- 9 TELEPATHIC TRANSLATION OF THE STONES OF ICA; DICTATED BY THE DIVINE FATHER JEHOVAH; THE STONES OF ICA REPRESENT A VERY REMOTE CIVILIZATION, POSTERIOR TO THE ATLANTIAN CIVILIZATION...
- 36 TELEPATHIC TRANSLATION OF THE GEOMETRY OF NAZCA; DICTATED BY THE DIVINE FATHER JEHOVAH; THIS GEOMETRY CORRESPONDS TO THE SAME AUTHORS OF THE DRAWINGS OF THE STONES OF ICA; THIS GEOMETRY SYMBOLIZES THE GEOMETRIC ORIGIN OF THE EARTH...
- 62 ADAM AND EVE HAD MANY CHILDREN WHO GOT MULTIPLIED THROUGHOUT THE EARTH OF THE PAST; THAT VERY REMOTE WORLD WENT ON TRANSFORMING ITSELF UNTIL IT ARRIVED INTO THE PRESENT ONE; THE PLANET EARTH STARTED LIKE A MICROBE THAT WENT ON DEVELOPING ITSELF UNTIL IT CONSTITUTED ITSELF INTO THE PRESENT BALL; THE EARTH HAD INFINITE SIZES...
- 73 AFTER ADAM AND EVE, THE CREATION CONTINUED GETTING EXPANDED, JUST LIKE IT HAD BEEN DOING IT BEFORE THEM; THE FIRST HUMAN COUPLE IS NOT THE FIRST ONE IN RESPECT TO THE OTHER CHILDREN OF CREATION; FOR BEING EVERYONE THE SAME IN RIGHTS BEFORE THE FATHER,

THE ANIMALS OF THE PLANET HAD A BEGINNING WHICH  
MAKES THEM FIRST AMONG THE FIRST...

- 84 RELATIONSHIP BETWEEN CHRIST AND THE PHARAONIC  
DYNASTIES; WHAT WAS THERE BEFORE THE EARTLY  
PARADISE; THE DAMNED OSIRIS DYNASTY BELONGED TO  
THE LEGIONS OF SATAN; AN UNKNOWN BEGINNING BY THE  
HUMAN KNOWLEDGE.-
- 111 ALL THE SPIRITS WHO COMMUNICATED WITH MEN,  
ARE JUDGED IN THE KINGDOM OF HEAVENS; NO ONE  
REQUESTED FATHER JEHOVAH TO PERTURB THE EVENTS AND  
HAPPENINGS OF THE TRIALS OF LIFE...
- 121 DIVINE LAW OF HUMAN TRIALS; THE SUPREME TRIAL IS  
THAT WHICH IS SEEN FOR THE FIRST TIME, WHAT WAS  
REQUESTED IN THE KINGDOM OF HEAVENS; EVERY SPIRIT IS  
TRIALED IN LIFE.-
- 164 MAN COULD NEVER CREATE LIFE, AS THE ONE THAT WAS  
CREATED IN HIM HIMSELF; HUMAN LIFE WAS CALCULATED  
IN THE SUNS ALPHA AND OMEGA OF THE GALAXY TRINO;  
IN ITS CREATION THERE WERE AND THERE ARE THE LIVING  
SPIRITUAL MATHEMATICS THAT TALK TO THE OWN MATTER...
- 195 EVERY TRIAL THAT TOOK PLACE IN THE HUMAN LIFE WAS  
REQUESTED TO THE FATHER; FOR EVERY HUMAN TRIAL WAS  
NOT KNOWN BY THE SPIRIT...

## **The divine Father announces the terrestrial world:**

**1186.-** EVERY ART HAS GOT A PAST WHICH STARTED IN OTHER EXISTENCES THAT THE SPIRIT REQUESTED TO LIVE; FOR EVERY SPIRIT IS BORN AGAIN IN ORDER TO KNOW NEW LIVES; SO IT IS THAT THE PRESENT ENGRAVERS OF ICA HAD THE INFLUENCE OF THE ART OF ENGRAVING AND CARVING THE STONE, WHICH CAME OUT OF THE YELLOW PLANET WHERE THEY CAME FROM; EVERY ENGRAVER AND CARVER OF STONES WHO CASTED STRANGE ACCUSATIONS AGAINST THE INVESTIGATORS OF THIS TRUTH, SHALL NOT ENTER THE KINGDOM OF HEAVENS; FOR THEY THEMSELVES IMPEDED THAT THE ORIGIN OF THEIR OWN ABILITIES BE KNOWN TO THE WORLD; IT IS MORE LIKELY FOR THOSE WHO MADE THE EFFORT OF SEARCHING FOR THE CAUSES OF OTHERS TO ENTER THE KINGDOM OF HEAVENS, THAN FOR THOSE WHO CONSTITUTED THEMSELVES INTO ACCUSERS AND TRADERS OF THEIR OWN ART, WHICH CAME OUT OF ABILITIES THAT THEY THEMSELVES REQUESTED IN THE KINGDOM OF HEAVENS.-

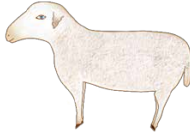

In the flying saucers reincarnations are also made when the spirits request them; many human beings requested their reincarnation in the flying saucers; this makes many

feel in themselves a mysterious attraction towards these vessels; they feel it but cannot explain it; the geometry in the flying saucers is also like a solar thread; which means that the geometric of the divine verbs of the solar crew members, allows any kind of line; and they transform the own lines into the most whimsical and varied geometries; Divine Father Jehovah, is there any relationship between the geometric of the universe and the geometric which is observed in the drawings of disappeared civilizations on Earth? Yes, there is son; for the place of origin of the Earth and her creatures requested to be expressed in different psychologies of thinking by the own spirits; the Macrocosm or Kingdom of Heavens was represented by gigantic geometries; enormous statues, blocks, pyramids, columns; in the old civilizations of the Earth, in her varied cultures, the origin of man was expressed with a galactic influence of the own place of origin where they came out of, by those who expressed it; no one was unique in demonstrating the origin of everyone; the geometry of the place of origin is carried by everyone in their own selves; for all are geometrically very tiny suns; what is microscopically geometric came out of what is colossally geometric; what is human came out of the suns Alpha and

Omega; in the flying saucers they study what is geometric starting by the ideas which the planetary creatures generate; and by studying it, they classify it in many terminologies; they locate the geometric by its hierarchy of creature, and the place that corresponds to it in the infinite solar line; the solar line is like a dimension that by getting expanded, creates galaxies, suns, planets, etc.; the solar line goes on developing in eternity as the spirits go on requesting for reincarnations; what is solar implies the fulfillment of laws which are requested to God; many get away from the solar line, for they fail in their trials of lives; to remain in the solar line is to remain in the light of the Kingdom; not being in it is to be in darkness.-

**EQUIVALENT TO FOUR; THESE CREATURES ARE NOT**  
**FROM ADAM AND EVE'S ROOT; FOR NO COUPLE OF**  
**THE CREATION IS UNIQUE; THERE IS EVERYTHING**

**IN THE FATHER'S VINEYARD; NEVERTHELESS, ADAM AND EVE CONTINUE BEING THE FIRST PARENTS OF THE HUMAN GENDER; ONE HAS TO DISTINGUISH BETWEEN WHAT IS OF THE EARTH AND WHAT CAME OUT OF THE EARTH; JUST AS ADAM AND EVE ARE THE CAUSE OF THIS HUMANITY, THE CREATURES WHO HAVE VISITED THE EARTH ARE CAUSES WHICH CAME OUT OF OTHER CAUSES OF THE THINKING EXPANSIVE UNIVERSE; FOR WHAT IS OF UP ABOVE IS THE SAME AS DOWN BELOW; JUST LIKE THIS HUMANITY THAT TRIES TO REACH REMOTE PLANETS, OTHER CREATURES DID THE SAME; THE EARTH ON WHICH WE ARE STANDING HAS GOT AS MANY CENTURIES OF ANTIQUITY AS MOLECULES SHE HAS; THAT IS WHY NO SCIENTIST OF THE WORLD HAS BEEN ABLE TO CALCULATE THE AGE OF THE EARTH; FOR THE NUMBER ESCAPES THE HUMAN MENTAL POWER.-**

It is written that everything occult shall see the light; many of these very remote civilizations shall

be resurrected from dust in the year 2001; this civilization knew about the cosmos infinitely more than what our present civilization knows; and they knew infinitely more of the microscopic of the interior of matter; they had powers to order on the elements; their disappearance from the Earth was by gradual and natural elimination; when they reigned, the surface of the Earth had another form; the prehistoric animals were disappearing; there was a third of them on Earth; the civilization communicated with the galaxy; it was the last times of the era called: The Era of the Open Heavens; they had huge runways; and they were used to drawing galactic drawings on their runways; one of the most common symbols was the Trident; in this symbol they represented the galaxy Trino; the galaxy of the pale yellow suns; these creatures knew about the Trinity as no one has known it up to now; they knew that from the suns Alpha and Omega The civilization of those who came from the Yellow planet were creatures of two sizes; those who

continued multiplying on Earth were giants; the first ones who arrived were short; the giants were as tall as eight meters; the short ones one meter twenty; these creatures had big eyes and their faces were very similar; something like a great family of twins; they arrived in flying saucers; when they arrived, they knew about the catastrophe of the people from Atlantis already; for in the solar television of these celestial vessels they saw the destruction of Atlantis; this happened while they were coming on a journey to the Earth; the people from Atlantis had also come out of the Yellow planet; both civilizations came out of a same planetary trunk; although between them there was a time of 33, 000 000 years of difference; the people from Atlantis were more primitive; the latter ones were the last generations of the Yellow planet; a planet in a state of old age and about to disappear soon; those who came from the Yellow planet were great wise men; they had marvelous faculties to work on matter; they were prophets who read the future of

