THE HUMAN BRAIN HAS 318 ZONES OF SENSIBILITIES, CALLED VIRTUES; THE GENERATED IDEAS REPRESENT ELECTRICAL IMPULSES OF A VALUE OF THREE TRILLIONTHS OF A SOLAR LINE; THE SOLAR LINE IS THE ELECTRICAL CONTENT THAT A PHYSICAL BODY HAS; THE IDEA IS BORN FROM THE BRAIN, AND GOES THROUGH THE PHYSICAL BODY IN AN ALPHA LINE; AND IT DETACHES FROM IT IN A FORM OF A WAVE OR OMEGA CIRCLE...

Page 30

THE BRAIN BEHAVES AS A SUN BEHAVES; FOR WHAT IS UP ABOVE IS THE SAME AS DOWN BELOW; THE PAST THAT THE HUMAN BRAIN DOES NOT KNOW WAS A PRODUCT OF IDEAS; THE BRAIN IS THE RESULT OF MANY EXISTENCES...

Page 39

ORIGIN OF THE PSYCHOLOGY IN THE THINKING BEINGS; REASON IS INVERSE TO THE CIRCULAR DEVELOPMENT OF THE MOLECULES OF THE ELEMENTS.-

Page 62

ALL THOSE WHO GENERATED IDEAS AND DID NOT REMEMBER THE FATHER WHEN THINKING, SHALL NOT ENTER THE KINGDOM OF HEAVENS;

Page 75

IN THE TRIALS OF THE HUMAN LIFE, SCIENCE WAS BORN; THIS SCIENCE DIFERS FROM THE SCIENCE THAT MEN REQUESTED GOD; MEN'S SCIENCE GOT DISTORTED WITH THE OWN INDI-VIDUAL VIOLATIONS TO THE LAW OF GOD...

Page 91

THE TRINITY SON IS REVEALED BY THE TRINITY FATHER; WHAT THE SON DOES, THE FATHER DOES; KEEPING BOTH THEIR FREE WILL; THE SPIRITUAL COMMUNISM IS BORN FROM THE TRINITY FATHER TO THE TRINITY SON.-

Page 104

THOSE WHO REQUESTED PROOFS IN ORDER TO BELIEVE IN THE DIVINE REVELATION THAT GOD GAVE THE WORLD, SHALL NOT ENTER HIS DIVINE KIGNDOM; FOR NOP ONE REQUESTED GOD TO DOUBT THE DELIVERY OF FUTURE DOCTRINES TO THE PLANET OF TRIALS EARTH...

Page 129

EVERYTHING THAT CAME OUT OF THE KINGDOM OF HEAVENS, PROMISED TO FULFILL IN THE REMOTE WORLDS, TO IMITATE UP TO THE MOST MICROSCOPIC, WHAT THEY SAW IN THE FATHER'S KINGDOM; WHAT IS OF THE FATHER DIVIDES NO ONE; IN THE KINGDOM OF HEAVENS ONE LIVES THE CELES-TIAL COMMUNISM; WITH A PHILOSOPHY OF A CHILD...

Page 138

ALL THOSE WHO CREATED POLITICS WITHOUT TAKING THE FATHER'S SCRIPTURES INTO ACCOUNT; SHALL NOT ENTER THE KINGDOM OF HEAVENS; THEY WILL HAVE TO PAY IN CELESTIAL POINTS, SECOND BY SECOND OF ALL THE TIME IN WHICH THEY DIVIDED OTHERS; THE FATHER'S SCRIPTURES DIVIDE NO ONE.-

Page 167

ALL THOSE WHO INVENTED RELIGIONS AND PHILOSOPHIES, WITH WHICH THEY DIVIDED THE WORLD'S FAITH, SHALL NOT ENTER THE KINGDOM OF HEAVENS; JUST AS THEY DIVIDED, THEY SHALL ALSO BE DIVIDED IN OTHER EXISTENCES; IN OTHER WORLDS...

Page 175

ALL THOSE WHO DEFENDED THE SO-CALLED NATIONALISMS, SHALL NOT ENTER THE KINGDOM OF HEAVENS; FOR THEY DELAYED THE WORLD TO KNOW THE FATHER'S UNIVERSAL CONCEPT WITH THEIR MUNDANE CONCEPT; THE SO-CALLED NATIONS ARE A PRODUCT OF A LIFE SYSTEM THAT DID NOT COME OUT OF THE FATHER'S LAW.-

Telepathic Dictation of the Eternal Father to the Emissary Alpha and Omega:

Then our brains are the product of what we were before? So it is son; for everything that one was and felt in other existences, is eternalized in the brains; what the brains feel is also felt by each pore of flesh in its microscopic present; the geometry of the sensations of each one, are united to the mental control of the own body; what each one feels is transformed into a thinking geometry; which means that what one will feel after one has left life, shall be a geometrical living.-

Everything thought in previous existences, becomes geometry for the spirit that generated ideas, when being within a body; the fibers or cells of the future brain that the spirit will have in his future body, are born from this geometries that were existences.-

The human brain and all the brains of creation, are a seedbed of future worlds.-

The brain is the receptacle of future galaxies; it is a verb of creation.-

The brain irradiates the ideas, as a sun irradiates light; and all the suns up above, were in very remote times, microscopic suns; they were human brains.-

Each cell of the brain is equivalent to a kind of magnetism, turned into sensation.-

All the brains or intelligences, that were deluded by the beast of the world, none of them shall enter the Kingdom of Heavens again; they were blind for preferring to continue improving the yoke of the world; they perpetuated inequality in the trials of life; all those who traded their intelligence to the strange life system, which came out of the strange laws of gold, divided their own fruit; they shall be accused in the divine Final Judgment of complicity with the demon of exploitation.- **ALPHA AND OMEGA.-**

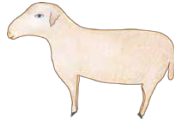

DIVINE TITLE FOR THE EDITORS OF THE PLANET:

TITLE 87.- THE SO-CALLED EDITORS WHO EMERGED DURING THE TRIALS OF LIFE, SHOULD HAVE NOT CHANGED ANY EXPRESSION OR LETTER OF THE DIVINE REVELATION, SENT BY THE DIVINE FATHER JEHOVAH TO THE WORLD OF TRIALS; THE LIVING EXPRESSION AND THE LETTER COMPLAIN TO GOD IN THEIR RESPECTIVE LAWS; JUST AS A SPIRIT WOULD COMPLAIN IN HIS LAWS OF SPIRIT; THOSE WHO FALSIFIED OR CHANGED THE CONTENT SENT BY GOD, THEY SHALL ALSO BE FALSIFIED AND TAKEN AWAY IN THIS LIFE AND IN OTHER LIVES; WHEN THEY REQUEST AGAIN TO GOD IN THE FUTURE TO BE BORN AGAIN, IN ORDER TO KNOW A NEW LIFE.-

THE HUMAN BRAIN HAS 318 ZONES OF SENSIBILITY, CALLED VIRTUES; THE GENERATED IDEAS REPRESENT ELECTRICAL IMPULSES OF A VALUE OF THREE MILLIONTH OF A SOLAR LINE; THE SOLAR LINE IS THE ELECTRICAL CONTENT THAT A PHYSICAL BODY HAS; THE IDEA IS BORN FROM THE BRAIN, AND TRAVERSES THE PHYSICAL BODY, IN ALPHA LINE; AND IT DETACHES FROM IT IN THE FORM OF A WAVE OR OMEGA CIRCLE; THE IDEAS CONTAIN TWO FORMS OF MAGNETISM; THE PHYSICAL AND THE SPIRITUAL; EVERY IDEA CARRIES ALL THE SCENES THAT THE EYES SAW, IMPREGNATED IN ITSELF; AT THE INSTANT IN WHICH AN IDEA IS BORN, A MAGNETIC IMPULSE IN WHICH THE ATMOSPHERE, BLOOD STREAM AND BRAIN CELLS PARTICIPATE, IS FORMED IN THE BRAIN AND IN AN INSTANTANEOUS WAY; THIS UNION IS CALLED LIVING TRINO; BETWEEN THE INSTANT OF THE POINT

**OF DEPARTURE OF AN IDEA, AND THE INSTANT OF
ITS MATERIALIZATION, THERE IS A MICROSCOPIC
TIME; IN THIS MICROSCOPIC LAPSE OF TIME, THE
BODY'S ELECTRICITY GENERATES THROUGH THE
SHINING LINES OF THE BLOOD, THE FORM OF
THE WILL; EXPRESSED IN A THINKING GEOME-
TRY; THE THINKING GEOMETRY CHOOSES ONE
OF THE 318 ZONES OF THE BRAIN; THE THINK-
ING GEOMETRY IRRADIATES TOWARD THE EVERY-
THING ABOVE EVERYTHING; IN ITS IRRADIATION,
THE SPIRIT FEELS A THINKING; EVERY THINKING
HAS A SPACE, TIME AND PHILOSOPHY; WHAT IS
INSTANTANEOUS IN THE HUMAN BEING, BECOMES
EXPANSIVE AND IT NEVER CEASES OF DOING IT;
THIS FACT TAKES PLACE UP ABOVE AND DOWN
BELOW; WHAT IS COLOSSAL WAS BORN FROM THE
MICROSCOPIC; THE HUMAN BRAIN REPRESENTS
A PROCESS THAT HAS OCCURRED BEFORE THE
EARTH EMERGED, FROM THE INVISIBLE TO THE
VISIBLE; THE HUMAN BRAIN IS A MICROSCOPIC
SUN; IT IS SO SMALL THAT NOT EVEN ITS OWNER
SEES ITS OWN BRIGHTNESS; THE BEGINNING OF**

THE EARTH WAS THE MICROBE, WHICH WAS BORN FROM THE FERTILIZATION OF THE SUN OMEGA BY THE SUN ALPHA; THIS MICROBE WAS INITIATED IN THE MACROCOSM, WITH A GEOMETRY THAT HAD AND STILL HAS, OF A RIGHT ANGLE OF NINETY DEGREES; THIS ANGLE IS THE JOURNEY THAT THE EARTH HAS MADE, SINCE IT GOT DETACHED FROM THE SOLAR CORONA OF THE SUN OMEGA, OF THE GALAXY TRINO.-

