feel themselves impotent before another attraction which is familiar; a living magnetism turned into a physical law, it recognizes a living magnetism which came from remote galaxies; this is the only cause why the light bulbs and the motors of the terrestrial vehicles turn off; and when the silvery vessels go away, they start functioning again; their molecules return to their own reality; they return to their present; they start fulfilling again the laws of their present reincarnation; to their present birth; for being born again and reincarnate are the same thing; a law can be expressed in many forms; and it does not stop from being the same law; just as you have millions and millions of individualities and you still are the same human beings; you interpret the world or universe that surrounds you in infinite forms and according to your thinking and evolution; and it does not stop from being the same world and the same universe; the construction of the flying saucers fulfill the same law; for just as you call them unidentified flying objects, likewise in remote worlds they have names for them; and according to the sciences and evolutions, they are known or unknown; when the worlds are infant worlds, their sizes are small; and when the initial sparklet of the future planet is just born, it is a baby world; for first one has to be very little and humble, to become great in the Kingdom of Heavens; to become a colossal planet; just as a creature who being or starting like a baby, also aspires to become great; become an adult; for the same law of growth and development is the same for the spirit as well as for matter; the flying saucers are also born babies; for the solar fluids also have an infancy; and infancy has also got its rights; even more; infancy is the first in the Kingdom of Heavens; for it is the purest in its thinking; the solar laws are egalitarian in an eternal relative expansion; just as the
human individualities are; they never become equal in their thinking while they are living the spiritual and material relativity; everything has got its time; the beginning and end are eternal and relative; the same goes for the construction of the flying saucers; but, because of their hierarchies they have eternity within eternity; they are creators of eternities; every eternity is subordinated to the Father; in the mathematical calculation that enters in the creation of a flying saucer, it is a mental law; there one does not need symbols; although they can have them; generally, the hierarchies which are not so elevated, make use of them; the mental mathematics are sciences of solar fire; the divine Father creates the universes with them; the transmission and divine orders are by universal telepathies; the same telepathy of the Father is simultaneous to creation; which is expansive and subordinated to the Father’s thinking; the world was taught that the Creator is infinite; just now the world will start to understand that infinity in the Father; when they start understanding by intellectuality how things were done; what happened and still happens; what is it that happens in the remoteness of the universe; scenes that were never shown; where I am from you cannot go; behold the divine words of my First-born Son; he referred to the life of the macrocosm; where everything is gigantic and colossal; he referred to the place where you were created; and where you shall return; it is the celestial world; where everything exists; being the history of the Earth one of the infinite ones that there have been, there is and there will be; all the histories of the worlds end up in the same place where they were created; in the Kingdom of Heavens; each place in which a planetary history takes place, is a living little point floating in space; for no matter how gigantic each planet may be, it is a little point seen from the Kingdom of Heavens; from the macrocosm; nobody is greater but the Father; the Earth is a world almost unknown in the Kingdom; there every importance wherever the world it comes from, disappears; such is the greatness of the Kingdom of Heavens; the construction of the flying saucers take place in all the suns; they are the most well-known vehicles of the universe; for there is no world in which these vessels have not intervened; starting from the own birth; for the flying saucers bring them to the material life; they transport the sparklets of the future planets; they take care and protect them in their infinite journeys through the cosmos; for such is the free will; something similar happens with the silvery vessels; they start by being microscopic and end up being like the own universe; this law is not absolute; for everything exists in the creation of Father Jehovah; according to the solar hierarchies, there are vessel builders.
who create them the size of the own universe; and they are
demon vessels! The divine creation is an eternal growth; in
which each spirit goes on creating his/her own self; he/she
goes on getting more and more expanded; parallel to his/
her existences; and the more one is born, the bigger one
is; not having any limits through all eternity; that is why the
own spirit does not sense any limit; and if it thinks it
senses it, it is a product of ignorance and of being a new
spirit; who knows nothing of the universal life; actually, he /
she shall never know it; for the infinity is first than any
thinking creature; and no one surpasses it; only the Father
can; for He has created infinity; the flying saucers have an
individual eternity; an eternity within infinite others; and
they make covenants to penetrate unknown universes;
which do not belong to the times lived by them; and so it is
that in regions of space and time, terrifying wars among
unknown vessels are initiated; whose weapons is the
purest solar magnetism; it could sound strange that these
creatures being angels of solar wisdom, have wars; it is
written that there is everything in the universal flock; the
own Satan known on Earth is one of them; but, satan of
darkness is microscopic; and ends up disappearing before
other demoniac hierarchies; who despise him for they still
find him with some light; for the damned fruit of every
demon is contempt; what is of the light is love; there are
demons as the mind can imagine; for there is no limit in
anything in the Father's creation; the demons also create
flying saucers; just as men do; who being sinners and
violators of the Father's law, build marvelous machines;
within their own laws; the divine Father allows good and
evil in their free will; for both are trialed in their intentions
and philosophies; evil is born from the creatures; and not
from the Creator; it is the same as doing some work and
then destroy it; create and destroy; that is not perfection; it
is a demoniac trial; it is a philosophy which is created by
the own destructor; it is not a divine law; it is a planetary
law; and it belongs to the spirit's first phases of learning;
who requested to trial the experience of destruction, for it
was unknown to him; and it was conceded to him; for
every spirit is born innocent; nobody is born with an evil
philosophy; by conceding them such request, he/she is
warned that that way leads to nowhere; that it is better for
him/her to ignore such philosophy; but, the spirits insist;
for they have free will; and the divine Father concedes
everything; nothing is impossible to Him; so it is that the
spirits with requests of opposite trials, encounter each
other in the worlds they requested; the trials are so infinite
like the individualities you all know; the trials have free will;
and so do the individualities; but it is not the same free
will; they are different; that is why the spirit chooses
between good and evil; he/she chooses a free will in each instant of life; every free will whether they are good or evil, is translated into an intention; and every intention generates an idea; and every idea a determination; the human beings’ determinations are microscopic in the present they live; and they are infinite in space; for just as the celestial bodies travel in space, so do the human ideas travel; they are just like the well-known radio waves; whose frequency is so microscopic that no human science shall be able to create any instrument so to see them; only the First-born Son Christ can; for from his solar fluids the sparklet which is now the Earth was born; that is why my divine son reads the minds; for he talks to the ideas; which see in him their solar parent; and what is of the Son is of the Father; and what is of the Father is of the Son; it is a divine understanding between the Trinity Son and the Trinity Father; this mutual and loving understanding, is taught by my divine Commandments; in the measure of the human understanding; the Commandments is the living word of Him Who gave you life; the Commandments were given for everyone; they are the only ones that can unify the world; my divine Commandments do not divide the world; the so-called religions do the opposite; they divide the faith of the flock; they disconcert my children; and they must pay the debt; only satan divides himself; the religious moralities; are moral within immorality; and they shall be judged by the divine Commandments; I ask the creators of religious rocks: Why do you insist on propagating division among my children? Do you not know demons that there is only one God? One sole truth? You certainly know it; but you have not given it any importance; weeping and gnashing of teeth is awaiting you demons of the selfish belief; this is why my First-born Son, anticipating time and space, told you: Upon this rock I shall build my Church; he meant in other words the following: Upon this rock of human selfishness, I shall trial you; for every spirit is trialed by my divine Father; the Trinity is in everything and everywhere; it sees everything; and so it is that my divine son transported his mind to the future of humanity; at the same instant in which he was saying: Upon this rock I shall build my Church; and what did he see in the future of humanity? He saw all the violations of the blinds leading other blinds; he saw how in the beginning of Christianity, they sent his children to the stakes; he saw how the material adoration emerged; he saw how great thinkers were persecuted; celestial messengers sent by the Father; with the only purpose of making them see the error in which they were; he saw the secrecy of those who called themselves popes of the church; he saw how they blessed the demon; the arms with which my children kill one
another; knowing the rock that my Commandment orders not to kill; he saw how the faith of the children was traded; he saw how the planet was being filled with luxurious temples; where the immoral morality and hypocrisy come out of; he saw how its representatives crowned kings; knowing the rock that there is only one King of kings; which is the divine Father; the only One Who gives life and takes it away; and the kings are from the celestial world; the demons are called spirit-kings; my divine Commandments do not mandate to become kings; they mandate to be humble; he saw falseness in the temples; he saw how men seeing this falseness, searched for the truth by other means; he saw how other many religious rocks emerged; he saw the perpetuity of the flock’s division; he saw all of this; and even so, he gave them the opportunity; for he preferred to fulfill the Father’s law; that every spirit is trialed in life; the only temple that the Father likes is the temple of work; it is the only temple that never turns into dust; the other temples do become dust; for they shall come to oblivion in the human evolution; for every tree that the divine Father did not plant, shall be pulled out from its roots; this divine warning refers to the morality of those who create doctrines; philosophies; and every philosophy that violates even in a microscopic way my divine Commandments, shall be pulled out from their roots; the so-called religions are those trees; religions are unknown in the Kingdom of Heavens; where everything is love and self-uninterested unity; privacy is not known there; one does not know the word: This is mine; for that mean philosophy emerged in a remote and microscopic planet called Earth; it emerged from a group of ambitious demons to such a degree as to forget the divine mandates of the Father; these ambitious demons promised in the Kingdom of Heavens to control their selfish impulses; for in remote worlds they also created misery and sorrow; the spirit needs many existences in order to detach itself from its own imperfections; the so-called rich of the world as well as the religions, are unknown in the Kingdom of Heavens; it was written: It is more likely for a camel to pass through a needle’s eye than a rich to enter the Kingdom of Heavens; for wealth is not perfection; it is backwardness; for the spirit builds its hopes up in one present; and it does not come out of it; he/she realizes it when they have already left life; when their time has already been fulfilled; and the richer one is, the more backward one is; that is why no prophet requests the trial of wealth; that is why these solar parents know through wisdom that he who becomes big on Earth belittles him/herself in the Kingdom of Heavens; the privileges of the world have no merit for the spirit, when it returns to
heaven; for every privilege is an award already enjoyed on
the remote planet; wealth entertains the spirit; and by
doing it, the spirit starts losing the eternal glory; from the
same instant in which it was caught by illusion; second by
second; instant by instant; throughout life; how many
seconds has an existence got? For I shall tell you as
follows: Each second lived may be a world attained or a
heaven lost; everything depends on the intention gone by
during that second; and even less than that unit of time;
the Lord’s addition consists in this; for a microscopic time
of life you can attain a heaven; a world; an eternity; the
divine creation and power of the Father has no limit; nor
His divine awards known in the Kingdom of Heavens as the
Father’s addition; this Revelation shall provoke a
tremendous weeping and gnashing of teeth in the entire
humanity; and all the minds shall curse with all their
strength the own life system which deluded them; known
as materialism; which in the Celestial Alphabet means
philosophy that kills the spirit’s ideas; and everyone shall
remember the divine warning in the Terrestrial Paradise:
Thou may eat from any tree; but not from the tree of
science and good; for it is the own money and comfort
which was enjoyed by those who shall never enter the
Kingdom of Heavens.-

ALPHA AND OMEGA.-
Chapter 6

CONSTRUCTION OF THE SILVERY VESSELS

ALPHA AND OMEGA
CONSTRUCTION OF THE SILVERY VESSELS; A LIVING ORIGIN WHICH GOES BACK TO ETERNITIES OF TIME BEFORE; BEFORE THE PRESENT SUNS; BEGINNING OF THE END ALPHA; THE BEGINNING OF OMEGA STARTS.- №55.-

Yes little son; we shall start the explanatory series of the silvery vessels; for the times have arrive; there is no act up above as well as down below which does not have its time; the silvery vessels which the terrestrial children call flying saucers, are vessels of solar origin; they are angelical creatures; and they have as a mission to make the divine laws of the Father be fulfilled; for there is everything in the universal flock; the silvery vessels have a construction which is above the human knowledge; they are vessels built in the own suns; or in worlds proper of the higher solar hierarchies; they have arrived to such a degree of perfection, that they and matter understand each other directly; just as my Solar First-born Son Christ did; He was a Solar Parent; and older son of Father Jehovah; and He promised as such, to return to the world as shining as a sun of wisdom; my divine First-born Son is from the same little children who crew these dazzling vessels; the Solar Trinity is not like the human creature; who is just starting to get up from the floor; the First-born Sons are infinite; they are everywhere; just like the Father; Were you not taught that God is everywhere? The silvery vessels being of a solar origin are also everywhere; for the own suns form the living knowledge in the Most Holy Trinity in the Father; the divine Father is also fire; and He covers everything; and He creates everything; the silvery vessels are also His divine creation; they are the result of infinite existences; they and their crews were also born again; they were also very little and humble in worlds that do not exist anymore; to become great in the Kingdom of Heavens; to become great suns of wisdom; they also fulfilled and still fulfill the divine mandate: Thou shalt earn thy bread on the sweat of thy face; for what is up above is the same as down below; nobody is born perfect; everyone is born innocent and lacking of any science; everything costs in the universe; everything is struggle; the divine parable that explains it, refers to all the creatures of the universe; not even the silvery vessels stop from fulfilling the divine mandate; and it means that it is necessary to struggle in the imperfection
to attain perfection; no one knows any perfection if he/she has not known imperfection first; just as the Father knew it; when the present Thinking Expansive Universe did not exist yet; for there were others before you; other universes which continue expanding themselves in other infinite dimensions.

Yes little son; I know what you are thinking; so it is; these vessels are built in all the suns and paradise-worlds; to arrive to such perfection in their construction, it is required to have an evolution superior to the human’s; it is required to have been born infinite times; it is required to have known infinite sciences; just as the process that the human child had to cover, in order to be able to build the flying vessels he has; what is up above is the same as down below; it is just that the sciences are as relative as the own worlds; the construction of the so-called flying saucers is something that the world shall really like; for each spirit saw them before leaving the Kingdom of Heavens; these sublime vessels which come in and go out of the colossal suns, brought the spirits of the Earth to life; and not only of the Earth; but of infinite worlds which were in space before your Earth was born; those worlds are no longer in space; others have succeeded them; and the creatures of those worlds which no longer exist, are presently the crew of these eternal vessels; for the material universe shall end up, and these vessels shall survive; for everything that comes out of the spirit is eternal; and in this eternity, the spirit was also matter; for both have free will; both succeed each other in the eternity; the silvery vessels are vessels made by solar fluids; which are like the virtues of the spirit; the solar fluids are sources of magnetism; this magnetism is fire; a creative fire; which creates matter at the speed of the solar thought; a speed which the terrestrial science cannot calculate; for the terrestrial calculation is microscopic; the solar fluid is the salt of the
individuality of the suns; a magnetic salt; and it is as relative as its eternity; here the individuality turns into matter; and it keeps its free will; the solar fluids are also force; a force that would fill with dread the human creature; for a suns’ force is capable of keeping colossal planets in their field of action; and this in an eternal way; it is the universal gravitation; everything is suspended in space; up above as well as down below; the silvery vessels fulfill a similar law; as the Solar Trinity is everywhere, for there are suns in the entire infinity; these vessels follow their own and successive solar line on their journeys to the cosmos; in their respective Solar Trinities; a sun replaces another one; this way they can travel eternities; this demonstrates that there are infinite categories of vessels; according to their solar relativity; according to their solar hierarchy; in the Kingdom of Heavens knowledge constitutes power; knowledge gives the quality in the matter made power; these vessels which confuse the terrestrial children are vessels which fulfilled the same physical laws that you are presently fulfilling yet; for these divine creatures also fulfill the divine law; what is up above is the same as down below; they were very little and humble; they were also little monkeys of flesh; just as you are now; and they are now great in the Kingdom of Heavens; some are first and others are after; an eternal succession of creatures which shall never end; this eternal succession of beings, was already there when your planet Earth was born; the unlimited power of these vessels is demonstrating it to you; eternities ahead and when your world no longer exists in space, you shall also be great in the Kingdom of Heavens; the divine law is universal; it is for all the worlds; for those which were, those which are, and those which shall be; all of you have got the same beginning; a beginning which came out of the Father; which came out of fire; which came out of the solar luminaries; Does your physical body not have electricity and calorie then? And your planet, does it not have fire in its center? For matter and spirit came out of and still come out of the solar fire; they came out of a same point; they are created to the image and resemblance of God Father; they are also of fire; the silvery vessels keep in eternity, the divine seal of the Father; they keep being of fire; magnetic and solar; the transformation from fire to matter is something that shall fascinate the world; this solar law that you are far from suspecting it, shall be made known to the world for the first time; and you by receiving such a sublime light of the Little Lamb of God, the misunderstandings shall be ended; an entire business at the expense of faith and beliefs shall be ended; many mundane demons deny before the world the existence of my emissaries; I tell them: You shall cry
out loud in public what you arrogantly denied during life; he who denies a prophet or an emissary from heavens, as these vessels are, denies the Father; and he who denies the Father, denies his own eternity; he denies his entrance to the Kingdom of Heavens; these know-it-all forget that all the spirits are trialed in their own theories and affirmations; second by second; since one is in the knowledge of good and evil; up to the last sigh of breath; what does not exist in your world, it exists in others; were you not taught that the Father has many dwellings? And that you are born again? Giving place to many living sciences; only by the knowledge learned in the worlds, one gets to the Father; just as the celestial creatures who govern these vessels got; the vessels who millions of you deny, were the ones that made your planet be born; they accompanied the solar sparklet through the space; they attended it with infinite love; just as a mother attends her baby; for all of them are infants; everyone is a child before the divine Father; matter as well as the spirit; nobody is less before the Creator of the universe; everyone has the same rights; up above as well as down below; in the macrocosm and in the microcosm; the birth of your planet and all the planets of the universe, is due to these vessels; their number is as infinite as the own universe, and there is no creation in the infinity in which these vessels have not participated; there is everything in the Father’s flock; these vessels represent an astonishing antiquity; not even all the centuries that your planet has, get closer to them; starting from the basis that each molecule of earth corresponds to one century; not even by calculating all the existence that the human being will have, you will arrive to the calculation; one has to be born again in such quantity of existences and worlds as your mind can imagine; not even so; for in this lapse of eternity, they have also advanced another time and space; creating their own expansive eternities; these vessels have got hierarchy; some have got the command over the others; this hierarchy has neither a beginning nor an end; for creation itself has not got one; nor shall it ever have any; the size of these vessels in the macrocosm are simply astonishing; if the human beings saw them, they would simply go crazy; for it would be a terrible and an unknown complex of inferiority; there are crafts of such size that their only presence turn off infinite suns of colossal sizes; they are not suns like yours; your sun is very small; it is a sun of the Microcosm; the suns that I am talking to you about are gigantic suns; each one of these suns has the volume of trillions of trillions more than yours; here we are in the presence of the Kingdom of Heavens; where nothing is limited; everything is unlimited; everything is gigantic in such degree that it escapes the human mind; creation is so
eternal that it reaches all the dimensions; there is no limit at all; and if there was one, it is also relative; everything tries to reach the Father; but, to arrive where the Creator is, it is necessary to be born again; if your God is everywhere, everywhere I wait for my children’s return; it is not necessary to wait an endless time; it is only necessary to fulfill with the divine law; which was given to you in each world of the universe; for no one is disinherited; everyone has the same opportunity; up above as well as down below; in matter and spirit; if the universe is relative, my divine Word is too, for it is an eternal part of creation; one cannot teach the worlds what is superior to their own knowledge and understanding; for you are limited in it; you have the entire infinity before you, and you cannot arrive into any conclusion; and every theory that is born from you, carries the seal of doubt; every doubt is a product of evolution; you are from the worlds dusts; you are little in material and spiritual knowledge; but, this is not eternal; it is relative before the eternity of your spirits; you have eternity more than enough to be being born successively from world to world forever and ever; your errors have darkness with an oblivion of them as a cause; this cause is galactic; and it is in direct relationship with your spiritual past; no one is born perfect; all of you start between darkness and light; with innocence in respect to good and evil; one is born with two tendencies; and they are ignored; this means that between good and evil there is a free will; good and evil cannot violate it; it has never happened; and if the spirit has spiritual trials, it is because it requested them in the Kingdom of Heavens; you should never forget that everything is living; good, evil, and the free will are living and have their own free will; they are free in their own philosophies; but, everyone renders account of their acts before the Creator; you were taught to reject evil; to reject darkness; for it is convenient for you; for evil is trialed too; and it always bears the brunt of judgment; for he who has practiced evil in a microscopic time, does not enter the Kingdom of Heavens; such is the divine law; and that is how every spirit requested it; and so was it conceded to them; the requests are infinite and varied; as infinite and varied are the worlds of the universe; in the living universe of your living God, all the philosophies that your mind can imagine exist; in the universe every fantasy becomes a reality; and they are constituted into eternity; your spirit is also a thinking eternity; which lives within its own dimension; it lives the planetary and relative life; since every spirit is born again, it appears again in other dimensions; the spirit throughout its existence, appears and disappears in its experience with matter; it is born and dies; comes and goes; it is free and gets transformed; this
transformation is to enter a body of flesh and know new experiences in an unknown matter; one passes from one matter to another; one passes from one world to another; because the microscopic capacity of the human spirits is not capable of covering everything; they need to come and go; no creature in the universe knows it all; only the Father knows; as everything exists after the Father, there are creatures of infinite power; living marvels of the universal knowledge; worlds where reincarnations are made; creatures who help the Creator in His own creation; and among infinite living powers are the solar parents; the older children of His creation; the first-born suns; whose origins go back to times that escape every mental calculation; only the Father knows; after the divine Father come His first-born children; the Father’s creation has no limit; the number of first-born children is infinite; and their Trinities make them be only one; this divine law is proper of the solar hierarchy; it is not a human law, though you can become one; for the Father’s inheritance is in everyone; the divine inheritance starts from the most microscopic thing that the mind can imagine; for it was taught that one has to be very little and humble, to become great in the Kingdom of Heavens; to become a First-born Son or a colossal planet; the microscopic beginning is for matter as well as for the spirit; behold the divine principle of justice and equality; which shall never be surpassed by any mundane justice; the justice of the world is a justice within the own injustice; for each terrestrial judge is unfair with himself; those who should judge the world are the humble; Was it not taught that the humble are the first? You certainly know it; but you turn a deaf ear; because you permitted yourselves to be influenced by the illusion that money left you; the philosophy of money entertains every spirit in things that are worthless in eternity; and you let precious living seconds go by; which if you had used them better, you would have entered the Kingdom of Heavens; for one second wasted in vanities is enough for the entrance to the Father’s Kingdom be closed on you; all of you, human spirits, promised the Father not to let yourselves be deceived by the demon; who deludes everyone and tries that no one enters the Kingdom; the money that a group of ambitious beings invented was the own satan; and for having known money, millions and millions of you shall not be able to be resurrected to children of twelve years old; in the year 2001; money shall be cursed by the same ones who used it; and the authors shall do the same; no stone upon stone of the building called materialism shall remain; for it is the supreme illusion; they raised this building without consulting my Scriptures; and it was written that every philosophical tree which the divine Father Jehovah
did not plant, shall be pulled out from its roots; all the human spirits promised in the Kingdom to fulfill the laws of the Father above everything; And what do they do when they find themselves in the human life? They forget; they do not make the effort of searching for the path; they accommodate themselves to what is easy; and the easiest thing is to forget even the Creator of the own life; and they promised not to do it; for nobody wants to be a rock of ingratitude; all of you human little monkeys, promised before leaving the Kingdom of Heavens not to be ungrateful; you promised to be luminaries in the living knowledge; in what concerns your Creator; you promised to study Him through all your life; have you done it?