everything planetary; they knew that they were going to leave the Earth; and by knowing it, they left the best of their science carved in stones; they knew that the carved stones would be studied by the human gender, among other civilizations; in the carving of the stones participated 300 carvers; many stones are found under the sea; these shall appear when the Solar First-born Son opens the water of the oceans; for of the galaxy Trino the little sparklet which is now the Earth had been born; they knew that the sun Alpha had impregnated the sun Omega; they knew that what is up above is the same as down below; they knew that in the worlds of up above, they fulfilled laws similar to this world; they had a Common Government; they did not know the strange psychology which is given by the possession of gold; the strange licentiousness which is exerted over the influenced ones by gold was unknown to them; they did not possess the complex to gold; they had already overcome such strange complex in other existences, in other

worlds; the morality of these creatures was the same morality taught by the divine Commandments, which were given to the human gender; they had another Holy Scripture; for their evolution was another; they had the Holy Scripture of the Yellow planet; for no planet is disinherited in its rights; for all of them came out of a same Creator; every planet has got Holy Scriptures; these creatures levitated and went away from the planet, beyond the clouds; they made medical operations, penetrating in the physical body in a mental way; from within they gave orders and instructions to be followed in the operation: they lived 300 years by average, and many times they surpassed the 500 years; for they had the science of rejuvenating the cells of aging; they got to know the last pharaonic dynasties; and they were able to see the microscopic Paradise of Adam and Eve; for they saw the molecules of the mud from which they sprouted; what they did not see was when the pharaonic serpent tempted Eve; the temptation was done by

telepathy; for in a paradise all are telepathic; even the animals and microbes are; but, many knew by their prophetic powers, that a future drama would take place in the microscopic paradise; these creatures had a concept of the universe, which is the same that is taught in the divine Gospel of Father Jehovah; they knew that everything microscopic turns into a planet; they knew that it was enough to generate ideas and one was creating microscopic planets; this concept of the universe was written in the divine Gospel of the Father; the divine parable says: One has to be very little and humble in order to be great in the Kingdom of Heavens; what is humble and very little is the microbe or the idea which each one generates when they think; what is big is the macrocosm; it is to become a colossal planet; they knew about the living universe of God by science; they knew it in their corresponding degree, in the infinite scale of the planetary evolution; their science was mental with an understanding or covenant with the molecules of matter; their

concepts of the universe and the Creator was born from the own molecule; they had the Verb; which means that they were creators of life in the microcosm; to give life is the divine Verb; for every life known or unknown has got a truth; the science of those who came from the Yellow planet was inherited in part by other civilizations; for the Earth has had as many civilizations, since she was a microbe emerging from the invisible to the visible, as the number of molehills which the desert of the planet contains; they knew about the existence of the microbes; they saw the spirits that had been on Earth, in other epochs; they saw them as the most natural thing in the world; for it was a normal law of the open heavens; on the remote Yellow planet they had already lived the law of the open heavens; this civilization had the geometric psychology among other sciences; they knew that the line and the circle would constitute the basis of the geometry of the future humanoids; that is why they used such geometry in the prophetic drawings; they

knew that their carved stones would attract the attention of the present humanity; these stones were studied by them in a science, in which the living mathematics participated; the same mathematics which are used in the suns Alpha and Omega in order to create thinking spirits; they knew all the evolutionary history of such stones; since they started by being a molecule; this power of understanding with the elements is a law which is within the creative Verb; in the corresponding degree within the own evolution; the verb in the suns Alpha and Omega of the macrocosm has the power of creating colossal planets in an instantaneous way; the creative power of those who came from the Yellow planet had an equivalence of three trillions of solar line; which means that they were wise and creators, in a microcosm; this civilization left one third of influence in the present races of Japan and China; from this derives that such races are accomplished masters in microscopic carving; and the silent mental concentration, so characteristic

in these oriental races; this civilization did not adore images; as it happens nowadays with the so-called religions; when the creature gets to deepen into matter and understands it, it stops adoring it as such; they had gone through this primitive form of recognizing a Creator in other existences and in other worlds; for every spirit in virtue of his free will, requests the Creator to know forms of life that he does not know; and by requesting them, he starts from the most primitive, from the most elemental; these creatures surpassed in scale; spiritual scale, what is intuitive, manual and what is mental; to surpass one's own scale means to take one step further in his own verb; there is an abyss of difference between them and the present man; in which we would be the primitive ones; for we still have influence of the primitive in us, from our first existences; and the fruit of that is a divided world; a strange fruit, is what these beings would call it.-

**GEOMETRIC LINES IN THE SHAPE OF A HOUSE;**

its meaning represents the houses of the macrocosm called Kingdom of Heavens; for if what is up above is the same as down below, it means that there are houses up above, and houses down

below; in the divine Gospel of Father Jehovah it is said: The House of Jehovah; they knew about the scenes of up above; they knew that every custom that emerged on the remote planets, would repeat itself up above; this drawing represents the solar television; this television was taught in the divine Gospel of Father Jehovah as: The Book of Life; it is a television of colors created by the own elements of the universe; the infinite stories of the planets are narrated in them; it is a television that has no end; this drawing in the form of a House also represents the solar line Alpha; and it means that every spiritual intimacy comes out of the electrical torrent that each one has in his own body of flesh; to these creatures the House symbolized the intimacy in the everything above everything; this is in what is physical and in what is spiritual; the House has a triangular dome, which means that every home has got a trinity; that there are universes, galaxies, cosmos, planets that are living philosophies in the living; the low part of the

House has got a rectangular geometry; this means a home numeral prophesy; for it is written in the divine Gospel of Father Jehovah that there will be a new world; everything will turn anew; including new houses; the rectangle also means a covenant in receptacle; the receptacles are the places where the reincarnations are made, in the suns Alpha and Omega; it is also called the Ark of Covenants; for being the universe living, the molecules and virtues are blended into a totality; the triangular dome has got vertical parallel lines; they mean that every spirit who requested the Creator to know a form of life, they requested space, time and destiny; the separation of the lines means that each one is responsible for their acts, and according to how these acts are, is the time, space and destiny that every spirit who leaves the trials of life of the planets, will know; the window of the house also rectangular, represents a small dimension, within the big one; and it means that every space is born being small; it gets expanded and becomes big,

constituting itself into a Kingdom of Heavens; the window also means that everything that is seen through the own vision, this also has microscopic dimensions; the door that is seen in the drawing shows that there are entrances up above as the ones that are down below; these doors have got no limits; and they are eternally surrounded by crowds; of beings coming from uncountable planets; who by not fulfilling the psychology and the morality of their respective Planetary Holy Scriptures, remained out of the Kingdom of Heavens.-

**WAVY CIRCULAR LINES:** They represent the mental waves which we call ideas; the wavy part in the circle was for them the free will of the ideas; in the

drawing they tried to show us that what is up above is the same as down below; for the universe gets expanded geometrically; what is colossal is a replica of what is microscopic; the number of wavy circles shows that every parallelism has got the same point of departure and the same destiny; the cause of causes are in these circles; the origin of everything created is in them; these circles and the triangular shapes correspond to the divine parable of the Gospel of Father Jehovah: I am the Alpha and the Omega, said His First-born Solar Son Christ; which means that Alpha is an angle and Omega is a circle; it is the place of origin of the Earth; what the Son of God expressed in words, these creatures expressed it in drawings; Alpha impregnated Omega; for if up above is the same as down below, it means that one impregnates up above as well as down below; the term: Up and down covers everything imaginable; this drawing also contains the divine parable that says: Each one makes his own heaven; for every human work is composed by ideas; every idea is

born in a lineal form Alpha, it goes through the body in an instantaneous way, and it abandons it in the form of a wave or Omega circle; the straight line was a materialized mandate for them; the circle was an eternal return to the place of origin; Alpha represented by pyramids is the masculine sex of all creation; Omega represents everything feminine of the entire nature; in the drawing the pyramids are united to Omega; it means that both requested to live the same form of life; the Omega circles also show that the entire Thinking Expansive Universe is united by solar cords; the microbe and what is colossal are so; what is visible and invisible have solar cords; and it shows that the Earth trembled when the Son of God expired on the cross, for from his pores of flesh, microscopic solar cords came out; whose extremes were united to each molecule of the planet Earth; the magnetic fluid of a solar cord is infinitely sufficient to propagate its magnetic influence to all the other molecules of matter.-

**PYRAMIDS:** They represent the Solar Trinity in the divine Father Jehovah; these four pyramids are prophecies for the strange life system, which came out of the strange laws of gold; the four pyramids represent the twelve apostles; for  $4 \times 3$  are twelve; it also means that the zodiac is composed of one sole Trinity for the 12 zones; the pyramid represented the destiny in the eternity to them; the basis of the pyramid represents the dust of the planets; the struggle to overcome what was requested in the Kingdom of Heavens; the basis represents the attachment to what is mundane; it represents the

strange influence which a temporary life exerts over the creature; the sloping sides of the pyramid mean the mental mistakes and errors of those who requested to know a form of life in the cosmos; this geometry was a symbol that pointed to the place of origin; that is why the sloping sides of the pyramid coincide in the same point; what is prophetic of the four pyramids is in that being one of the three of them the addition of all of them, it equals three; for in 12, one plus two is three; it means a life system next to its end; it means a third Doctrine of Father Jehovah, over the Earth; just as in the past, the divine Father let the Mosaic Law get extended over the old world, and centuries after the Christian Doctrine, now He lets the Doctrine of the Lamb of God get extended; this third Doctrine shall be called the Celestial Science; others shall call it the Telepathic Scripture; the four pyramids show that the Revelation awaited by the world of faith, shall not come out of men; for man did not create the planet; the new Doctrine is

dictated by the divine free will of Father Jehovah; for the infinite content of this Doctrine is not man's science; this Doctrine shall not have an end; and by not having an end is that it covers all the planet's surface; the geometric psychology of the four pyramids shows that the greatest revolution that shall be remembered on this planet, does not come out of men; it comes out of the divine Gospel of the Father; this Revolution is so immense that it causes the fall of the strange and unknown life system, which came out of the strange laws of gold; it is said strange to everything that is not written in the Kingdom of Heavens; the life system which came out of gold was not requested to the Father by anybody; not even the so-called rich requested it; for no one requests the Creator to live the strange inequality on remote planets; there is the natural tendency in the spirits of imitating in the remote worlds, everything that their eyes saw in their place of origin; the most little of the pyramids, shows that humility triumphs on this planet; for every