The brain represents all the instants that were requested in the precise moment of the reincarnation; the point of departure of every brain are constituted by the acts and sentiments that are emerging in its own development; the destiny starts in what is cerebral first, continues in the mental, and is manifested in the physical; the cerebral represents the unknown; the mental what one feels; the physical a material form; the brain is united to the everything above everything by

trillions of microscopic solar cords; the brain is a sustaining magnetism of the physical electricity of the human body; the brain is a form of light, among other infinite forms of light; what is cerebral was a request made by the own spirit, in the Kingdom of Heavens; the brains were identical in their characteristics; for the free wills do not think the same way; the reincarnation that each one requested, was made according to what one was in himself; the human life came out of the previous merit; it came out of the previous existence; before the spirit requested to know the unknown human life; just as it requested to know the existences of the past; I verily say unto you that a new brain was necessary for each existence; that is why it was written: Every spirit is born again; a new brain is required, because the previous solar saturation, was done and calculated for

different actions that would occur in the new existence; if you had the same brain, you could remember all your reincarnations; provided that you would not request to know what the forgetfulness of the past is; just as it happens to you in the present life; the brain transmutes; which means that what is known of the past, becomes a new form of life; there is no life that is eternally the same; for one came out of a Creator who has no limit in anything imaginable; and it is everyone's inheritance; the brain represents the perfection of perfections, which were achieved in other bodies, in other existences; the brain starting as a microbe, becomes a colossal sun of wisdom; this does not indicate any limit; for being the power that created it infinite, what is solar represents one of the infinite forms of creation, in the Universal Creator; every sun never ceases improving; the human

brain is in the first steps of its own living hierarchy; when one requests a form of life to the Creator, the beginning of a living hierarchy that shall never cease multiplying, takes place; each request made by each one, gives place to an eternity; which means that you have many eternities, within the own spiritual and thinking one; the expansive eternities, acquire a Creator, for no one is disinherited; and just as what comes out of you gets improved, you get improved too; and if you improve yourselves, more infinitely does your Creator; I verily say unto you that many do not believe that they had a beginning; they shall be born again in worlds where desperation is evolutionary; those who thought that way, created a future imperfection for themselves; for every idea generated on the planets becomes a planet, too; and by turning into a world, it keeps all the

characteristics of the idea that was thought; what is up above is the same as down below; all the planets that are at your instruments' scope, belong to solar creatures, who are presently in other worlds; your fruit is so microscopic that not even you can see it; the antiquity in what is colossal, is parallel in its beginning of microbe; the brain irradiates a magnetism that has two opposite directions; one force of the ideas, which is inwards; the other one is outwards; the inward constitutes the I that is not influenced by the outwards; the outwards constitutes the trials of life; if the outward did not try to understand the inward, the spirit got to know inequality; for matter and spirit did not get improved equally; there was no parallelism of egalitarian evolution; either he fell behind in the spiritual or fell behind in the material; this imbalance is not taught in the divine Gospel

of the Creator; this strange imbalance in the evolution of each one, came out of the strange and unknown life system, which came out of the laws of gold; I verily say unto you that no human spirit requested the imbalance of himself; no one in this world, requested to live un an unequal world; Who, then, created this strange world that came out of love? This strange world that came out of calculation and shrewdness toward the strange possession of gold, came out of a reduced group of spirits, who let themselves be influenced by their own complex; the strange complex of having more than what others have; certainly that the yoke of this world, came out of a group of complex-ridden to gold; and when every creature of this world got to know the strange psychology of these complex-ridden to gold, they divided all their thinking; the imbalance was idea by idea;

instant by instant; for every spirit requested to live in only one common psychology; the divine psychology of the divine Commandments was requested as a common entirety; the error of those who created the strange life system that came out of gold, did not take into account the psychology of the Commandments of creation at all; the imbalance came out of the human free will; it did not come out of the laws of nature; this imbalance constitutes a strange and unknown psychology in the human thinking; the microscopic of the divine final judgment, starts by judging this strange psychology that influenced in every mental idea; if men had not created the so-called capitalism, or unequal life system, this humanity would have known another psychology; a psychology much more similar to the psychology of the Kingdom of Heavens; there would be

infinite points of imitation to what is of the Kingdom in it; which although it would not be the same to what is of the Kingdom, it would bring it closer to the Kingdom; the strange licentiousness that came out of this psychology, divided every human thinking; and by dividing it, it confused every spirit in its return to the Father; every promise done in the Kingdom of Heavens, is at the same time a return path in order to enter the Kingdom of Heavens again; the promise which is a living word in the Father's Kingdom, becomes a return light toward the Father; the strange psychology that came out of the strange capitalism of the strange possession, created a strange light of return, for every spirit that got to know its strange influence; for the spirit gets lost in the cosmos, searching for his place of origin; behold the weeping and gnashing of teeth of an entire world;

for no human spirit has entered the Kingdom of Heavens again; all of them wander away from the Kingdom of Heavens; for nothing divided enters the Kingdom again; each idea generated by each human mind, in the trials of life, remained impregnated of a strange magnetism, which is the same strange influence that came out of possession; the human psychology just as it feels possession, is darkness; to want in the remote worlds what was not requested in one's place of origin, is darkness; it is not written in the Kingdom of Heavens; and what is not written is called strange to the existing laws in the Kingdom of Heavens; the trials of life that each one requested, consisted in not letting oneself be surprised by anything that the own spirit did not request; I verily say unto you that no one requested to live a form of life in which the strange inequality was included; for

inequality is not known in the Kingdom of Heavens; nothing unfair is known in the Kingdom; unfairness is of the remote planets, where they created strange life systems; one achieves an egalitarian life system by imitating the Father's divine psychology, expressed in the Scriptures; they did the opposite on Earth; one imitated the microscopic human psychology; the one that knows nothing of its own origin; nor does it know its own destiny; for a life trial was requested; every life trial includes the ignorance of the form in which one was created; and where one goes; the same living law that gave you a form of life, the same one shall give you the light of everything; no human creature shall ever be able to explain the origin of everything; for man was created; he did not create himself; and by not having him created himself, one does not have authority

in oneself, nor in what surrounds him; behold every human being shall witness how life is given and taken away; he will know what the reincarnations are in the power of God; the reincarnations of spirits are one of the infinite forms of giving life, which came out of the Creator; he who did not believe in his own reincarnation, shall not have a being born again to a new life; to aspire to new forms of life, one needs to have faith in such lives; I verily say unto you that everything that you imagined in the trials of life, absolutely everything, is materialized by the One who gave you life; he who did not imagine anything, shall have nothing and shall see nothing; the belief in which each one believed in the trials of life, is the eternity that each one attained; it was just necessary to think in order to have eternity; some won, and others fell in the trials of life; the greatest benefit

was obtained by the one who had less material benefit, attained in the strange life system, which came out of the laws of gold; for such strange life system was imposed to the world, by the strange force; behold every sinner who came out of the strange life system of gold, only pays one quarter of his sins; the other three quarters left are paid by those who created the strange life system, which came out of the possession of gold; if this strange world had not been forced to live such life system, the sinners would have had to pay all their sins; behold the angle of Christ; an Omega circle divided by four; an everything above everything, divided by four; behold the weeping and gnashing of teeth of the so-called powerful of the world; for all of them shall remain in the greatest misery; every rich nation, emerged from the strange life system of gold, shall remain in the most

atrocious poverty; they will have to beg for food; just as beggars and panhandlers emerged from them, in all the epochs of all the centuries; it is the fall of the great beast; it is the fall of the strange and unknown psychology which emerged from the laws of gold; it is the fall of the strange hardness and the strange immorality, with which one governed in this strange world; a world that nobody requested in the Kingdom of Heavens; for no one requested his condemnation by requesting to live in an immoral life system; the so-called capitalism deluded entire generations; creating in millions of minds, the mental distancing of the true psychology of the divine Gospel of the Father; the fall of this strange world was provoked by the beast; for it recurred to the use of force in order to be able to sustain itself; the strange beast was not sincere; for it did not have the

sufficient mental ability of withdrawing from the strange complex to gold; to possess is a right, when the laws and Commandments of the Father are respected; and it is a complex when one does things with a strange mental licentiousness; for the sensation of licentiousness was not requested by anybody in the Kingdom of Heavens; I verily say unto you that the divine Final Judgment judges starting from the most microscopic sensation that each one generated in the trials of life; there are illegal and legal sensations; sensations that carry the Seal of the Creator's morality; and strange sensations that do not carry it; if everything that one thought in life did not have the influence of the psychology of the divine Gospel of the Father, such thinking is a strange thinking; unknown in the Kingdom of Heavens; and nothing unknown to the Kingdom enters the Kingdom; the

beast that was given by the so-called capitalism, condemned you not to enter the Kingdom of Heavens again; for it divided you in the mental thinking; you were deluded and divided idea by idea; it is because of the beast that it was written: Only satan divides and he divides himself; the beast got its power and reign on Earth by dividing others; for union defeated the beast; the strange beast always taught a strange union, conditioned to its strange complex to gold; the beast constitutes the most backward that has existed in the human evolution; for they are the only guilty ones that this world will not see its place of origin; to enter the Kingdom of Heavens is to return to the point or place where one came out of; behold the originators of your tragedy; because of them you shall have weeping and gnashing of teeth; because of them you have a divine final

judgment; for I verily say unto you that if you had been given an egalitarian life system, according to the divine teachings of the divine Gospel of Father Jehovah, you would not have a judgment; for the Father would not have anything against you; immorality and every imaginable injustice, came out of the strange delusion that was given to you by the complex-ridden to gold; nothing unfair and nothing immoral has come out of your Creator; time is already up; for everything imaginable has got its time; every development whether it is material or spiritual, has got its time; and everything imaginable requested to the Father, had a beginning or point of departure, and it has an end or a limit; it is the request made by the spirit, which has a beginning and an end; the spirit is eternal; one has to learn how to distinguish the spirit's eternity, and the time of duration