Without wasting not even one second of time; every time used by each of you, is weighed and judged in the Kingdom of Heavens; just as you are judged; for everyone has the same rights; matter and spirit have got free will; both coexist for an instant in a determined planetary matter; that instant is a celestial time; for you it is centuries; your dimension is of a very slow vibration; you are dusts of the microcosm; and the silvery vessels penetrate in your dimension with a magnetism trillions of times superior to your sun; this vessels have got sufficient magnetism to pulverize the solar system; but, its crews are not destructive; they are creators; they live the Doctrine of the Lamb of God; the same one that was given to the world; the same one that the people of Israel received, thousands of years ago; for them to practice it and teach the world; What did the people of Israel do? They forgot the divine mandate; they turned into traders; a philosophy that exploits the humblest; what example of divine morality can they offer the world? If they built their hopes up in a material present? If they do not see beyond the influence of the temporary possession? Verily Israel is blind leading other blinds; it is worthless for them to be and old nation if they violate the divine law of Father Jehovah; Israel, Israel! When will you understand that the Creator of Life is not pleased of the use of force? He who kills by sword, dies by sword; he who uses force, falls by force; do not do to others what you would not like others do to you; for every creation is living; your dead ones are waiting for you in the Kingdom of Heavens; you shall arrive there victoriously from the Earth; your justice is awaiting you there; it is just that your earthly glory, disappears before the Father’s infinite glory; and this divine warning is also for every terrestrial nation; you attain nothing from exalting yourselves on Earth; if you belittle yourselves in Heavens; every victim, whichever the reason why you killed him/her is, is waiting for you; for it was written that every violated being is first in the Kingdom of Heavens; were you not
taught not to kill? Woe betide you nations! That for you my children’s blood was shed; it would have been better for you not to have formed any nation; if that is the cause for the blood shed of one molecule of one of my children; woe betide you! Exploiters of my flock; it would have been better for you not to have been born; for none of you shall escape; that is how you requested it in the Kingdom of Heavens; and it was conceded to you; you requested that the most microscopic misdeed be punished; therefore the divine justice comes to you; your weeping and gnashing of teeth is a request from you; for you requested to be trialed in a very remote and microscopic planet called Earth; a world almost unknown among the colossal ones; it was written that every spirit is trialed; this divine parable, returns with all its strength to your minds; for that is how you requested it; there shall be no thinking creature who shall not be shaken in his/her own spiritual rock; just one second of forgetfulness towards the Father is enough, and you are already creating a rock of ungratefulness; and that is enough for you not to enter the Kingdom of Heavens; what do you understand for worshipping God above everything? Just one second that you stop adoring Him is enough for you to be violating the divine mandate; that is how you requested it and so was it conceded to you; trials are trials; and your divine Father respects them; they are as living as your spirits; and the consequences that come out of each individual trial are also living; each act made in life is eternal; nothing is finished; everything is transformed; for you belong to the Thinking Expansive Universe; and in this universe everything is possible; everything exists; one just needs to think of it and it exists for all eternity; what is up above is the same as down below; what is unknown is relative, temporary and eternal; the silvery vessels belong to this same universe; and what you call flying saucers, are the same ones; and according to the form you give them in your minds, this form becomes materialized in the infinity; your first form is the idea; and the idea is the seed and beginning of every eternity; for there is nothing that has not been very little and humble; to become great in the Kingdom of Heavens; behold the only beginning of everything living; everything is succeeded by all the beginnings; one goes through all the sizes, forms and philosophies; and this Trinity never stops; for one is eternally born again; if in your present existence this seems like an impossible thing to you, it is because you requested such sensation; and it was conceded to you; it is part of the trial chosen by you in the Kingdom of Heavens; it was your free will which requested it; your life could have been in other infinite forms; for the divine Father is infinite; He has no limits in anything; neither in
what is known nor in the unknown; one determination can
be manifested in infinite forms; it is your turn to choose;
but, you can only have one destiny; for you are
microscopic; you are just beginning to learn the planetary
life; the same beginning of flesh that the crews of the
silvery vessels went through; they as my First-born Son,
had a microscopic beginning; they were also little monkeys
of flesh; when the planet Earth was not born yet, there
were other worlds in the universe; which do not exist
anymore; for everything returns to the Father; every world
up above as well as down below, returns to what it was;
before becoming a world; it returns to its celestial free will;
for matter and spirit are always born free; one independent
from the other.

ALPHA AND OMEGA
Chapter 7

DIVINE NUMERICAL VIBRATION OF THE SILVERY VESSELS

ALPHA AND OMEGA
DIVINE NUMERICAL VIBRATION OF THE SILVERY VESSELS; THE NUMBER-MOLECULE; THE SUNS IRRADIATE THE SILVERY VESSELS; THE VESSELS THAT HAVE VISITED THE EARTH; THE FINAL JUDGMENT IS NEARER. - Nº 56.-

Yes little son; we shall write a divine subject, which is infinite; the subject of the silvery vessels; disregarding for now, the scroll that I have already dictated to you; that roll consists of three hundred celestial drawings; that does not mean in any way that the subject of these divine vessels has a limit; it shall never have any; for my children’s intelligence is expansive; and it never stops; the so-called flying saucers are divine vessels which come out of the own suns; the cause of their tremendous magnetism are the suns; it is the Most Holy Trinity; for the suns or solar luminaries, is the greatest living knowledge that exists after the divine Father Jehovah; the solar science that builds these vessels, goes back to eternities before; such a colossal time has gone by that the present suns of the universe were not born yet; and not only that; before the present suns, infinite others have been born and died; and these vessels were already soaring the eternal space; the power that they have shall never be compared with the microscopic terrestrial science; in spite of the fact that vessels of microscopic galactic power have arrived to the Earth; this is because the solar magnetism must be controlled; so to not to burn the worlds; everything is divinely regulated; the vibrations of these vessels are controlled; for each living dimension, they alter their own molecule; if they did not do it, they would explode; for a terrible collision of divine vibrations would be produced; which by not being channeled, in the given instant, their divine covenants which are the divine cherubs, would go one against the other; they which only know the creative order, would feel affected by a destructive disorder; no one can calculate the consequences of such a collision; I am referring to cherubs of a very high galactic order; I am referring to the divine solar hierarchy; the same one that at the divine mandate of Let there be light, and light was done, continues creating worlds and suns; these divine covenants, when destroying by demoniac orders, they do it through eternities; for they act in celestial time; destroying entire universes; solar systems; in such number as the mind can imagine; the time that the terrestrial centuries
have taken in order to make the Earth mature; arriving to
the present size of a balloon, the collision of these divine
forces would make it disappear in an instant; amidst a
terrifying silence; for the divine speed expressed in force,
surpasses in an infinite degree, every material noise;
making in the remote galaxies the solar television that
witnessed the destruction of a determined planet arrive
first; then, eternities later, the noise of the disintegration of
their molecules arrives.

Yes, little son; this divine drawing is a microscopic part of
the solar origin of these vessels; the infinity cannot be
explained to a world that only lasts a very short time in the
material space; the infinity is preexistent to everything that
has been created; it is first than the worlds of the present;
this means that every world is never the first; it is so in the
momentary sense; but not in the infinite sense; only the
Father is First, in the infinite sense; every science of every
world, brings its divine plan, which is initiated in the
Kingdom of Heavens; everything with no exception is
before the birth of matter; in any of the forms that it
manifests itself in the universe; only matter stops matter; in
a temporary sense; but it does not stop the events; which
in one way or the other draws it closer to its end; by
explaining to you, loving son, the divine origin of the silvery
vessels, I do it because the time has arrived; once more a
divine Doctrine expands itself throughout the surface of
the Earth; the divine covenants of divine cherubs have
completed their time of divine philosophical trials; in each
human individuality, and in each created species by your
divine Father Jehovah, the times are not absolute; no one
is absolute in my divine creation; those who have
pretended to be one still cry the arrogance; there cannot
be absolutism when the divine Father has ordered one to
cultivate humility; if there are absolute numeric sciences in
remote galaxies, be sure that those worlds live a philosophy of pride; the excess in knowledge is a very dangerous trial; every power corrupts; but, it has its time of maturity; it has its own laws, and it has its final judgment; the Earth is arriving to an end in the divine plan; it is one of the many ends in its epochs; every epoch has a determined doctrine; which takes over; then comes another one; the human creatures must confront now their own Final Judgment; as it was divinely announced to them many centuries ago; it could be said that it is very difficult to surprise the world; with something that has been told to them way before it was born to life; but, unfortunately, the human pride has been inherited in a great part by their own parents; and these from their parents; they had the weakness of placing their own mundane prejudices first in their lives; a pleasant life was more comfortable to them; exempt from every spiritual experience; to such degree as to forgetting the divine morality; they only learned to worship me by mouth; but not by acting; which is worth much more before the Creator; every vicissitude experienced by each creature is weighed and judged in my divine dwelling; it has the eternal award; for there is sweat, tears, pain in there; there is an entire living universe; the spirit has fulfilled my first and divine Commandment: Thou shalt earn thy bread on the sweat of thy face; being constantly adoring me is not of the divine Father’s pleasure; my creatures stop; they do not advance in their virtues; the best temple that each creature can erect for me is a life of honest work; this temple is never reduced to dust; all the rest turn into dust; and disappear; this was announced many centuries ago: The Earth shall pass, but my Words shall not pass; this means that after the Final Judgment, there will be a new philosophy on Earth; cleaner, healthier, less self-interested; there shall be no exploitation; there shall be no deceit; in other words, the rich shall disappear; and with them their damned philosophy of temptation with money; there shall be neither rich nor poor; there shall be equality; the same equality that my Scriptures have been teaching for centuries and centuries; the silvery vessels shall play a divine role in the Final Judgment; they took care of the Earth when the Earth was a baby-planet; when it was a microscopic sparklet; when it just came out of the suns Alpha and Omega; a sparklet which gave off microscopic waving gases; of every imaginable color; which was the future terrestrial nature; the sparklet was guided by the silvery vessels; in its journey through the infinite spaces; in that divine instant the divine covenants were formed; which are no more than living magnetic lines; as living as the human spirit is; these divine covenants of cherubs came out of other suns; their
divine formation is a separate chapter; it is a divine love story, which has no end; for the solar wisdoms have been succeeding each other through all eternity; every seed, has neither a beginning nor an end; one can only understand them by being born again; coming constantly back from the spiritual life to the material life; in a movement very similar to the magnetic lines of a magnet; for all the Thinking Expansive Universe is like an infinite magnet; whose divine calorie in a relative descent, creates the growth and maturity of every flesh; and it cannot be otherwise; being the divine Father Jehovah a divine ball of living fire; everything which He has created and shall create, carries His divine inheritance; everything has got fire in a microscopic degree; the human body feels it like an electricity; like fever; like temperature; when the body of flesh dies, its own calorie descends even more; provoking putrefaction; the putrefaction’s temperature continues descending; provoking dust; this demonstrates that every life lives and has been born from a temperature; no one avoids this divine law; even ice has temperature; for it also burns; in the celestial drawing, one can see some colored discs; connected by solar lines to the solar corona; this means that every world is like a living creature; it has its umbilical cord; this cord collects all the scenes that took place on the planet; since its birth to its own physical end; all these scenes travel through space at such speed which the human creature shall never reach; and all these scenes arrive into the Kingdom of Heavens, and are projected on gigantic screens of solar television; whose number is infinite; for the divine Father Jehovah is everywhere; even more, this speed in which the human scenes travel, is annulled by the divine Father; when His divine will estimates it so; living the Creator in the own scenes; even more, the divine Father places Himself in a time which is previous to the time of the own idea; and this in such infinite degrees that no creature shall ever reach Him; these scenes are of marvelous colors; and they have all the imaginable dimensions; these scenes come from all the planets that have been, are, and shall be; which means that the divine television of the future exists; not of one sole world; but of all the worlds and suns; which the Thinking Expansive Universe is composed of; behold the divine cause of every Holy Scripture; the Holy Scriptures that every planet has, are written eternities before the planet is born; that is why the divine Final Judgment was announced to the planet Earth; it was written before the own violations provoked by the human spirit; the difference in time is abysmal; the divine Scriptures were created before the Earth was a microscopic electrical sparklet; knowing the divine Father in advance what is going to
happen to a determined creature, He lets it act; He lets that spirit’s free will trial his/her own errors; to live them; to experience them; to know them; for they are undoubtedly teachings from the world of flesh; therefore, everything is justified from the divine point of eternity; which is the divine point of creation; the other points of view are of a human conception; and they are, therefore, judged by what is divine; for it came from the divine; and to the divine it returns; in the celestial drawing one can see a silvery vessel, within a sun; it is receiving infinite solar fluids; which are magnetic forces in a living state; which means that they are creations in a state of innocence; the divine operations of these vessels have no limit; they go from sun to sun; the Earth is just a little dust to the crew of these vessels; which is necessary to visit once in a while; for these vessels traverse to colossal worlds; which are not of flesh; worlds which are terrifyingly immense; in which one molecule is bigger than the own Earth; and that colossal world is microscopic in comparison with others; this means that in the creation of Father Jehovah there is no limit for anything; everything has what it should have; but nobody is greater than the Father; this is the most common error in those who govern the Earth; in order to govern others, one has to be the most humble as possible; for the spiritual responsibility is immense; every leader of the Earth must render account of how their teachings influenced in the minds of my children; but…I see that the truth is very sad; I see a painful future for them; I see a weeping and gnashing of teeth; I see that no leader places a humble in his government; it was written that the humble are the first in the Kingdom of Heavens; and they should also be so in the trials of life; I see that no leader uses the divine Lamb of God as a divine symbol; the only one who shall resurrect them in flesh; I see doctrines and parties which are no trees of my creation; for they do not take into account my divine Scriptures; knowing these demons that pleasing the Creator of life is first; therefore, the more dominion one had among the brethren, the more rigorous is my divine law; the same goes for one whose intelligence received more instruction; many sin by ignorance; and they are closer to innocence; all the leaders of the so-called materialism shall be the first ones in being judged; no one shall remain in their positions; all the governments shall be only one; the same one that my Holy Scriptures have taught; every power shall be passed to the humble; for the morality of a humble is worthier of faith; it is more divine in the Kingdom of Heavens; the Millennium of Peace is initiated with them; all the terrestrials of the future will be children; for in the philosophy of the children is the divine Father Jehovah’s complacency; it has been demonstrated
that through the centuries, the philosophy of the so-called adults betrayed the divine Commandments in their most part; and what is worse, they transmitted this error to their children; and these to their children; Adam and Eve were not the only ones; the human spirits were also the violators; they will not be able to say that they did not receive my divine light; What was the purpose of having martyrs? What was the purpose for my divine First-born Son to give his divine life? Everything was done in the Kingdom of Heavens; infinite divine plans come out of there; the divine light comes out of there; of every knowledge; of every doctrine; may each one harvest in their conscience what he/she sowed as a spirit; knowing that every spirit is trialed since centuries before; to each second in its living time; which means that to each terrestrial time second, all the ideas are projected on the divine solar screens; they travel through microscopic dimensions; going through every matter; for the weaker overcomes the bigger; and this is also known by the human creature since centuries before; the humble are the first in arriving into my divine dwelling; and whatever humbler than an idea? Which not even its own owner sees it? Such is its humility that it does not let itself be seen; likewise should the human spirits be; and not scandalize my divine Word with nakedness, damned fashions; which violate the own sex; woe betide those who knowing that there is a God, did not hesitate in mocking in their own ways of living! They shall curse having been born; each pore, each microscopic cell, becomes big in the Kingdom of Heavens; for it is a living creature; and it accuses every spirit that scandalized it before the world; a sublime truth; which will make millions of my children curse their own terrestrial parents; who if they had been more respectful of my divine law, they would have not had those habits; which shall impede them to be resurrected into flesh in the year 2001; theirs is not my divine addition; and they do not enter the Kingdom of Heavens; never have any rich nor scandalous beings entered the divine paradises; these mundane creatures perpetuate themselves in microscopic worlds of flesh; for their own ideas carry the divine pink scales; and in a magnetic form, their spirits are attracted to the carnal matter; he who nurtured himself with one sole philosophy and did not put on display the rest of his virtues, makes his own future destiny have only one way out; to come back on his own footsteps; such spirit has no brightness in the Kingdom of Heavens; how different from those who having fulfilled the divine and honest work, shine like a beautiful ruby in the Kingdom of Heavens; for around the physical body a brightness of a gold color is formed; which corresponds to each idea with its respective
action; which can be explained with the following divine equation: Human Spirit = a living electricity with an expansive resonance = 318 vibrations by molecule of flesh = an idea emanated in free will = a waving line around its physical body.- this means that everything that the creature thinks and speaks remains recorded around him/her; this thinking starts from being a baby; for every baby also thinks in an unconsciously way; very similar to the angels in the Kingdom of Heavens; this angelical thinking that every creature had is not taken into account in the divine justice; what is taken into account is when the creature starts to feel his/her own spiritual responsibility; this starts at the age of 12 ; starting from there, every second lived is taken into account for the Final Judgment; the guilt of a sinning spirit counts for the Final Judgment; the guilt of a sinning spirit increments as he/she attains more illustration; for responsibility gains in causes and beginnings; its own virtues nurture themselves as the spirit becomes more illustrated; this was also taught to man since many centuries before; that man does not live on bread alone; he also lives on knowledge; a product of the effort of his own intelligence; every intelligence is also judged; for it is a living creature; composed of a trillion of trillions of trillions of divine cherubs of knowledge; each human intelligence is formed by divine covenants; whose composition is as follows: A human thinking is an electrical scintillation = a trino of three simultaneous impulses = a free will in Alpha action; a fact that reverberates in matter and in the spirit = a determination materialized in microscopic sparks around the physical body; without taking into account the time gone by, within the mind; and the time gone by out of it; which means a material time; in all this divine process unprecedented facts take place; it is an entire universe which moves; and all its integrative beings are living creatures; which live their own spaces; their own times; their own philosophies; and they have the same destiny; this is, they return to the same place of the spirit; these creatures in their totality, form a human life; in the Earth’s old times, it was represented by the Ark of Covenants; for they have as a limit, the spiritual lines, which form the human body; these lines seen from a microscopic dimension, have the shape of a rectangular ark; similar to the drawing; from this, the damned pharaoh gods got the inspiration; they created the yellow and black lines in their damned clothes; they thought that good and evil could be perpetuated together; the light with darkness; but they were wrong; as the so-called rich of the world are wrong too; whose philosophical seed was initiated with the damned pharaohs.-

DIVINE ORIGIN OF THE SILVERY VESSELS

ALPHA AND OMEGA
DIVINE ORIGIN OF THE SILVERY VESSELS; HOW THEY ARE BUILT IN THE REMOTE SUNS; THE SOLAR MIND TURNS FIRE INTO MATTER; THE MECHANIC OF THE LIVING SUNS; THE SUNS ALPHA AND OMEGA. - Nº 57.-

Yes little son; we shall continue with the vessels of creation; these celestial machines are created in material time; with powers that are fire; every silvery vessel has its reason for being; their creators built them with infinite aims; for their designers it is a spiritual glory to being able to build these vessels; the mental power of the macrocosm, is represented in colossal suns; every mind is fire; the human mind is also a microscopic sun; the human spirit also makes microscopic creations; what is up above is the same as down below; the infinity is relative in its creations; and within each relativity, there is also a macrocosm; every dimension has the everything above everything; each human thinking is an infinite dimension; which is just starting; and it shall never stop from expanding itself; creating for him/herself his/her own mental power; as one is born again the mental power turns bigger; until one becomes a solar luminary; but perfection does not stop there; the hierarchy continues even within the own suns; nobody knows any limit concerning the future; they are the Father’s divine designs; one of the most fascinating chapters in the perfection of the spirits, is that in which once one has approached certain maturity, he/she must know creatures from other worlds; from other dwellings; the exploration of the universe is the Alpha and Omega of every mystery; these exploration among worlds has no limit; for the own creation does not have one; the flying saucers explore the universe; for theirs is eternity; their missions in space are infinite; they have obligations to fulfill; as you have them; what is up above is the same as down below; the divine law that says: Thou shalt earn thy bread on the sweat of thy face is for the entire universe; and it means that every knowledge costs; nothing is easy and nothing is given with no merit; the greatest merit is to overcome an obstacle; to overcome a difficulty; and while the difficulty that was overcome was greater, greater is the struggler in the Kingdom of Heavens; that is why the crew of the silvery vessels are great in power; they can visit suns and worlds; no distance is a problem to them; for they are telepathic creatures; without moving from where they are,
they communicate with any point of the universe; just as you communicate, little son; by revealing this to you, I want to tell you that nobody has ever had nor shall have such glory; and all of it because you were humble above everything.-