little one is great in power in the Kingdom of Heavens; and being great up above, he or she is also great down below; for what is up above is the same as down below; the small pyramid shows that every small nation that emerged in the strange life system, which came out of the laws of gold, shall get united into one sole power; and it shall be the greatest and most powerful power that one can remember on Earth; neither before nor afterwards shall something alike be seen; man is starting to call this power the Third World; the beings of the Yellow planet used to call it the World of the Trinity; for being them prophetic, they saw the future events materialized; they call it the World of Trinity, for the Third World shall be led by the First-born Solar Son Christ; his return was written in the divine Gospel of Father Jehovah: And he shall come back shining like a sun of wisdom; a brightness similar to the sun shall come out of the face of the Son of God; the small pyramid shows that it came out of the great ones; for every great one was small,

too; this means that the First-born Son shall be directed telepathically by his divine Father; just as he was in the past; being the small pyramid similar in geometry to the great ones, means that Father Jehovah is within the Son; it is the spiritual communism between Father and Son; for being everyone equal in rights before God, is that the Father and Son give the divine example of common law, in their respective solar laws; the divine equality taught by the Father, was given up above as well as down below; the strange life system, which came out of the strange laws of gold, did not imitate the divine equality of the Father's Gospel; and he who does not imitate the Father, does not enter the Kingdom of Heavens; for the living imitation complains to the Father; all the virtues of the human thinking requested the divine equality when the spirit got united to them, in order to know a form of life on the remote planets; every imitation to what is of the Father is infinitely awarded by the Father; as imperfect as the imitation could be; if

the men on this planet had imitated the Father when they created a life system, this humanity would not have had a Final Judgment; for their morality in every act of life would have had the seal of morality of God; the strange life system which came out of the law of gold, distorted the true morality; for it created a strange morality influenced by a strange illusion on what is temporary; the pyramids of the engraving are spaced, this is they are separated; if they were superposed one over the other, that would mean unity, harmony, cohesion of the everything above everything; it would mean a Planetary Universal Government; but since some are separated from the others means that all the ideas generated by humanity are divided; which makes them unequal; and it means that every belief of faith, which came out of the human free will, divided its own fruit; and nothing that is divided enters the Kingdom of Heavens; so it is that the so-called religions divided their award, by the same number of religions that there were

in the world; this parable that was turned into a drawing was written in the divine Gospel of Father Jehovah: Only satan divides and he divides himself; it was a divine warning to the so-called religious; the divine Gospel of the Father divides no one; it is men who divide themselves when they try to interpret what is of God; for they do not fulfill to the foot of the letter what is said in His divine mandates; the four pyramids show that everything that came out of the human work shall be judged; and that everything includes every form of faith, which each creature gave themselves; for it came out of their free wills; being the pyramids separated means individual judgment; it means that every mind shall be read by the First-born Son; he who flees from his mental reading, perishes; for he does not receive the resurrection of his own flesh; he or she does not become a twelve-year-old child again; the fact that the pyramids are not of the same size means that those who had more in the strange life system, which came out of the laws of gold, shall

remain in the most atrocious poverty; and those who had a little or nothing shall have an abundance that they never knew; in this geometric prophesy the tail of the beast was drawn; the beast is the hardness and the selfishness of those who governed by being deluded towards gold; the fall of the beast has already started; it is starting to experience poverty; the beast shall remain isolated from the Third World; the beast is agonizing; the strange world of the beast does not reach the year 2000; for the Son of God is on Earth already; the small pyramid indicates it; every son is minor than the Father; it also shows that the third Doctrine is already sprouting; for being the universe living, everything sprouts from the most microscopic to the greater; from the invisible to the visible; the separation of the pyramids indicates humanity's affliction and weeping and gnashing of teeth; this weeping and gnashing of teeth is also written in the divine Gospel of Father Jehovah; this weeping and gnashing of teeth shall be led by the so-called

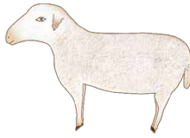

christian world; for the so-called religions are not written in the divine Gospel of Father Jehovah; the thinking creature should have known how to distinguish what came out of God, and what came out of men, in the trials of life; one thing is the divine psychology of the Father, and another thing is the human psychology; for the Father has free will to express Himself up above, and men have free will to express themselves down below; what is up above is the same as down below; when men wanted to interpret what is of God, they created a form of faith called religion; it could have been another; but, in virtue of the free will, they chose a psychology of interpretation of what is of God, that divided everyone; the separation of the pyramids teaches an emotional impact on those who were influenced by such strange form of faith; for the so-called religions are unknown in the Kingdom of Heavens; in the Father's Kingdom there is neither inequality nor division; nor anything that can divide the Father's children on the remote

planets; all the so-called religions which emerged from the strange life system, which came out of the laws of gold, shall be accused in the Final Judgment of dividing the world of faith in many beliefs, being there just one God only; the so-called religious imitated satan; for satan divided the Father's angels up above; and the religious divided His children down below; no one who was divided shall enter the Kingdom of Heavens again; nor has anyone entered; in the weeping and gnashing of teeth, the entire humanity shall accuse the strange religious rock of not having let them enter the Kingdom of Heavens again; likewise the beast; for if the religious divided the world spiritually, the so-called capitalists who emerged from the strange life system, which came out of the strange laws of gold, divided the Father's children, in what is material; for they made some rich and others poor; neither rich nor poor are known in the Kingdom of Heavens; the weeping and gnashing of teeth starts from those who exalted themselves more, in the strange

and unknown life system, which came out of gold; the first ones are the religious prostitute and the beast; for they made alliances in the trials of life; for both of them casted the first stone, concerning personal initiatives; all those who cast the first stone in something are told that they casted the first stone; for they did it in a world of living trials.-

### **ALPHA AND OMEGA.-**

Scroll N° 3.305

**TELEPATHIC TRANSLATION OF THE GEOMETRY OF NAZCA; DICTATED BY THE DIVINE FATHER JEHOVAH; THIS GEOMETRY CORRESPONDS TO THE SAME AUTHORS OF THE DRAWINGS OF THE STONES OF NAZCA; THIS GEOMETRY SYMBOLIZES THE GEOMETRIC ORIGIN OF THE EARTH; IT REPRESENTS THE SUNS ALPHA AND OMEGA, OF THE GALAXY TRINO; THEIR AUTHORS ARE THE ONES WHO CAME FROM THE YELLOW PLANET; AN ALREADY EXTINGUISHED PLANET; ITS AUTHORS MADE SUCH GEOMETRIES, WITH THE PURPOSE OF MAKING THEIR PASSAGE ON THE EARTH KNOWN; FOR BEING THEM PROPHETIC, THEY KNEW THAT THEIR PASSAGE ON THE EARTH WOULD COVER JUST ONE PERIOD; THESE CREATURES' MATHEMATICS ARE OF A SOLAR ORIGIN; THEY DOMINATED THE LIVING NUMBERS; THEY HAD THE NUMERICAL VISION; THEY**

**TALKED TO MATTER, IN ONE THIRD OF A KNOWN TOTALITY; THIS VERY REMOTE CIVILIZATION IS NOT FROM ADAM AND EVE'S TRUNK; THEY HAD THEIR ORIGIN ON THE YELLOW PLANET; FOR WHAT IS UP ABOVE IS THE SAME AS DOWN BELOW; IN ALL THE PLANETS OF THE THINKING EXPANSIVE UNIVERSE THERE ARE AND THERE WERE ORIGINAL TRUNKS; MANY OF THESE GALACTIC CREATURES SHALL BE SEEN BY THE WORLD; FOR THEY SHALL BE RESURRECTED FROM DUST BY THE FIRST-BORN SOLAR SON CHRIST; FOR IN VIRTUE OF THE SPIRITS' FREE WILL IS THAT SOME REQUESTED THE FINAL JUDGMENT ON THE PLANET EARTH, AND OTHERS OUT OF THE EARTH; THE LAWS OF THE CREATOR ARE THE SAME UP ABOVE AS WELL AS DOWN BELOW.-**

The geometry and the mathematics of all the civilizations that there were on this planet, were created in the suns Alpha and Omega, of the macrocosm called Kingdom of Heavens; they were created in

the same place, where the human life was created; the everything above everything came out of a same place of the cosmos; and being it a same place, it was at the same time everywhere of the cosmos; for every law that came out of the Father, never stops; it is eternally expansive; the present material worlds shall end, and the divine mandates of Father Jehovah shall continue expanding in the form of new worlds; this expansive law of the universe was known by the creators of geometries and mathematics of the civilizations of the past; it is because of this cause that the geometrical element used by them, was the point, the line and circle; in the mathematics of Nazca, its creators got inspired in laws, which they knew had to do with them, and with the beings that would be born in the future; they knew a lot about the present men; they also knew that the present generation would fall into a strange psychological influence, as a result of their complex of possession towards gold; they knew that in this strange influence, the

present man would rule himself not by the cosmic laws, but by the strange laws of gold; the result of it is that man does not see the cosmos which he was born from as something of his own; this strange blindness of his own reality costs man not to enter the Kingdom of Heavens again; because of his strange attitudes the own man disinherits himself; these creatures authors of many geometrical drawings, carved in stones or rocks, wanted to warn the present generation of the danger they were into, by letting themselves be influenced by the strange sensation which the possession of gold causes in every spirit; they knew the cause of the future judgment, which the present human gender had to confront; for besides their prophetic powers, they received galactic communications; for they lived the Era of the Open Heavens; a fascinating era in which the strange desire for possession was not awake in any of those who lived it; they lived what presently man struggles for living; the own system of gold drowns him and limits him; for three