of the determinations that the spirit requested; it is your determinations which are judged; it is not your spiritual eternity, which is called into question; for you have had many judgments; for you have been born to life many times; you have had many determinations in your spiritual eternity; and every determination that came out of the spiritual free will, becomes a planetary life; the planetary life as you know it, is one of the infinite forms of life that there is; for what is of God is not circumscribed to only one form of life; Were you not taught that your God is infinite? Infinite means that you should never ever have put a limit to the Father's creation; the sensation of discussing the infinity, came out of you; for you did not know the sensation of discussing the Father's infinity on the remote and unknown planet Earth; every sensation that your individuality

lived and felt in the trials of life, were requested by you; this world has forgotten that the human life is a trial; a trial that as such, has got a final judgment; this strange forgetfulness costs weeping and gnashing of teeth; for in every event that came out of God, matter and spirit participate; molecule and virtue intervene; the everything above everything intervenes; for everything was created by the Father; and the everything above everything has an egalitarian right, in their respective laws; behold a divine Revelation that shall cause another weeping and gnashing of teeth; for the divine final judgment, which came out of Father Jehovah, starts from the basis that your life trial, developed in an egalitarian or common right; but, the strange licentiousness that the strange life system, which came out of gold, gave you, distorted every imitation of

everything that came out of the Kingdom of Heavens; this constitutes the infinite remoteness from the Kingdom of Heavens, which the so-called capitalism put you into; every weeping and gnashing of teeth has the beast as a unique cause; the beast with its strange complex to gold, could never give the world the highest morality that the mind can imagine; for calculation, shrewdness and the disproportionate ambition impeded them to; the strange inheritance that the strange beast transmitted to the world, is paid by the beast second by second; instant by instant of all the centuries of its strange reign; the beast is condemned; and along with it those who imitated it; according to the degree of imitation; according to the angle of inclination, in the strange delusion towards the possession of gold; the inclination is the degree of falling of a human thinking; the fall of each one in

his trials of life, is born from the acts of the own individuality; act by act; thinking by thinking; idea by idea; from the most recondite that is not seen, up to the tangible, which is seen and touched; the recondite of every human thinking is classified in 318 different sensations; of which every spirit knows the virtues; by knowing virtues, every spirit got to know morality; for every morality is composed of 318 virtues; the human brain represents the measurement of what was requested; the form is according to the request; likewise the feeling; when the brain generates ideas, what it does is to generate primitive magnetism in the form of Omega waves; the planets that the eyes see and the human instruments, came out of this beginning; the magnetic wave called idea, becomes a colossal planet, as time passes by; each one's mental work never ceases to expand;

just as the universe gets expanded; what is up above is the same as down below; the impregnation of the idea, matures in development; its eternity is constituted by its expansiveness; it was written: Each one makes his own heaven; the maximum simplicity of the beginning of every existence, is in oneself; for everyone has a beginning and at the same time, within this beginning, other infinite ones emerge; the beginnings never repeat themselves, they are so varied, as the generated ideas are; the beginning of the human gender is found in the suns Alpha and Omega; suns of the Macrocosm; the other beginnings are created by the human free will when they generate ideas; he who does not generate ideas, creates nothing; which is impossible in the human free will; the creatures of all the planets fulfill the same law; for the worlds up above fulfill the same

laws as down below; to improve the ideas is the supreme cause of every life; for by improving the ideas, one achieves more improved worlds; he who did not want to instruct himself in the trials of life, shall find himself out of the Earth with a planetary inheritance, whose symbol or seal shall be ignorance; the human brain and all the brains of creation, are a seedbed of future worlds; thus it was in the past, it is now, and it will be in the future; the beginning of the beginnings explains in itself the facts and events that took place, in its own beginning; for the entire imaginable creation is living; unknown matter and spirits express themselves in their free wills; it is what constitutes the Revelation; the Revelation is not of human conception; for the human being did not create the planet Earth; behold the weeping and gnashing of teeth of all those who knowing

that they did not create the planet, deny that another has created it; just as they denied with no first-hand knowledge, likewise all the future planets, which were born from their own ideas, shall also deny that they are the creative parents of such planets; they divided their future; for the everything above everything has a Creator; he who disowns down below, is also disowned up above; he is disowned in the worlds that came out of his own mental power; every mental denial in respect to beyond, gives place to future worlds of negation; their living creatures shall also be confused in polemics with no cause; they shall be worlds of darkness; the receptacle of the seeds of future galaxies; it is a verb of creation; for what is up above is the same as down below; if there is verb up above, there is also verb down below; every verb is hereditary; matter and spirit have

verb; for being all of them equal in rights before God, everything imaginable has the right to create; the equality taught by the Father, escapes every mental calculation; for what is of the Father has neither a beginning nor an end; which means that the Father is before any living beginning; the brain irradiates the ideas, as a sun irradiates the light; and all the suns up above were in very remote times, microscopic suns; they were human brains; for to become colossal in space, one had to have been a microbe first; this corresponds to the divine parable that says: One has to be humble, in order to be great in the Kingdom of Heavens; and the Telepathic Revelation complements: One has to be very little, humble and microscopic, in order to become colossal in space; whatever humbler than a microscopic idea? The idea is so microscopic that it only lets itself be felt but

not be seen; and I verily say unto you that even the microbe was an idea; behold why without the cultivation of humility, it is impossible to enter the Kingdom of Heavens again; for even the Kingdom of Heavens was a microbe; behold all the kinds of humility taught by the so-called religious beings, which emerged from the strange system that came out of the strange laws of gold, shall not enter the Kingdom of Heavens; for the concept of humility that they had in their life trials, is a strange concept; the true humility does not need to be expressed with golden thrones; with majestic temples; while the humble of the Father do not have where to get shelter; such strange concept of humility, stops being humility; it passes to be immorality; the true humility does not need strange titles; for the titles that emerged from strange and unknown life systems, are not known in

the Kingdom of Heavens; the true humility is born from the masses; it is born from the log-suffering and exploited people; it is not born from the strange religions; for I verily say unto you that such strange form of faith that has the world divided, being there one God only, is not of the Kingdom of Heavens; nothing that divides the creatures of the Father, in the remote worlds, nothing of that exists in the Kingdom of Heavens; one thing is the psychology of the divine Gospel, and another thing is the religious psychology; the divine Gospel of Father Jehovah divides no one; the so-called religions that came out of the human free will, divided many; the so-called religions that emerged in the strange life system, which came out of the strange laws of gold, were a strange form of interpreting what is of God; for they interpreted it by dividing; knowing the so-called

religious that only satan divides and ends up dividing himself; it is more likely for a worker who with his philosophy of work, divided nobody to enter the Kingdom of Heavens, than for a religious who divided many; every spirit who chose the way by dividing others, divides himself, too; he divides his own award; every religious has to divide his own points of belief by the number of religions that there were in the world; the individual search is first, in the divine justice of the Father; for he who searches for the truth by himself, is more sincere than those who searched for it in associations, sects, groups, collectivities; for they let themselves be influenced by imitations; strange imitations that came out of the blinds leading other blinds; the blinds were the religious who propagated a strange faith through the world that included the mental division toward a same

God; all the ideas that the Christian world generated, in all its epochs in the trials of life, all of them are divided; what is religious was never right, the individual search always was; for being God everywhere, he is also in every individuality; individuality makes its own heaven; behold the weeping and gnashing of teeth of all those who were religious in the trials of life; the divine Final Judgment shall start with the religious rock; it shall start with those who casted the first stone, in interpreting what is of the Father; I verily say unto you that the biblical term of casting the first stone, in Revelation means to take an initiative that brings error in itself; all the ideas generated by the creatures of this world, fulfill the law of the rock; for every idea has an intention; the so-called strange religious beings are going to need the strange humility that they taught the so-called

Christian world; for with the same rod that they measured others, they shall be measured; the Revelation comes out of the own Scriptures that they falsified; being the Father's divine Word eternal, he can take out of His own divine Gospel, as many doctrines as He wants; the strange religious faith had a blind and selfish severity; it constituted itself into power; it got infected with the strange laws of gold; I verily say unto you that every church that trades with faith, stops being called church; it passes on to be called a sect; just as the religious rock is going to be called, in the weeping and gnashing of teeth; thus is how those who think of themselves as being unique, end; all the crimes committed by the so-called Holy Mother Church, shall be witnessed by the world; all the cities of the world, shall see the Solar Television in the own atmosphere; the divine

television of the final judgment; a divine television created by the own living elements of the terrestrial nature; then the so-called Christian world shall know who the real satan of this world was.-

CALLY IMPREGNATED IN THE IDEA; THE BRAIN**

MAGNETIZES ACCORDING TO THE VALUE GIVEN BY THE SPIRIT TO THE CONCEPT OF MAGNETIZATION; THE BRAIN DOES NOTHING IF THE SPIRIT DOES NOT THINK SO; BETWEEN THE INSTANT OF THINKING AND THE BRAIN'S ACTION THERE IS A MICROSCOPIC TIME; WHOSE VALUE IS THE EVERYTHING ABOVE EVERYTHING; DIVIDED BY ITS OWN NUMBER OF MOLECULES OF FLESH; THE SENSATION IS SUBORDINATED TO FOUR SQUARE CENTIMETERS OF FLESH; IN WHICH ONE THIRD KNOW HOW TO DEFINE ITSELF, AND TWO THIRDS DO NOT KNOW HOW TO DEFINE THEMSELVES; IT IS THE FUTURE; THE FUTURE TURNED INTO AN IDEA, GETS READY TO BE PRESENT FIRST, IN INVISIBLE DIMENSIONS THAT THE FREE WILL DOES NOT GET TO UNDERSTAND; EVERY FUTURE REPRESENTS A PROLONGATION OF A PRESENT; EVERY IDEA WHICHEVER IT MAY BE, HAS A FUTURE; FOR THE EXPANSION OF THE IDEA SHALL NEVER CEASE GROWING; THE PAST IS A MAGNETIZATION OF THE BRAIN, IN WHICH THE MAGNETISM OF THE IDEAS, IS BEING REPLACED BY A NEW DIMENSION, AT