Yes little son; this celestial drawing shows what takes place in the macrocosm; where the flying saucers come from; everything is living fire there; the human flesh does not exist; although they can produce it, in the blink of an eye; infinite creatures are born and develop themselves there; just as it happens on Earth; what is up above is the same as down below; the solar creatures are born with an infinite power; for their own inheritance is great in the Kingdom of Heavens; they are there and men are here; for many dwellings does the divine Father have; He has them in every time, in all the dimensions and in all the evolutions; the silvery vessels have a living beginning; just as the living universe is; there is understanding between matter and spirit; and this understanding is proportional to the spiritual power of each solar luminary; the greater the knowledge and purity, the greater power one has; for the spirit as well as for matter; for both have got free will; and both search for perfection in their own laws; each space vessel is a product of divine covenants of cosmic forces; they are living and one cannot create anything without their loving participation; this harmony of creating by loving agreement is symbolized in the Lamb of God; the entire universe recognizes it; and every demon flees away from it; for it has the divine fire of the divine Father Jehovah; just with its presence the demons which swarm in the universes of the light are eliminated; the flying saucers are solar hierarchies; humanity does not know them; for the first time the human knowledge shall know what takes place in the Kingdom of Heavens; the divine Father does not need your microscopic and limited aerial vehicles; He
uses His own children’s minds; for telepathy is born and develops in the mind; the mind has no limits; and so it is that infinite children are at every instant, in infinite worlds, receiving divine instructions of their Eternal Father; preparing the doctrines for each planetary dwelling; which in a given instant shall be expanded on the face of those worlds; your prophet is one of them; and his Doctrine shall reign forever and ever; It shall crush every philosophical tree which was not planted by the divine Father; all those creatures who requested to trial philosophies and doctrines opposed to the divine morality; oblivious to the divine mandate; creators of doctrinarian darkness; who only divide my children’s efforts; turning freedom into a corrupted licentiousness; and it could not be otherwise; that is where those who draw themselves away from the Father’s morality always arrive into; the same thing happens in all the worlds of imperfection; all those who saw the celestial scrolls, requested in the Kingdom of Heavens being the first to be called; so was it fulfilled; but, no one gave any importance to what was promised in heavens; everyone with no exception despised the divine Revelation; everyone shall be known by the world; the own studious and investigators shall find them; just as it has happened in other Revelations; the divine justice of your Creator is the same one that showed up in the past; immutability is in the Father; and it governs the universe; this indifference has the illusion of life as a cause; the surprise was created by the same ones who were called; the oblivion and ungratefulness made those who requested being the first on Earth go astray; what a difference if you had accepted with love and humility the divine Revelation; you would have avoided the weeping and gnashing of teeth; you would have been proclaimed before the world as blessed! That award was promised by your Creator in heaven; but, what award can I give you if you have despised Me? He who despises the Son, despises the Father Who has sent Him; and he who despises the Father, despises his own eternity; he despises his own entrance to the Kingdom of Heavens; you shall curse your parents; your customs; your blindness; your illusion; you shall curse everything which led you to being indifferent to the call of your Creator; the same thing for the children of the city of Arica; a city of corruption and vice; was the divine Lamb not published in the newspaper? But, no one took the trouble to search; it was written that he who searches shall find; all of you spirits who inhabit this corrupted city, requested in the Kingdom of Heavens the collective call; and so was it fulfilled; you too despised the divine call; what do you understand skeptical spirits for the supreme mandate? Was it not taught to you: Thou shalt adore thy
God and Creator above everything? Even above your illusions; the first and divine mandate has been consummated on you; you shall never forget in your spiritual eternity, the despise done to the Creator of life; on a remote and microscopic planet of little monkeys called Earth; the world of illusion or materialistic world is approaching its fall; for the time that was given to it was relative and of trials; and every trial has got its end; if materialism falls, it is because it violated my divine Commandments; it constituted itself into a tree that the divine Father did not plant; and it shall be pulled out from its roots; the fall of materialism, is the fall of the demon; it is the fall of the yoke that exploits my humble; and this beast with many spying eyes shall be left with no inheritance; no stone upon stone shall be left of it; and it shall be remembered by the future world of children as the trial that satan had in the past of the Earth; the trial that put infinite spirits on trial; for everything is a living experience in the spirit’s own life; they wanted to know new experiences and it was conceded to them; but, no one was abandoned to their own fate; I put the Holy Scriptures at humanity’s reach; the divine Commandments; if you let yourselves be deluded by wealth, it is because that is how you wanted it; you all have free will; destiny was made by each one according to your intentions; according to your deeds; it was written that each one makes his own heaven; this Revelation, awaited for centuries and centuries, arrives to the world in the precise moment that it must arrive; that is how you requested it, human spirits; and that is how it is conceded to you; the appearance of the Doctrine of the Lamb of God, shall provoke the weeping and gnashing of teeth; for that is how you requested it too; everything that is requested in the Kingdom of Heavens, everything is conceded; nothing is impossible for the Creator of the universe; and I shall tell you that it is not the first time that you are judged; it has taken place in other worlds; were you not taught that every spirit is born again? If it is so, it should not call your attention; if that happens, it is because you have forgotten and neglected the laws of your Creator; when you come back to your senses, you shall do it with tears in your eyes; illusion hides itself in the material comfort! For an instant of violation, you miss eternity; it would have been better for you not to have ever known any wealth; for my Commandments do not mandate to become rich; they teach equality; communism in every right; if you had done it that way, be sure that that parable that says: With the same rod you measure, you shall be measured, would not be applied on you; the Rod are the own Commandments; and it means that neither rich nor poor should have never
existed on Earth; every one is the same before me; matter and spirit; he who has more than what he should have, must return it; for it does not correspond to him; it has never corresponded to him to have more than necessary; the own nature does not have laws which are more than necessary; she is egalitarian to every one; the own silvery vessels do not represent having more or having less; their divine crews have got the same rights above everything; the everything is the own happiness which every individuality looks for; every spirit is born again searching for the everything; the Everything is the Father; for He is everywhere; and there is no everything which the Father is not in; every image is an everything to the image and resemblance of the Father; the divine rod is also an everything; an everything of happiness and justice; it is in harmony with the universe; for any planetary little point which undergoes a change or Final Judgment, reverberates in the rest of the everything; up above as well as down below; up above and down below are just a microscopic little point to the Father; for being Him everywhere and in everything, He is also in the microscopic everything; the divine rod came out of the own human spirits; for they are the violators; and not the Father’s law; your imperfection was requested by your own selves; and it was conceded to you; what you did not request was the abuse of the laws of imperfection; this abuse was born in the precise instant in which you built your hopes up on the so-called private property; the private property is the maximum expression of the human selfishness; the private property turns into dust, for not a single molecule of it you shall take to the other life; from dust you are and to dust you shall return; only the experience of a sensation remains; this experience is your fruit; your salt of life; your future shall be born from it; for each one makes his own heaven; the silvery vessels are the ones in charge of selecting your lives; without them you would have no eternity; you would have no heaven; the series of ideas emanated throughout life, is the divine addition; each existence has it; each birth gives place to a fruit; a Parent or solar luminary is a joint of salts of life; he/she is a pile of knowledge; which has nothing of private; what is private perpetuates selfishness; and just one second of selfishness, and one does not enter the Kingdom of Heavens; for each sensation of the spirit, has got an umbilical cord which unites him/her to the sun Alpha; it unites him/her to the same point from which he/she came out of; and where he/she must return to; when one violates the law in even less than a second, the cord of the sensation from which the spirit sinned, is cut; behold a new Revelation more; may it be cut, says my divine light;
which means the distancing of the spirit from the Kingdom of Heavens; it means that one has to start all over again what he/she started in evil; to return again to the world of flesh; bringing a debt to be paid; one can deduct from this that the human body is entirely surrounded by umbilical cords; in such quantity as pores and sensations has and feels your flesh and spirit; the flesh and the spirit are solar fire or temperature transformed in one sole sensation; your body has an electricity that feels; it is a life which vibrates in a waving or Omega form; it is a geometry which started from the line and ends in a circle; I am the Alpha and Omega said my divine Solar Son Christ; he meant: I am the lineal beginning and the circular end; for every circle is first a line in the remote suns; every geometry is born along with the planet; matter encloses in itself the spiritual seeds; and the spirit the material seed; all of you have got a microscopic nucleus; just as your planet which has its axle; there is an equilibrium between matter and spirit; the birth of this equilibrium has not been seen by any creature; one has to go back and be born again; the birth of the Earth and all the planets of the universe is done and controlled by the silvery vessels; which you call flying saucers; just as you have seen them, they are also seen and observed by creatures of infinite worlds; of all the evolutions that you can imagine; they receive therefore infinite names; their letting themselves be seen has also got infinite purposes; for each world has Holy Scriptures, nobody is disinherited; you terrestrial children were taught to cultivate faith; faith moves mountains; he who believes in the silvery vessels is a child who has faith; for he believes without seeing; and do not forget that you are trialed in your philosophies by the divine Father; every spirit is trialed in all its thinking; every thinking has got 318 virtues or living covenants; and among them is faith; one comes to the planetary life because one has faith in one’s own progress; without faith, you would not know the Earth; nor any world; you would not be born again; the flying saucers are a product of the faith of their solar creatures; for from their own spiritual progress, the power to create them was born; one becomes great in the Kingdom of Heavens because one has faith; faith and humility are the keys of the Kingdom; whose divine symbol is the humble Lamb of God; that is why all the philosophies of the Earth disappear; for they do not teach humility; they constitute themselves in the trees that the divine Father did not plant; and they shall be pulled out from their roots from the human evolution; the trees are the living philosophies; the customs and expressions that were cultivated in life; all the human beings should ask themselves: my customs and expressions, did they take as a model the morality of the
divine Commandments, as it was mandated? If the answer is yes, you can enter the Kingdom of Heavens; the contrary is that you will not enter; this question shall cause a weeping and gnashing of teeth in almost the entire humanity; many because they ate flesh throughout their lives; was it not taught thou shalt not kill? The flesh that you have eaten is the flesh of my children; to the divine Father there are no animals; everyone is my children; I despise no one; all the children that you call animals, and which you have eaten, are waiting for you in the Kingdom of Heavens; their spirits claim for justice; and since they were humble and despised on Earth, they are great in the Kingdom; the divine Father listens to them first; that is being first; the divine Father puts at their disposition, the entire universe; for nothing has a limit in their divine preferences; the flying saucers know that a divine judgment is awaiting you; and it is not the first time they know; they know the planetary histories of infinite worlds; for they have been observing them way before the present suns were born; it is no news for them; many terrestrial think that they come to visit them as if they were the only planet in space; such a profound error proper of imperfection; no one is unique but the Father Who has created everything; the silvery vessels shall land on the Earth in the year 2001; an unforgettable date for humanity; the year of the resurrection of every flesh; a divine process that shall amaze the materialistic world; what they never believed, they will be requesting with tears in their eyes; that is why through the centuries, my Scriptures have taught to cultivate faith; so to avoid the greatest shame in your existence; many have casted the first stone of negation in public; so shall they cry out their repentance in public, too; for that is how they requested it in the Kingdom of Heavens; and so was it conceded to them; such were their requests of trial; every spirit is trialed in life for that is how it requested it; when she/he chose the kind of life; for one is born again through all eternity; each birth is a request; and every request is a birth; no one is born alone; no one mandates him/herself; you are from spirit and matter; and you shall be so until you advance to new living philosophies; one is born again and experiences a new individuality; a new dawn for the spirit; a new request in order to gain more experience within the eternal life; the existences are like courses initiated by your spirits; within eternity; each life has quality and quantity of acts; for the worlds are not alike; they are as different as different are the individualities in the creatures; what is gigantic is the same as what is small; worlds and creatures are relative and living within their own laws; the flying saucers also have solar individuality; just as you have them; what is up
above is the same as down below; whether one has so much greatness and power, one is always very little; only the Father is infinite; since there are living causes, the eternal search is the divine origin of the Father; it is the eternal search of the universe; the divine Father does not let Himself be seen, for He prefers to live in the invisible; He has a divine free will just as you have it; everything that you have got, the Father has it in an infinite degree; infinity confuses the microscopic beings; for their imperfect sciences cannot penetrate it; that is what happens to the human gender; which think they know it all, and they know nothing; they neither know their past nor their origin; they just know that they have to die; the human knowledge is also mortal as its creators; it shall disappear from the evolution to give way to another knowledge; it is relative with a Final Judgment; the explanation of its cause is in the living Word of God; for only God Who is its creator, knows the beginning and the end of things; and He makes everything known by Doctrines; which come out of His living Word; for living creatures; the Doctrines that the Creator gave the world, were not given in order to create the so-called religions; for the Word of God does not divide the flock; only satan divides himself; religions have to render account for dividing the faith of a world; no right assists them; my divine Commandments teach that everyone must be equal; they unify them; they teach that the humble are first; that only them should have govern the world; and if it did not happen that way, it is because my divine teachings were not practiced; the culprits must pay for it; and they have a very little time left; the flying saucers are vehicles which have a lot to do with the divine justice; for they had to do with the creation of the Earth; they guided the Earth when it was a baby-planet; when it was a sparklet which came out of the sun Alpha; these vessels are the same ones which intervened in the judgment of Sodom and Gomorrah; the corrupted cities of the old world; all the same and once more they shall be present in the year 2001; the year of the resurrection of the flesh; their appearance in the world shall cause terror and wonder; before their presence, the human little monkey who thought of himself as knowing everything, shall be full of shame; and more shameful shall be those who negated the existence of these vessels; knowing that there is everything in the Father’s flock; the Father’s flock is the universe; the infinity; what is known and unknown; where these vessels come from; the children who crew these vessels, read every mind; and so it is that they shall know who negated them on Earth; they are accustomed to being treated in infinite forms; besides, they also went through skepticism; when they were very little; when they were little
monkeys of flesh; just as you terrestrial children are; what is up above is the same as down below; the terrestrial science is a science which is being trialed; for every spirit is trialed; for that is how the spirits requested it; and that is how it was conceded to them; the terrestrial science is also judged by the Science of the Lamb of God; it only lasts while its time lasts; for every time has also got its time; it has its beginning and its end; the terrestrial science shall be known as the Alpha science; the Omega Science follows it; for it is the beginning of the human life; everything has a beginning; only the Father has no beginning; and He is the creator of every beginning; every time is living; it requests trials in its own laws; just as the human spirit requests them; and every time returns to the Father; it returns to the place where the divine covenant was made; every beginning has got covenants between matter and spirit; no one gives himself orders; that is why there are final judgments on infinite planets; for that is how their creatures requested them in the Kingdom of Heavens; what is not in one world, it is so in the other; and so on up to where the mind can imagine; nothing has a limit in the Father.

ALPHA AND OMEGA.
Chapter 9

DIVINE ORIGIN OF THE TERRESTRIAL GEOMETRY

ALPHA AND OMEGA
DIVINE ORIGIN OF THE TERRESTRIAL
GEOMETRY; HOW THE EARTH WAS PROJECTED
IN THE KINGDOM OF HEAVENS; ONE HAS TO BE
VERY LITTLE AND HUMBLE TO BECOME GREAT
IN THE KINGDOM OF HEAVENS. - Nº 58.-

Yes little son; I shall explain to you what no mortal knows; the origin of his own planetary dwelling; everything took place in the suns Alpha and Omega; and what took place, had been happening, and still takes place; and it is taking place in infinite solar luminaries; and it shall happen through all eternity; my Thinking Expansive Universe comes out of fire; you are fire turned into matter; the fire as your microscopic ideas, has got evolitional attribute and quality; being yourselves a product of the solar fire, so are your ideas; and your galactic seed multiplies worlds which came out of fire; for every inheritance is multiplied like the molehills of a desert; in the attribute and quality is your world of flesh; a world which being infinite, is unknown to the rest of the universe; the Earth which you inhabit was a microscopic sparklet in very remote times; from this sparklet remains the central fire which the Earth has; this sparklet was born from the loving conversation between the suns Alpha and Omega; for there is love up above and down below; up above in the macrocosm and down below in the microcosm; the suns up above and the planets dust down below; what is up above was also what is down below; the solar luminaries were also very little and humble; to become great in power, in the Kingdom of Heavens; matter and spirit had the same beginning; and this beginning is eternal; it does not stop from being produced; not even an instant within all the living times of the universe; attribute and quality are infinite; that is why there is a variety of worlds and creatures, who have no end; the own Earth has got twins; whose number is like the number of molehills contained in a dessert; and this resemblance is for all eternity; the attribute goes on; the quality transforms itself; behold a Revelation which shall fill the human knowledge with wonder; the primitive sparklet which the Earth is from, continued growing; going through all the imaginable geometrical forms; the past of the Earth, was not known by men; there were creatures of fire; they were gigantic; they existed before Adam and Eve; one of the first couples that the human gender had; many discuss about this; they should not forget that every spirit is trialed
in all its existence; the explanation of Adam and Eve is not complete; for you are precisely trialed, starting from your own origin; this is not a whim of the Trinity; you requested it that way; and so was it conceded to you; you requested an oblivion of your past in your being born again; even the own Doctrine of the Lamb of God was requested by you; and it was conceded to you; everything is requested in the Kingdom of Heavens; even what is incomprehensible to you; every sensation which was unknown to your spirit was requested by you; all your thinking, and the way of being of your individuality; each gesture that you have made in your life, is also written in the Kingdom; yes little son; I know you are sad; your brother Fernando continues with insolent answers; his humility is being absorbed by what is mundane; it was always that way; he has more care for his human aunt than for the Father’s emissaries; he forgets that what is of the Father is above everything; due to his blindness, I shall take him out of the mission; and he missed once more entering the Kingdom of Heavens; he requested in the Kingdom that his spiritual error be published; and the divine Father concedes such desire to him; one should never request missions which are superior to one’s own capacity; it is what happened to this child of the world.

Yes little son; this drawing explains the origin of the Earth; but, it does not explain everything; for the time gone by in the past of the Earth, escapes the human calculation; there have been so many centuries as molecules the planet has; this is because time is expansive starting from the most microscopic; the Earth was born from the invisible to the visible; from the celestial time to the material time; and its appearance into the visible, was less than the head of a pin; and it has gone through infinite sizes; and its forms on its surface all the same; the present ball which is the Earth,
is a product of what is microscopic; even matter fulfills the law contained in my parables; one has to be very little and humble to become great in the Kingdom of Heavens; he who is not born humble, does not reach the Father; the Earth has consumed three quarters of the totality of its existence; and this corresponds to the life of trials requested by all the thinking spirits; all the generations of all the epochs, requested this form of life; no form of life is unique before the Father; for the forms of life in the creation of the Father have no limit; they are like the molehills contained in a desert; the terrestrial sparklet which came out of the suns Alpha and Omega, traversed infinite heavens; it was guided by the silvery vessels; and among with it there were infinite others; for every beginning of creation in the Father, does not refer to just one world; it refers to infinite worlds; worlds that are still coming out of infinite solar couples; the sparklet still keeps fire; and its creatures electricity in their bodies; everything is electrical in the living universe of the Father; and every fire has got attribute and quality; and it manifests itself in a constant transformation; this constant transformation has a time; afterwards comes the eternal flesh; or resurrection of every flesh; the resurrection of every flesh is the normal life of the spirits; for death is unknown in the Kingdom of Heavens; everything is eternal there; the living merit reigns there; for their creatures have lived more; and know more; and their power is greater; power in the Kingdom of Heavens is creative, and not destructive as it occurs on Earth; no destructive spirit enters the Kingdom; every destructive being divides himself; his own virtues abandon him, when the divine instant of the divine justice arrives; just as they have abandoned satan; it was written: Only satan divides himself; this parable is for the rock of human selfishness; for the so-called Catholic Church; for by trading my divine Word, they have divided the faith of humanity; being there only one God; the real church is not of this world; and the so-called religions are unknown in the Kingdom of Heavens; from the same instant in which my mandate is violated and in the most microscopic way, such entity comes to be a tree which was not planted by the Father; and every philosophical tree which does not fulfill my divine morality, shall be pulled out from its roots in the human evolution; anticipating the future fall of the so-called church, the First-born Son called it rock; because of its spiritual hardness; every rock turns into dust; every selfishness perishes; it is trialed; the Earth will enter an unknown spiritual epoch; just as it should have been from the beginning; this epoch is the Millennium of Peace; and its work is thank to the humble of the world; for it was written that they are the first; capitalism shall never give
peace to the world; for the ambitious satan divides; Just a Common Unity and with a New Morality, shall give Peace to the World; this peace shall be led by the Lamb of God; as it was written many centuries before; the morality of the so-called religious, is an immorality in the Kingdom of Heavens; and none of them shall enter the Kingdom; for it is more likely for a humble or ignorant to enter, than an illustrated religious being; the more illustration a creature has, the heavier is the stone that he casts in his philosophy; and there is no greater stone than the one that is said to represent the Father; the vatican sect shall have to respond for the millions of wretched people who have believed her word; whose greater merit is the material adoration; verily I say unto you that no one who has adored me without the merit of work as it was mandated, enters the Kingdom of Heavens; the material adoration has a microscopic score in your addition; humility and joy have got the greatest score; followed by work; and he who stopped practicing it one second or less than a second, does not enter the Kingdom of Heavens; it was written: Thou shalt earn thy bread on the sweat of thy face; and this mandate is the greatest; its divine hierarchy goes back to eternities before the present universes were born; it is infinitely way before the Earth was born; it is before your trials of life existed; before I gave you the Commandments; that is why every religion passes; and the work remains; and it could not be otherwise; the Creator of the Universe is the First Worker; for He has created everything; including work; if it costs you, likewise to the Creator; what is up above is the same as down below; if it did not cost your Creator, it would have no merit; what happens is that I am infinite and you are limited; to enter the Kingdom of Heavens, it is only demanded from you what you promised to fulfill in life yourselves; everything is a living promise; and there is no promise which does not have some merit; which does not have some result; in the Kingdom only work is recognized; for everyone imitates the Creator; religions are unknown; the religious spirits requested the religious trial; and it was conceded to them; they requested to be trialed in such philosophy; for every spirit is trialed in life; they were trialed as humanity was trialed; they have nothing of being special; on the contrary, the religious beings are the first ones in being judged; for that is how they requested it in the Kingdom of Heavens; and so shall it be; such request rested in the spiritual thinking that what is of the Father is first; He is above everything; and those who speak in the worlds on behalf of His divine Name, have got the right to be the first; the first in being judged; it is a universal law; but, I tell you religious spirits, that it would have been better for you not to have
requested such trial; if you have violated my divine law; for you shall not enter the Kingdom of Heavens; no one who divides my flock enters; just like satan who divided multitudes of angels in the Kingdom; this Revelation shall shudder your selfish rock; for he who does it pays for it; that is how it is written in the solar books; and in all the Scriptures of the Universe; up above as well as down below; your christian world shall be shuddered; those who have followed you shall have a weeping and gnashing of teeth; curse shall be upon you; from up above as well as from down below; for the spirits of the celestial world, are waiting for the Earth to be freed; they await as the humble at heart do; reality is seen in the celestial world; a reality which you are far from suspecting; for you are blind of the laws of the spirits; you are mundane in your beliefs; because of you demons of the exploitation of the faith, this humanity does not enter the Kingdom of Heavens; for their seconds of life have gone by in violation; just one microscopic instant of violation is enough to not to enter the Kingdom; this is because all the human spirits requested to fulfill the most sublime morality in their existences; and it was conceded to them; therefore, your Creator, collects what corresponds to Him; there is nothing extra; on the contrary, I give hope to the repentant; the door of repentance is open to everyone; the Creator of the flock, saves the flock; yes little son; I know that you see in your mind and in cosmic colors the weeping and gnashing of teeth of humanity; you see what no one else can see; every First-born sees first; for he is precisely first; you are First-born in Universal Telepathy; for from any point of the universe, your divine Father tells you the marvels of creation; I know you see the worlds in every instant of your existence; every power starts from the microscopic; from the invisible; until it becomes visible; this is to mandate over the elements of nature; So it is divine Father Jehovah; by your infinite grace, I see that everything is living; everything is fire of colors; and everything expresses itself; Yes little son; for the Father Jehovah is the Eternal Fire; the One Who holds the magnetism of the worlds; everything comes out of fire and everything returns to fire; everything comes out of the Father and everything returns to the Father; there is nothing that does not come out of Him; the own geometry with which the Earth was created, came out of Him; what is beyond the Father, is an attribute of the Father’s free will; for being Him infinite, the Father is before the Father and after the Father; the Father chooses every past; for every instant, being it past or not, He turns it into present; He creates worlds from the own nothingness; and their creatures do not even notice it; it is as if they were living from eternities before; and they have their planetary
history; they are the instantaneous creations of the Father; one of His infinite forms of creating; for nothing has a limit in the Father; the Earth’s geometry came out of the living Word of the Father; His divine Words were: Let there be light and light was done; it means that with this mandate, an entire process started; a process which still continues; and shall continue through all eternity; this process is the Thinking Expansive Universe; a universe which comes out of yourselves; for no one is disinherited; everyone has the creative power of the Father; even in a microscopic way; no one is born with knowledge; everything is achieved with struggle; starting from the most primitive; for everyone wants to know everything; in the Kingdom of Heavens, everyone requests experiences out of the Kingdom; experiences which they do not know; if they were known, they would stop from being called experiences; everyone knows in the Kingdom, that the Father is pleased with knowledge; from His divine knowledge came out everything that exists; and everyone plans the best for themselves; everyone wants the best being born again, on remote planets; everyone wants to return triumphantly to the Kingdom; for everyone has seen the Father; and he who sees the Father gets transformed for all eternity; and you human spirits, requested to pass through the experience of little monkeys of flesh; and it was conceded to you; you have made other requests; for one is born microscopic, very little and humble, to become great in the Kingdom of Heavens; you were microbes of the own dust; and you went through infinite existences in the worlds of dust; he who denies this law, denies his own experience of the past; and what he has denied shall be taken away from him; for the knowledge that has been learnt, has free will; for the inheritance is the same for everyone; every denial is weighed and judged in the Kingdom; and all of them praise the Father; for every negation is a trial for knowledge; for every spirit is trialed; everyone requests it; matter and spirit; no one is disinherited; the Earth shall know its own origin; and this origin shall remain until its own consummation; no wise man or researcher has been able to find the law; for no one searched in my Word; he who searches shall find; knowing that first is the knowledge of the Father; Were you not taught like the rest of humanity that the Father’s science is above everything? You certainly know it? But you do not make the effort of searching for Me; I verily say unto you wise men of the world, that none of you shall enter the Kingdom; you requested the investigation of many worlds, and it was conceded to you; what you did not ask was the ungratefulness towards the Father; you shall be given what you deserve; for every effort for others is awarded; but, you shall not enter the
Kingdom of Heavens; for it is more likely for a humble ignorant to enter than a wise man of a world; who having education and preparation, was ungrateful with his Creator; so it is and so shall it be until the end of this world; such justice was requested by you in the Kingdom; and it was conceded to you; this law of justice is for every educated being of the Earth; for no one enters the Kingdom of the Blessed; your Earth shall undergo a weeping and gnashing of teeth; in which the easy-attitude and voluntary ignoramus shall suffer the most; the mundane who never overcame themselves; the demons of the scandalous fashions; those who showed their naked bodies to the world; those who practiced gambling; avoiding work as they were taught; those who persecute my children, for they do not like the color of their skin; likewise these demons of discrimination, shall be persecuted in remote worlds; the little pores of every skin; being microscopic, are big in size in the Kingdom of Heavens; and they accuse before the Creator of life those who persecuted them on a remote planet called Earth; in the Kingdom of Heavens, everything is transformed; what is microscopic becomes giant; and what is giant becomes microscopic; all those who exalted themselves in the worlds, belittle themselves in heavens; that is why every Scripture teaches above everything, to be humble; with a cultivated humility, every spirit is respected in the Kingdom; yes little son; I know by your mood what you are going through; I know that the cause is due to the form in which the newspaper Ultimas Noticias, published the divine Revelation; they are materialistic spirits who requested publishing the truth with humility and respect; they did the opposite; for in that content there is doubt, mockery and falseness; one should never put quotations marks in what refers to the Father; quotation marks are proper to materialism; and all those who use these quotation marks of skepticism, do not enter the Kingdom of Heavens; the Father teaches in His Scriptures, to cultivate faith; not skepticism; I know little son, that in your divine free will, you never liked to take my Word to the hideout of the right; by the right is the anti-Christ; the own form and style with which they made the publication, demonstrates that they are so; they are creatures who are just interested in a comfortable present; they cling to gold; for they find comfort in gold; they know nothing about philosophy; they have never searched for Me; they requested a spiritual trial, superior to their own knowledge; and they fell; they would be saved if they had had a little bit of humility and respect for the Eternal's things; their names shall be known in all the languages; for that is how they requested it in the Kingdom; they themselves
requested such justice in case they fell; may the world judge them; according to the divine mandate; Did these skeptical beings not know then that my divine mandate says: Thou shalt worship thy Lord above everything? If the divine mandate says so, why did they not publish my Revelation immediately? Is the Creator of their lives not above everything? Why did the Creator of the universe have to wait? I verily say unto you blind spirits, that you shall wait eternities likewise, requesting to enter the Kingdom of Heavens; arrogance came out of you; not of the Father; and so shall it be for all those who having seen with their own eyes, the birth of the Revelation did not say anything; they gave nobody the News of the Lord; knowing that my divine Word says: he who has a mouth speak; he who has eyes see; he who has ears hear; which means that of all the knowledge that man gets to know, the knowledge of the Father is first; were you not taught above everything? The most minimal suspension is weighed in the Kingdom; and every suspension regarding to what is of the Father, has got an infinite importance for every spirit; for the Father is first up above as well as down below; you spirits who requested to be journalists, and did not know how to be one, shall have to add up all the seconds gone by from the same instant in which you put an ad of the Father in your newspaper; until repentance comes out of you; you dedicate the best pages and in beautiful colors for the things of the world; for commerce; and why did you not do the same for what is of the Father? Or you are creatures with no God? If it is so, darkness is of you; you forget that the truth comes by surprise; as the surprise produced by a night burglar; you forget that the Father uses the humble; for every humble has no major interests; one cannot serve two masters; either one serves the Father disinterestedly or one serves the world; your publication shall shudder those who serve the world; for it has happened infinite times; every spirit is trialed; they requested the trials; what they did not request was to relegate the Father to a second place; yes little son; I know you are seeing the weeping and gnashing of teeth of these creatures; and you see the entire humanity; they were blind up to the last instant; before the Revelation; they lived materialized and deluded up to the last instant; there cannot be greater arrogance; you yourselves contribute for the surprise to be bitter; it is your spiritual hardness which will provoke weeping on you; it is your rock of human selfishness; it was taught that one should be humble, and you have done the opposite; every humble shall not feel any kind of fear; and every selfish and proud being, shall tremble; I verily say unto you generation of skeptical beings, that if you had followed the morality taught by my
Commandments, this world would not have the need of a Final Judgment; the judgment was created by you; the Doctrine of the Lamb of God, shall teach you all the knowledge of the universe; for no one is born knowing; everything is learned; even the geniuses learn; and every genius is a product of the learning done in other worlds; for the law that says: Thou shalt earn thy bread on the sweat of thy face, is fulfilled in all the worlds; I know little son that your brother Salazar offers you with interest; he who wants to give, should give with no interest; he has done with you something which should have never been done; one should never offer something in the presence of others; if in that something one is charging the charity being made; I know little son as you know it, that a self-interested helper cannot continue in the mission; and so shall it be; the Earth little son shall receive with surprise and astonishment, the Doctrine of the Lamb of God; a surprise and astonishment that the own humanity requested in the Kingdom of Heavens; all the skeptical beings will receive it with criticism; which was expected from them; but, every critic shall be ashamed; for before becoming a critic, one should first know his own origin; and if one does not know, one should be humble; man does not know the future; and his own ideas can ridicule him in a given instant; before becoming a critic, one should be one’s own critic first; woe betide those critics who dared to cast the first stone of their criticism, without knowing by heart the content of my Scriptures; for no mundane critic shall enter the Kingdom of God; the only critic in the Kingdom of Heavens, is that who defends my humble; and there is no other one; for every living humility, defends him/her who defended it; because of the mundane criticism which does not defend what is of God, millions and millions of beings shall not enter the Kingdom of Heavens; the term to cast the first stone was a warning to every critic of humanity; to criticize is a spiritual responsibility; every criticism is exposed to becoming a slander; many times you criticize one who does not deserve it; only the Father knows who should be criticized in this humanity; and for your knowledge, those who are going to be criticized shall be the big ones of this world; for no one should have exalted oneself; no one should have been more than another; for everyone is equal before God; my laws are common to everyone; and everyone should be like my laws; the so-called terrestrial communism is the philosophy which is closer to the morality of my Commandments; for it has work as a basis; and not exploitation; every philosophy contains an intention; and among all the philosophies your Creator chooses the one whose intention gets closer to my divine Commandments; the morality of the so-called capitalism is
very far from it; the term exploitation should not be known in this world; and because of capitalism it is known; and there is no major scandal among the philosophies; the terrestrial communism shall recognize the Eternal Father; the Universal Trinity; for every Doctrine that comes from the Father, transforms every mind; transforms the worlds; just as it transformed in the past; in the Mosaic era, Christian era, and now in the era of the Lamb of God; the Truth comes out of a humble; just as it was in the past; for the humble are first; the Science of the Lamb of God is not of this world; it does not belong to your universities; just as the content of my Scriptures; let the critics of this world take it into account; who know nothing of the laws of the macrocosm; who know nothing of the Kingdom of Heavens; they have to learn everything; how things were done; how the Earth was created; and how they were created; the mundane criticism is scarce in humility; and for the same reason no critic enters the Kingdom; if you do not know how to interpret the celestial drawings, study the content; that one knows the tree by its fruit; it means: the content of a Doctrine; the intellectuality it encloses; and its relationship to the Scriptures; among all the intellectual fruits, what is of the Scriptures is the supreme one; for it is the fruit which came out of the Father; and it judges all the rest; this means that when the Creator intends to expand a new Doctrine, there is no human force that can stop it; for all the elements of nature get ready for it; including the human thinking; for matter and spirit belong to the everything above everything; they are supportive; just as it was mandated to the human creatures; to live like brothers represents the same covenants of the elements; my entire living universe is a living unity; even if your eyes see capitalism; every movement in nature was requested by the cherubs of all the elements; for the living matter has a free will just as you have it; Were you not taught that no one is disinherited? That no one represents the infinite in the Father; Who is almighty; were you not taught that He is infinite? The christian world talks about the Father, just as they were taught; but, they do not think about it; they do not deepen into Me; they do not search for Me; they are false christians; they are christians by mouth; no false prophet of my Word shall enter the Kingdom of Heavens; the illusion created by materialism creates in the minds a false concept of eternity; capitalism is the originator for humanity not to enter the Kingdom; for the attribute and quality in all the ideas of the existence, fell into falseness; into the ephemeral; which draws them closer to their own darkness; for they executed them by free will; therefore, this humanity does not enter the Kingdom, because of their life system; a philosophy requested by the own
spirits; they requested to be trialed in them; they promised
to defeat the demon; but, they fell; the own immoralities
that you witness in the world, tell you; your Creator does
not award the immoral worlds; but, from immorality He
takes out a new morality; from darkness He takes out light;
this means that the Creator does not need to destroy His
work; being capable of doing it; transforming the worlds is
a divine right which belongs to your Creator’s free will; the
ways of doing it are infinite; for nothing has a limit in the
Father; you are going to witness the transformation of your
world; a transformation which has never been seen; and
such transformation shall come out of yourselves; for all of
you have got a soul; even the most skeptical; nobody
wants condemnation; even the proudest shall feel that their
rock of selfishness, burst in pieces; the living Word of the
Father transforms everything; just as His purifying fire
judges the demons of the macrocosm; where the creatures
have such power that it would fill the human creature with
dread.-