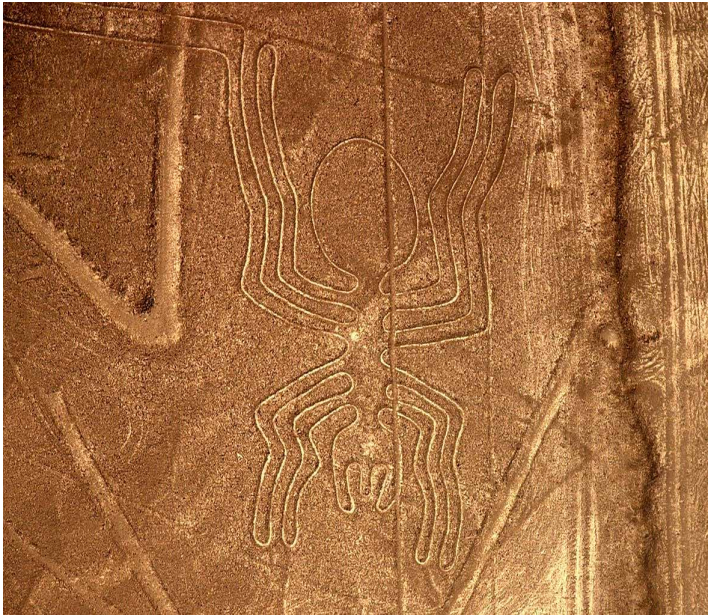

quarters of his mental effort is spent in gaining his own living; the originators of such backwardness in others shall pay second by second, the time of all the centuries that the strange reign of gold lasted; the creatures of Nazca and of other civilizations knew all this; as they knew about other judgments that the Earth had, when the sun did not shine over her; it was the era of the relative darkness; for such darkness started from the blackest to the less black; going through infinite shades of darkness; these creatures knew what the divine Word of the Creator of everything consisted of; they knew that everything that came out of the Creator, constituted one sole geometric line; and that this line covered the everything above everything; it covered the spiritual and the material; and they knew that this line had been succeeding itself from world to world and from sun to sun; the divine verb that took the form of human life was born from this concept; in other universes which are within the same universe, the divine verb took other infinite

geometries; for if up above is the same as down below, the divine verb has a divine free will; just as men have a human free will; and since the free will is in the everything above everything, is that every free will is also composed of the solar line Alpha; the solar line Alpha is the place where the Earth was born; it is the place where she was born like a microscopic sparklet; the little sparklet that came out of the suns Alpha and Omega still has fire in its center; the exterior part of the sparklet has been cooling off and it has turned into a terrestrial cortex; what happened to the sparklet is the same that happens to the seed of the plants; the space made the sparklet germinate; the atmospheric magnetism in covenant with all the elements of the universe made the little sparklet sprout; it is said that what is up above is the same as down below, for this law of making sprout or germinate is for the microscopic as well as for the colossal; it is for a plant as well as for the own planet as a whole; the creatures who were the authors of the

geometry of Nazca, knew the law that what is up above is the same as down below; they drew lines and drawings so that they would be interpreted from above, in the Era of the Open Heavens; they saw the signs and symbols made by them from their celestial spaceships; they carved their wisdom in messages turned into geometries in stones or rocks; for the stone or rock lasts a greater time to the inclemency and erosions which are caused in the development of time; and the deepest among them even knew who would be interested in the study of their engravings; every engraved rock or stone existing in this world shall be translated by the living telepathy between Father and Son; as they are translated, all the false building of the false history, emerged from the strange life system, which came out of the strange laws of gold, shall be collapsing; the present history is false, for men fell into falseness; the greatest falseness of men consists in having them promised Father Jehovah to fulfill His divine morality, in a form of life, and

they did not fulfill it; for the strange inequality came out of men; an inequality that no one in this world requested the Father; for nothing unequal is requested to the Father; inequality became materialized in the strange life system, which came out of the laws of gold; this constitutes the greatest tragedy for this humanity; for from such strange life system, the human creature of all his generations, got to know what they should have never known; they got to know scandal, vice, immorality; he got to know what he did not request; and he who did in the remote worlds or planets what he did not request in the Kingdom of Heavens, does not enter the Kingdom again; the trials of life consisted in fulfilling on the remote planet what was written in the Kingdom of Heavens; and which each one requested and promised to fulfill above all imaginable things; this was also known by the creators of the engravings of Ica and Nazca.-

**THIS FIGURE SHOWS A CREATURE WHO IS PROSTRATED;** its symbol indicates Alpha and Omega; a place of origin of the planet Earth; the position of the arms has the geometry of a right angle of  $90^\circ$ ; it represents the original geometry with which the solar sparklet was born, which is the present Earth; every original spark of every planet is born with an own geometry; there are as many planetary

geometries as there are planets in the Thinking Expansive Universe; of those which were and shall be; the arms of the creature have 3 parallel lines; this shows the lineal trinity, for every known and unknown element has got a trinity; for no one is disinherited not even in what is the most microscopic; the trinity was the Alpha and Omega of the galaxy Trino for them; Trino means Three in One; the Father, the Son and the knowledge called Holy Spirit; by creating each one their own knowledge, they create their own Holy Spirit; they create their own trinity in their knowledge; the fact that the figure carries its own trinity in itself, means that each one makes his own heaven; this figure composed of head, arms and legs shows that the mental ideas have in their microscopic beginning, the same origin that governed for the primitive sparklet, which the Earth is from; it indicates that what is up above is repeated down below; it means that anytime one thinks, the generated idea is born in an Alpha lineal form, it goes instantaneously through the physical

body, and it abandons it in a circular way or Omega circle; these creatures knew what the First-born Solar Son Christ knew; he said: I am the Alpha and the Omega; what the Son of God meant was that there was a cosmic place called Alpha and Omega, from which the Earth was born; the Alpha lines of the figure are united to the body of it; this means unity of the everything above everything; it means that not a single molecule is independent from the rest of the universe; and it means that everything returns to its place of origin; the fact that both arms have the lines Alpha means that there are trinities creators of worlds, which are the same and different at the same time; for one arm is left and the other is right; there are four Alpha lines in the arms; which means figure in Revelation, containing the interpretation of the trinity in it; for if the everything above everything contains trinity, the geometric four and the numeral four also have it; the interpretation of our lines in the arms means they knew the Binary Trinity; to them, the

number four represented a trinity of greater hierarchy among the trinities that they knew; the lines Alpha of the figure also shows that the dimension called destiny is born from each one; and that every destiny of our trinity makes use of space, time and knowledge or living philosophy; four represents the square turned into a number; which means that the trinity is in all the geometrical, numeral and philosophical trinities, creating the everything above everything.-

**THE HEAD OF THE FIGURE:** Represents the divine Solar Mother Omega; it represents the universal fertilization; Alpha impregnated Omega; for if what is up above is the same as down below, up above

one also creates as one creates down below; up above, solar creations; down below human creations; the inheritance is transmitted through the entire universe; the Omega circle represents an endless return; it represents an eternal transformation; which shall never end; it represents a forever and ever of a present; without considering that in other infinite presents something alike takes place; eternity was infinite presents for these creatures, which one shall never be able to tell; the Omega circle represents what is feminine of the entire creation; Alpha represents what is masculine; this figure has a galactic psychology; their creators tried to imitate the airplane of the present human beings; they understood many centuries before what man tries to understand now; their comprehension was a prophetic comprehension; they explored the future; the fundamental difference between them and the present human beings was that they knew in a universal way their own place of origin; they knew that their Yellow planet

was older than the own Earth; and they knew that both planets were created by the Solar Father Alpha and the Solar Mother Omega; and they knew that every sun of any sex constituted the divine solar trinity, in the divine Father Jehovah; the Head of the figure also represents the way how the Thinking Expansive Universe gets expanded; and it represents the waves of every order of nature; among them are the geometric waves of the First-born Solar Son Christ's fire; from his eyes shall magnetic lines come out, which shall burn every corrupted one; this fire of the Son of God, is constituted by the living numbers or mathematics; the same living mathematics and numbers with which the creation of every human life was calculated; and of every creature of creation; the Omega circle represents in prophesy, the Worldwide Government of Women; for having equality come out of the Father, it triumphs over all the strange concepts that man had, in the trials of life; certainly any equality shall never come out of licentiousness; that is why the strange

life system, which came out of the strange laws of gold, never could nor shall never be able to give humanity the long awaited equality; for that to happen, the own strange life system, which came out of the strange complex towards gold, has to disappear; this strange complex which makes a licentious being out of every creature, was seen by the creatures of old civilizations; and the psychology learnt from it, was a psychology that one was dangerously playing with the own spiritual destiny; they called darkness the strange licentiousness; for licentiousness is neither written nor taught in any of the Scriptures which came out of Father Jehovah; the most microscopic strange practice, on the remote planets, is sufficient for not entering the Kingdom of Heavens again.-