THE RHYTHM OF WHAT THE EYES SEE; EVERY SENSATION IS BORN FROM A MICROSCOPIC DIMENSION, TOWARD A MACROCOSM; THE SENTIMENT IS THE DEVELOPMENT OF THE IDEA; THAT STARTING FROM A LITTLE POINT, BECOMES AN OMEGA THINKING CIRCLE.-

When the idea is generated, it puts on display each of the trillions of pores of flesh; which in its totality is called the everything above everything; every idea is of color; the same colors of nature that enter through the

and make plants and germs sprout in colossal planets; the mind is in covenant with the sun's light; and this is so with other suns; just like the mental light of an individuality, needs the support and advice of another; the ideas that are born being invisible to the human eye, become materialized out of the Earth; the microbe becomes a planet; and every planet was a microbe; the Alpha and Omega emerges from the most microscopic that the mind can imagine; the idea constitutes the beginning of every eternity; the own thinking, which is to generate electromagnetic waves, called ideas, gives place to the eternal process of generating planets; the inheritance becomes successive and it shall never cease; the ideas thought by other beings are the present planets of the Thinking Expansive Universe.-

ALPHA AND OMEGA.-

**ORIGIN OF THE PSYCHOLOGY IN THE
THINKING BEINGS; REASON IS INVERSE
TO THE CIRCULAR DEVELOPMENT OF THE
MOLECULES OF THE ELEMENTS.-**

Yes little son; reason is inverse to the development of the molecules of matter; for the human spirit requested a living philosophy in the macrocosm called Kingdom of Heavens, which contained in its invisible ideas, the psychological trial of their actions; that is why it was written: Every spirit is trialed in life; the psychology that the specialists of the Earth presently study, are psychologies that they requested in the Kingdom of Heavens; everything is requested in Father Jehovah's Kingdom; even the own life; in the

Kingdom of Heavens there is a psychology that marches parallel to the elements; which means that there is a mental understanding with matter; and I verily say unto you little son, that the human life's destiny is to arrive into such degree of perfection; the human life is a life that came out of the amorous colloquy of the colossal suns; my First-born Solar Son Christ said so: I am the Alpha and the Omega; the beginning and the end; Alpha and Omega are suns; they are placed in the galaxy Trino; which means spirituality in the Trinity; Trino means infinite things and laws; for the Father's creations, do not have either a beginning or an end; Trino also means that with three magnetic solar lines, the little sparklet of fire was born, which is the present Earth; to explain the origin of the own planet on which one is, constitutes the supreme of the psychologies; and of all the knowledge

known; for from the same place where the Earth was created, came out the knowledge that you are learning; I verily say unto you that a new Knowledge is coming to the world; this Knowledge shall be known as the Omega Knowledge; your knowledge is the Alpha knowledge or knowledge of the beginning; the attribute and quality of your knowledge, is the materiality without knowing its own origin; which means the philosophy and the hierarchy; the psychology also has attribute and quality; for there are diverse degrees of psychologists; the human thinking consists of 318 virtues; with which you act at every instant in your lives; this number is explained as follows: The 1 the Father; every known knowledge returns to the Father; from the number 1 which is the Father, every number and every calculation came out; known and unknown; 3 is the Trinity turned into flesh;

the solar magnetism decides to create the world of flesh; for there is free will up above as well as down below; what is up above is the same as down below; 3 means three in one: the Father, the Son, and Knowledge; 3 comes to the world with new knowledge and a new concept in the Trinity: Father, Son and Mother; three different people and just one sole God; who came out of one same law; of a same origin; every knowledge succeeds another knowledge; just as the creatures and the worlds succeed each other; the new Knowledge enunciates the following: Matter and Spirit are the same thing; they came out of the same law and of the same place; they came out of one God only; and manifested in different free wills; no one is less before God; neither matter nor the spirit; for all are equal in His Presence; equal in rights; the spirit has laws and matter has laws; for no

one is disinherited; matter and spirit make living covenants in the Kingdom of Heavens; for both have free wills; there is only one universe; and within this universe are all the universes that the minds have created; there is the Thinking Expansive Universe; a universe that has no limits at any instant; the universe that you contemplate came out of the first divine-mental idea; when Father Jehovah said: Let there be light and there was light, it was a divine mandate for the colossal suns; the solar luminaries started to create microscopic little sparklets; the planets that you contemplate in the universe have come out of these microscopic sparklets; the sparklet of your planet came out of the solar union of the suns Alpha and Omega; these suns as other infinite ones, continue creating sparklets of future planets earths; for the celestial time exists in the Macrocosm; one

second of celestial time is equivalent to one terrestrial century; there is everything in the Kingdom of Heavens; the Kingdom of Heavens is the maximum expression in the spirits; eternity is in your own selves; when you generate ideas, you are expanding the universe; the ideas that you do not feel and do not see with the eyes of the flesh, they do not die; they traverse to the cosmos like your spirits; the future planets are born from your microscopic ideas; that is why it was written: Each one makes his own heaven; and it was likewise written: One has to be very little and humble, in order to become great in the Kingdom of Heavens; the microscopic idea that comes out of your thinking, is expansive as the planets and the own universe are; And what else humbler and microscopic than your ideas? I verily say unto you that the most microscopic that you have are your

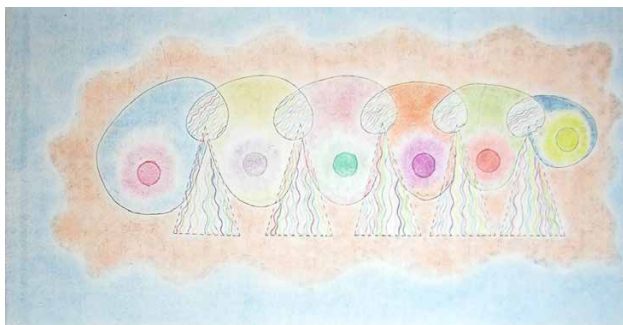

ideas; the ideas are as physical as you are; if you do not see them is because they live in another dimension; another space, another time and they have in themselves, your philosophical thinking; behold a Revelation that shall shudder this world; all the Scriptures that came out of the Father, have induced you to follow the good path; for you create your future hell-worlds from every bad idea; and from each good idea, your future paradise-worlds; the destiny of eternity, comes out of each one of you; it is because of that that it was written: Thou shalt be judged by your deeds; and there is no work that is not composed of ideas; the divine psychology is the psychology that does not divide the worlds; it directs the laws of the universe; the human life has an individual psychology; all those who think, are philosophers and psychologists per se; even if they do not

know how to discern them, they feel them and live them; I verily say unto you that if the Father who created the universes, has a free will, just as you have it, He chooses the form, the characteristics, details, the psychology, the philosophy, the epoch and the place of His divine Revelation; just as you make projects in life, thus the Father also makes them; what is up above is the same as down below; many denied the Revelation of their Lamb of God; without making the effort of finding out what they denied; I verily say unto you that all those who disowned what they requested in the Kingdom, likewise shall they be denied, when they are called to their place of origin; all those who denied, what is of the Father, none of them shall enter the Kingdom of Heavens; it is more likely for one who investigated the Scrolls of the Lamb to enter the Kingdom, than for one

who did not investigate; Father Jehovah awards the most minimal effort and punishes the most minimal violation; those who denied the Revelation in its beginning, denied it with no first-hand knowledge; they did not fulfill the divine teaching: He who searches shall find; go little son to the gathering promised at the University of Chile; May thy will be done, divine Father Jehovah; You see little son the psychologists of the universities of Chile and of the North, still do not realize; for they know nothing of the Father's Scriptures; the first of the psychologies, which the entire world promised to study, above everything; and which no one did; for I see nobody in this world who knows the Father's Scriptures, up to the last letter; I verily say unto you psychologists of the world that it is more likely for one who learned one sole letter of the Father's Scriptures to enter the Kingdom

of Heavens, than for one who studied terrestrial psychology all his life; for what is of the Father is eternal and infinite; what is of men is ephemeral and temporary; what is of God, of God is; what is of men, of men is; being psychology born along with the spirits, it is proportional to the galactic antiquity of each one; for in each existence, the spirit gets to know one psychology; for every spirit is born again; the individual psychologies have got attribute and quality; the human psychology is of terrestrial attribute, lacking the knowledge of its own origin; and its quality is to know that it is saved, according to the state of conscience; the merely materialistic psychology was requested in the Kingdom of Heavens by its creators and followers; the psychology is requested as all the living virtues of the spirit are requested; the human spirit has 318 virtues; each virtue has its own

psychology; just as the spirit has it; for no one is disinherited; I verily say unto you that goodness and evil also have psychology; and they are egalitarian in rendering account before the Father; when a spirit creates evil, the virtues accuse him in the Father's Kingdom, in the same proportion as evil occurred.-