ALPHA AND OMEGA.-
Chapter 10

DIVINE ORIGIN OF TIME

ALPHA AND OMEGA
DIVINE ORIGIN OF TIME; A DIVINE COVENANT
WITH THE HUMAN SPIRIT; CELESTIAL TIME;
TERRESTRIAL TIME; SPIRITUAL TIME;
GALACTIC TIME; TIME OF THE LIGHT; TIME OF
DARKNESS.- Nº 59.-

Yes little son; I shall explain the living time to you; all the
times of the worlds come out of the celestial time; every
time is a living mandate; it is a covenant between the
divine cherubs of time and the spirits; which lives in its
own time; every time has its beginning and its end;
according to the time given to time; every time is relative to
its own evolution; it is born along with nature; every
thinking of nature has got its time within the own time;
there is an exterior time or present time and interior time or
spiritual time; each time has its own free will; and they are
unilateral and harmonious; the universal equilibrium is in
them; the free will of the universe has in itself the
equilibrium of every planetary life; it is an independence of
the own expansion of the universe; the covenants succeed
each other through all eternity; matter and spirit express
themselves in infinite forms; they are equal and unequal;
each form of life creates its own eternity; it is enough for
their creatures to think, and they are creating their own
future; each one is as expansive as the own universe; what
is up above is the same as down below; given that all my
creatures think; the beginning of eternity is the same; up
above as well as down below; each one makes his own
heaven; each one creates his own physical body;
everything depends on the knowledge accumulated in life;
every knowledge attained by the creature is known in the
Kingdom of Heavens as the Salt of Life; and every salt of
life includes the future time of the future world in which the
creature is going to live; everything follows an unalterable
order; whichever the acts of the creature may be; the order
is created by the same creature; the intention which is
present in all his acts, is the one that governs his justice;
the Eternal Father is in every intention; for He is
everywhere; in the visible and in the invisible; and being in
the visible, He does not let Himself be seen; for He has a
divine free will; just as His children have; what is up above
is the same as down below; up above the heaven and
down below the world; what is up above contains what
down below has; but, up above and down below are
relative; for their creatures are born again; and by being
born again, they bring new concepts of the universe; each being born again is the spirit’s reincarnation; it is a covenant of its own virtues; to reincarnate and being born again is the same thing; a law can be expressed in infinite forms or different forms; and it is the same law; nobody should not negate anything; for everything exists in the Father; denying what is the Father’s attribute is denying one’s own Creator; everyone was born to imitate the Father; not for denying Him; what is not explained in one world, is explained in another; what one does not know in a planetary dwelling yet, it is known in another; for every spirit is born again; he/she passes from world to world acquiring new knowledge; he/she tries infinite salts of life; for knowledge is infinite; every knowledge draws the creature closer to his Creator; for I am in every knowledge; in the known and unknown ones; Were you not taught that your living God is everywhere? The fact that you do not see Me does not mean that I am not with you; this physical absence of your Creator, was requested by your own selves; and it was conceded to you; what for you seems an eternity, for the Father is just an instant; you are microscopic among the colossal worlds of creation; that is why it was written that from dust you are and to dust you shall return; for as you are born, you are passing from one microscopic world to another microscopic world; for first one has to be very little and humble to become great in the Kingdom of Heavens; this is to be born in the worlds of the macrocosm.

Yes little son; this celestial drawing as well as the others, were requested by you in the Kingdom of Heavens; for each desire and each act are written in the solar books; each human spirit requested it that way; and so was it conceded to them; the celestial drawings are divine Scriptures; for every drawing in the Kingdom of Heavens is living understanding and knowledge; the celestial drawings talk to the solar parents; for everything exists in the
Kingdom; just as you talk to everything that surrounds you; time also talks in the Kingdom; its form contains all the noise silenced; it is a philosophy of wait; for every time has got its end; the end of each time is relative; for each individuality requested a time for his/her own existence; therefore, each spirit renders account on how they used the spiritual time; time is born along with the spirit; both are covenants in their respective philosophies; the material time is also a living philosophy; it is born for every material act to be executed; each of the 318 virtues of the human thinking, requested covenants with the material and spiritual time; they are two free wills within the spirit's free will; time attends each spirit separately in the Kingdom of Heavens; and each virtue does it likewise; the free will is the most sacred thing that the spirit has; every human philosophy that does not recognize or violates the destiny of every free will, shall not remain in the human evolution; such is the philosophy of capitalism; based on a material power, which is unknown in the Kingdom of Heavens; in the Kingdom there is not even the most microscopic power of ambition; no darkness of any planet is known; every philosophy has got its time; and just as the idea, it has attribute and quality in its free will; all the times come out of the Kingdom; for everything is created there; times have also got innocence; just as the spirit has it; for matter and spirit are the same before God; they have the same rights; nobody is less before the Father; it is an equality which is within the own and respective laws; the living creation of the Father has an infinite variety; and one sole justice; one is born in such quantity, as the own mind can imagine; and justice is the same; whichever the acts done in each existence may be; in each existence one can enjoy one time; which is not the same; for the salt of life is not the same; in each existence one learns something different; and that something as microscopic it may be, is sufficient to make the future time that the creature will enjoy, vary; therefore, your acts are the ones that create your own time; and not only time, but your entire future destiny; that is why it was written: Each one makes his own heaven; for even the microscopic molecules which you shall find in the future world, are a result of your acts of the past existence; if your acts and thoughts were clean, your destiny shall be a paradise-world; and if your acts and thoughts were dirty, be sure that your future dwelling shall be a hell-world; this explanation corresponds to the parable that says: An eye for an eye and a tooth for a tooth; for in each act microscopic thinking beings come into play; and they are so microscopic that for them the body of flesh is like a colossal Galaxy, and your spirit, an infinite sun; and they also have their times; just as the human creature has them;
for them what is up above is the same as down below; for them the material time represents a time of the macrocosm; just as the infinite presents itself to the eyes of the human spirit; this Revelation is the supreme one; for it explains the Alpha and Omega of Father Jehovah’s living creation; the only one that exists and shall exist; and which contains all the universes that the mind can imagine; everything that one thinks about is transformed into material universes; nothing is wasted in energy in the Father’s creation; being His universe the supreme law of every economy; and as such, the economy of the times also exists; whose law shall provoke a weeping and gnashing of teeth in the humanity; for just one second of time or less in laziness is enough, and one does not enter the Kingdom of Heavens; every time has got morality; and therefore it demands justice; its union to the spirit makes it claim for justice in the Kingdom of Heavens; the human spirit would be nothing without the living time; it would be nothing without the virtues which got united to him/her; that is why every Scripture through the centuries, teaches to be humble above everything; this corresponds to: Thou shalt worship thy Lord and Creator above everything; for the Father is the creator of every humility; every virtue has got its time; and they are 318 virtues that you have in your spirit; with them you act daily in life; in the Final Judgment which was promised to you, it was also promised to your virtues; for everyone has got the same rights; nobody is less before the Eternal; the times, when they find it convenient in their free wills, accompany the spirits through many existences; they are also born again; they also go through infinite planetary dwellings; they also want to get closer and closer to the Creator; they search for knowledge; they search for the salt of life; in their respective philosophies; the times are magnetic forces in their physical incarnation; and virtues in their spiritual eternity; their beginnings were the same as what the human spirits had; they were born in a state of solar innocence; this beginning of the times goes back to eternities before your Earth was born; before you, space had infinite planetary dwellings; their number is like the molehills contained in a dessert; and each molehill is a desert at the same time; this terminology is the most accurate for the human understanding; for the human mind is microscopic; and the Father’s infinite; mathematics and every human calculation, disappear before His divine mental power; which sustains the worlds and suns which you see; those which were and shall be; you represent a microscopic part of the Father’s magnetism; that is why it was written: From dust you are and to dust you shall return; which means: From the microscopic you are and to
the microscopic you return; for when being born again, each human spirit returns to a world similar to the Earth; or else to a microscopic paradise; when he/she has fulfilled the morality of my divine Commandments; second by second throughout his/her existence; one second or less of abandonment of the Father’s morality is enough for the spirit not to enter the Kingdom of Heavens; each second or less of violation, includes a microscopic time; along with the 318 living virtues; even if the time of violation is the most microscopic, everyone participates in its justice; even the microscopic pores of your flesh; every very little and humble is great in the Kingdom of Heavens; the Creator of the universe listens to them first; the last one to be heard is the human spirit; for it was taught to be humble; and that is how the divine justice considers it; humility and joy should have been cultivated by all the human creatures; he who stopped being humble or joyful one second or less, does not enter the Kingdom of Heavens; for that is how all the terrestrial humanity requested it; it was conceded to them; he who had anger in life must add up all the seconds in all the anger he had in his existence; the time of every anger, is a time of darkness; each second of anger corresponds to a little point in darkness; and each little point represents a world or heaven which closes on you; for each fault that comes out of you, turns off your own light; and you get closer to worlds of darkness; for each one makes his own heaven; each one creates his own addition; his own destiny in the planetary dwellings of space; humanity promised Father Jehovah to live a philosophy of joy; whichever the circumstances and trials of each one were; for everyone saw the joy in the Kingdom of Heavens; and everyone in the Kingdom compete for the joy of transmitting joy to the rest of the planetary dwellings; nobody is born with anger in his/her state of innocence; everyone is born unconscious of their own feelings; everyone is born in living surprise; when one is born, he/she does not know he/she is being born; one only feels his/her own development; as the spirit gets accustomed to the universe, determination is born in him/her; and he/she shall always wonder about the origin of everything, throughout eternity; for the own spiritual origin is infinity itself; everything is united and related by the solar cord; which constitutes the everything above everything; he who denies it, denies his own self; for in the Kingdom the living virtues read every mind; and he who denies what is theirs, they also deny; they refuse to accompany the spirit that denied them, in a future existence; some to the others, communicate in space, who the one who denies one of the infinite glories of the Father is; every negation as microscopic it may be, is weighed and judged in the
Kingdom of Heavens; there is spiritual negation and human negation; everything exists in the Father; without the Father there would be nothing; just as in your procreation; with no parents there would be no children; what is up above is the same as down below; time has got its time; for nobody is alone; the entire infinity is constituted in an infinite hierarchy; the galactic order exists; one of the wonders of the Father; the Earth that you inhabit is about to enter this order; for no one is disinherited; this Revelation shall change the terrestrial philosophy; or the philosophies; for they were trialed as life itself was; it was written: The Earth shall pass, but my Words shall not pass; I meant that the Earth and its customs shall pass to oblivion; and that a new Doctrine which came out of my living Word shall reign on the Earth; no philosophy of materialism shall remain; for everything has got its time; a time to begin and a time to end; a beginning of a reign and an end of a reign; a beginning Alpha and an end Omega; the fall of a world with its immoralities; and the birth of another with a new morality; it was written that a new world would be born; and for a new world to exist, a new morality is necessary; the same morality contained in my Commandments; humanity chose another morality in their free will; unknown in the Kingdom of Heavens; and everything unknown does not enter the Kingdom; this unknown morality is based on the illusion of what is temporary; in the own money created by the demons of ambition; who do not care for the world’s unity; for only satan divides; capitalism divides in order to reign; nobody was given to have more than another; and much less using force; persuasion and their creators do not enter the Kingdom of Heavens, capitalism is a product of the ambition of a few; the divine Father keeps watching them since many dwellings before; these demons of the material ambition, are the yoke of humanity; they do everything and project them according to their conveniences; they do not take the Creator into account at all; they never search for Me in my Scriptures; which is my free will; they do not study Me as they were mandated; they only live to dominate the others; I verily say unto you humble at heart, that these demons have their days numbered; nobody was born to take advantage of others; nobody was born to violate the law of the Father; all the human trials have a limit; nothing that comes out of you is eternal; only the Father transmits you eternity; for He gives and takes away; the times end when the worlds end; and there is no dwelling that does not have its time; the materialization of every virtue requires time; the entire universe is constituted by covenants; for everyone has a free will; and each one chooses; generally, the elements which are within the
comprehension of the spirit are chosen; this means that the
spirit can succeed in the trials he/she has set out to; many
spirits request what they are not in the condition to fulfill;
just as your spiritual brother Fernando; he requested at an
advanced age to accompany you in your Revelation in the
world you are in; but, he is not as joyful as he promised in
the Kingdom; he does not even strive for being so; he shall
be taken away from your glory; he had his opportunity; due
to his bad temper he missed the opportunity of becoming
a blessed one; and he does not enter the Kingdom of
Heavens; all those who want to accompany you through
the world, must be joyful and humble; as it was taught;
nobody has the right to mar his brother’s happiness; and
there is no greater happiness than joy; proper of the
happiness of the Kingdom of Heavens; all those who did
not cultivate joyfulness, does not enter the Kingdom; that
is why it was written: Let the children come to me, for
theirs is the Kingdom of Heavens; it means in Telepathic
Revelation: For my divine Father is joyful as a child; and it
means that from the own innocence, the divine Father
takes out a living morality; and it could not be otherwise; if
one is first in the Kingdom, so he/she is on the planets; the
glory is enjoyed in any point of the universe; this parable is
very similar to this other: Every humble is first in the
Kingdom of Heaven; a parable which shall make the big
ones of the Earth cry; who due to their own convenience,
they forgot that the humble should have governed the
world; for they are the first; the first in the Father means to
be the first in everything; in what the mind can imagine; up
above as well as down below; in heaven and on earth; men
did the opposite; those who were not destined to it, govern
the world; weeping and gnashing of teeth awaits them; for
they occupy positions which they did not request in
Heaven; the divine Father, Who sees the future, knew that
if He gave the ambitious and selfish spirits the power by
celestial mandate, the Earth would have a pitiful destiny;
everyone would be a slave; therefore, big ones of the
world; deluded in one sole material present, concentrate
on the divine parable which has been on for centuries and
centuries: The humble are and shall always be the first; be
ready to give back what has never belonged to you; the
divine parable has been telling from centuries before; just
as it has been telling other demons; the demons of the
material wealth; the greatest warning for these ambitious
beings is in the parable that says: It is more likely for a
camel to pass through a needle’s eye than for a rich to
enter the Kingdom of Heavens; for no one has ever
entered; since the divine Father created other creatures; no
rich has taken my divine warning into account; they keep
on transmitting disobedience to their children; none of their
children shall enter the Kingdom; that is why every child shall curse father and mother; and the parents their parents; and thus go back to the generations of the past; one sole bad habit taught by the parents, and their children are condemned not to enter the Kingdom of Heavens; this justice which seems to be excessively severe, is not; for you yourselves human spirits, requested it; and it was conceded to you; you told the Father before coming to the life trials: *May every violation that comes out of us, fall on us; and may it fall on our seed; on our children;* this is up to the third generation, beginning from the father; this request is a result of an infinite obedience to the Father; a product of a love which is unknown to you; for the real love is not of your world; if the true love existed in your world, you would neither be divided in rich nor poor; neither would you be divided in the faith; for all of you are from one sole Father; and the truth is one; the so-called religions would not exist; which exploit the faith of my children; I verily say unto you, that the so-called religions are unknown in the Kingdom of Heavens; and so is every philosophy which divides my humble; each spirit is born again, to gain in love and not to be divided; only satan divides himself; the fault for this humanity to be divided in what is spiritual shall fall on every religious spirit; the religious spirits are the own pharisees of the past of the Earth; they requested the divine Father, to mend errors of the past; and they were born again; and fell into the same thing again; they forgot once more that every humble is first; the religious should not forget that every spirit is trialed in life; it is a law for every human creature; no one is privileged before the Creator; on the contrary; the more one knows, the severest the justice of God is; one cannot demand from the ignorant too much; but, everyone is judged all the same; time is in everything known and unknown; its philosophy is as expansive as the own universe; each idea that you generate, carries the germ of the time that you had to live in; the inheritance is transmitted starting from what is the most microscopic you have; for what is microscopic and humble is first; the most microscopic thing that exists on the Earth are your physical ideas; you feel them and do not see them; and by their means you create your future; the mental idea that comes out of your thought is eternal; it comes out of you in an invisible dimension; your eyes of flesh and your instruments shall never be able to see your ideas when they travel to the cosmos; the future planets are born from them; and along with their expansion in growth, their creatures carry in themselves, your philosophy; for every inheritance is transmitted; behold the origin of eternity; everything starts from the most humble; and what is humble shall never cease from growing; from
the microscopic one passes to the macroscopic; to the colossal; to the celestial size; which has no limit in anything; this Revelation was announced in other terms, many centuries ago already; my First-born Solar Son Christ told you: Where I am from you cannot go; that place is the Macrocosm; called Kingdom of Heavens; by telling you that you could not go, he meant that it is necessary to be born again and acquire new proportions; for nobody is born big; everyone is born microscopic and humble; if you human spirits got to the macrocosm, I assure you that no one would remain alive to talk about it; their creatures are so colossal that by just seeing them, your hearts would stop; you would go crazy; your size is so microscopic like the ant that approaches your feet; you see them with indifference; without caring if you killed them or not; that is how it happens with you in the macrocosm; they would see you with indifference; and they would even step on you without noticing it; what is up above is the same as down below; for those giants of the macrocosm, are very little dwarfs in comparison to others; and these to others; and go up to where your mind can imagine; this is because the creation of the Father has no limit in anything; neither in size, weight, form, nor philosophy; and so shall it be through all eternity; Father Jehovah’s Thinking Expansive Universe; and within it are all the rest; all which the minds of His children can conceive; while one is thinking, one is creating; you are expanding the universe with your own philosophy; all of you with no exception belong to the everything above everything; the worlds up above as well as the ones down below; this concept of spiritual position is relative to your evolution; for the geometrical and spiritual positions, have no limit; at each instant the universe expands itself more; being the times like a gas superimposed one in continuation to the other; the times have also got their attribute and quality; which constitute their hierarchies; the human idea has also got it; the microbe too; for no one is disinherited; even the colossal suns have them; time is born microscopic as the birth of the Earth was; and it grows in the same proportion as the Earth grows; every growth in the planet is parallel to the equilibrium of the planet; before a world is born, its geometry is outlined in the Kingdom of Heavens; your Creator knows the worlds, before they are born; every destiny can be annulled if it is estimated that way in the Kingdom; the Eternal Father gives and takes away; and he does so by searching for the improvement of His creatures; each birth must be attended; the labors are of suns and worlds; and their number is comparable in a microscopic form to the number of molehills contained in a desert; there are labors up above and down below; there is
creation in the worlds up above and in the worlds down below; what is up above is the same as down below; each world lives its own living philosophy; and they feel what they requested to feel; this feeling is taken out of their respective salts of life; out of their own knowledge attained in other existences; all the virtues follow the spirit in every being born again; they do it with first-hand knowledge; for they have free will; just as the spirit has it; this law is known in the Kingdom of Heavens as the Ark of Covenants; and its meaning represents the material universe; where one goes to acquire experience; where one is born again; in such a quantity as the mind can imagine; the material universe is like a colossal school; where one never stops from learning; the spirits of the universe are born to populate the school of the universal knowledge; everyone is given an opportunity; no one is denied improvement; for everyone has got the divine right to it; on the Earth, the humble should be the first ones in the knowledge; the worlds were created for them; if on Earth occurs the contrary to the celestial mandate, it is because satan has entered in certain minds; I verily say unto you spirits of comfort, that you always keep the best, that none of you shall enter the Kingdom of Heavens; as long as a humble ignoramus and illiterate person exists; for it is more likely for an ignoramus to enter the Kingdom of Heavens than for an illustrated person; when illustration has been obtained by means of taking the opportunity from others; it is immoral in the Kingdom of Heavens; times also claim for justice for they also know the justice of my Commandments; the entire universe knows it; for the laws which were given to you, have not got any exclusivity for anybody; for my creations have not got any limits; every mandate is so for infinite worlds; every mandate is as expansive as the own universe; the mandates of the Creator have not got any limits; every mandate is a living morality; which is transmitted from father to child; and from world to world; only the divine Father knows the end of His mandates; for He has also got a divine free will just as you have yours; what is of the Father is infinite; and what is of the children is finite; what is up above is the same as down below; your spirit saw the Creator in the Kingdom; for every microscopic being and every humble is first in the Kingdom of Heavens; and there is no greater award among the awards than that one in which one can see the Creator of the universe; just as you see me little son at every instant; it is your award as a First-born Son; in everything there is always one who is first; every knowledge starts in someone; everyone shall become older children some day; if it is not in this world, it will be in another; for all of you are born again; and in each birth knowledge increases;
everything one has learnt in other existences is accumulated; and the more one knows, the sooner you shall become shining like a sun of wisdom; knowledge is like a brilliant salt; it only belongs to the one who struggled for it; to the one who sweated; to the one who cost him his own merit; you shall never get to be something better by means of the material wealth; wealth is not a philosophical tree planted by the Father; and it shall be pulled out from its roots from the human evolution; wealth is unknown in the Kingdom; for everything is eternal there; the terrestrial wealth is ephemeral; it only lasts while the ambitious spirits are being trialed; when they disappear, such philosophy disappears; the terrestrial wealth is the greatest yoke of humanity; and the greatest tragedy; for because of wealth this humanity does not enter the Kingdom of Heavens; every immorality has come out of this philosophy; for their creators have never given any importance to my divine Commandments; and all those who draw apart from my law, only find darkness; the immoral beings of the world are satan’s legions; who in the latter times would walk freely; every immoral demon shall live isolated; for their time has come; in many worlds, these immoral beings gave a scandalous example; every immoral being is that one who dresses like the opposite sex; one microscopic garment of the opposite sex is enough for not entering the Kingdom of Heavens; even the gestures done in public are scandalous; for you were taught to be humble above everything; above all the gestures with the intention of calling one’s attention; Woe betide you long-haired men of the world!! you requested to be men, but dress like a woman; either one is a man or a woman; it would have been better for you not to have requested to be born again; for each hair that you have exhibited, it is a heaven that closes on you; each hair being microscopic is great in the Kingdom; they shall accuse you before the Creator; for because of you demons of scandal, people made fun of them; they requested in divine covenants to accompany a spirit-man in the trials of life; and they end up being effeminate; the same destiny awaits every woman who exhibited any garment of the opposite sex before the world; and what to say of those who showed their nakedness before the world; woe betide you!! for you have to pay up to the last pore of flesh that you exhibited before the world; each little pore of flesh is great in the Kingdom of Heavens; and for each exhibited little pore of flesh, it is a heaven which closes on you; each little pore has a free will independent from the other; just as the spirit has it; and they are trillions and trillions, which complain; for scandalizing with your bodies of flesh you shall not enter the Kingdom of Heavens; like those who preceded you
have not entered; how these scandalous beings curse the parents they had on Earth!! how they curse the immoral customs learnt from those who were their parents; the same thing shall take place on Earth; for there is sentiment up above as well as down below; The law of the Father provokes sentiments in any point of the universe; for wherever the spirit goes, it keeps its individuality; and whichever its form is; with a physical body or without it; and every couple or matrimony, shall be separated; for they made one sole flesh in living violation; this Revelation shall cause weeping and gnashing of teeth in the entire humanity; and all the anger of a world shall be let loose over the materialism which despised my morality contained in my divine Commandments; the fear of losing one’s own soul shall provoke the fall of materialism; a tree that the Creator did not plant shall fall; the tree of money; from which the science of good was born; all those who tried this tree, shall not enter the Kingdom of Heavens; for he/she did not establish the equality taught by my divine Commandments; the science of good is not of the humble; it came out of the ambitious and cunning beings; every humble shall regret it; for many or almost everyone shall delay their entrance to the Kingdom of Heavens; for the science of good deludes and delays the spirit’s advance; that is why it was written: May the left be aware of what the right does; it means: May my humble be aware of the immoralities of the right; for money corrupts; for this money, millions and millions are the spirits that have not entered the Kingdom of Heavens; and millions and millions shall not enter; the science of good deludes; and in this illusion almost all the seconds that an existence has, go by; each second of life or less in the law of the Father, is a heaven which is attained; a world with its heaven; the awards of the Father as well as His universe, have no limit; nothing in His creation has it; this Revelation shall make the entire humanity cry; for so little, the divine Father gives the infinity; for He is the Creator of every infinity; the awards of the Father are of the eternity; the creatures enjoy them for many existences; and many times it is hereditary in the children; something similar takes place with the spiritual punishments; only repentance can abbreviate a punishment; every repentant being finds consolation; every second of life lived in repentance, is taken into account for the spirit; the divine Father anticipating the events of the future, anticipates every repentant being; and sees his/her future determinations; He sees what the own interested being does not see; that is why many times the Father awards those who apparently do not deserve it; what happens is that He anticipates the events; this covers
infinite existences and worlds; in the spirits' being born again.