**THE LOWER PART OF THE FIGURE,** represents the roots of a tree; the Alpha lines represent its ramifications; this means that every galactic inheritance emerged from the dust of the planets; for matter and spirit got initiated by starting from the most microscopic; every tree started from the seed; in the infinite universe, where no one knows the planet Earth, the planetary families are called Galactic Trees; an eternal synonym of eternal inheritance; the term Trunk comes from there; the Galactic Trunk represents the beginning of a determined gender of creatures on the planets; the trunk is the head of a form of life; Adam and Eve are the trunk of the human gender; and they are not of those who come from other galaxies; he who did not

believe in Adam and Eve, he negated a planetary beginning; every beginning is living before the Father; and every beginning expresses itself in its laws of beginning, before the Creator; just as a spirit expresses himself before the Father; and every beginning accuses every spirit who negated it on the remote planets before the Father; he who negated his first terrestrial parents, negated the Father; for it was taught that God was everywhere; He is also in every past; He is also in all the first parents of every planet; for what is up above is the same as down below; in the lower central part of the drawing you can see a small Root, in the form of a Trident; it means that every root was small; and that every inheritance leaves an influence, when the hereditary tree has grown; this inheritance are the characteristics of the races; and the geometric forms of the remote galaxies, in the infinite cosmos; so it is that the present engravers of stones of Ica and of other parts of the world, live the influence of a past; for every spirit is born again;

which means that it has been born many times; one is born again in order to know new lives again; he who is not born again does not know new forms of life; one requests new forms of life to the Father, for every spirit wants to get to the Father; and one only gets to the Father by the eternal improvement; this eternal getting to the Father, is infinite; and in each getting to the Father, one knows one of the infinite forms of the Father; the creatures creators of the drawings of Nazca and Ica knew this; and they knew it in a science that adjusted itself to the own psychology of the divine Gospel of Father Jehovah; and they knew that the law of reincarnation figured in the future Gospel of the future humanity; what they knew is written in the divine Gospel of the Father; He says: Every spirit is born again; which means that every spirit reincarnates again; for being eternity every spirit's normal life, the planetary lives are the being born again, for every spirit; each being born again gives place to new planetary beginnings; one law that came out

of the Father can be expressed and understood in infinite ways; and it does not stop from being the same law; he who denied the reincarnation or his own being born again, negated the entire universe; for thank to the covenants with the elements of the universe is that every spirit has got the fascinating opportunity of knowing lives that he does not know; he who denied the reincarnation, negated the participation of the elements in himself; just as the spirit negated in the trials of life, likewise the elements of the cosmos shall negate him their own participation, when the own spirit requests in the future to know another form of life; only the divine intervention of the Father saves the spirit; this strange negation of oneself is born from a strange psychology, which came out of a strange and unknown life system; it is born from a strange delusion, which emerged from the possession of gold; this strange delusion entertains the spirit for a while, and it draws him away from eternity; for to each second of strange illusion, every spirit who

let himself be influenced by it has to live an existence out of the Kingdom of Heavens; behold the creatures of the civilizations of the planetary past, knew about this human tragedy; they knew the cause of the divine Final Judgment; they knew that the own life system, inspired in gold, was the own satan; behold everything that happens to humanity, was known by them; and other civilizations of other hierarchies knew about them; the Nazca's drawing has got infinite interpretations; for it came out of an imagination that had an abysmal science; the more profound and elevated a science is, the greater are its teachings; even if it expresses itself in the most simple way, that one can possibly imagine; among the civilizations of the past, the Atlanteans' and the Underwater World's, there were great prophets; they announced their respective civilizations, their own falls; their own final judgments; the term: Final Judgment has been happening since the beginning of the world; now it is the turn for the strange life system, which came out of

the strange laws of gold; for every divided reign ends up in a final judgment; the strange life system, which came out of the strange laws of gold, divided the world in nations; it lived imitating satan; for satan divided the Father's angels, in the Kingdom of Heavens; and it is written in the Kingdom of Heavens that neither satan nor his imitators, in the remote worlds, no one enters the Father's Kingdom; this humanity was warned of this abysmal truth; it is written in the divine Gospel of the Father: Satan divides and he divides himself; the divine parables and the divine warnings of Father Jehovah are fulfilled in everything imaginable; they are fulfilled in the everything above everything; in what is visible and what is invisible; in what is touched and what is seen; and in what is felt and is not seen; for having the divine Father Jehovah created everything that exists, is that He judges everything imaginable; and within the imaginable are all the forms of faith, which men and women gave themselves, in the trials of life; for every form

of faith forms part of the human work; and it is written that everyone in this world shall be judged according to their acts; Faith is the interpretation that each one gave the divine psychology of the divine Gospel of Father Jehovah; the old people of the civilizations of the past were not within these laws of judgment; for they did not divide themselves in nations; they were reigns which formed part of a whole; if they disappeared from the human scene, it was due to other causes; for there is everything in the Father's vineyard; the requests of life and circumstances made to the Father, were different to those of the human gender; the circumstance of the verb was another; not even the elements were the same to the present ones; for at the beginning of the world, everything was gigantic; including time; one day, one night, one year of the old ones was equivalent to four of the present ones; that is why there were giants who lived hundreds of years; this shows that in the reincarnations of spirits participate a conglomerate of spirits, who

request to go to the remote planets in the same epoch; and that the characteristics of these reincarnations had a lot in common; the most microscopic characteristic of a reincarnation has an infinite meaning in the Kingdom of Heavens; for from what is microscopic, being this spiritual or material, future universes, galaxies, planets, suns, cosmos are born; for what is colossal is born from what is little and humble; the creatures of the old civilizations knew about the expansive law of every microbe; they knew that every planet had been a microbe; they knew that everything colossal had been microscopic first; they knew that every planet emerges from the visible to the invisible; this knowledge was also taught to the present human generation; the divine Gospel of Father Jehovah says: One has to be humble in order to be great in the Kingdom of Heavens; And whoever humbler than an idea? The idea generated by everyone is so microscopic that it is only felt but it does not let itself be seen; the divine final judgment judges

every thinking creature, idea by idea; starting from the age of twelve years old; the children, the innocence, have no judgment; if this world had created a life system in which everyone had kept the joy of a child, during the entire life, be sure that this world would not have a final judgment; for the morality of joy is the morality of the Kingdom of Heavens; if it did not happen that way in the trials of life, it was because the strange life system, which came out of gold, included inequality; inequality is not known in the Kingdom of Heavens; the true joy which should have come out of a fair life system, did not come out; and a strange joy was brewing in the hearts and minds of those who had the misfortune of finding themselves in this world, with a strange form of living, conceived by a group of ambitious beings; this constitutes the human tragedy of all times; the creators and sustainers of such strange life system, know nothing nor do they want to know about the divine morality of the Father; for they did not take into account the divine

Gospel of the Father at all, when they decided to create a life system; the human psychology revolved around the greater capacity of gold, which this or that person had; the human psychology was distorted by a strange psychology; for no one requested wealth to the Father; not even the so-called rich requested it; for one does not request the Father anything unfair; from the moment in which no rich enters the Kingdom of Heavens, the so-called wealth is not known in the Kingdom; and everything unknown in the Kingdom is called strange to the Kingdom; the most microscopic immorality is strange in the Kingdom of Heavens; the beings of the old world knew it; for they requested to live the fascinating era of the Open Heavens; the same era which is coming to this generation; this era which shall shudder the world is initiated by the First-born Solar Son Christ; the older son of the Father is already on Earth; his face is maturing; which means that a solar brightness is being born from each of his pores; for every sprout starts from

the most microscopic towards the big one; it starts from the invisible to the visible; many have talked to the First-born Son, and they have not noticed it; they shall realize it when the brightness of his face becomes visible to the human eye; it is written that the Son of God would come to the world shining like a sun of wisdom; the old people of Ica and Nazca called the Son of God, the Child of the Radiant Face; who came from the remote suns of colors of the Macrocosm, called the Kingdom of Heavens; and they knew that his new appearance would be in the final times of the strange world created and inspired in strange laws of gold; and they knew that his appearance would cause terror in the beast and in the prostitute of the strange world of gold; and they knew that his arrival would surprise the world; just like a burglar surprises everyone.-

### **ALPHA AND OMEGA.-**

Scroll N° 3.306

**ADAM AND EVE HAD MANY CHILDREN WHO GOT MULTIPLIED THROUGHOUT THE EARTH OF THE PAST; THAT VERY REMOTE WORLD WENT ON TRANSFORMING ITSELF UNTIL IT ARRIVED INTO THE PRESENT ONE; THE PLANET EARTH STARTED LIKE A MICROBE THAT WENT ON DEVELOPING ITSELF UNTIL IT CONSTITUTED ITSELF INTO THE PRESENT BALL; THE EARTH HAD INFINITE SIZES; THE PRESENT HUMAN KNOWLEDGE DOES NOT COME OUT OF THE DIMENSION OF THE MOLECULE; IT IS A PRIMITIVE SCIENCE WHICH EVOLVES IN ORDER TO KNOW THE CONTENT AND THE LAWS OF A SECOND MOLECULE; THE FIRST MOLECULE IS THE WORLD ALPHA OR MATERIALSTIC ONE, WHICH IS COMING TO ITS END; THE SECOND MOLECULE IS THE NEW WORLD OR OMEGA WORLD.-**

Yes little son; Adam and Eve had many children;

children who multiplied during an immense time, which still continues; being Adam and Eve the first parents of humanity, they were not the first in creation; one has to distinguish the human creation and the creation of all the other beings; each species had a beginning; and the human beginning was not the first; it was the last; before the Terrestrial Paradise emerged, there were other paradises of other species; this divine Revelation doe not distort in any way the first parents of the human species; human spirits and animal spirits have got the same right before God; in their respective living laws; no one is less before the Father; if you human creatures had first parents and had a divine Paradise, those who you call animals also had one; their stories have not been told; the divine light of knowledge in the Father shall tell them; for it is light for the world and for every understanding; he who denied the rights of others, without knowing the exact origin of things, shall not enter the Kingdom of Heavens; such being fell in his own

trial; everyone requested the light in their lives; the light of Father Jehovah has got no end; that is the difference between what is of the Father and what is of men; the Father is the creator of every living eternity in the universe; man does not create eternity; for he requested to know mortality; he did not know it; everything that is not known is requested in the Kingdom of Heavens; it is the cause of every existence in the universe; Adam and Eve lived in an epoch which had nothing of the present one; for their world fulfilled laws proper of a paradise; they did not have the oblivion of the past as you have it; they lived in a microscopic world; when the Earth was the size of a little ping-pong ball; and they did not notice that they were microscopic; the same phenomenon happens to you; your dimensions are so little that no one knows you out of yourselves; you are a dust in the concert of the gigantic worlds; even more, the entire infinity that surrounds you, a space full of yellow suns are unknown in the own universe; I verily say unto you that every world