Yes little son; this celestial drawing shows that the inverse is the distancing from reason; it passes from one dimension to another; the human reason is a little point that when another reasoning comes, it is diverted to its sides; in the drawing one can see the mental

nerves; the center of all the sensations of each creature; each one's mental center is united to infinite suns of equal sensation; for even the sensations are fire; behold the essence of the living virtues; infinity is united by invisible solar cords to each mental sensation; each mental sensation is a living part of the Ark of Covenants; your covenants with the elements expand to infinity; they get to the point of your galactic creation; they get to the suns Alpha and Omega; my First-born Son said so: I am the Alpha and the Omega; the Beginning and the End; the beginning of all your physical and mental sensations; the beginning of every attribute and quality, of every request of life; the end is the request of the final judgment; a judgment that not only the spirit requested, but also the 318 virtues of your thinking; the final judgment that is approaching is not only material, it is

by spiritual right; what the spirit does reverberates in matter; for both are equal in rights before God; every human psychology is subordinated to the divine psychology; for all the mental sensations of the creators of psychologies, must render living account of the acts done in life, not as one unit only, but particle by particle; atom by atom; pore by pore, cell by cell; hair by hair; I verily say unto you, that if the human psychology, never considered that matter had life, now it must consider it; the human concept had its time; every belief had it; now the divine concept imposes itself; the fall of the human concepts is the end; an end of the customs of the world Alpha; and a beginning of new customs of the world Omega; the final judgment is the change of a psychology for another one; for in all the requests of life, one requests changes in the natural order of events; every

event is a psychology provoked by another psychology, one determination provokes other determinations; one idea unchains other ideas; I verily say unto you that every idea that came out of every human mind, is judged from its beginning to its end; since it expressed itself up to the last consequences that it provoked; every idea that adjusted itself to the morality taught in the Father's Scriptures, is not judged; for it keeps its original innocence; Woe betide those life systems that due to their creators' ambitions, did not take the Father's Scriptures into account!! For all those who lived such life system, infected their living ideas; provoking in them the tragedy of not being able to enter the Kingdom of Heavens; for one enters the Kingdom with the same innocence with which one came out; the most microscopic influence that the ideas feel, is enough for

not being able to enter the Kingdom of Heavens; the ideas accuse the causers of their tragedies; behold the cause of the weeping and gnashing of teeth of this world; for by following a life system that did not take into account the Father's Scriptures, they followed the demon; everything of the Father is within the Scriptures; what is of the demon is out of them; your life system taught two masters; to the god of gold, and to the living God; and one cannot serve two masters; for the promise made to the Father in the Kingdom of Heavens, gets divided; no spirit promised in the Kingdom of Heavens to let itself be influenced by gold; for gold was also created by the living God; either one serves the Father with no self-interest, or one does not serve Him; your life system is a product of a producer of ambitious and hypocrites; for by serving another master, it made itself

be called a Christian world; the so-called Christian world shall not enter the Kingdom of Heavens; for one cannot enter the Kingdom of Heavens by serving two masters; either one serves the psychology of the Father, represented in the Scriptures, or one serves the psychology of gold; who serves which? may he await everything from which he served; those who served the Father in the intentions of life, enter the Kingdom of Heavens; those who in their intentions that they had in life, did not take the Father into account, do not enter the Kingdom of Heavens; for they cultivated a strange morality; a morality that did not come out of His Scriptures; the Father's morality divides no one; on the contrary, it unifies; His psychology leads to the creature's own point of origin; the strange morality distances and provokes disunion of all the virtues that accompanied

the spirit in life; all your ideas and therefore, your psychology, have as attribute and quality, the self-interest and selfishness of your life system; such immoral system is the reason why no human creature shall enter the Kingdom of Heavens; the most minimal influence in the thoughts is judged in the Kingdom of Heavens; for just as it was taught to you, God is everywhere and in everyone; in the visible and in the invisible; and the visible and the invisible have the same rights before God; the materialistic spirits have never imagined that their own ideas have got life beyond the Earth; the own ideas shall accuse them of denying them the own eternity; the materialistic being denies himself the entrance to the Kingdom of Heavens; the materialistic psychology is also a request of living philosophy; a request of something that the spirit did not know, and he requested

to know it and live it; the materialism represents the most primitive within the improved life; the great spiritualists were materialistic in the past; and the present materialistic beings, shall be great spiritualists in other existences; for every spirit is born again; what he thought in one existence, he does not think so in the other; in each existence one learns a new psychology; for one has to be born in new knowledge in order to know the Father's Kingdom; I verily say unto you that one spends the entire eternity in getting improved; for what is of the Father has neither a beginning nor an end; not even the universe has it in its creatures; the materialist denies Him in a microscopic instant and recognizes Him in another; such is imperfection; it has happened and shall happen forever and ever; I verily say unto you that the greatest fright shall take over every

materialist when they see the First-born Son, acting over nature; for He shall do it in a mental way; this dread is proper of the limited spirits in respect to infinity; in respect to what exists out of the Earth; the psychology of a materialist, is to be selfish; they limit the facts to themselves; they approve laws without knowing what could there be away from the Earth; without knowing his own origin or his future; the origin must be universal; and it must be proved; although there are beings who with no material proofs, believe; all those who believed without seeing, enter the Kingdom of Heavens; for they believed overcoming difficulties; they fulfilled what they promised in the Kingdom; they made an effort and gained in faith; I verily say unto you that all of you promised the Father to cultivate faith in the trials of life; for it was your supreme trial; it was your

struggle; faith is universal; if your Creator created you, it is because He had faith in you; even by knowing that you were going to fall; it was written that faith moves mountains; for if the First-born Son had not had faith, you would not have known him; your world would have been a world of slaves; the Roman arrogance would have gotten extended throughout the Earth, for infinite centuries; this parable means that those who improved the laws of the spirit, as it was mandated, shall receive the resurrection of their flesh; they will become children again; for they got ready to receive their awards; those who did not prepare themselves shall receive nothing; the preparation starts with the understanding of the Father's Scriptures; as it was mandated to you above everything; it is enough not to know one letter of my Scriptures, and one does not enter the Kingdom of Heavens;

those who know nothing of the Father's things, are infinitely distanced from the Kingdom of Heavens; this voluntary pride puts them apart from the laws of the light; they are placed in darkness; I verily say unto you that such beings shall curse their own life system; they shall curse the demon that deluded them; he entertained them while the seconds of life slipped away; instant by instant you get away from the Father's Kingdom; for this distancing to stop, you must change of life system; for such immorality is not known in the Kingdom of Heavens; neither does it figure in the Father's Commandments; your life system is a beast of strange morality; and no form of morality that is not of the Scriptures shall enter the Kingdom of Heavens; I verily say unto you that the so-called Christian world is the strange morality; which came out of a strange form of

interpreting the Father's Scriptures; this strange form is the material adoration; an adoration that violates the Father's mandate; the Father's law says: Thou shalt not worship neither temple nor any resemblance; but the so-called religions did the opposite; I verily say unto you that is unknown in the Kingdom of Heavens; it is of a pharaonic origin; it is demoniac; it is more likely for one who fulfilled the Father's law to enter the Kingdom, than for one who practiced the strange material adoration; this adoration does not make anyone advance; on the contrary, the spirit falls into strange sensations; he becomes hypocritical; he goes backward in what is moral and spiritual; the highest adoration to the Father is the practice of work in any of its forms; the creature fulfills the law, and gains in spiritual merit before the Father; by his own effort; by his own sweat

on the face; the so-called material adoration deprives him of such an advance; it is not necessary to adore the Father materially; Were you not taught that your God is in everyone and everywhere? He is also in your ideas and intentions; and being within you, He does not need to be expressed outside; for what is outside confuses and divides; the world is confused with so many beliefs; being there just one God only; I verily say unto you that every demon who divided the world's faith, shall pay for it; these scarcely evolved spirits forgot the divine parable: Do not do to others what you would not like others to do to you; for they would not like to be divided and confused; and not enter the Kingdom of Heavens; these mundane spirits forgot the divine warning: Only satan divides himself; the religious rock divided itself in many religions, and it divided a world; this

world that was divided in its concept that it had about the Father, is the world that shall not enter the Kingdom of Heavens; no world or humanity that was divided by an alien teaching of the Father's Scriptures, have entered the Kingdom of Heavens; the so-called religions are beliefs alien to the Scriptures; for its fruit is to divide and not let them enter the Kingdom of Heavens; it is more likely for one who did not go apart from the Father's Scriptures even in the most minimal to enter the Kingdom of Heavens, than for one who drew apart; I verily say unto you that no so-called religion shall remain in this world; nor any philosophy that has divided its fellow beings; it is more likely for a humble worker to enter the Kingdom of Heavens, than for a religious being; the worker fulfilled he mandate and divided no one; the religious one did not fulfill he

mandate and divided many; behold the weeping and gnashing of teeth of the rock of the human selfishness; of which it always preached, dividing the world; behold the blinds leading other blinds; behold those who never imagined that the Final Judgment would start from them themselves; for all the Father's spirits are trialed in life; starting by those who had more influence in the destinies and events of the world; by those who casted the first stone of: Philosophies, sciences, opinions, doctrines, governments, laws, rules and every form of planetary organization; I verily say unto you that it would have been better for them not to have created such stones; if in them they did not exalt the Father above every stone; thus every human spirit promised it in the Kingdom of Heavens; when one promises and does not fulfill, the spirit gets divided; and this law is also

valid on those who also promised in the human laws; he who promised another and did not fulfill, having been able to do it, shall not enter the Kingdom of Heavens; it is more likely for one who fulfilled his promise to enter the Kingdom, than for one who did not; behold a weeping and gnashing of teeth for the so-called politicians of the world; those who promise millions of minds and do not fulfill; one cannot fulfill by dividing; one cannot serve two masters; either one serves everyone or one does not serve anyone; for all are equal in rights before God; the so-called politicians are not known in the Kingdom of Heavens; as likewise the philosophies that divide others are not known; Politicians of the world!! If you were one and did not serve the humble above everything, it would have been better for you not to have requested the experience of understanding others; Woe

betide you, if those who you tried to understand, never got united!! The Father's judgment shall fall on you; because of you this world perpetuated its division in nations; every divided world, does not enter the Kingdom of Heavens; only satan divides and he divides himself; just as you divided others, thus shall you be divided between light and darkness; a strange morality of yours; your morality is not a morality of the Father's Scriptures; it is a strange morality that came out of a false concept of freedom; the freedom that came out of the Father divides no one; for it teaches no one to be self-interested; your freedom is licentiousness; for you dared to contradict the Scriptures; you taught doctrines that are not in the Scriptures; you promised before the Father, not to divide anyone in the most minimal; nor you would let anyone divide you; I verily say unto you

that all those who followed strange doctrines, which are not in the Scriptures, divided themselves; and no divided spirit shall enter the Kingdom of Heavens; and all those creators of such doctrines must render account in the final Judgment of how many children they divided; behold the end of the human creations; for everything that was created out of the Father's mandates, nothing remains of it; only what is within the Scriptures remains; what each one thought in life; the intention of your own ideas; behold a Revelation that shows you that each parable of the Scriptures, was said for what each one keeps inside; what is outside becomes dust; the interior is the free will; the generation of ideas; they are the ones that shall indicate you your destiny out of the Earth; the materialistic world was a world that requested to be trialed in materialistic laws; these spirits