ALPHA AND OMEGA
Chapter 11

TELEPATHIC MESSAGE FROM THE ETERNAL FATHER

ALPHA AND OMEGA
TELEPATHIC MESSAGE FROM THE ETERNAL
FATHER TO THE TERRESTRIAL WORLD;
SECOND MESSAGE; THE FIRST MESSAGE WAS
HIDDEN FROM THE WORLD BY THE RELIGIOUS
ROCK. - Nº 60.-

Yes children; one is born searching for the truth; it is
initiated for the world of knowledge, the Revelation
awaited for centuries and centuries; your Creator makes
use of Living Doctrines to make the worlds advance; in the
past He sent you the Mosaic Law; then came the Christian
Law; the third one, which is being initiated, is the Doctrine
of the Lamb of God; this Doctrine will also be called
Celestial Science; its origin lies on the same elements of
nature; the Telepathic Writing is the means of
communication which the Creator of the Universe makes
use of; it has always been like that; in the Past the
doctrines of the prophets were received by telepathy;
because everything has an origin and a cause of being; the
Doctrine of the Lamb of God has no ending; because the
universe does not have it; and for the same reason it will
be spread all over the world; it will be translated to all the
languages of the world; its influence will be such that it will
make the exploitative materialism fall; because a new
morality is coming to the world; the morality pertaining to
the Millennium of Peace; The Doctrines of the Eternal
Father always transform the worlds; just as it happened in
the Past of the Earth; The New Revelation was requested
by the present human spirits; and it was granted to you;
every instant lived in your existences, was requested and
was granted to you; the New Revelation is the continuation
of the Holy Scriptures; one thing is being studious of the
Scriptures and another being religious; the first one is
eternal because your spirit always searches for its own
origin; the second one is the commerce of the faith; the
religions are the first ones to be accused before the world;
in the Doctrine of the Lamb of God; the so called religions
in their human morality have divided the world of faith; they
have no right to do such a thing; they have forgotten that
there is only one God; only one truth; ONLY SATAN
DIVIDES AND HE DIVIDES HIMSELF; the religious spirits
are the same Pharisees of the Roman era; they requested
God to be born again to mend errors from the Past; and
the trial was conceded to them; do not forget all religious
people of the world, that every spirit is put on trial in the
destiny that he chose; you spirits of the rock did the same thing in remote worlds; you divided other flocks; you left spiritual confusion in other creatures; you filled many planets with material temples; and you did it again on the Earth; that is why you will be the first ones to be judged; you by violating the law become the same antichrist; and every violator of the Commandments, in fact is so; you say the holy mother church; I say to you that nobody in this world is saint or holy; the real humility does not need titles which are unknown in the Kingdom of Heavens; even your microscopic planet is so; only the Father and certain prophets know the planet-dust called Earth; the cause of it is that the Living Universe of Father Jehovah has no end; and whosoever thinks of being big is not; for you was written the word prostitute; because you trade with my divine Law; BLINDS LEADING OTHER BLINDS; who transmit your errors to other blinds; when the New Doctrine spreads, your rock of spiritual selfishness will be divided; the word rock does not symbolize the eternity of anything; the Earth is relative and not eternal; you think that your church is eternal; the events that will come will get you out of this error; only the humble at heart, have eternity achieved; not those who teach morality within immorality; when my First-Born Son said in the Past of the Earth; UPON THIS ROCK I SHALL BUILD MY CHURCH, he said so by seeing the Future of humanity; for the Solar Trinity is everywhere; it is also in the living times: Past, present, and future; And what did he see? He saw all your violations; he saw how you persecuted innocent creatures; because they did not share your ideas; he saw how you sent them to the stalks; he saw how you persecuted great studious and writers; just because they made you see the error; he saw how you crowned terrestrial kings; knowing your selfish rock that there is only one King of kings; the divine Father; the One Who gives and takes life away; the title of King is of the celestial world; the demon is called spirit-king; the Commandments do not teach to become Kings; they teach to be humble above everything; he saw how you blessed the arms with which the Father’s children kill each other; knowing you demons that the divine Commandment says: Thou shalt not kill; he saw the commerce of faith; and he saw every immorality in your spirits; it would have been better not to have requested to be born again before falling into violation again; your religions are unknown in the Kingdom of Heavens; and every morality that pretends to divide the faith of the Father’s children is unknown; the only temple known in the Kingdom is the temple of work; work is the oldest mandate that exists; before your microscopic planet was born, work was and is practiced in colossal worlds; the temple of work
is never reduced to dust; your material temples do get reduced to dust; and with it the material adoration on this planet disappears; an adoration which should have never been taught; because of this adoration which lies in hypocrisy, you have delayed the world's advance in twenty centuries; in their moral and spiritual plane.

Yes little son; this heavenly drawing shows that every justice comes out in the same way as the beings are reproduced; all the human spirits saw this justice in the Kingdom of Heavens; because seeing their own justice was given to everybody; everything exists in the Kingdom of Heavens; nobody comes blind to this world as far as spirituality is concerned; justice adjusts to your actions; because each one promised to make their own heaven; justice has its law in the Living Commandments; which is the same rod with which you will be measured; each of your ideas has an intention; and every intention becomes physical and living in the Kingdom; the intention is judged when the spirit has committed violation with it; the human body is a product of magnetic laws; yielded from the macrocosm, and called divine laws; Whosoever denies being divine in the microscopic which one represents, denies the Father; Who wants the best for His children; and whosoever denies the Father, denies his own eternity; because in infinite heavens they read their minds; and when those heavenly creatures read in the spirits, they do so by judging; whosoever denies the Father, the Living Heavens also deny them the entrance; whatever you do down below has a repercussion up above; and wherever your spirit goes, the Law is the same; my mandates are the same down below as well as up above; what changes is the philosophy which is lived for an instant; your justice is and shall be spiritual; what is material does not remain in your salt of life; in your knowledge; the unique reality for every spirit is the eternity which it lives; it is not the ephemeral that it felt when it had a physical body; a body of flesh which it requested; and it was conceded to him/her; conceding a physical body is not like conceding
the body is living which momentarily requested such physical geometry too; and it was conceded; the inheritance is the same for everyone; matter and spirit have the same rights; both request; spiritual and material laws are merged; known in the Kingdom of Heavens as the Ark of Covenants; for the materialization of a spirit is not done at random; it is done with responsibility; to say the opposite is to despise oneself; and whosoever despises himself, despises the Father; Who is found in him; were you not taught that your Creator is everywhere? In what is imaginable and unimaginable? Verily you know it by mouth; but, not by your own knowledge; by your own effort; in the sweat of your face; by your own merit; HE WHO SEEKS SHALL FIND; because he is awarded to the degree he used in the greatest search; because you can search for many things in your existences; and if you do not search for the Father Who gave life to you, you shall not enter the Kingdom of Heavens; the ungrateful have never entered; only the humble; those who went through their own trials in life; because they were the trials requested by the humble themselves in the Kingdom; every trial that one goes through in life at each instant, at each second, was requested and was granted; even the way and characteristics of your deaths, you did request; and within your trials you requested to fulfill the highest morality, the only one; because without it you will never enter the Kingdom of Heavens; and you requested that such morality were taught on Earth; and the Divine Commandments were conceded to you; they are the rod; for by them you shall be judged; and so shall it be up to the consummation of this planet; the human spirits could never study me as well; but, not living in the morality of my Commandments is darkness; because you will never enter where the Father is; it is so unprecedented the time you will be away from the light, that you will have to be born again to read the number; what is not in your microscopic evolution; the justice you requested starts with the most microscopic thing that your mind can conceive; so it is, because THE TINIEST, THE HUMBLE, ARE FIRST IN EVERYTHING; first in the Kingdom of Heavens and its Divine Justice; and first before the Divine Father Jehovah; and the most microscopic thing that your mind can conceive; are your ideas; the same that you generate daily; the same you requested in the Kingdom; the same you feel but do not see; all your ideas travel physically to the space; they have the same rights as you do; you requested to be born in the matter; they did so too; you requested to live in a time and space; your ideas, did so too; what is up above is the same as down below; the inheritance of requests are the same in everybody; gigantic beings
request and microscopic beings request; the living matter requests and the living nothingness requests; and everything is granted by the Father; because He is infinite; your ideas travel in space, unprecedented distances; distances you will never calculate; only the Father knows; your ideas are known in the Kingdom, as Galactic Seed; for from them your worlds are born from your own heaven; it was written in my free will: Each one makes his own heaven; because all of you have in a microscopic form the Father’s inheritance; whatsoever the Father has, the children have; just as it happens with the terrestrial parents; their hereditary characteristics are transmitted to the offspring; what is up above is the same as down below; the inheritance your Father gave you was of innocence and lacking of philosophy; because it is your free will which chooses; and all what you have been is your own merit; because everything is attained in the sweat of one’s face; with spiritual effort; there is nothing in the Father’s Creation that does not cost; everything costs and will cost; since without each one’s spiritual merit one cannot enter the Kingdom of Heavens; the comforts of your world are worth nothing in Heaven; every comfort already enjoyed in the world is an award already enjoyed; and it is because of this that was written: And they obtained their reward; all material enjoyment is of no merit in Heaven; and least of all when such enjoyments are the product of a philosophy which did not take the Father’s Commandments into account; such philosophy has its days numbered; because the Creator gives and takes away; your materialistic philosophy will be cut in its expansion; since everything has its time; because everything is relative to the Father’s Commandments; a relativity that you yourselves requested in your trials of life; the fall of your own life system is the fall of your own yoke; it will be the greatest event for the humble; the exploited and the despised; since all are equal before God; nobody was born rich and nobody was born poor; such situation was created by the ambitious spirits; those who only live a present; the most backward spirits in their evolution; with this ephemeral way of thinking before eternity they have not done anything but subjugate the world; all these demons will be judged by the world itself; because nobody wants the condemnation of his soul; the Light of the Doctrine of the Lamb of God will transform the world; because that is how it is written in the Kingdom of Heavens; the world Earth has done the contrary to what it was told; throughout the centuries my Divine Commandment has been telling it: THE HUMBLE ARE THE FIRST; in all order of things; And what have you done with the Heavenly Commandment? Do my humble govern the
world, since they are the first in everything? Verily not; because I see that every humble is despised; they cannot be part of that immorality that you call high society; and who gave you the right to create such society? Is it by any chance in my Scriptures? Verily I say unto you demons of vanity that every philosophical tree that the Creator did not plant will be pulled out from its roots; that is how every living evolution is; And who created you and made you kings? Do you not know that only the Father is King of kings? And the title king is not from this world; it belongs to the Heavenly world; satan is called spirit-king; the Divine Commandments teach to be humble above everything; they do no teach to make oneself king; I verily say unto you demons of the damned aristocracy; that none of you shall enter the Kingdom of Heavens; and along with you neither will your children up to the third generation; because in the Living Universe of Father Jehovah every inheritance is transmitted; nobody should have been vain not even a microscopic second of time; because even one second or less of violation and you will not enter the Kingdom of Heavens; damned kings of the world, the innocence of your offspring shall curse you; since because of you they shall not enter the Kingdom of Heaven; and along with them every man or woman who served you in your damned philosophy; not a single demon called aristocrat will enter the Kingdom; because in the Kingdom only the merit of Work is known; the Universal Philosophy; because in the Living Universe of Father Jehovah every inheritance is transmitted; nobody should have been vain not even a microscopic second of time; because even one second or less of violation and you will not enter the Kingdom of Heavens; damned kings of the world, the innocence of your offspring shall curse you; since because of you they shall not enter the Kingdom of Heaven; and along with them every man or woman who served you in your damned philosophy; not a single demon called aristocrat will enter the Kingdom; because in the Kingdom only the merit of Work is known; the Universal Philosophy;
there; being in heaven, the spirits acquire customs of other creatures; just as it happens among you; for what is up above is the same as down below; satan’s imitators are distributed among the religious, rich, kings and the damned ones who create philosophies of force; but, no demon shall remain; the living Word of the divine Father purifies everything; transforms everything; just as He transformed the old world with the Mosaic Law; and afterwards with the Christian Doctrine; now He does it with the Doctrine of the Lamb of God; and nothing easier for the Creator of the Universe than transforming the world of flesh with his Living Word; the same Word that just some heavenly instants ago said: Let there be light and there was light; the same Word that created every Holy Scripture; the same Word that gave you the Commandments; and the same Word that judges you by intellectuality first, and then by physical laws; because every spirit requested it that way; they requested to be on trial in the Final Judgment itself; as they requested to be trialed in every instant of life; beginning with the difficulties in interpreting my Scriptures; everything absolutely everything was requested by you; even the most minimal details of the Science of the Lamb of God; this gives you an idea that even the invisible to you is controlled from the Kingdom of Heavens; your unknown sensations; justice is for your thinking; your ideas; your intentions; you yourselves requested it that way in the Kingdom; and you also requested the oblivion you have of your origin; the way and the details of how you were created; but, you shall know everything; because you asked to know on Earth the Light of the Lamb of God; you requested to be consoled in the knowledge; you requested a New Doctrine; and you asked the surprise in the arrival of this Doctrine; the Doctrine of the Lamb of God; it should have already been known a long time ago; the incredulity and the materialism of the religious rock hid the truth from you; they have Rolls of the Lamb; the first Rolls were put in their hands; because they were trialed; every spirit is trialed; these demons who teach a faith which not even them believe; requested to be the first ones to have the knowledge of the truth; and it was granted to them; why they hid the truth is due to having cultivated a selfish rock in their hearts; they are the least believers; they are influenced by the laws of material adoration; a pharaonic inheritance; which leads to exalt the person; verily I say unto you demons of adoration that not a single false being of my word shall enter the Kingdom of Heavens; not a single selfish rock shall enter; you shall be damned by this generation and the ones to come; because of you demons this humanity shall not enter the Kingdom; because all the
seconds gone by were living time in violation; just one second or less of any type of violation is enough for not entering the Kingdom of Heavens; and when you hid the truth from the world, you drifted this humanity more apart from the Kingdom; because you perpetuated the error more, the number of seconds lived in error is much bigger; each second of violation is a heaven which is closed to the creature; all of you must add up the seconds which a minute has, an hour, a day, a week, a year, and the number of seconds of the years you have lived; and every calculation must be done from the age of twelve years; before that age; every spirit is innocent before God; and anyone who has mistreated by act or word for one second or less one of my innocents, those shall not enter the Kingdom of Heavens; because they in other existences complained in the Kingdom when they, being innocent, were mistreated; it is because of it that was written: DO NOT DO TO OTHERS WHAT YOU WOULD NOT LIKE THEM TO DO TO YOU; For that reason neither a bad father nor a mother or stepfather or stepmother or a man or woman who was in charge of children shall not enter my Kingdom; their destinies are subjected to the justice of my innocent; because every little one is big in the Kingdom of Heavens; Were you not taught that every humble is first before the Father? This means that everything microscopic is first in Father Jehovah’s Justice; for that reason your spirit is not first in the Kingdom; first are the ones your spirit despised on Earth; your spirits cannot ask to be first; because you were ordered to be humble above all things; the last one is always humble; he disregards any importance to himself; verily I say unto you that the one who regarded importance to oneself in life shall not enter the Kingdom of Heavens; even if that improper importance had lasted one second or less than one second; and every nasty-minded who had done it in the same amount of time; does not enter the Kingdom of Heavens; the fall of this humanity is due to the false and mundane concept, which was instilled in you by the false morality of the religious rock; this prostitute who for centuries and centuries has traded with the faith; has done things according to her temporary interests; she did not take the humble into account; the humble does not surround himself with luxury; he does not falsify himself; because every humble has passed through what the seekers of notoriety are passing; every materialist is a backward spirit; who builds up his hopes towards a microscopic present; even more, they are ignorant of the laws of the spirit; such is the characteristic of the so called popes; heads of the prostitute; these creatures are unknown in the Kingdom; because no one has entered; only the humble and the
modest enter; and every religion is also unknown; and
even your planet-dust is; this is due to infinite laws; one of
them is that the Universe is infinite; so infinite that every
fantasy becomes a reality; the other law is that each one
makes his own heaven; and it is that way how the so called
popes and their followers, who cherished a philosophy of
materialistic adoration, created their own worlds with such
philosophy; because every world is surrounded by a
heaven; and each one makes his own heaven; the
materialistic adoration is not a tree planted by the Divine
Father; and it is not known in the Kingdom; as it is not
known any doctrine or science or sect that has not taken
my humble into consideration, because I verily say unto
you that this planet should have been governed by the
humble; because they are the first in the Kingdom; they are
first up above and must be so down below; and all the
contrary has been done; this world is governed by those
who did not ask for it in the Kingdom; the spirits of
darkness govern you; because in their positions they do
do not do it in the name of the Light; they do not mention me
in their speeches; their aim is not the Creator; it is the
ephemeral; that which only lasts a sigh before eternity; I
read their minds; I see their calculations; because I am
everywhere; I see that they build up their own worlds of
darkness; I verily say unto you proud and vain leaders that
none of you shall remain; and nobody who did not take my
mandates into consideration shall remain; if the humble
had governed the world from the beginning, I assure you
that this world would not have had any need of judgment;
it is the violators who create the judgments; not a single
viholder shall enter the Father’s Kingdom; the law is in you
yourselves; it has always been like that; you just need to
think and you are creating your judgment; matter and spirit
think in their respective laws; because nobody is
disinherited; everybody has the same rights; nobody is less
before the Father; these rights are manifested in all
imaginable forms; every form you see in the world that you
asked for, you witnessed the request of them; because
before coming to the planetary dwellings, covenants with
the elements of the future nature are previously done; and
everything that your eyes have seen during your existence
was requested by you in Divine Covenants; that is why in
the Living Universe of Father Jehovah matter and spirit
have the right to ask for judgment; matter and spirit have
free will; being independent one from another; if it was not
like that, there would not be perfection in justice; there
would not be any equilibrium in each one’s rights; the
Father’s Justice being only one, is manifested in infinite
forms; because nothing in Him has a limitation; every
justice is born from the same acts done by the creature; it
is the salt of life, which gives form to its justice; the salt of life is the same knowledge learnt in one existence; considering its free will; the spirits do not advance with the same pace in the achievement of knowledge; some are first and then others; this law explains the physical inequality among you; each knowledge or acquired salt of life is perpetuated in you; but everything is relative in an infinite degree; you create the attribute and the quality of your living relativities yourselves; the attribute is given by the philosophy of your thinking, and the quality by your spiritual hierarchy in the Kingdom of Heavens; the best quality is attained with humility; followed by joy and work; behold the complement of Heavenly Communism in the Kingdom of God; a Heavenly Communism with the philosophy of a child; he who did not cultivate joy during his life, does not enter the Kingdom of Heavens; not a single idiotic in character shall enter; even if this idiocy or anger might have lasted one second or less; all of you promised in the Kingdom of Heavens to be joyful in life; imitating Heaven itself; you promised to be joyful under any circumstances; you did not ask to be idiotic of character; because you knew that it was unknown in the Kingdom; and you knew that by being idiotic, you would not enter; if in your existences you got angry repeatedly, it is because of the unfair life system that men chose; and the creators of such system must pay for them in this judgment; because they requested it so; and thus shall it be conceded to them; regarding the demons who created the exploitative capitalism, the full weight of the Divine Justice shall fall on them; these demons of ambition and predominance promised the Eternal Father to glorify His Divine Law in this world; not to become their own tyrants; because this life system whose product is the science of good and comfort, is the yoke of this world; a yoke which is arriving to its end; for the beginning of the new times has arrived; New World with New Time; New Morality with New Destiny; were you not taught that the Creator renews everything? The Final Judgment is initiated with the Doctrine of the Lamb of God; a painful ending; because every violation of the Father’s Law only causes pain; just as you have experienced injustice in your lives; injustice which was born from a life system which was not created by the Divine Father and which is unknown in the Kingdom of Heavens. -