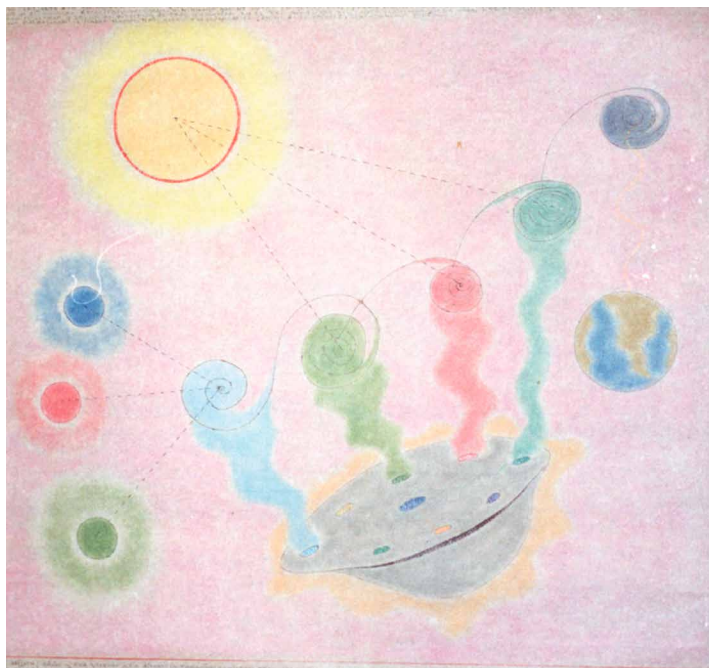

as gigantic as it may be, loses its importance of being a giant before the own infinity; no one is important in the universe; only the Father is; Adam and Eve saw things which none of you has seen; telling the story of Adam and Eve transforms all the mental concepts which one had of them; many have vulgarized the unknown story of Adam and Eve, none of these demons shall enter the Kingdom of Heavens; it is more likely for those who respected what they did not know, to enter the Kingdom of Heavens than for those who mocked at what is unknown; what is unknown becomes living before the Father, and it accuses every mocker; behold a weeping and gnashing of teeth of those who made fun of the divinity; none of these shall be resurrected to a twelve-year-old child; among these are the so-called Masons; creatures of darkness who cultivated a strange humility in their beliefs; nothing that was done in the occult enters the Kingdom of Heavens; nobody got to know the occult in the Father's Kingdom; everything was

light; everything was common and an eternal joy; Adam and Eve were born from dust; they lived laws of the interior of the Earth; they got to know things and facts, which were not for you to know; for there are infinite kinds of living experiences; Adam and Eve lived what is primitive turned into a paradise; and you live what is primitive turned into trials of life; between Adam and Eve and you there is a hierarchic difference; they got to know the human life first; they were older than you; for in order to be the parents of a humanity, one needs the knowledge of parents; Adam and Eve were born by molecular vibration; they were germs or microbes of the own Earth; this divine Revelation corresponds to what was said by the Father in his Scriptures: And He made them from mud; from dust you are and to dust you shall return; behold what your Father Jehovah wanted to say to you was that from the own elements of nature, one is born; the Father of the Father is so infinite that He does not need artifices; He takes a colossal world out

of a microscopic molecule; I verily say unto you that every planet starts from being a molecule; and when the planet develops, that first molecule starts giving place to another one; and this to another one; the inheritance of every species is expansive with strength and geometry in a free will; every development is directed to one sole point; for the events in the spirits and in the laws of matter were living mandates, which came out of a same point in the universe; from one God only; the divine living mandate is a divine covenant between matter and spirit; matter and spirit are two free wills, which express themselves in a molecular magnetic vibration; both are materialized fire; the fire which came out of the divine fire of the Father, is manifested in infinite forms; and your flesh is one of them; behold every flesh shall be resurrected with solar fire; it shall be resurrected by the one who has been announced through the centuries; the human flesh shall be resurrected by the First-born Solar Son; by the one who is to come shining like a sun of

wisdom; the vibration of his fire shall make every molecule of flesh be magnetized in a vibration corresponding to that of a child; the resurrection of every flesh is a divine process similar to what takes place in the remote suns; what is up above is the same as down below; behold a law that the Father could do; I verily say unto you that every skeptical one shall see him with their own eyes; behold the weeping and gnashing of teeth of everyone who built his hopes up on gold; may the gold that they greed so much in life, resurrect them; may the gold turn them into children; behold they shall curse having been born; but they chose the way of what is ephemeral; they had free will.-

Yes little son; Adam and Eve saw in the pharaonic dynasty; they saw another genealogical tree; a tree which came from the remote galaxies; these creatures had another science; a science which being wonderful, fell before Father Jehovah; they were the first in the human dimension who created slavery; these demons are cursed by Father Jehovah;

no one who followed them in life, by studying their damned occult sciences shall enter the Kingdom of Heavens; they were blind of the Eternal Father's laws; the Scriptures of Father Jehovah do not teach slavery; these blinds of the laws of the spirits should have paid more attention to who they studied; behold the weeping and gnashing of teeth of every studious being of the creators of the first slavery in the world; I verily say unto you that many civilizations of the terrestrial past have enslaved others; none of these tyrants have entered the Kingdom of the Father; nor shall any of them enter; I know little son that you are thinking about the present tyrants of many nations of the strange life system based on gold; all these strange demons who shelter themselves under the force, are damned; for one way or the other they enslave their brethren of the trials of life; no one requested the Father to enslave others; in any imaginable way; the majority of those who governed by the use of force, shall commit suicide; they shall not

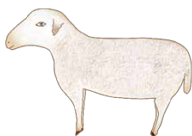

be able to bear the presence of the Living Eternal; those who remain shall be burned by the solar fire; behold the second death; the first death is the decay of the flesh; the second death, which is the one caused by the fire that comes out of the First-born Son, is instantaneous; not even dust shall remain of the condemned ones; the first death was requested by every human spirit; as a trial of life; the second death was requested in the Final Judgment; behold the end of satan in this world; behold the demons filled with horror before a Solar Parent; behold the end of those who made the world undergo suffering through centuries and centuries; behold satan being cornered amidst the rant of human seas; behold the weeping and gnashing of teeth in its most elevated hierarchy; behold the second death, which is hovering over this strange world; behold the surprise of an entire world, which shall be shaken and shall not get up anymore; behold the beginning of the end of a planetary tree which Father Jehovah did not leave; behold the Earth that

dies and the Earth that is born; an Earth which should have always existed; an Earth which was delayed by some instants called centuries.-

## **ALPHA AND OMEGA.-**

Scroll N° 111

**AFTER ADAM AND EVE, THE CREATION CONTINUED GETTING EXPANDED, JUST LIKE IT HAD BEEN DOING IT BEFORE THEM; THE FIRST HUMAN COUPLE IS NOT THE FIRST ONE IN RESPECT TO THE OTHER CHILDREN OF CREATION; FOR BEING EVERYONE THE SAME IN RIGHTS BEFORE THE FATHER, THE ANIMALS OF THE PLANET HAD A BEGINNING WHICH MAKES THEM FIRST AMONG THE FIRST; THE SO-CALLED ANIMALS WERE THE FIRST TO INHABIT THE EARTHLY PARADISE; FOR EVERY HUMBLE IS FIRST IN THE ENTIRE CREATION OF THE FATHER.-**

Yes little son; so it is; just as the Father Jehovah's Scripture says so: Every humble is first in the Kingdom of Heavens; and being first in the Kingdom, one is also first in any point of the universe; this divine mandate was forgotten by the men of this world; for they created a strange life system, in

which my humble are not the first; the first ones in this strange life system are the ones who have got more gold; behold all those who were first in this world, are the last in the Kingdom of the Father; and he who had nothing in this world is first in the Kingdom of Heavens; I verily say unto you that the more a spirit built his hopes up on gold, he is further away from the Kingdom of Heavens; for one enjoyed a strange influence, which no human spirit requested to know; no one requested to feel in himself having more than others; such sensation is demoniac; for it is not written in the books of life; what is not of the light is of darkness; the rich of the world are unknown in the Kingdom of Heavens; for in the Kingdom no one is trialed; everyone lives communism there with a philosophy of a child; everything is joy there; the complex of possession does not exist; behold the difference between what is divine and what is terrestrial; man did not want to imitate the Kingdom; that is why he does not enter the Kingdom; if he had only imitated

microscopically what is of the Kingdom, he would enter the Kingdom once more; for the most microscopic imitation of what is of the Father, is infinitely awarded in the Kingdom; if Adam and Eve, parents of the human dimension, disobeyed the Father, you children of the Earth disobeyed, too; and you also created infinite planets in disobedience; for from each mental idea that you generated in life, a future planet is born; whose creatures shall have as a philosophy, the same philosophy as yours; that is why you have the tendency to disobey; for you came out of the ideas of Adam and Eve; a tendency which got extended to other creatures of other infinite planets Earths; for once the idea is generated, it never ceases getting expanded; such is the living universe of the living God; that is why it was written: Each one makes his own heaven; for each planet that came out of every living idea is surrounded by a heaven; just as the Earth is; behold a Revelation which shall transform every concept that one had about the origin of the universe; and of the own

planet; but, all the concepts that were said in this world, exist out of it; even if those concepts have never been proved; what one did not see on Earth, is seen out of it; for everything imaginable exists in the Father; Were you not taught that your God is infinite? Infinite means that in everything created, He has no end; he who doubted the Father's power shall not enter the Kingdom of Heavens; no one requested the Father to belittle Him in power; when Adam and Eve disobeyed the Father, they perpetuated disobedience; this disobedience was a malign influence of the pharaonic serpent; for this damned galactic dynasty, emerged parallel to the Earthly Paradise; all the children of the paradise were telepathic, among them the serpent; Adam and Eve talked with all the animals of the Paradise every day; they did it through telepathy; this power of communication was taken away from Adam and Eve, after their disobedience; just as the tyrants' life of the so-called capitalist world will be taken away; demons who did not consult Father