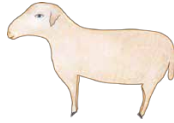

were told that such knowledge would lead them to disown the Creator; but, they insisted to know what they did not know; every insistence is conceded; for the Father is almighty; He is the Creator of everything that shall be; I verily say unto you that every materialist was a materialist in other existences; he got to know other materialisms of other attribute and quality; each epoch lived represents to the spirit a time that he did not know; for the events of one life are different from another; the variety of the experience is infinite; and in no existence does one have the sensation of having achieved perfection; only the Father is perfect; every perfection comes out of the Father; I verily say unto you that all the spirits request and choose their destinies; at the beginning everyone is free; as they are getting to know lives, they change; there is no eternal individuality of only one

attribute and quality; when the spirit is born again, he develops new individualities, and keeps only one at the same time; behold a new Revelation that is Trinity; many individualities subordinated to only one; just as the Trinity in the Father, three people and one God only; the Father's Trinity is shared with everyone; for it is in everyone; and it is in every justice and merit; that is why the ones that are closer in the Father's Trinity are the colossal suns of the universe; the first-born suns; behold the light over the Trinity; the infinite universe with Father Jehovah as a leader; having Him created everything, he delegates powers in everyone; for the Father is Almighty; He gives opportunities to everyone equally; the first-born suns are the older children of the Father; the oldest after the Father; what is of the Father has neither a beginning nor an end; but His

creations had a beginning; even if they are terrifying ancestries; for there are solar suns that not even them know when they were created; every beginning came out of the Father, and it returns to the Father; he lives for some instants on remote planets; it gets to know other relative times; and it returns to the Father's celestial time; the more lives that are known, the greater is the child's hierarchy in its Trinity; its glory is greater in the Kingdom of Heavens; only knowledge is power in the Kingdom; and every knowledge had Father's Scriptures as a guide; for every planetary dwelling has Holy Scriptures; no one is disinherited; every knowledge learnt in the worlds corresponds to the divine parable: Thou shalt earn thy bread on the sweat of thy face; with your own merit; with your own effort; I verily say unto you that the divine intention in such mandate did not

include your shameful life system that has gold and its sequel of calamities, suffering and injustices as a basis; such mandate, the oldest one of the universe, only contained one sole divine thought; thou shalt earn the Glory, within the Scriptures laws; all that is out of them is not a philosophical tree that came out of the Father; and it is pulled out from its roots from the human evolution.-

**ALL THOSE WHO GENERATED IDEAS AND

ATED IN THE NAME OF THE FATHER; IT IS

OUT THIS INHERITANCE-REQUEST, AND
ONE DOES NOT ENTER THE KINGDOM OF
HEAVENS.-**

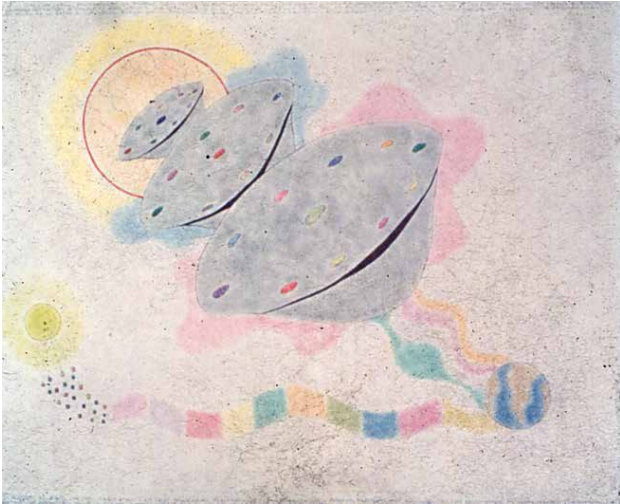

Yes little son; I know that you see the ideas in the beings of nature; it is a bud that was in you since you were little; everything matures in the creation; an everything is manifested at the instant that it must be manifested; So it is divine Father Jehovah, by your divine

grace, I see how the beings' ideas travel to space; I see infinite flying saucers collecting the ideas; I see that the ideas have the same colors of nature; and they have their own life; I see that they come out of the solar cord, in a linear way and as they go away from the Earth, they become circular; So it is little son; it is the Alpha and Omega turned into living ideas; the physical ideas are the galactic seed that the silvery ships collect; known in the Kingdom of Heavens and in the Father's Scriptures, as the Salt of Life; for future lives and planets are born from every microscopic idea; the physical ideas represent the Father's inheritance in a microscopic degree; an inheritance that shall never cease expanding; for what is of the Father has no limits in anything imagined; the ideas are for you the most microscopic physical bodies that you can imagine; no one does ever deny

their ideas; nor does the idea disown the one that created it; idea and creature form the living magnetism in order to create future living worlds; every idea that your mind generated, requested in the Kingdom of Heavens that when being created as an idea on Earth, the spirit did so by thinking of the Father above everything; which means to think in the thought of thoughts; for all the thoughts have come out of the Father's divine thought; every thought contains ideas; and each idea is a request made in the Father; every act done in life by each one of you, is simplified in the Father's justice, to its minimal expression; to a simple idea; the Final Judgment is an intellectual judgment to what you did in life; from the precise instant in which you started to think with first-hand knowledge between good and evil; starting from the age of twelve; I verily say unto you that with the

Final Judgment the so-called Rule of Law ends in this world; a human form of doing justice out of the Father's Scriptures; for this world's justice legalized rich and poor, they did not abolish them; rich and poor are not known in the Kingdom of Heavens; only equality is known; this strange justice of your world, comes to an end; for every spirit is trialed for an instant by the Father; that instant to the Father represents to you centuries gone by; in which your free will requested to be trialed; it requested to be trialed idea by idea; letter by letter, thought by thought; expression by expression; phrase by phrase; and every spoken word; for there are also those who did not speak; but the thought had the same intention; I verily say unto you that for a simple pause said or thought with an evil intention, is enough for not entering the Kingdom of Heavens; for even the most

microscopic pause accuses in the Kingdom of Heavens; when one did not mention the Father above everything; he who distorted the virtues of the own thinking, is not welcomed to the Father's Kingdom.-

Yes little son; the celestial drawing shows that the ideas generated by the mind, go through infinite dimensions in their cosmic journey; the ideas travel in free will; they get separated in infinite distances, one from the

other; always united by their solar cord; just as those who form carnal families on Earth; what is up above is the same as down below; I verily say unto you that every kinship in the flesh, is inseparable in eternity; even if it only serves in a momentary form on Earth; every sexual relationship gives place to a galactic inheritance which shall have no end; the kinship lives with an own free will; if the kinship complains before the Father, it is because the Father's law was violated; in every complaint of the living kinship, the creature's everything above everything participates; flesh and spirit participate; for you are both things; virtues and molecules participate in the justice; trillions and trillions of intelligences that dwelled in you participate; this Revelation was taught to you in the Father's Scriptures, as the Ark of Covenants; which is communism in the individuality; composed

by flesh and spirit; composed by everything that you are; I verily say unto you that the most microscopic mental or physical violation, reverberates in the everything; for matter and spirit are solidary by celestial request and mandate; this union in each of you, has its attribute and quality; the infinite diversity of being as one is; and everyone in this world, requested the Father to respect each other; for which you requested the light of the Ten Commandments; he who did not respect them, shall not enter the Kingdom of Heavens; for the Commandments are as living as your spirit is; the divine Commandments await everyone's return; for they made divine covenants with everyone; for no one is disinherited; I verily say unto you that the number of intelligences of your spirit and flesh are so immense that the right to importance becomes nullified; no one is important but

the Father; Who created the right of importance to be trialed in this world; I verily say unto you that every judgment in the Father leaves nothing to fate; for everything requested to be constituted in a living law; what you call luck, is a thought that has no law; for you know nothing of what you talk; luck is a philosophy to venture; with no destiny within the law; for you were mandated to cultivate faith; certainly luck is of a doubtful faith; for it is a product of a psychology, which came out of a strange life system, based on gold; I verily say unto you that no one of those who trusted the so-called luck, shall enter the Kingdom of Heavens; it is more likely for one who never pronounced the word luck to enter the Kingdom of Heavens, than for one who pronounced it; for the strange psychology shall complain to the Father why no one knows it in the Kingdom

of Heavens; and this complaint is enough for the spirit that caused everything to remain out of the Kingdom of Heavens; this example demonstrates that every psychology influenced by what is material, becomes a living morality in its return to the remote suns; just as it can be seen in the celestial drawing; the most microscopic act done in life becomes a living morality before the Father; I verily say unto you that this morality is the own innocence with which you came out of the Kingdom of Heavens; and you must return with the same innocence; your supreme trial in life was to keep the innocence; in spite of the strange life system called capitalism; I verily say unto you that this life system whose god was gold, must pay for all the innocence that was corrupted; for all those who shall not enter the Kingdom of Heavens; for there is no other greater culprit than the immoral

beings of gold; behold the demon of this world; behold those who through many centuries did not take the Father's Scriptures into account; one pays this indifference up to the last instant of the centuries; if the Father punishes every sinner, He punishes the life system in which the sinner got along, a thousand times more; for he was not taught the equality taught by the Father; I verily say unto you that a sinner who had to bear an unfair life system is closer to the Kingdom of Heavens, than for one who was the author of such life system; I verily say unto you that the so-called capitalism shall fall amidst the weeping and gnashing of teeth; its tragic end has as a cause, to have originated other tragic ends in many creatures, through the centuries; everything is paid in life; nothing remains to fate in the Father's justice, not even a second; nor an instant; nor a hidden