ALPHA AND OMEGA
Chapter 12

FLYING SAUCERS; SILVERY METAL

ALPHA AND OMEGA
FLYING SAUCERS; SILVERY METAL; A CREATION OF FIRE IN A SOLAR DIMENSION; HOW THE ARRANGEMENTS ARE DONE; VESSELS ALPHA AND OMEGA; BEGINNING OF A SOLAR HIERARCHY. - Nº 61.-

Yes little son; we shall continue with the construction of the flying saucers; the metal of these vessels is related to the attribute and quality of the individuality of the suns; the type of metal depends on it; one can deduce from this that the kinds of metal have no limit; just as the individualities of the planet Earth; no one is the same as another; what is up above is the same as down below; that is why the Earth has been visited by different vessels; in these visits mandates are fulfilled; which have been taking place from time to time; for the visits of these celestial messengers have been happening since the same instant in which the sparklet of the Earth was born in the suns Alpha and Omega; the flying saucers accompany the worlds since they are babies; and there is no birth of any world in which the flying saucers do not participate; during the construction of these vessels, infinite and microscopic creatures gather together; they are the divine magnetic cherubs; the same thing takes place in the creation of the planets; and in every created thing; my Scriptures mention them; now they are explained what they consist of; the cherubs are magnetic agents which materialize the molecules; it is the most microscopic thing that your mind can imagine; for your invisible ideas are also composed of divine cherubs; what is up above is the same as down below; in the macrocosm the cherubs see the solar parents; they talk with them; and plan future births; future reincarnations; future being born again; they plan to know new lives; new worlds; to obtain new knowledge; and arrive by merit where the Creator is; merit purifies; for knowledge is the salt of life; it is the brightness that annuls the state of every flesh; the cherubs represent the immortality in the matter of the entire universe; they only obey the divine Father; being each sun a galactic father for them; they respect the solar hierarchy; just as you human spirits were mandated to respect father and mother; what is up above is the same as down below; the living morality of God is expressed in infinite forms; and he who has been disrespectful with his parents even if the time was one second or less, does not enter the Kingdom of Heavens;
the cherubs with which these vessels are built, your virtues also have them; and your body of flesh; even your sighs and excrements; everything that your mind can imagine in all your existences, is composed by the cherubs of Father Jehovah; the knowledge of this universal law, shall mark a new epoch on Earth; an epoch announced through centuries and centuries in the Scriptures; an epoch which shall annul everything that men have made; for the New World is initiated by lovingly ordering the cherubs of nature.

Yes little son; this celestial drawing shows that in the construction of the flying saucers an infinite free will enters; each solar parent tries to impose a thinking geometry; the solar thinking materializes itself in the same way as the human thinking does; what is up above is the same as down below; the difference is that the human creatures being microscopic, use a slow speed in their thinking; conversely, the solar parents are of such velocity, that they become instantaneous creators; the transformation in them is one the wonders of creation; just as my Solar Son Christ; who transfigured himself into the men of the world; he did it with a solar mentality; it was a transformation that has its normal universe in the universe of the gigantic suns; in the macrocosm; and which my Scriptures teach as the Kingdom of Heavens; the flying saucers have in their metal the individualities of infinite suns, it is an attribute of the Solar Trinity; this divine power is proportional to the divine salt of the solar parents; it is proportional to their acquired knowledge in all their past existences; in their being born again; the knowledge or salt of life of a creature, constitutes the spiritual hierarchy; for the inheritance of the Father is classified according to its purity; all the creatures of the universe have that inheritance; for no one is disinherited; up above as well as down below; the flying saucers are built in infinite worlds.
and suns; their number is like the molehills contained in a
desert; only the backward minds put limits to the Father’s
creation; he who limits infinity, infinity limits him; for
infinity is as living as the spirit is; and when the spirit asks
for justice in the Kingdom, infinity also asks for it; for in the
creation of the Father, everyone asks for justice; matter
and spirit; for everything is living; the flying saucers when
being built, are done with a perfect first-hand knowledge;
the constructors converse with their molecules; the human
creature has not gotten to this degree of perfection yet; he/
she has to be born again; and attain new sciences; new
salts of life; everything starts as a covenant; all the living
suns get together in an Omega circle; and the oldest, the
one that knows more, leads the construction of the vessel;
there a conglomerate of suns get together and creatures
who come from the entire universe; for in the Kingdom of
Heavens the celestial free will, constitutes the universal
communism; there everyone is equal; and they respect
their spiritual powers; everyone is equal before God; and
all the humanities that do not imitate the Father, do not
enter the Kingdom of Heavens; so it is for the Earth and
infinite earths; for a mandate from the Father is not just for
one world; for His universe has no end; His mandates are
for infinite planets; what for you is a drama, for the
Kingdom of God is just a sigh; and not for that it is less
important; the flying saucers are built with mental-solar
fire; they are microscopic lines of infinite colors;
predominating in the lines, the color of the philosophy that
predominates the most in the solar parent’s thinking; it is a
color in which within infinite hues, white predominates;
which represents the solar innocence; that is why these
vessels have a metallic white color; it is of a beauty never
seen on Earth; if these vessels let themselves be seen in all
their splendor, humanity would get paralyzed; everyone
would fall into a dream; that is why their visits are
controlled; being this one of the causes; there are infinite
reasons why they should not land for a long time on the
planets; the main one is that each world has its Scriptures;
for no one is disinherit ed in the creation; neither matter nor
spirit; every deed, every act every planetary instant is
written in the Kingdom of Heavens; it is written in the Solar
books; and also the violations of all the creatures of the
universe are written; and everything is observed on the
marvelous solar television; the television which saw your
departure to the world; infinite creatures see infinite
creatures depart; for everything that happens in the
Kingdom has no limits; there one can see flying saucers of
all the imaginable forms; it is a fantastic spectacle; and
one can see creatures of all the forms that your minds can
imagine; there you are unknown; and therefore, no one is
more important than anyone; there your imperfections are unknown; all the blessed ones of all the worlds arrive there; those who fulfilled their respective Scriptures in their worlds; the flying saucers have infinite propulsions; but all of them are mental; they are laws which are infinitely different than yours; you are slow and passive; the solar parents are instantaneous; you are in a world whose characteristics were requested by you; every divine covenant is made in a divine agreement; nothing is done in disagreement in the Kingdom; this means that in the birth of the worlds, there should not be any living demons; and it means that everyone should be joyful; for you came out of a living joy; the eternal joy of the Kingdom of Heavens; and if in your world you got to know anger, be sure that no demon of anger shall enter the Kingdom of Heavens; all those who got angry in life after the age of twelve years, does not enter the kingdom; and the divine Justice shall fall on their parents; nobody promised the Father to cultivate anger; everyone promised to cultivate the joy of the children of the Kingdom; for all of you always want the best for the Father; the oblivion of what you saw in the Kingdom, you requested them yourselves; that is why your philosophy is known as trials of life; one of the infinite lives of the universe; the own oblivion is one of the infinite characteristics in the life requests; if you had not requested the oblivion, you would not have had the Final Judgment; for every trial’s result has its judgment; but the merit is greater, since you ignored your place of origin; you are in a world where all of you agreed to come into; that is why you know fraternity; the human life is a life of little monkeys of flesh; a life of the microcosm; a life almost unknown in the rest of the universe; everything that exists has come out of the living fire of the Father; even His older children the solar Parents are of the eternal fire; the silvery vessels have a unitary beginning in respect to their molecules’ free will; each molecule sees its transformation; it has a premonition of its destiny; it knows that it is going to know new experiences; it sees a commotion of other molecules; real crowds of its fellow beings; it sees that it is departing from its primitive dimension; an unknown magnetism attracts it to another dimension; it sees other heavens; and it finds itself before new galaxies; it feels that its past starts being a remote sensation; it sees that new creatures come on its way; and a world of sensations transform it into a new creature; its past is not cut; it is momentarily forgotten; such description corresponds to your births; for what is up above is the same as down below; the law is the same in the creation; an infinite variety and one sole God only; the spiritual hierarchy has its own living marvels; no one is disinherited; your birth came out of the suns
Alpha and Omega; which means beginning of male and beginning of female; no human creature remembers the past lived before becoming a baby; it is a story that shall make the world cry; for you are a product of a loving-solar sentiment; a love of solar giants; loves of the microcosm; whose seed are you; children of the microcosm; children of dust; no one is born big; only the Father is born big; macrocosm was also microscopic; for one has to be very little and humble to become great in the Kingdom of Heavens; you shall also become great; you shall become macrocosm; for what is up above is the same as down below; likewise the flying saucers fulfill the law; the molecules are born babies; and they end up being colossal vessels of the macrocosm; and the succession of macrocosms is infinite and eternal; no one knows in the universe of the macro who is bigger after the Father; one only knows that Father Jehovah is unique; so immense He is that He is everywhere; a divine great deed, never emulated; in the construction of the solar vessels, other creatures participate; infinitely more microscopic than the own molecules; they are the divine cherubs; a new beginning in the human knowledge; a divine beginning which shall wreck all the human philosophy; for it shall give a new universe to the one already trialed by the Father; the divine cherubs represent the most microscopic thing that your minds can imagine; for they are even more microscopic than your own ideas; the ideas are composed of them; their number by idea is infinite; for there is no limit in them; they trial lives, and are more eternal and wise than the life they are trialing; this means that no spirit is more important than the most microscopic sensation that it despised; you have in yourselves great solar parents; for every microscopic, humble, and unknown being is great in the Kingdom of Heavens; in your own excrements, without which nobody would live, are the great living wisdoms of the Kingdom; the concept of humility is so infinite, that you have come out of it; it means that the Father preferred the humility of wisdom in the conception of your births; the humility that every Scripture demands from the creatures, has this divine principle; it is not just a moral humility; for one’s own good; it is a humility without which you would be nothing in the worlds of light of the divine Creator; in your conception or reincarnation, a multitude of infinite cherubs participated; just as it happens in the construction of the flying saucers; what is up above is the same as down below; each microscopic part of your being is an infinity; which has a free will different from yours; for you do not know where your sensations and feelings end; you are living a life from which you requested the oblivion of origin; and you know nothing of it; you only know that
everything is created by an infinite Father; you know the universal law; what you do not know are the details; the details constitute the sciences of the worlds; for every creature looks for the cause of the detail; it is an eternal search; in which one is born again searching for the cause; it is enough to think and one is creating unknown causes; the supreme cause is the Father; and there is no cause that does not search for Him; the cause of the flying saucers is a celestial cause; the cause of the human gender is a terrestrial cause; but what is down below is a prolongation of what is up above; and the concepts up above and down below disappear before the infinity; in future existences you shall have other concepts of infinity; and you shall never arrive to a unique concept; only in the Father is the unique concept; for He is unique; before the unique beings existed, the Father was already there; the flying saucers are of such an eternity as the own Father; and they are at the same time after the Father; the Father’s creations return to Him; they have in their developments an angular and Omega or circular evolution; the own return is the Omega return; one enters life through one way, and returns through another; they are two halves which complement each other; one way is geometric with a free will to choose the desired geometry; and the other the geometry resulting from the chosen geometry; the living geometry is modified during the trials of life; it is the acts and the ideas of the spirit which modify it; acts and ideas which the spirit saw and got to know in the Kingdom of Heavens; and he/she approved it; the resulting geometry was also seen by him/her; his/her biggest trial was in the oblivion of his/her past; an oblivion which is an entire justice, an experience and one more knowledge for the spirit; and this does not stop there; for every spirit looks for Flying Saucers; through all eternity; it is born again and returns to its normal universe; the one that is pre-existent to any world of matter; the flying saucers fulfill the same law; what changes is the attribute and quality in the respective eternity; eternity is a hierarchy that one has attained; and therefore it has its free will; the forced eternity does not exist; every eternity is as expansive as the universe itself; only the Father judges eternity; for He is before every eternity; eternity makes divine covenants without going away from the laws of merit; for the contrary would be to confuse the spirit between the laws of the light and the laws of darkness; one and the other exist because the Father wants them to exist; the creature’s free will chooses; that is why each one makes his own heaven; each one is responsible of his/her deeds; the existence of darkness is the own eternity of the past of the universe; it is one of its attributes and qualities; and above every law,
for in the Father’s creation everything exists; the violations of the infinite are as expandable as the virtues of goodness; but, whether a philosophy is infinite, it has its time; for their creators and its followers have to be born again; and what they sustained before, in other existences they stop sustaining it; the arrival of new generations with new concepts and ideas, proves it; and it so happens that many spirits defend something which they persecuted in other existences; the attribute and the quality of their ideas have varied; their salts of life have changed brightness; and their ideas in their individualities too; that is how it happens on Earth; the exploiters of today shall be the exploited ones in other worlds; for the spirits mend their errors; not for nothing they are born again; and in virtue of their free wills, they choose and request this or that justice; being judged in the same way as they did on others, is what is called: An eye for an eye and a tooth for a tooth; and to avoid the creatures from falling into these violations, was it written: Do not do to others what you would not like others to do to you; for sooner or later, the spirit will be asking for a very similar justice; and the humble of today are the tyrants and violators of laws which they lived in other worlds; the humble are more evolved than the exploiters; that is why it was written: Every humble is great in the Kingdom of Heavens; and the Father uses every humble to make His divine mandates be known in the worlds; which is the manifestation of His divine free will; I shall never choose the exploiters; the more deluded; the spirits of the ephemeral; the mundane spirits; which are the so-called rich of the world; for no demon of the ambition shall enter the Kingdom of Heavens; and these demons’ wealth, where did it come from? it came out of the own world; and it belongs to the world; and it shall return to the world; it is a wealth attained in violation of my law; it is a theft from my humble; was it not taught to the world that the Divine Father likes the humble? That every humble is first in His desires? And what has the world done to please the Creator? they have done the opposite; these demons so-called rich keep the best for them; and the worse and insignificant for my humble; they keep the best positions; the best education; the best food; the best comfort; and they perpetuate from father to child such theft; I verily say unto you demons of the science of good that neither you nor your children shall enter the Kingdom of Heavens; for no thief has ever entered; so it is and so it shall be forever and ever; because of you exploiters of the work of others was the terrestrial judgment written; you are the yoke of humanity; and amidst a weeping and gnashing of teeth, the world shall be liberated; for they came out free of the Kingdom; and free should they have been on
the planet; because of you demons of capitalism, this humanity shall not enter the Kingdom; for you have violated with a living immorality, the seconds that each one had in their lives; yes demons of corruption; the immoral Earth shall pass; but my new Doctrine shall not pass; for every Word that comes out of the Father is eternal; and just like up above His divine presence makes no demon to remain, likewise the Doctrine of the Lamb of God shall make you fall; you shall curse a thousand times having been born; you were told in the Kingdom that no one should profit from their fellow beings; and you demons of ignorance, insisted in running the risk of such philosophy; and it was conceded to you; and now you should confront the wrath of humanity; who not even for all the gold of the world, shall imitate you; for you are the perdition of humanities; you are the same ones of satan’s legions; and wherever you go, you shall sow division, hatred, and exploitation; nobody forced you to become demons; you shall beg for mercy as it has never been implored; and your seed shall be a synonym of damnation; that is how the creators of yokes end up; because of you demons of exploitation was it written: It is more likely for a camel to pass through a needle’s eye than a rich to enter the Kingdom of Heavens; and if you do not enter Heaven, is because you belong to darkness; for one cannot serve two masters; either one serves God in humility or one does not serve Him; the divine Creator does not alternate with corrupted children; and you rich of the world are so; you divide yourselves between light and darkness; just as you divided the world in rich and poor; every exploited one shall be exalted; and every rich despised; this is where you shall arrive in this world; violating the law of God costs one dearly; the entire living nature is observing you; for they sense what is about to come; your Judgment shall be by living Doctrine; for that is how you requested it; and so was it conceded to you; yes little son; I know you are seeing the future desperation of this beast; the worst that humanity has got to know; I know you are seeing infinite intents of suicide; but, may not a single exploitative demon try it; for he shall perpetuate his living in darkness; you should have never extended the philosophy of exploitation; knowing many of you that it was contrary to the morality of my Commandments; you demons condemned your own children; and the children of your children; for none of you shall enter the Kingdom of Heavens up to the third generation; every violation in the living creation of the Father, includes even the most microscopic of your being; and your ideas are in them; every idea is transmitted; and with it good or evil; according to the transmitted intention; according to the salt of life of the idea; according to its
attribute and quality; humanity by seeing that they were obliged to follow you in your exploitative philosophy, they have been condemning themselves from three to three; for the beginning and end of a violation lasts three generations; the new morality shall make your damned inheritance disappear; as the world shall call it; for there is nothing more pitiful than not entering the Creator's Kingdom; there is no greater punishment; all your inheritance, exploiters of the world, is an inheritance of the dead; for there is no fruit of the light in you; and you shall pay for each tear shed by the rest of the humanity; for humanity built their hopes up with your damned philosophy; did you not fascinate them with beautiful things? your commerce offered the merchandise; you were the tempters of the world; since you are of the demon's legions; your philosophy is the same as satan's in the Earthly Paradise; there the damned one offered as a merchandise an apple which was not even his; just like you dammed ones who offer the world what belongs to the humble of the world; every merchandise belongs to the children of work; those who fulfilled the divine mandate: Thou shalt earn thy bread on the sweat of thy face; it does not belong to the exploiters; for your dammed philosophy shall be pulled out from its roots from the human evolution; your philosophy is an imperfection within the spiritual pride; you demons of misery and pain believed that you would never be asked to render account; every truth of heaven was requested by you demons; and you requested it along with the surprise; it is for you that it was written: And the Truth shall arrive to the world by surprise; the surprise that is caused by a burglar; for you usurpers do not sleep at ease; thinking about your wealth; and thinking about a thousand deceits; for there is no rich in this world who has not deceived their fellow beings; the same ones who requested justice in heaven; to be fulfilled on Earth.-

ALPHA AND OMEGA
Chapter 13

DIVINE ORIGIN OF THE SPACE

ALPHA AND OMEGA
DIVINE ORIGIN OF THE SPACE; A DIVINE COVENANT WHICH CAME OUT OF THE KINGDOM OF HEAVEN; TIME IS JUDGED WITH THE CREATURES; THE EVERYTHING ABOVE EVERYTHING. - Nº 62.-

Yes little son; the space in which one is born is brought from the Kingdom of Heavens; and the entire nature in which you live, is brought from there; the space as well as all the elements of the living universe, have a free will; that is why as far as justice is concerned, the space also participate in such justice; the space as well as all the elements were born with the same rights; no one is less before the Father; the rights are within their own laws; and they have an infinite attribute and quality; the attribute and quality explain the infinite variety in the feelings of the beings; they are sentimental variations; sensations of the spiritual thinking; and each sensation that your spirit feels, has space; therefore, you have space inside and outside; what is inside explains your spiritual beginning; for every little one and every microscopic and humble is first in the Kingdom; to explain the origin of things is given to every first one; the space from the inside is the space that saturates your free will; and your ideas contain such space; everything big and small have the same laws; more developed in the big and in the small less development; but in my creation everyone levels up with the other; for they have got a free will; space is one of the living virtues of space; its form is infinite; it has no end; and it is understood according to the salt of life of each one; according to their evolution; space contracts and expands itself; each one makes their own space; for each one makes their own heaven; and since one creature is different from another, there are spaces in attribute and quality as there are individualities; every space makes a covenant with each creature; and all the creatures have talked in the Kingdom of Heavens to their space; from the same instant in which one is born, the covenant with a terrestrial time and space starts; in the Kingdom or in the Celestial World reigns the spiritual time; the celestial time is of the macrocosm; proper of the gigantic suns; where I Am, you cannot go; was said by my Solar First-born Son Christ; he referred to the macrocosm with its solar or celestial time; and the creatures of the microcosm like you cannot enter the macro; you have to be born again; and in
such number like the molehills contained in a dessert; verily getting to the macrocosm costs a sweat in the face; it costs work.-