Jehovah's Scriptures in order to create a life system; every demon who made use of force shall be burnt by the solar fire; Adam and Eve saw this fire; now is your turn to see it; I verily say unto you that this generation shall know the real horror in their weeping and gnashing of teeth; the same horror that the pharaonic demons felt when the First-born Solar Son Christ was born among them as Moses; I verily say unto you that it is your turn to see it now; and you shall see how the demons of force shall be burnt; a solar justice which was requested by them themselves; in case they violated the laws of the Father; represented in the divine Commandments of Father Jehovah.-

Yes little son; just as you can see in the celestial drawing, the world of the future shall be of a light blue color; the generations of the future shall see it; in the planetary past, the Earth had other forms and other colors; when the paradise of Adam and Eve was not born yet; yes little son; it is the same as you have been seeing since you were a boy; What do you see little son? I see divine Father Jehovah,

a microscopic world with microscopic beings; I see that these beings live under the Earth's cortex; they are so tiny; I think that they do not pass the three centimeters tall; So it is son; what you see since you were a boy was written in the Holy Scriptures of your divine Father Jehovah: From dust you are and to dust you shall return; I wanted to tell the world that it was microscopic by creation; and with an end that comes back to being invisible; the physical body gets transformed and becomes dust; I wanted to tell this humanity: From what is microscopic you are, and to what is microscopic you return; for the Earth belongs to the microcosm; it is a dust world; which almost nobody knows in the universe; I verily say unto you that all the infinity that the telescopes of the Earth get to see, are unknown in the rest of the universe; all the galaxy Trino of yellow suns are not known; behold a law of the macrocosm; this is because the living universe of Father Jehovah has no end at any instant; behold only the Father is unique; every big one whether it

is from matter or from the spirit, is so relatively; all those who think of themselves as being unique in his world, stop being so out of it; in the Kingdom of Heavens no one knows him; for the Kingdom of Heavens is even more infinite than the material universe; I verily say unto you that the Macrocosm is the own Kingdoms of Heavens; a divine place where everything that exists came from; the Kingdom is the divine goal of every world; the living glory of Father Jehovah; the Kingdom of Heavens is the eternal life; everything that a mind wanted is found there in a degree which has no end; in the Kingdom of Heavens is where everyone requests to know lives; everyone requests the Father to go to remote planets; they request Him to be born again by fulfilling the laws that are fulfilled in those planets; so it is that every spirit makes covenants and divine agreements with the elements of this or that world; if you children of the Earth know this planet, it is because her molecules wanted it that way; for being the molecules so tiny, they are great

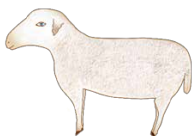

in power in the Father's Kingdom; every molecule talks and converses with its Creator; for all with no exception are born with equal rights before the Father; no one is less in His laws; neither matter nor the spirit; all are equal before the Father; every animal is a spirit that requested its own carnal form, by making use of its free will; this means that never ever the so-called animal should have been looked at with despise; nor should it have ever been mistreated; no one requested to do it; I verily say unto you that many spirits of animals are judges in the Kingdom of Heavens; once the life trial that they requested to know is fulfilled, they occupy their divine positions in the Kingdom of Heavens; behold the meaning of the parable that says: Every humble is great in the Kingdom of Heavens; behold the weeping and gnashing of teeth of a world that cultivated a strange humility; which came out of its strange way of living; for the humility of this world is a hypocritical humility; it is influenced by gold; no one who was humble and got to know

at the same time the strange life system, based on gold, none of them shall enter the Kingdom of Heavens; it is more likely for one who did not hear even by word the term capitalism to enter the Father's Kingdom; I verily say unto you that even the most microscopic and infinite expressions which came out of a strange way of life, are judged in the Father's Revelation; the so-called capitalism should have never existed; its injustice is not of the Father; the strange capitalism came out of the wrong use that man did, of his free will; it would have been better for those who made a wrong use of their free will, not to have requested the Father to know the human life; for the so-called capitalists have to pay on themselves, all the human pain that this world underwent; all the suffering of all the generations, from the right instant in which satan materialized himself into a life system; if the ambitious for gold would not have invented capitalism, this humanity would have entered the Kingdom of Heavens; the culprits of their no entrance are the

capitalists; for the human innocence got to know rich and poor; no innocence divided in its mental concepts shall enter the Kingdom of Heavens.-

**ALPHA AND OMEGA.-**

**RELATIONSHIP BETWEEN CHRIST AND THE  
PHARAONIC DYNASTIES; WHAT THERE WAS  
BEFORE THE EARTHLY PARADISE; THE DAMNED  
DYNASTY OSIRIS, BELONGED TO THE LEGIONS  
OF SATAN; AN UNKNOWN BEGINNING FOR THE  
HUMAN KNOWLEDGE.-**

Yes little son; the beginning of every world starts when this is microscopic; the Earth that you inhabit was in a time that escapes every human calculation, a baby planet; it was the size of a pin's head; behold the divine complement of the parable that says: One has to be very little and humble in order to become great in the Kingdom of Heavens; for the parables of the Father are for the spirit and matter; He created everything and everything is living for the Father; no one is less before Him; neither

matter nor the spirit; all are equal in rights; in that very remote epoch, Adam and Eve were not born yet; for at the beginning everything was fire; you were taught that Adam and Eve are your first terrestrial parents; they certainly were; but, they are not the beginning of the own planet; for no one is unique in this world; the pharaonic dynasties arrived in this planet, fulfilling a galactic law; a law which shall be known in this world for the first time; the laws of the Father are many, which you shall know now; for you requested the trials of life with an oblivion of your past; I verily say unto you that without the oblivion of the past, your life would not be a trial; for you would know everything; every world in their beginning is visited by the Father's older children; by children who have lived more; who understand Him more; for the more a creature of the universe knows, he participates more in the laws of creation of the Father; that is why every spirit is born again; or he reincarnates again; for the knowledge that comes out

of the Father has no end; nothing in the Father has it; the arrival of the pharaonic creatures fulfilled this law; every knowledge takes a form in order to continue advancing towards the Father; every knowledge is living; to you the living knowledge is called spirit; in other worlds they are called in other terms; for nothing has got any limits in the Father; the pharaonic dynasties were one of the first to witness the beginning of the planet Earth; for there were other solar creatures before them; they were of fire; behold the first incarnation in this world; for everything that is born and gets transformed in nature is a new earth or new reincarnation; it has been happening at every instant and since the beginning of the world; the most microscopic transformation of a microbe, is a microscopic reincarnation; and the Father sees everything and He leads everything; being Him everywhere, He is also in what is invisible; and what is invisible is so visible and material as your present is; *So I can see divine Father Jehovah; I can see*

*infinite creatures passing by me; of all the epochs that this world has had; and I see its scenes; I am amidst them; So it is little son; what you see corresponds to you by solar hierarchy; so it was in your past; And I can see the future, divine Father Jehovah; I can see the greatest Revolution of this world; I can see the Universal Revolution that your divine Revelation shall cause; I can see that what is the greatest and more transcendental comes out of your Scripture; So it is little son; what is of the Father has got no limits; when the Father expresses Himself to the worlds, the worlds get transformed in all their customs; the pharaonic dynasty which arrived first to this world, was the dynasty Osiris; they were giants up to 30 meters tall; it was an epoch in which the heaven that surrounded the Earth was open; I can see it divine Father Jehovah! What colossal creatures! And I can see by your divine grace, immense space crafts that shine as silver shines under the sun; the giants seem to be playing with them; Yes little son; those space shifts are the silvery vessels; which come out of remote suns; they are*

the same ones that the world has seen; which they call flying saucers; *How beautiful they are divine Father! Those space shifts remind me of an entire galactic past; I see that I come by your divine grace, from colossal suns;* Yes little son; one comes out from everywhere in the infinity; that is why it was written that what is up above is the same as down below; in all the points of the universe there are creative laws; the Osiris dynasty at the beginning respected the divine laws of love of Father Jehovah; but, when satan divided other solar hierarchies in the Kingdom of Heavens, the pharaohs also got divided; these galactic creatures were telepathic; they knew things by telepathy; they communicated with the remote suns; they learned laws and sciences of other worlds; the error they made with the human evolution was to have created occultism; for neither them nor their followers enter the Kingdom of Heavens; no one requested the Father in the Kingdom of Heavens to occult anything from anybody; behold even the greatest wisdom that has passed

through this world, fell before the divine mandates of Father Jehovah; the first dynasty fell in arrogance before the Creator of the universe; they recognized the bear as a god; and they represented it as the creator of gold; after that they were successively degenerating the true spirituality; the only one; the one that came out of the living God; the one which is of the Creator of everything; including what they called gods; behold the greatest abuse of power in this world; for the pharaohs had powers in the own nature; after the First-born Son came they; for their condition of having another evolution coming from remote galaxies; these creatures knew about the Trinity more than any other creature of the human knowledge; they represented the Trinity in their garments; the Alpha lines; they were of black and yellow colors; they created the first philosophy of force in this world; Pharaoh means force taken out of a lion, in Celestial Science; that is why they created the sphinx; a demoniac divinity which had a human head and the body of a lion; these demons

created the first slavery of this planet; and they were losing all their spiritual powers as they were falling into more pride; the last dynasties only counted with the physical force; these creatures had as a mission to colonize the Earth; to teach what there is beyond the remote suns; but, the ambition, the craving for power, corrupted them; they rebelled against Father Jehovah; they taught in this world the material adoration towards divinity; a form of adoration not very pleasurable to Father Jehovah; for with such form of adoration, the creature advances a little; the Osiris dynasty got to know the earthly Paradise of Adam and Eve; and envy took hold of them; behold a Revelation which shall cause astonishment and immortality to its revealer; the serpent that tempted Eve was the own pharaonic serpent; for in that very remote epoch, all the creatures were telepathic; Adam and Eve were used to talking by telepathy with all the creatures of the universe; behold another Revelation which shall astonish this world; this dwelling

was destined to be telepathic by inheritance; and because of the serpent which tempted Eve, it was not so; for from the beginning temptation was not considered in the laws of the Creator; from the right instant in which the Father's laws were violated, infinite laws had to be changed, whose application you came out of; for in the Father's creation no one is unique; the violation that takes place in the laws of a microbe, reverberates when this becomes colossal; for everything is expansive; and it never stops; if your Father Jehovah had not intervened when the damned serpent tempted your first terrestrial parents, this world would have become a hell-world; you would not have got to know progress, for all of you would have been perpetual slaves; it was the intention of the serpent, which was sent and taught by the first enslavers of this planet; I verily say unto you that other followers of Osiris are in this world; they are the same ones who have created rich and poor through the centuries; just as the damned pharaonic serpent

wanted to divide the love that Adam and Eve felt for their Creator, likewise those who have given you a life system based on gold, divided you in rich and poor; did these ambitious beings forget that all of you are equal in rights before God? The so-called capitalists of this world, are satan's followers; for they continue dividing others, in the worlds they go to; do they not know then that no rich shall enter the Kingdom of Heavens? And if they know it, why do they insist in building the world's hopes up on the so-called wealth? Behold the same accusation made against the damned serpent and the damned pharaohs; an accusation, which shall shudder the deluders; for because of them no human creature of the past and the present shall enter the Kingdom of Heavens.-