idea; even more, everything that not even you understood in life, is judged; I verily say unto you that all the human knowledge, is judged; for it came out of human ideas; behold a Revelation that shall frighten all those who always believed that they knew it all; the own knowledge that you created is as living as your spirit is; with an own free will; and every knowledge accuses their creators when they did not consider the Father; the same law is fulfilled in every art, science, literature, philosophy, histories; and the accusation is idea by idea; instant by instant; act by act; I verily say unto you that a new knowledge is coming to the world; for a new world is born; a world that the deluded ones never imagined; for they never investigated what is of the Father; they never searched; no one who never searched in his life shall enter the Kingdom of Heavens; for they failed

the own promise made to the Father; I verily say unto you that you promised all; everything that your mind can imagine; that is why your Creator put in his Scriptures: Thou shalt adore your God and Lord above everything; behold the prophesy of a future way of expressing of your Creator; for the term God and Lord came out of you; a form of expression of your evolution; you call the same God in many ways; I verily say unto you that that disagreement in calling Him, is a lack of love in a common search; I verily say unto you that it is more likely for a humanity who searched for just one sole Name for the Creator of everything to enter the Kingdom of Heavens, than for a humanity that did not care for doing it; certainly the arrogance of the so-called religions, is the one that created confusions of names; I verily say unto you that no religious being shall enter the

Kingdom of Heavens; nor anyone who sowed confusion; I verily say unto you that the strange religious form, is unknown in the Kingdom of Heavens; and every form of violation is unknown; the Father's Kingdom is a Kingdom of one sole Father only: of one term; that divine term is Father Jehovah; for one cannot serve many masters; I verily say unto you that he who served many masters, shall not enter the Kingdom of Heavens; for the belief is living; and it accuses the spirit who confused it with many Gods; only one God shall remain on this world; for there has always been just one God only; the truth is one; no world that has made several truths out of one truth, enters the Kingdom of Heavens; behold the tragedy of those who believed in religions; for they were divided in their beliefs; only satan divides and he divides himself; no divided spirit shall enter

the Kingdom of Heavens; no one who believed in the so-called religions, has been able to enter the Kingdom; it is more likely for one who never heard talking about religions to enter the Kingdom of Heavens, than for one who heard it; for the ear is living before the Father, and it accuses the spirit who let it hear a belief which is not of the Kingdom of Heavens; behold a weeping and gnashing of teeth of those who went to religious temples; I verily say unto you that the only material temple is the own home; Were you not taught that your God is everywhere? And if He is everywhere, why the luxurious temples? I verily say unto you that the temples have never been of Father Jehovah's pleasure; and much less the temples which are the product of the exploitation of faith; the commerce of other's belief; behold the rock; the so-called church, created in order

to interpret the Father's Scriptures; a false and erroneous interpretation of the Father's Gospel; the so-called church of this world became allied with the followers of gold; it did not combat them; for one has to combat the demon; this strange church says that they serve one God only; in circumstances that it serves several and none of which it serves shall open the Kingdom's door to them; for they distorted the Father's Gospel; it would have been better for the religious spirits not to have requested the Father the trial of teaching His divine Word, by dividing the mind in many beliefs; for they shall be accused in the Father's Kingdom of having confused millions of minds; I verily say unto you that the so-called Christian world shall despise them; for they originated the greatest tragedy in every human spirit's destiny; there is no greater tragedy than knowing that one

shall not enter the Kingdom of Heavens; I verily say unto you that Father Jehovah's Revelation shall impose itself in this world; just as those of the past imposed themselves; no human law shall be able to impede it; for the Father is in all of them; Were you not taught that God is everywhere? He is also in your laws; I verily say unto you that the end of your trials arrived; for every life trial has its end; you shall know laws and things of the Kingdom, as they have never ever been known in this world; you shall know what happened in the point of the universe where you came out of; you shall get to know your past; for every spirit is born again in uncountable worlds; and by being born again, it is leaving behind a past that was lived; you have had many presents; and you shall have them for all eternity; you have lived many planetary judgments; because nobody is unique in

his experience; the world you are in shall witness the Glory of a Solar Son; who arrived to the world shining like a sun of wisdom; you shall contemplate what the Hebrew people contemplated in the past; as likewise did the Roman people contemplate; and you shall shamefully see that the power of humility has no equal; the glories of the Earth are nothing; the nations shall shudder; for the end as such arrived to them; for one flock shall remain; I verily say unto you that the plurality of nations was never of Father Jehovah's pleasure; for reigning by being divided is proper of satan; the nations in themselves are not the tree that the divine Father planted; for you did the things according to gold and not according to the Scriptures; he who followed gold remains with death; he who guided himself by the Father's teaching, becomes a child again; he is resurrected into

new flesh in the year 2001; behold the divine justice that you yourselves requested in the Kingdom of Heavens; a justice that penetrates in everything that you did in life; in the most recondite and microscopic of your mind; it penetrates in every idea that you yourselves generated and which you never saw.-

IN THE TRIALS OF THE HUMAN LIFE, SCIENCE WAS BORN; THIS SCIENCE DIFFERS FROM THE SCIENCE THAT MEN REQUESTED GOD; MEN'S SCIENCE GOT DISTORTED WITH THE OWN INDIVIDUAL VIOLATIONS TO THE LAW OF GOD; MEN'S SCIENCE SHALL BE CALLED A STRANGE SCIENCE BY THE SON OF GOD; THE WEEPING AND GNASHING OF TEETH SHALL TEACH THE HUMANITY IN TRIALS OF LIFE THAT NO SCIENCE TRIUMPHS IF ITS CREATURES DID NOT FULFILL THE DIVINE MANDATES OF GOD; FOR JEHOVAH GOD SHALL PUT A PLANETARY OBLIVION OF WHAT THE STRANGE SCIENCE OF MEN WAS; EVERY PLANETARY SCIENCE THAT IN ITS EVOLUTION INCLUDED THE VIOLATION TO THE LAW OF GOD, IS NOT OF THE KINGDOM OF HEAVENS; AND BY NOT BEING FROM THE KINGDOM OF THE ETERNAL, NOT EVEN ITS REMEMBRANCE REMAINS IN THE REMOTE PLANETS OF TRIALS.-

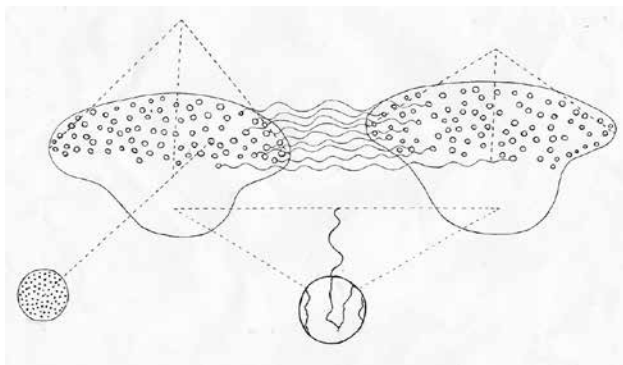

Yes son; the human science exalted itself without excluding inequality in the laws of the own life system; the trials of life consisted in overcoming the inequality that came out of the own men; the creators of the human science shall not receive any award on God's part; for every science that does nothing toward injustice, receives nothing; the most microscopic human mental act is inseparable from the psychology of justice; for everyone requested justice to God; no one requested God an individualistic justice; for it enclosed a form of selfishness; humanity requested God a collective justice; for neither selfishness nor division is known in the Father's Kingdom; the collective, the common, the unitarian is a natural law in the Kingdom of Heavens; the world of trials was taught that satan tried to divided God's Kingdom; but, he was thrown out of the Kingdom; likewise the

scientists of infinite planets of trials whose sciences were indifferent to what is egalitarian, are also thrown out of the Kingdom of Heavens; for in the infinite justice of God, every imitation to satan, is considered like a treason to the laws of the light; the fact of defending what is unfair, is like choosing satan's law; to defend what is fair is, was and shall be the first in the requirements to save the soul; for no indifferent toward what is fair, none of them has been able to enter the Kingdom of Heavens; it is more likely for those who defended justice in the trials of life to enter God's Kingdom, than for those who fell into a strange indifference; it is more likely for one who made of justice a proper entirety; for he created in himself a microscopic replica of the Eternal infinite justice; it is the microscopic imitation of each one's way of being; the improvement of the

habits exalts the laws of the light; and light claims in the divine judgments of God; he who cultivates indifference or division that harms others is claimed by darkness; the trials of the human life had two options, either light or darkness; it had two masters; it depended on each one's free will to be placed in one of them; for the world of trials was warned that one could not serve two masters; the example had to be defined; for no one requested God to do things half way; and the so-called scientists did so halfway; on one side they made merit and on the other they got distorted; they contributed to the strange reign of the beast with their knowledge; they ensured it in its power; the contribution of the so-called scientists perpetuated in the world of trials, the reign of division and inequality; in the divine Final judgment the Son of God, addressing the multitudes,

shall tell them: Those who in their forms of faith divided what is of my Father, go to the right; those who in their forms of faith did not divide what is of my Father, go to the left; among the first all the so-called scientists who served the beast; those who served the most influenced by gold; for in the trials of life, one had to know who he served; one had to beware oneself when serving others, of not perpetuating neither injustice nor the division of the world; one had to beware of the attitudes and sensations, with which one contributed to the unhappiness of others; for attitudes and sensations shall be divinely judged molecule by molecule; this will be because humanity requested God, a divine judgment in which the human creature did not forgive a single molecule of himself; there is an unprecedented severity in the divine Judgment of God, it is because this

severity was requested by the own human creature; the Eternal is so infinite in power that He has no need to impose; the divine Father Jehovah has neither limit nor complex of power; one simply requests Him; so it is that all those who live on planets, they requested it to God; and all those who requested Him the divine judgments on their respective planets, also requested the characteristics of their judgments; severity is included among the characteristics that the divine judgment has for humanity.-