Yes little son; this celestial drawing shows that the divine justice is in every space; the Rod with which you measure and with which you shall be measured; the Rod is the morality of my Commandments; and which each one should have cultivated in life; if it was not cultivated for a microscopic instant, one does not enter the Kingdom of Heavens; in each act done by your mind, space enters; the ideas have a pause; and the pauses are space and time; and philosophy; space has got a psychology in which the spiritual action awaits; and it is for all the thinkings; space is the same for matter and spirit; it is also born microscopic; as every living creation of the Father; every space has physical and spiritual laws; your science knows something of the physics of space; and time; physics make use of space and time in the mental calculations; besides the space and time which corresponds to the exterior world; behold one of the causes of the human imperfection; they make calculations in which eternity does not participate; the human mind is a vibrating eighth of a microscopic Omega Circle; which means that it is a replica which came out of a solar circle; the number eight represents a temporary philosophy; for the eighth vibration, returns to its center; every human spirit is a detachment of a solar fire; and its distancing includes time and space; the vibrating eighth is the traverse of a spirit through a dimension; whose elements also belong to the own center of solar fire; there was a time in which every spirit talked to the own constitutive elements of the terrestrial nature in a spiritual time; this understanding is known in the Kingdom of Heavens as Alpha beginning of an Ark in Materialization of Covenants; on Earth it is known as reincarnation; and my divine Word designates it as being born again; a law can be expressed in many forms; and it does not stop from being the same law; in every being born again, for the human spirit, participate 318 living virtues; this group of virtues is called an Ark of Covenants; or a human spirit’s thinking; the Ark of
Covenants was known by the old world; in the Ark of Covenants all the creation enters; all the elements of the universe; everything that the mind can imagine; for everything exists in the Father’s creation; and nothing is impossible in the greatest Creator of creators; for no one surpasses Father Jehovah; time and space form part of the everything above everything; for nothing would exist without them; there are spaces and times as there are worlds in the universe; and their variety is as infinite as the number of molehills contained in a desert; what is living makes what is expansive; everyone has the right to infinity; and no one is disherited; space and time get united according to their free will; just as you are together in the world; and just as a molecule is next to another; no one is by chance; for such philosophy is exposed to deviation; just as those who defend satan go astray; for the damned one believes that he mandates himself; all the universe of light wants nothing with him; and he who teaches a philosophy that does not take my divine Commandments into consideration, goes astray; for he does not enter the Kingdom of the Light; such is the fate of the yoke of the Earth; called capitalism; and which is known in the Kingdom as the great beast; a damned philosophy which since very remote times, has been enslaving the worlds of the light; none of these exploitative demons shall remain; for there is neither space nor time which is not fulfilled; even your carnal existence has got its physical end; every capitalist spirit or of any other immorality shall have to confront their 318 living virtues; all of them requested in the Kingdom not to violate the law; and they requested to live on a very remote planet called Earth, the highest morality that any mind can conceive; the sole morality of my Commandments; all your virtues never let themselves be seen in life; for their morality is the most sublime model of perfection; being them invisible in your own thinking, they are great in the Kingdom; they are the first ones to be heard by the Creator of life; and your spirit is the last one to be heard; Were you not taught to be humble? there in the Kingdom, this virtue is the queen among everyone; and he who did not live in humility does not enter the Kingdom of Heavens; the virtues acquire colossal proportions; and your spirit is seen like a microbe of dust; in the spirits who did not cultivate humility, dread takes hold of them; for he/she feels that darkness and the light compete for him/her; every humble feels a spiritual peace; for he/she served one Lord in life; served one cause; and was not divided; those who serve two masters, serve two causes; they serve two philosophical thinkings; that is why their spirit is driven into a struggle when arriving into the Kingdom in order to undergo a Judgment of trials of life; a struggle in which
darkness tries to attract him/her; for in the living universe
of the Kingdom of Heavens, there are laws of the living
possession; your origin was taken from the darkness of the
macrocosm; for there is everything in the Father’s flock;
the trials of your lives is a trial in which you chose its result
yourselves; did you not have a free will in life? And were
you not given Holy Scriptures and Commandments? What
did you do with them? I know you are subdued to a yoke;
imposed by the demons of ambition; but, you yourselves
requested to run the risk; behold the cause of all the risks
in life; no demon who provoked risks in life shall enter the
Kingdom of Heavens; and the worst risk of which all the
others come out, is the harm one does to his fellow being;
exploiting others is the great risk; the own human’s
perdition comes out of this demoniac philosophy; for none
of you enters the Kingdom; one microscopic second or
less of violation and one does not enter the Kingdom of
Heavens; space denies its philosophy to those who
combat against the Father; those who use demonic ideas;
those who persecute others with their darkness; those who
let themselves be carried along by them; those who sow
pain; and it so happens that infinite spirits wander through
space, for no virtue of the light gives them their divine
participation; no one wants to get united to a demon; only
the divine intervention of the Father gets it done; almost all
the spirits of your world have undergone this painful
experience; caused by the living violation to my living
Word; such is the destiny of those who have divided my
children in rich and poor; one neither should nor can serve
philosophies which are not the Commandments; for every
act reverberates in the own laws of creation; to understand
it better, you should never forget that the own elements of
nature are the ones which shall judge you in the Kingdom
of Heavens; and every humble among the humble judges
the everything above everything; humility makes the great
ones of the Kingdom be silent; for no one surpasses it in
power; all the living marvels of the Kingdom look smaller
before it; to become great in humility is to arrive to the
Father’s own dwelling; every great one has its universes; in
which its respective philosophy predominates; and within
its laws, the Father is exalted; just as you believe you exalt
Him with your faith; what is up above is the same as down
below; without faith, no one makes him/herself a heaven of
light; with no faith worlds of darkness are made; for your
ideas have the attribute and quality; the salt of life requires
faith; without it you shall never enter the Kingdom; and
there is no faith that does not have space and time; it was
written: Faith moves mountains; a parable for the laws of
matter and the spirit; for matter and spirit are one same
thing; which came out of one God only; and every
molecule has spirituality; matter and spirit have the same rights; for no one is less before the Father; this Revelation shall make every terrestrial philosophy collapse to the ground; for it is the only one that unifies what looks apparently disunited; matter and spirit; you ignore how things were done; you live in them; for you are going to be judged by them; in your voluntary oblivion of how things were done, the divine Father puts the Scriptures in your present; the Scriptures represent the Father’s will; one of His divine free will’s infinite forms of expressing itself; the psychology of the Scriptures is the Father’s living will; and by its hierarchy it trials your individualities, for every spirit is trialed; space is also in the readings; and every reading has a hierarchy; each reading is a psychology in the expression of the understanding; and among all the readings that you can conceive, the Scriptures are the ones with the highest hierarchy; and so it is that if a spirit condemned itself to darkness, one second of reading my divine Word saves him/her; for your Creator thanks him/her who searches for Him; and His awards are infinite; they have no limits; for nothing in Him has any; each second of reading that you have had in your existence, is judged in the Kingdom; if it was taught to you that your Creator was above everything, it means that He is above every reading; in your preferences; and this law is for all the human thought; Have you studied your Creator second by second in your existences? If it was so, be sure that you shall enter the Kingdom of Heavens; for you have fulfilled the divine mandate; you have dedicated your free time to understand the Father above everything; this term: Above everything, shall be the greatest weeping and gnashing of teeth of an ungrateful humanity; such thing took place because of the life system given to you by the demons of capitalism; for all the seconds gone by throughout your existences, were deluded; they did not serve the Father above everything; they served an ephemeral philosophy; whose laws did not come out of the Kingdom of the light; but they are from the imperfections of the demons of ambition; all the virtues that are in your spirit, shall accuse the spirit of having been deceived by it; of having an influence which is not the eternity in the light; they shall feel themselves divided; for they were promised a heaven; the promise was done by your spirit; for it has a responsibility; if the deluded beings do not enter the Kingdom, less shall the culprits enter; the causers of the illusion; the demons who sustain capitalism; the damned creators of poor and rich; the children of satan; the members of his damned legions; the human suffering is because of these damned ones; who think they are interpreting a history; only the history of the humble is eternal; for the new world is theirs; no exploiter shall
remain in the world; for the conception of their exploitative philosophies is ephemeral; it does not have the Father’s seal of eternity; the fall of these demons shall be the fall of the beast; which has many eyes; the eyes of espionage; with which it has been merciless with my humble; the space shall be negated to these demons; up above as well as down below; humanity shall be merciless with them too; with the rod you measure, you shall be measured; so it is and so shall it be forever and ever; space is also judged at the same instant in which the creatures are being judged; and this is how the changes in each one’s destiny take place; each destiny requested the laws of justice; and it was conceded to them; every justice surprises the spirit; it can happen to him/her up above or down below; being it an incarnated creature or a spirit which awaits to be born again; wherever it is in the immensities of the universe, justice comes to him/her; the everything above everything is in him/her; there is an entire net of communication in the living universe; which covers everything; a fascinating chapter to be told to the world; a divine Revelation which shall make you shudder; these celestial communications are even faster than the speed of the silvery vessels; they are so immense, that they are first than the birth of a future world; I know little son that you see every day how the solar parents communicate; So it is divine Father Jehovah; I see by your divine grace colossal telephones; one of them would not fit on Earth; what immense sizes! They are creatures bigger than the planet Earth! So it is little son; they are creatures of the macrocosm; and you have not seen everything; for the everything above everything has no end; your power to penetrate the living universe is increasing; for everything has a growth; everything is initiated from the most microscopic; everything is initiated from the invisible to the visible; behold the origin of spirituality; all the prophets and all the first-born sons see the invisible; and they extract doctrines toward the visible; for the Trinity is everywhere; space and time like you, also have their trinity; for no one is disinherited; every time is composed of infinite cherubs of time; which are the ones that provoke the sensation of living in a time; and every time and space is a detachment of magnetic force which act over matter and spirit; time and space are geometrical; they fit into the thinking creature; they are what the creature feels; in each breathing of every creature, a microscopic eternity is formed; which is within the own present; which means that every present is an outbreak of an eternity which thinks momentarily in a present; what is sensible is the cause of what is geometrical; matter and spirit are transformed at every instant while one is breathing; and one gets older at each instant; making use
of so microscopic space and times, that nobody notices
the microscopic aging; for no one gets older instantly; you
have to make use of space and time which you requested
in the Kingdom of Heavens; along with the other virtues;
one is born getting old; all the virtues requested equality in
time and space; an equality that should have been imitated
by your spirit; no one is more and no one is less; all of you
are equal before the Creator; in a world of trials, humility
was put before you as a model of salvation; for every
forgetfulness in the requests of life, brings risks along; and
the greatest of all is to grow apart from the Father’s
mandates; for every world falls into immorality; is this not
what is happening to your world? everything has a cause
which comes out of an intention; and the cause of your fall
is the demons of capitalism; the only guilty ones; he who
continues serving the exploitative demon, shall not be
resurrected into a child in the year 2001; for every promise
of the Father is fulfilled; you have two ways in your free
will; or continue serving gold or serve God; there is no
middle way; one cannot serve two masters; one cannot
serve two philosophies; for the spirit is divided between
light and darkness; to keep on serving gold is to
perpetuate the ambition; and transmit it to our children is
what has been happening since the right instant in which
the damned pharaohs taught the people of Israel the greed
for gold, to the extreme of making out of this rock a life
system; which has deluded the world; making this world of
trials into a world of slick fellows; for there is no rich that
has not deceived his fellow beings; the distrust that you all
carry has come out of these demons; I verily say unto you
that all those who felt distrustful of his brother, shall not
enter the Kingdom of Heavens; distrust in every degree is
unknown in the Kingdom; for no distrustful one has
entered there; and every immorality that you have felt in life
because of the material possession, is unknown in the
Kingdom; none of you shall enter; for you are accomplices
of violation of your own promise in the Kingdom; all of you
promised the Father not to violate the law; and you have
done it; great are before the Father the strugglers and the
idealists; every unjust world needs them; and every world
progresses because of them; woe betide those who are
blind because of comfort! Woe betide those who
unattended the call of my humble! Woe betide the easy-
attitude people of the world! Woe betide the indifferent
beings! for the weeping and gnashing of teeth is theirs;
each act done by you in life has got time and space; and
philosophy; and each act has 318 living virtues; and
according to your tendencies, that is how your salt of life
shall be; that is how your future physical body shall be in a
new birth; you are the geometrical result of the living
knowledge; and you give yourselves the form; for each one makes his own heaven; and you are not alone in life; as many of you believe; the responsibility that your spirit feels, is not casual; it was given to you because there was a cause in it; and the greatest responsibility is not believing in yourself; for one would live an eternal skepticism; to trust in one’s strength is one thing; but, to believe that one was made just to live is another thing; the first one is the cultivation of security; the second one is the cultivation of a belief lacking of trials; no one knows his/her origin, for that is how you requested it; and so was it conceded to you; only a solar First-born gives you the light; for there is a first one in everything; millions of beings of this world believe that things were done by themselves; I verily say unto you skeptical beings, that you shall wander through space alone too; for no living element of the universe shall open their doors to you; he who doubts the Father, doubts the own universe; for the universe is in Him; and He in the universe; only those who cultivated faith have company in space; every belief is like a request which comes true; and every skeptical one rejects every reality; no skeptical being shall enter my Kingdom; nor any of them shall be resurrected into a child the year 2001; for they did not believe the law; they do not receive the law; all the times and spaces of a skeptical one, turn against him/her; for they accuse them of their own skepticisms; of their own backwardness; it is the supreme trial of the spirit; and every spirit must confront the 318 virtues with which they compromised to come in a covenant to life; every spirit is a solar parent in miniature; and all the virtues of the thinking subdue themselves to be trialed by the spirit-sun; you have trials in the interior and in the exterior; the interior are the first causes; the exterior your final cause; the interior is the spiritual trial; what is invisible; the exterior the material trial; your judgment turned into matter; no one gets to matter if he/she has not been microscopic; all the universe has got this principle; one has to be very little and humble to become great in the Kingdom of Heavens; every world has got its revelations; for no one is disinherited; all the planetary dwellings are a product of living requests; of microscopic acts; for everything grows in the living universe of the Father; they undergo transformations from the microbe to the colossal; and in every transformation time and space go on; everything that a physical idea has, a planet has it; for the rights are in everyone; in the microscopic and in the colossal; the rights are manifested in the spiritual causes of each one; and many times it so happens that what seems an aberration, is not from the point of view of the intention; only the Father knows the intention of each thinking; for it is in the own intention;
Were you not taught that God is everywhere? and He is in everything unknown and known; in the visible and in the invisible; every space and time claim against those who applied a hypocritical justice; for every injustice received by the spirit, reverberates in the virtues which are its complement; and the virtues look for the cause of the violation; and so it is that if a terrestrial judge punishes unfairly, the virtues of the condemned one shall follow him through all eternity; behold the cause of many spiritual maladies in the creatures; maladies that succeed each other through many existences; this law is owing to the fact that everyone was given a mandate to be fulfilled; this mandate when it is not fulfilled, its consequences are extended throughout the universe; the most microscopic violation becomes infinite; for the cause which is in everyone is infinite; the same thing happens when the law has been fulfilled; the awards succeed each other throughout many existences; that is why it was written; For they have obtained their awards already; for behind each award, there are many worlds in which one lived; every spirit is born again; without having lived, there would neither be an award nor a punishment; and if in the world there are infinite situations in each one’s living, it is because you lived before; and their consequences are seen now; what is not given in one existence, is given in another; rush is not known in the Kingdom of Heavens; rush is a product of the human selfishness; one lives as its slave; except the rush to know what is of the Father, no rushed one shall enter the Kingdom of Heavens; your Creator awards the spiritual courtesy; it was written that your Creator is first in all your things; rush is a law of darkness; for it is more likely for a spirit who cultivated serenity in life to enter the Kingdom than for one who lived in a rush; but being in a rush to serve another is awarded in my Kingdom; he who serves another with the intention of charity, serves the Father; for being I everywhere, I am also in the mind of every served one; every rush is born from the same philosophy which prevented your entrance to the Kingdom; it comes out of the exploitative capitalism; and it only serves it; the beast’s rush is of no use to the Father; for it does not take Him into account; if it took Him into account, it would abolish the rush; and it would teach how to cultivate serenity; there are many bad customs and immoralities which the beast transmitted you; and if it would have even been one fault, it is enough for not entering the Kingdom of Heavens; the beast or capitalism by not taking my Scriptures into account, condemned the entire humanity; that is why it was written: May the left be aware of what the right does; are not the people called the left, the exploited, the humble? And is the oppressor not
called the right, the exploiter, the rich? may the humble be aware of the immoralities of the rich; for it will be harder for them to enter the Kingdom; for it is more likely for one who has realized on time to enter than for one who seeing, let himself be carried along; at each instant that passes by, you draw yourselves more apart from the Kingdom; it depends on you exploited beings of the world; either you follow the demon or you follow the light which the Father sends you; remember that one cannot serve two masters; he who wants to be saved must renounce the illusion with which you were deceived, your free will must choose; the Father does not offend anyone; He just lovingly demands sincerity to come out of you; for in your customs you did not cultivate the true sincerity; nor any virtue which came out of my Commandments; you cultivated self-interested virtues; which do not correspond to the eternity in the Father; that is why the inheritance that you received from the exploitative demons, divides you in the Final Judgment; it divides you up above and it divides you down below; up above you are divided between darkness and the light; and down below, in rich and poor; the world of the future belongs to the humble; for every humble is first in the Kingdom; all the underdeveloped countries shall gather around the Lamb of God; they shall get united for his Doctrine; and they shall constitute the greatest power which has been known and shall be known on Earth; just then the arrogant people shall know the power of God; which expresses itself first by living Doctrine; and then in nature; every new law must be taught first; and then executed; by doing the opposite, chaos would reign in the world; for everyone is deluded; many will commit suicide; believing that the end of the world has come; no children, there is no such thing; what there is, is a Final Judgment to a life system; to a life system which is not of the Kingdom of Heavens; it is not in my Commandments; and it shall be pulled out from its roots from the human evolution; by judging what the Father did not teach, its followers are also judged; only your repentance shall make you not to figure in the legions of the exploitative demons; for no satan imitator shall enter the Kingdom; by changing your life system, a beginning of repentance shall be born in you; which shall be taking into divine account for you; for it is more likely for a repentant to enter the Kingdom than for an arrogant; I verily say unto you that no one is greater in the Kingdom, but the one who has known repentance; for he had faith and they played with his faith; that is what capitalism has done with you; backed up by the rock of human selfishness; backed up by the so-called Catholic Church; the same that blesses in My Name the damned arms, with which you kill one another; Do these exploiters
of faith not know that my divine Word says: Thou shalt not kill? they certainly know it; but, they believe they will never render any account to anybody; these false prophets of my Word do not know what is coming to them; every selfish rock which came out of their hearts shall be divided; just as they divided my flock in many beliefs; being just one God only; one sole Creator; why did they do it? they did it for ambition; for the material comfort took hold of them; they should have never done such thing; no easy-attitude being enters the Kingdom of Heavens; while millions and millions of beings do not have where to live, these easy-attitude exploiters of faith, surround themselves with temples and luxurious cathedrals; what a shame for the Universal Trinity! Just as it was in the Pharaonic epoch! it is an immorality according to my divine law; only the humble have the right to such things; for they are the first; and no humble would do that; the rock of the human selfishness shall be the first to be judged; for they have not hesitated in using the own Father to divide the world; they should have never followed the footsteps of capitalism; the illusion and exploitation belong to these two beasts; two living demons who requested a philosophical trial in the Kingdom of Heavens; this story of the beasts shall shudder all those who have understanding; for everything has come out of the Kingdom; and every light comes out of there; the world called christian shall know its future by Telepathic Scripture; just as it happened in the old world; every spirit requested it that way in the Kingdom and so shall it be conceded to them; an intellectual or polemic war shall emerge between the Orient and the Occident because of the Lamb of God; the critics could not be left out; those who think that they know it all, and know nothing; for none of them has been given the faculty of knowing the origin of things; nor any doctrine to transform the world; for every critic must see the beam he has in his eye first, before indicating someone else’s straw; all the Revelation of the Lamb of God shall be made in Rolls of cardboard and thin paper; so that the Scripture given to the world shall be fulfilled; the Rolls appear in one of the visions of the Scriptures; and its knowledge has no end; the tree is known by its fruit; by the power of transformation one knows every Doctrine that comes from God; and it is just enough that a doctrine leads to goodness, and it is of God; everything contrary to goodness, is from evil; it is of darkness; no doctrine shall be compared to the Doctrine of the Lamb of God; for no one has been given the faculty of judging the world; for in the eternal living Word of God, everything has got a hierarchy; there is a divine order in everything that has been created; each doctrine has got its time and space in relation to the creatures’ time and
space; and every doctrine has also got its attribute and quality; and the attributes and qualities of all the doctrines of the Earth, shall recognize the attribute and quality of the Doctrine of the Lamb; for all of them have come out of it; the seal of the Lamb of God is in everything; for everything was created; and everything shall be so; space and time were created, following a lovingly order of solar merit; the eternal succession of times; all of them came out of your salt of life; of your heaven made into knowledge; for your ideas that travel to space, carry the time and space of a philosophy which shall expand itself in what is material and spiritual; every idea of yours carry a seal; and according to your thinking, it is what it will be in eternity; it could be a future hell or a future paradise; everything depends on your intention; this Revelation shall make the demons shudder; for they will be the ones who shall have to rescue their worlds themselves; every creation comes out of a living cause and it matures in what is living; you have that cause; for no one is disinherited; you are microscopic children of an infinite Father; Who is almighty and Who gives everything; do you not have then a thinking life? Do you not travel with it everywhere? Just as the stars move? what is up above is the same as down below; stars and creatures came out of a same God; and they manifest themselves according to their free wills; they gain experience by requesting new forms of lives; and every one returns to the Father; this return is included by spiritual request; for no one is disinherited; no one is abandoned; the Father’s love is in everyone; and all of you are in the Father; for He is everywhere and He does not let Himself be seen; He sees everything; but He lets everything to be fulfilled in the microscopic dimension of the world-dust; He is divinely accustomed to observe planets Earths, which are like the molehills contained in a dessert.-

DIVINE ORIGIN OF THE EARTH’S POLAR AXLE DEVIATION

ALPHA AND OMEGA
DIVINE ORIGIN OF THE EARTH’S POLAR AXLE
DEVIATION; EVERY SPIRITUAL UNBALANCE
REVERBERATES IN THE MOLECULES OF THE
PLANET; THE NUMBER 318 IN THE MENTAL
DEVIATION. - Nº 63.-

Yes little son; every violation of my divine law, reverberates in the molecule; for spirit and matter came out of the same point of origin; of one same law; of one same cause; of one sole God only; matter and spirit have the same rights; no one is less before the Father; every thought when travelling to space, carries the magnetic expansion of the own planet; what is up above is the same as down below; every molecule is united to another; by an umbilical cord; and so do the ideas; for no one is disinherited; the umbilical cord that you yourselves have, has the same origin of the other cords; your science shall not be able to see this living marvel; you will have to be born again infinite times; no creature lives isolated from the universe; everything is united in a compact body; all your cells and pores are embraced by microscopic cords; the colossal suns and celestial bodies, likewise; what is up above is the same as down below; there is covenant up above and covenant down below; the imbalance of the planet’s polar axle is a deviation of 42°; and it has been taking place since the Earth was microscopic; everything started from the right instant in which Adam and Eve started to generate ideas in violation; the Earthly Paradise was a microscopic Paradise; it was the size of a ping pong ball; for one has to be very little and humble in order to become great in the Kingdom of Heavens; what is microscopic has also got what is gigantic; without coming out of its own dimension; and its creatures do not notice how tiny they are; it is a sensation requested in the Kingdom; as all the sensations which you have felt in life are requested; every sensation reverberates in matter; for you are half spirit and half matter; behold the origin of your equilibrium; he who does not have his conscious at ease unbalances himself; and every imbalanced one does not enter the Kingdom of Heavens; if your humanity had guided themselves by the morality of my Commandments in the way they were mandated, your planet would not have its polar axle deviated in 42°; before Adam and Eve violated the mandate, the axle of the Paradise was parallel to all its molecules; and there was
only one season; the eternal Spring; and one of the causes of the existence of several seasons is the disharmony that the first disobedience caused on the molecules of the planet; this transformation has been being verified with a slowness, which escapes the human calculation; in the Kingdom of Heavens or macrocosm, the living covenants of the elements of nature are done in a very slow way; and so it is that the creatures do not notice the transformation in any instant; everything that surrounds you, was born slow and microscopic; so slow and microscopic that it was born from the visible to the invisible; and in its transfer, darkness was known; for every spirit and every molecule is trialed in the transformations they request; every transformation as microscopic as they can be, is a being born again; it is a reincarnation; the microscopic molecules also reincarnate; the same thing happens with the microbes; for everyone has the same rights; and no one is disinherited; the molecules of a planet participate in your events too; for the event is also a molecule’s fact too; whose philosophy is the infinite variety in infinite results; every event has attribute and quality; philosophy and hierarchy; and the inclination of the Earth’s polar axle also has it; and the ideas that you emanate daily, also have within them, an inclination in their free will in the journey through the infinite cosmos; what is up above is the same as down below; inheritance is transmitted from trinity to trinity upwardly; and from three to three generations, downwardly; this means that every darkness or violation of the law of the Father, conducts to the own origin, but transformed in a black light; what is contrary to your light is darkness; in matter as well as in the spirit; the attribute and the quality of your salt of life, from brilliant turns into dull; when arriving into this degree of light, you shall not know the philosophies of the light anymore; every darkness is relative to the fault; and if there are infinite faults and violations in the spirit, there are also infinite kinds of darkness; the molecules of a planet give out fruits of the same resemblance; and they have at the same time infinite forms; matter’s free will imposes on its own cause of origin; and every fruit, being it spiritual or material, returns to the point of origin; it returns to the Father; and it returns transformed; for it lived a new geometry; a new birth; the molecules of all the elements, return to the Father by means of their microscopic cords; just as you do; and since everything has got hierarchy, the own cords also have it; for it has the same right as the galaxy which it is united to.-
Yes little son; the celestial drawing shows among other laws, that every molecule is first a fluid; or a gas; at the beginning everything was fire; and the molecules of that fire, created a liquid which now are the seas; the cortex was also from fire; it is the ash of the fire of the solar sparklet; the molecules contained the little pores of all the fleshes; not in the human form as you have it; for every spirit is born again; it has had many forms; it has inhabited many dwellings of flesh in many planetary dwellings; the first molecule was of a color that had the same colors that your own nature has; and for each molecule there was, and there still is a new birth; a reincarnation; for the rights are the same for the microscopic as well as for the colossal; all the transformations that you see in nature take place in every molecule; in what is colossal is the microscopic; and in what is microscopic, the colossal; this corresponds to the parable: What is up above is the same as down below; infinite creatures live in the molecules; as one lives on a planet; these microscopic creatures are the cherubs; they are the ones which govern the invisible with the visible; they are the own magnetism; they are the movement turned into reality; the cherubs are solar parents; their antiquity goes back to the right instant in which the divine Father said: Let there be light and there was light; to each celestial mandate the divine cherubs are born; they live the celestial time; in which one celestial second is equivalent to a terrestrial century; which means that for the cherubs the Earth was born just an moment ago; this law is the only control that the worlds have; for it is the own eternity; all the planets of the Thinking Expansive Universe have this control; and so it is that from each molecule, a colossal living sun is born in the Kingdom; matter transforms itself because it has a being born again; whose number is infinite; being a molecule is just an instant for the cherubs; for they have an instantaneous time and space; and so it is that when you observe the movements of your nature, the cherubs are departing and others are arriving; the
movement gone, already executed, is the departure; and the instant that comes is the arrival; this has been happening on your planet, since its own birth; there are in the cherubs as many specialties as the number of molehills contained in a desert; for the variety of nature is infinite; and at each moment new varieties in attribute and quality are being born; just as you who generate ideas; which is not a repetition of the previous one; it can be said that within the very slow aging, one is reborn again; with a tendency to diminishing; growth is an expansion whose geometry is in the own molecule; or the own little pore; and all the physical laws which accompany you requested to do it; it is a living covenant of infinite free wills; and individualities; even the most microscopic molecule has what the spirit has; in their own laws; an attribute has its equivalence with another; for a common law unites it; the imbalance of a spirit unbalances all its organism; all its cells and little pores resent it; and the 318 virtues of its thinking, too; the spiritual violation does not stop; it gets expanded; just as the universe gets expanded; light and darkness run parallel in their free wills; it is the spirit’s decision to eliminate one of them; by choosing good or evil; this philosophy of light was requested by humanity; and it was conceded to them; everyone in the Kingdom got to know each other; by saying everyone, I mean spirit and matter; by means of their respective cherubs; behold the cause of the law and parable: Every evil spirit divides itself; for the cherubs which are the component of the elements of nature, draw apart from the spirit which they got united to for an instant; that instant is the human life; the distancing of the cherubs is because they have free will; just as the spirit has it; when the spirit stays by itself, it is exposed to the own darkness; which do not respect either anything or anybody; the opposite to what takes place in the light; where one respects the free will in different degrees; although it has cost an evolutorial struggle; the molecules are formed by galaxies; just as the universe of your dimension; what is up above is the same as down below; the molecules are planets which head to colossal worlds; for one has to be first very little and humble to become great in the Kingdom of Heavens; that is how your world started; molecule by molecule; a never ending history; a history which knocks down the human history; it knocks down the falseness of the thought; it knocks down the ephemeral importance of every arrogant; the human greatness perishes before the knowledge of its own origin; all your present evolution turns into one more molecule; and each molecule has its planetary history; and its scriptures; for no one is disinherited; each molecule has its spaces and times; its final judgments; precisely because
the universe is living; it is not a universe of the dead; the real death is darkness; that which you struggle against; and you do it from equal to equal; being your free will the polar axle of your ideas; it depends on you which way you deviate the inclination of your future worlds, for they are born from your ideas; for each one makes his own heaven; and there is no world or planet which is not surrounded by a heaven; every molecule when coming back to the Father, calls for justice; just as the human spirits ask for it; and as the molecules that accompanied you in life are microscopic, the Creator listens to them first; for every humble and every microscopic being is first before Him; this Revelation shall embarrass millions of you; who give yourselves in life an importance which is a real immorality; no one is more important than anyone; every importance has got no merit in the Kingdom; all those who felt any degree of importance, shall not enter the Kingdom of Heavens; importance is unknown in the Kingdom; and everything that you have of imperfection; which did not come out of the Father, but out of yourselves; for there are infinite kinds if imperfection; in their attribute and quality; your imperfection is born from your arrogance; it was born from the same instant in which you started to govern yourselves by means of money; the supreme question that your Creator asks you is: Who invented the money which divides my children in rich and poor? I verily say unto you that only satan divides and he divides himself; it is his damned inheritance; to those who created capitalism I say: None of you, demons of ambition and exploitation, shall enter the Kingdom of Heavens; because of you this humanity shall not enter; for you deluded them with an ephemeral philosophy; which is unknown in the Kingdom of the Father; in the Kingdom of Heavens the spiritual division is not known; ambition and exploitation is not known; there everybody is equal in their rights; no one is less; your philosophy, demons, is one of the philosophical trees that the divine Father did not plant; and you shall be pulled out from your roots from the human evolution; in the Macrocosm or Kingdom of Heavens, only the spiritual merit is known; work is known; the effort and the sweat on the face; not what you are; that is why it was said to you: Thou shalt earn thy bread on the sweat of thy face; this means honesty in the philosophies; if you had been honest, there would be neither rich nor poor; and there would not be any deluded ones in a philosophy which is a total immorality; for everyone is equal before Me; and all those who do not recognize the equality of the Father, does not enter the Kingdom; your inheritance in the world is an inheritance of weeping and pain; honesty in every philosophy starts with the same consultation to the
Father’s Scriptures; and you have not done it; and you already have in sight the result of your work; a divided world; a world of hate; a wretched world; frustrated; upon you, demons, shall the world’s wrath fall; and you shall pay an eye for an eye and a tooth for a tooth; the latter one is for all those who died slaughtered in wars; which are the product of your philosophy of dominance; you shall pay in other worlds molecule by molecule; little pore by little pore; cell by cell; an eye for an eye; a tooth for a tooth; of every pain caused in the body and the spirit, of those who departed; and for every little pore which died before time is an existence of dreadful expiation; and they are trillions and trillions of existences; for the little pores that a human body has are infinite; all those who died in wars are waiting for you in the Kingdom; for they claim the Eternal the promised justice; you shall get nothing, demons, by committing suicide; it will be worse for you; for you will have to pay the violations provoked to your own pores; of your own flesh; it is a warning for what is to come to you; this same law is fulfilled by all those who have committed suicide; and they do not enter the Kingdom for eternities; until they have paid the last microscopic thing that their bodies of flesh had; the flesh perishes before your eyes, but the cherubs of the flesh come out of their molecules into the space; and they do it by their respective cords; all the pores of flesh follow the spirit; for they still feel the spiritual-magnetic attraction; this attraction ceases when the spirit in virtue of its free will requests a new destiny; and it is willing to being judged; and with the hope of going to a better world; when judging a spirit, the Father’s law does it for two reasons: to award or to punish; for the struggle in life chosen by the spirit, included obedience and disobedience; good and evil; the mandate for the human creature was to struggle against evil, above everything; one is born searching for the truth; and one dies in it; the truth being one is infinitely relative; for you requested relativity; in matter as well as in the spirit; and it was conceded to you; relativity is living; all your calculations and all your sensations have relativity; for your thinking is relative to the circumstances in the most minimal unit of time; all your ideas are relative; for your thinking is too; what is relative also has attribute and quality; and hierarchy; the universe is also relative; what is up above is the same as down below; for what is down below was created up above; the term up and down is infinitely relative; and it is relative according to the evolution that one is living; according to the attribute and quality of the salt of life one is living; the molecules by resenting the violations of the spirit, vibrate as the strings of a harp vibrate; this vibration takes place by means of
infinite and microscopic fibers; which are some other umbilical cords; for even the atmosphere has them; no one is disinherit; this microscopic or invisible variation or vibration in the molecules, is translated into magnetism; a magnetism similar to your nature’s; what is up above is the same as down below; the deviation of the Earth’s polar axle is a deviation which has an antiquity equal to the planet’s antiquity; it has as many centuries as molecules has the planet; this calculation escapes the human mind; and that is why no wise man has sensed it; every truth comes out of the most humble; for the humble is first before God; and the Creator trusts a humble more than an arrogant being; for evil is never awarded in creation; each molecule has what the spirit has; it has 318 vibrations which correspond to the 318 virtues that your thinking has; what is up above is the same as down below; all the creatures that think in nature, participate in the planetary deviation; there is responsibility in matter and in the spirit; there is progress in your present and progress in the microscopic present of the molecules; there is time up above and time down below; and there is no time that has not got its time; for time is relative to the philosophical trial of life; the number 318 is the number of the terrestrial justice; you have had 318 incarnations or being born again; this number corresponds to the salt of life of human thinking; whichever its evolution may have been; your number of incarnations is infinite within the microscopic; each little pore that your body has, is an incarnation; a transformation from the invisible to the visible and in a constant expansive evolution; the calculation of the other incarnations which correspond to all the species that you know, you shall never be able to calculate it; you were microbes in remote worlds; you were grass, water, earth, atmosphere, fire; and everything that your mind can imagine; and what it cannot imagine, that you were not; in your own origin is the divine parable: One has to be very little and humble to become great in the Kingdom of Heavens; and no one is great if they have not been microscopic; this is and shall be the universal law; up above as well as down below; by saying great to you, think in the colossal; for the creation of the Eternal Father has no limit in anything; neither in weight, form, nor philosophy; and the seed is also in you; it is in your physical ideas; the same ones that you emanate daily; for the idea does not die; it is eternal; and wanders through the infinity; and while it traverses unprecedented distances, it is germinating and developing; just as it happens to you; who are born with movement and go on developing; growing; what is up above is the same as down below; and one grows with knowledge; he who does not learn does not
grow; every covenant in the Kingdom is done with the purpose of learning; that is why you are in life; to trial lives is to be born again to a new knowledge; one goes to an unknown world in order to know it; and to learn about it; he who did not take advantage of time, does not enter the Kingdom; one second or less of wasted time is enough for not entering the Kingdom; this which seems very rigorous, is not; for the entire humanity requested to fulfill the highest morality; and it was conceded to you; this very high morality is in the Ten Commandments; and you should have led yourselves by them; in all the instants of life; second by second; and even less than a second; your way and your existence, was pruned or deviated second by second by the own life system; for living in inequality is the most immoral in the living philosophies; you, terrestrial humanity, shall not enter the Kingdom of the Father; for you make yourselves accomplices of the demons of this violation; to live in a constant injustice is to live a hell; and no creator of hells enters the Kingdom of Heavens; no capitalist of any category, enters my Kingdom; and the same goes for all those who follow them; you should have never allowed the science of good tempt you; for you were warned; from the same instant in which your first parents disobeyed; the science of good is not a science which was planted by the divine Father; and shall be pulled out from its roots; it does not correspond to the morality of the Commandments; for they teach not to steal, not to exploit, not to kill; and the capitalists kill because of their ambitions; they create wars; they get rich by their means; there is no rich who has not deceived his fellow being; the world did not fulfill what they promised in the Kingdom; all of you promised not to let yourselves be deluded; and you fell; you fell in the trials of life; repentance is left for you; for you requested it and it was conceded to you; as well as hope; the materialism that made you fall, shall fall; for the own deluded ones shall sink it; satan divides himself; he never unifies; he is like the so-called political parties; they divide the flock without consulting my Scriptures; I verily say unto you, that no demon who tried to divide my flock, shall enter the Kingdom of Heavens; every political spirit shall be divided likewise in remote worlds; for it is written: With the rod you measure, you shall be measured; I tell the so-called politicians: You should have never governed the others; do you not know that every humble is first; that the world should have been governed by them? you verily do not know it; for you do not know the true humility; the humble does not divide; the proud divides; I see that there is a category of politicians who defend the humble; great are those who struggle against the demon; for theirs is the Kingdom of Heavens; mi First-born Solar Son Christ, was
and is the first struggler against the own satan who exploits my humble; but the demon, creator of rich and poor, shall not pass further than this generation; this philosophy which came out of an ambitious science, shall not pass its own existences; for a new morality is coming to the world; and the divine Father takes it out of the own immorality created by these demons; He takes out light from darkness; for nothing is impossible for the Creator of life; the Final Judgment is already being written; it is a Doctrine which shall change the customs of the planet; customs which should never have existed; for because of them, you shall not enter the Kingdom of Heavens; every custom is living; and it claims its own morality in the Kingdom of Heavens; for no one is disinherited; when the custom is immoral, like the customs that capitalism taught you, they claim for justice; and since the customs are microscopic, they are first in the Kingdom; they are heard first; and then the spirit; it is enough that one bad custom complains, and you do not enter the Kingdom; for you turn into the cause of evil; and because of you a living evil emerged; it would have been better not to have requested being born again, on a remote planet called Earth; if in that existence the most microscopic violation emerged; as one second or less of violation is; for because of it you shall not enter the Kingdom; the world’s wrath shall fall upon the authors of the own wrath; for satan always contradicts himself; he does not know peace; just like your yoke, it shall never give peace and harmony to the world; for they drew apart from the Father’s light; and he who draws apart from the Father, finds darkness; the same given to you by the capitalist beast; just a short time is left for you demons; for you yourselves requested what is to come to you; and it was conceded to you; you said: If we fall divine Father, may justice fall on us; and you fell; for no one should violate the Father’s law; because of you demons of ambition, the Final Judgment was written; and not because of any humble; the divine Creator anticipating every event in the universe, saw your reign; He saw before the Earth was born, all your injustices and immoralities; He saw the division of His flock in rich and poor; He saw the killings you create because of your damned dominance; and by seeing this He gave the Judgment before you came to the Earth; the Final Judgment has an antiquity that you shall never be able to calculate; the worlds have been being judged since eternities before; for you are not unique in the creation; nor the last ones, before you requested to know and be born in the trials of life, others had already done it; there were already worlds in space; and their number was like the number of molehills contained in a desert; without counting those which had already disappeared from space;
many of you believe that you are unique; no conceited one shall enter the Kingdom of Heavens; many deny the heaven; they shall not enter either; for they did not believe; many deny the own Creator of their lives; no renegade shall know the Father; the most microscopic negation of His infinite power is enough to not to enter the Kingdom; many of you made fun of my First-born Son and his Doctrine; he who makes fun of the Son makes fun of the Father; and he who makes fun of the Father does not enter the Kingdom; for he has made fun of the own eternity; great are those who yell my divine Name in the streets; for they shall be exalted by the Son; they shall be awarded with the divine symbol of the Lamb of God; the little Silver Lamb is the symbol of future; it symbolizes the mental purity; the clean consciousness, the simplicity which was mandated to be cultivated; the joy which one was mandated to live with; not any one shall be able to carry it; one has to have spiritual merit; but, as you have a free will and repentance in it, you can carry it as a beginning of repentance; you shall not be alone in the weeping and gnashing of teeth; alone shall be the immoral beings of the world; the demons of the last legion of satan; those who do not take care of themselves; the immoral in the fashions; I verily say unto you that no vain fashion is valid in the Kingdom; for vanity is unknown; woe betide you abandoned spirits! Woe betide the immoral in the dress! Woe betide those who being men dressed like women! immoral of the sex; either one is a man or a woman; and woe betide those who being women dressed like men; the Kingdom is not theirs; all of you requested a sex and it was conceded to you; none of you requested to scandalize the sex; woe betide those who showed their bodies of flesh to the world! for no scandalous being shall enter the Kingdom of Heavens; it is enough for you to have shown a little pore of flesh of the intimacy, and you shall not enter the Kingdom; this scandal is spreading more and more; and more children condemn themselves; every nudist be damned up to the third generation in their children; so it is and so shall it be forever and ever; every nakedness done in public falls into damnation; and woe betide those who spare a word with a damned one; for he shall undergo the same law; yes little son; I know that you are thinking about the scandals that are seen on the beaches of the world; so it is divine Father Jehovah; I feel deeply sad of how blind they are; so it is little son; that immoral custom came out of capitalism; it came out of the tree that the divine Father did not plant; that is why it was written: May the left be aware of what the right does; by undressing, the creature uses his hands; may the left hand be aware of what the right hand does; it means that every spirit of the left must
be aware of the immoralities of the right; the left has the philosophy of work; the right the exploitation; one hand fulfills the law; the other one violates it; this means that every violation of the Father's law reverberates in matter and spirit; the hand is directed by the spiritual will; and the spirit fulfills what it requested to fulfill in the Kingdom; it requested to get united to the material flesh; trialing both the consequences of the result of a philosophy that was chosen by free will; all the molecules of the hand have this free will; and they choose according to what is convenient to them; the spiritual hesitation which everyone feels, is also felt by the molecule in its laws; which means that every spiritual hesitation, coming out of a cause, is manifested in others; without losing its attribute and its quality; a thought transmits infinite orders at the same time; to trillions and trillions of pores of a body of flesh; it is the whole assembly of covenants between matter and spirit, which participates in a thought; when one thinks, one is generating an electricity which runs through the body at a speed even greater than the own thought; they are the mental demands requested in the Kingdom; and executed on Earth; when one feels pain, the pain is localized and identified; for it has an individuality; and as it also has the expansive law, it is felt and reverberates in all the galaxy flesh; every pain, every act, every sensation, every sigh, every mental unknown, was requested by you yourselves in the Kingdom; and it was conceded to you; for each saw its own life before living it; nothing is impossible for the Creator of the universe; and every destiny manifests it, before the spirit enters it; there are gigantic screens of solar television in the Kingdom; and on them infinite covenants of life are trialed; and the spirits observe and learn; these solar televisions are called Living Arks of Covenants; and there is no creature which has not been created in them.

Isaiah wrote:

Who are these who fly like clouds, and like doves to their Windows? 60:8
The Silver Vessels in the Bible

Prophet ELIJAH from the Old Testament taken away in a chariot of fire.

2nd Book of Kings, chapter 2

2:5 And the children of the prophets who were in Jericho approached Elisha, and told him: Do you know that Jehovah will take your master from you today? He answered: Yes I know; be silent.

2:6 And Elisha told him: I beg of you to remain here, for Jehovah has sent me to the Jordan. And he said: As surely as the Lord lives, and as you live, I will not leave you. They, then, both went.

2:7 And fifty men from the children of the prophets came, and stood at a distance, and they both stood near the Jordan.

2:8 Taking then Elijah his cloak, rolled it up and struck the water with it, the water divided to the right and to the left, and the two of them crossed over on dry ground.

2:9 When they had crossed over, Elijah told Elisha: Ask anything you want me to do for you, before I am taken from you. And Elisha said: I beg of you that a double portion of your spirit be on me.

2:10 He told him: You have asked a difficult thing. If you see me when I am taken from you, it will be yours; otherwise, it will not.

2:11 As they were walking along and talking together, behold a chariot of fire with horses of fire appeared to them and separated them; and Elijah went up to heaven in a whirlwind.

2:12 Elisha seeing it cried out: My Father, my Father, the chariot and horsemen of Israel! And he saw him no more; then he took hold of his garment and tore it in two.

2:13 Then he picked up Elijah’s cloak that had fallen from him, and went back and stood at the bank of the Jordan.

2:14 And taking the cloak that had fallen from Elijah, struck the water with it, and said: Where is Jehovah, Elijah’s God? And when he struck the water, it divided to the right and to the left, and Elisha crossed over.

God takes care of His creation

PSALMS 104:1 Praise the Lord my soul. Lord my God you are very great; You are clothed with splendor and majesty.

104:2 The Lord wraps Himself in light as if with a garment, He stretches out the heavens like a tent,

104:3 And lays the beams of his upper chambers under waters. He makes the cloud His chariot, and rise on the wings of the wind;
The pillar of cloud and fire

EXODUS 13:17 And after the Pharaoh let the people go, God did not lead them on the road to the Philistine country, which was nearby; for God said: If they face war, they might change their minds and return to Egypt.

13:18 So God led the people around by the desert road toward the Red Sea. The Israelites went up out of Egypt ready for battle.

13:19 Moses took the bones of Joseph with him, because Joseph had made the Israelites swear an oath saying: God will surely come to your aid, and you must carry my bones up with you.

13:20 And they departed from Succoth camped in Ethan, at the edge of the desert.

13:21 And Jehovah went ahead of them in a pillar of clouds during the day to guide them on their way, and by night in a pillar of fire to give them light, so that they could travel by day or night.

13:22 Neither the pillar of cloud by day nor the pillar of fire by night left its place in front of the people.

The star of Bethlehem

Mathew14 2:9-11

9 When they had heard the king, they departed; and, lo, the star, which they saw in the east, went before them, till it came and stood over where the young child was.

10 When they saw the star, they rejoiced with exceeding great joy.

11 And when they were come into the house, they saw the young child with Mary his mother, and fell down, and worshipped him: and when they had opened their treasures, they presented unto him gifts; gold, and frankincense and myrrh.