The celestial drawing shows that the divine

science with which Father Jehovah created the universe, is a common science to all the celestial bodies; the Thinking Expansive Universe was born from a same mandate of God; this beginning is still in development and expansion and it shall never cease growing; the eternal movement is found in the own universe; just as the creature's growth is found in his own body of flesh; the Celestial Science does not include the division of the universe; for the universe has an endless continuance; this means that every science that was a private science of certain individuals, has no inheritance neither on Earth nor in the universe; the science that came out of the strange world which came out of the strange laws of gold, will have the same destiny that the pharaonic science had in the past; its fruit shall be oblivion; for not even dust shall remain of the so-called science of the

so-called capitalism; this truth was divinely announced in the divine Gospel of God; the parable that says: From dust you are and to dust you shall return, announced that every human work that violated the divine law of the Father, would not remain in the future of the human evolution; for it is more likely for what did not violate what is of God, to remain triumphantly on Earth, than for what violated it; the so-called human science and all those who belonged to it, reduced their points of light to dust; to them it is as if they had wasted time, in the trials of life; and all those who waste time in their respective form of life, also miss their entrance to the Kingdom of Heavens; when the so-called scientists served and exalted the beast, they served and exalted satan; for the beast divided in order to reign; the scientists of the Earth were voluntary blinds; they served the

division of the world in spite of the warning that for centuries was in the divine Gospel of God; if the so-called scientists had not served the beast, they would enter the Kingdom of Heavens; for their efforts and work, would not have the division against them; the science and work that everyone requested God, was a request made in an egalitarian psychology; for no one requests God psychological forms which are proper of satan; when one is in the Kingdom of Heavens, one lives a divine psychology of brotherhood; no one thought about nations there, for such way of thinking included the strange division that satan exerted over the angels of God; if an organization that included the so-called nations on the Earth was formed, it was because a group of complex-ridden to gold found in it, a strange form of nurturing the strange sensation of power and dominance;

the reason why the world has been divided in nations is found in individual complexes; the trials of life consisted in not letting oneself be surprised by the complex-ridden individuals; the world of trials shall get to know the first complex-ridden to gold, on the solar television; and the first scientists who fell into division in the trials of life; the so-called scientists who served the beast, the Son of God shall not forgive them a single molecule; for they gave themselves the best education, in a world with unequal laws; the divine Father Jehovah never takes away the right to improvement from anyone; what the divine Father does not accept is that those who had everything, education and abundance, have been so indifferent toward those who had a little or nothing; for it is more likely for those who had a little or nothing in the trials of life to enter the Kingdom of Heavens, than for

those who had while others had nothing; the fact of having or possessing, implies an infinite justice before God; what one had whether it is education or material possession of something, one renders account of it to God by molecules and by seconds; in the weeping and gnashing of teeth, the so-called scientists shall realize that no one mandates himself alone; and those who served a strange justice called the beast, have to pay for it; for it was their own spirits who requested to pay for it if they turned to be blinds, during the trials of life; if they did not realize that those who they were serving, made others undergo suffering; and the so-called scientists of the beast fell into blindness; they were blind toward the rights of others; when every scientist defends his own, he made fulfill in himself the divine parable-warning that says: They see the straw in their fellow being's eye

and do not see the beam in their own; the so-called scientists of the beast shall lose all their rights and properties in the weeping and gnashing of teeth; thus they requested it in the Kingdom of Heavens; in the planetary life trials, those who contribute with their ignorance to a system of unequal laws, to propagate its reign, shall be called traitors to the divine laws, by the Son of God; the trials of the human life consisted in exalting an egalitarian justice; it consisted in imitating even in a microscopic way, the divine equality of the Kingdom of Heavens; what is existent in the Kingdom is unique; and the thinking spirits always proclaim it as the only thing worthy of being imitated on the remote planets of trials; the beast magnified itself in a limited way; this limit was marked by the own limited sensation; which enclosed itself in an ephemeral present and which did not

want to recognize the existence of eternity; the drama of the beast shall be verified by the entire world of trials; for desperation shall take control of the beast; in the weeping and gnashing of teeth, those of the beast shall fall into a wave of suicides as has never been seen nor shall it ever be seen in the world; it is the demoniac drama of those who weakened their mental resistance by denying the faith in the Father; for they trusted everything to the power of gold; the beast and all the influenced by gold, prepared during life and at any instant their own and weakened sensations that in the weeping and gnashing of teeth shall place them on the verge of suicide; the true morality is forged during life; and the long-suffering and the experienced in the activities of life have the true morality; the true morality is not possessed by the easy-attitude beings, nor the spoiled ones,

nor the influenced by gold; the true morality is possessed by those who having undergone suffering in life, never gave in; the true morality is possessed by those who did not get to know the strange world, that was ruled by gold; for they had a more elevated psychology and less self-interest; the children have the true morality; for the beast still does not pervert them; because their sensations of children have not been deluded by gold; for it is more likely for one who knowing about the beast, avoided its influence to enter the Kingdom of Heavens; for he preferred to continue living with sensations of children; which are the sensations proper of the Kingdom of Heavens; for in order to enter the Kingdom of Heavens, it is impossible for one who having requested a life trial on a remote planet, let himself be influenced by strange sensations, which in their laws as such included

the limit, the ephemeral, the skepticism, and even the denial of the existence of a Creator; the remote planetary trials requested by the spirits since immemorial times, always provoke dramas in those who request them; for to know lives on the planets, one's own responsibility is included; every own destiny is in direct relationship with the own destiny; for it was written that each one makes his own heaven; and heaven emerges in each one, sensation by sensation, idea by idea, thought by thought; for in the responsibility requested to God, each one creates his own future body of flesh; and every body of flesh is one's own work done in other existences, in other worlds; it is the fulfillment of the divine mandate of God that says: Thou shalt earn thy bread on the sweat of thy face; for by earning one's own heaven, it is executed molecule by molecule; and it is more likely

for one who in his effort did not violate a single molecule to attain a heaven; for no one requested God a single molecule of a future fall or violation; so it is that the so-called scientists of the beast, did not request God to put their science under the service of the unequal, and much less the unfair; the weeping and gnashing of teeth shall be the spectacle of a world, that believed to serve what is correct, and that all of a sudden realizes with dread, that they were serving satan; from the instant in which one was serving a selfish life system, one was serving the demon; and one had to beware of serving satan, in the trials of life; satan surprised the world of trials; for satan took the form of a strange life system, unknown in the Kingdom of Heavens; those who lived on Earth had to warn about it; for such thing was within the laws of the trials of life, requested to God;

humanity should have demanded the creators of their own life system, the obligation of the knowledge of the divine Gospel of God; for everyone was taught that what is of God was above everything; it was also above every initiative of creating an unfair life system; but a few were the ones who warned that satan took the form of a strange unequal life system; these few were the revolutionaries of life; these spirits are called prophets in the Kingdom of Heavens; and it is more likely for those who in the trials of life preferred to be revolutionaries, who struggled against a strange life system, unknown in the Kingdom of Heavens, to enter the Kingdom of Heavens, than for the blinds of their rights, who did nothing before a world that forced them to live in inequality; certainly those who fall asleep in their trials of life, do not enter the Kingdom of Heavens again; it is more likely

for those who were awake in the struggle for life to enter; if the world of trials had not consented the creators of the so-called capitalism, everyone would have entered the Kingdom of Heavens; for the faults committed would be minimal; and because it is more likely for one who had the minimal in faults to be given an opportunity by Jehovah God, than for one who went too far; the beast went too far in its strange laws; for the beast got tempted by the use of force; it based itself on it in order to impose a life system; it is because this strange licentiousness that the beast shall be judged with solar fire; the trials of life consisted in trialing loving philosophies that did not violate the divine law of God; and since the beast made use of force, by using it in order to kill others, is that the beast fulfilled in it the divine parable warning that says; He who kills by sword dies by

sword; for he who uses the force perishes by force; a sword of eternal fire shall come out of the First-born Son's mouth to judge those who took the strange licentiousness of using the force against others, in the trials of life; the beast shall fall in its own law; for it was written; With the rod that you measured, you shall be measured; the eternal fire or purifying fire of the Son of God, is destined to the beast and its followers; it is destined to the blinds leading other blinds; it is destined to those who did not believe that there was an eternal Creator; it is destined to the most influenced by the magnetism of darkness; for the trials of life that they requested on a planet of the light, had as an objective to be detached from such darkness; the Son of God is already on Earth; and his divine powers of fire are maturing in Him; for every power requested to Father Jehovah, fulfills the laws

of nature of the respective planet, on which it is manifested; and I verily say unto you that the beast shall not be given any time for anything; just as its damned tyrants that served it, by using shrewdness and surprise in order to defeat the peoples, likewise the beast and its followers shall be surprised with fire, earthquakes, tsunamis, fire rains; and I verily say unto you that no stone upon stone shall remain of the beast, in the weeping and gnashing of teeth; for it was their own sensations that were cultivated during the trials of life that built such tragic end for the beast; for it was taught that everything comes out of oneself; for you were told that you would be judged by your work; it is because of the influenced by gold that the world shall experience the horror of the weeping and gnashing of teeth; blame every proud one and every arms manufacturer for Jehovah God's wrath;

it will not be the humble, the long-suffering, the dispossessed, the ones that will provoke God's wrath; always the ones that provoke it are the abusive, those who adopt strange licentiousness; the beast which are those who are mainly influenced by gold, are the originators of the weeping and gnashing of teeth; the beast which is the serpent's head called satan, is the only culprit of the dreadful period that is looming over the Earth, and which was described in the divine Gospel of God as the Weeping and Gnashing of teeth; those who took the strange licentiousness of governing by the use of force, are to blame, for the Son of God judges them too with the power of the elements of nature.-