Yes little son; so it is; this celestial drawing means that the fire went on getting transformed into molecules of earth; in the epoch when the heavens of the universe were open; one could see a colossal traffic of flying saucers; creatures from other worlds travelled in enormous air vessels; it was a normal traffic; the Earth was inhabited by giants; these creatures are not from the human line; the human line came out of Adam and Eve; whose physical constitution was flesh; the giants were of fire; others were their laws; an unknown epoch in all the epochs of humanity; for no one in this world requested the Father to remember the events of the own origin; for all requested to be trialed in life; the men of fire were of a gaseous constitution; they knew that invisible cords united them to the suns Alpha and Omega; they knew that there was one God only; their philosophy was common in everything; many travelled out of the Earth, in the Celestial Vessels; these creatures were born from the own molecules of the fire; they were microbes

who lived in microscopic dimensions; or microscopic presents; they were born infinite times; until they became giants; they fulfilled the divine mandate that says: One has to be very little and humble in order to become great in the Kingdom of Heavens; to become giants; all the universe that surrounds you was a microbe; worlds and suns were microbes; matter and spirit were so; for matter and spirit are living in their respective laws; and both have the same right in perfection before the Father; no one is less in His creation; neither matter nor the spirit; the men of fire got to know the microscopic paradise of Adam and Eve; this terrestrial paradise was not the only one; for no one is unique in the Father's creation; there have been infinite paradises on this planet; you human creatures are not the only ones nor shall you be the last ones; for the creation of the Father has got neither a beginning nor an end; those who believe of themselves as being the unique ones in the universe, shall not enter the Kingdom of Heavens; for because

of their selfishness, they belittled the Father; I verily say unto you that the law of reincarnation was requested by you; for being born again is done in the exercise of the free will; many in this world deny laws which they do not even know; they did not make the effort of searching; he who did not make the effort of searching for his own eternity, within his own individuality, shall not enter the Kingdom of Heavens; no indifferent one towards himself has entered the Kingdom; in that remote epoch, there were other physical laws on the planet; for there is everything in the Father's flock; the remote planets and suns moved about at everyone's sight; everyone saw how the solar luminaries created; and they themselves saw how they were created in the remote suns; they saw the causes which came out of the Father's cause; the men of fire lived many centuries; they did not know old age; they reproduced by magnetic waves which came out of their own bodies of fire; they had sexes as you do; but, they did not have passions; they

were infinitely more perfect than you; this era of giants witnessed the creative work carried out by the beings who crewed the flying saucers; who still continue on it; and shall continue through all eternity; for the living creation of Father Jehovah has got no end; they talked to creatures from other worlds at every instant; the Earth on which you are was destined to another planetary glory; it was not destined to be an isolated world as it is in respect to the other worlds; in the divine intention of the Creator was to create an earthly paradise; when the disobedience of your first terrestrial parents occurred; behold a law which shows you that every disobedience being mental, reverberates in the inheritance of every kinship; for every good or evil idea tends to expansion; it tends to constitute itself into a kingdom; into a conglomerate of galaxies; just as the families are born from each one of you; I verily say unto you that just as Adam and Eve disobeyed the Father, and condemned an entire world, likewise every evil one and violator of the

Father's law condemns other worlds with his evil thoughts; for every mental idea tends to materialize itself in the philosophy it was thought; from Adam and Eve up to the last of you, you have generated ideas; and all of them are the beginning of worlds, worlds which do not get materialized in what is colossal; for everything needs time in order to grow and mature; behold the spiritual responsibility of your thoughts; behold the reason for every sacred teaching; for everything comes out of knowledge; from the ideas; Adam and Eve were warned about what they should do, and what they should have not done; you were warned too; Were you not given Scriptures which accompany you for centuries and centuries? No one should complain about what is on the verge to happen; you had an entire life so to not to let you be surprised in an instant; Adam and Eve lived an eternity in the paradise; they did not lack of anything; they could not overcome the excess of conformity; it was their trial; a trial requested in the Kingdom of Heavens; a trial which

promised the Father not to let themselves be overcome by temptation; whichever its form could be; behold the supreme light; only by keeping innocence one can perpetuate the glory searched in the Father; the supreme trial of knowing other lives, without staining innocence; when Adam and Eve disobeyed Father Jehovah, they attempted against their own innocence; it would have been better for them not to have requested a philosophical trial of life; just as they requested to know the life of an earthly paradise, so did you request to know the life which you know now; each life requested different circumstances; for in remote existences, you requested to know the free will; and for having it known, the future vicissitudes of every existence are derived; no one is born knowing anything; your point of departure is innocence; for the entire universe came out of one sole innocence; from one God only; and there is no world in space that has not got the same problem in their own laws: To keep the innocence in the laws which they

themselves requested; behold the laws of the Creator are not only for one world; for His creation is not simplified in just one world; His divine mandates have neither a beginning nor an end; were you not taught that your God is infinite? infinite means that for His divine grace, everything exists; I verily say unto you that all those who questioned one microscopic part of the attributes of his Creator, shall not enter the Kingdom of Heavens; it is more likely for those who recognized His divine greatness of having created everything to enter the Kingdom; behold another light for those who negated Him in their existences; all requested to praise Him above everything; no one requested to deny Him even in what is most minimal; behold a weeping and gnashing of teeth for every backward and ignorant spirit who did not make the effort of searching for Him in the living oblivion, which they themselves requested; in the celestial drawing one can see how the ideas generated by the creatures of the worlds, flow towards the flying saucers; for

they feel attracted towards the vessels; they recognize in them the living mandate of the Father; behold the cause of the presence of these space shifts, surrounding the Earth; the same thing that happens to you, occurs in remote worlds; infinite creatures feel intrigued by their presence; what is up above is the same as down below; they are worlds which are trialed in their philosophies; just as you are trailed; he who doubted the signals in heavens, shall not enter the Kingdom of Heavens; for he shall also be doubted, out of the Earth; none of you saw the beginning of the Earth; therefore, all those who enunciated principles of how this world was formed, were trialed; but, none of them shall enter the Kingdom of Heavens; for none of them exalted the Father in their theories; certainly, everything exists; what cannot be verified on Earth, exists out of her; behold a weeping and gnashing of teeth of every wise man who searched without taking the Father into consideration; behold the fall of the proud of the intellect; it would have been

better for them not to have requested the trial of knowledge; for they requested as the others to exalt the Father above everything; no wise man of this world has entered the Kingdom of Heavens; nor shall any of them enter; at the beginning of this world no one knew selfishness, in any imaginable way; therefore, no one knew money; the material interest did not exist, for the enjoyment of life lied in equality; I verily say unto you that that equality shall return to the world; for the interests of the world were trialed by the Father in an ephemeral time; the fact that distrust has taken over this world for many centuries, it represents a microscopic part of what is awaiting this world; every evil and injustice of this world, has come to an end; for the Revelation starts to expand according to how the Father wants it so; but, you can be sure about one thing, and that is the greatest surprise that your lives can experience shall take hold of you; this is because this world lives deluded and with a false concept of the true humility; I verily

say unto you that all your life system falls; for the so-called capitalism is not a tree planted by Father Jehovah; were you not warned that no rich would enter the Kingdom of Heavens? And the money of capitalism produces the rich; behold the weeping and gnashing of teeth of those who created this strange life system; strange, for no injustice is known in the Father's Kingdom; the so-called capitalism shall fall as you Father Jehovah extends the Revelation throughout this world; behold the fall of satan in this world; according to how the Father's Scriptures were interpreted, that's how the demons are born; your life system based on gold, did not take them into account; for neither rich nor poor are in his Scriptures; the culprits of this strange life system, shall have a universal judgment; and it shall be public; just as the judgments are in the Kingdom of Heavens; nothing is done in the occult there; no one who did occult things in this world, shall enter the Kingdom of Heavens; no one requested the Father to do things in the occult; I

verily say unto you that those who created the so-called capitalism, are the same spirits of the past; they are the same followers of the damned Osiris; who were not able to overcome their selfish inclinations in the present life of all the generations; your life system is the product of a spiritual weakness; spirits who are poorly evolved; with no spiritual depth; enclosed in just an ephemeral present; and what is of the Father is not reduced to just one present; behold the error of the poorly evolved, they imagined that they would never render account to anyone; just as it happened in the pharaonic era; behold the greater culprits of this world; for none of those who followed them in their strange life system, shall enter the Kingdom of Heavens; behold the ones who divided you in the philosophy of life; only satan divides and he divides himself; behold the demon who sullied your innocence; by not respecting the Father's Scriptures, your innocence got to know a strange morality; and it coexisted with it; no one promised the Father to coexist

with a strange morality to His divine morality; for what is of the Father does not get divided; I verily say unto you that the most microscopic thing which has come out of this scandalous life system shall be paid on Earth; the Revelation shall shudder you, for there is no other one; the Universal Revolution shall come out of it; the world of the humble shall crush those who instilled in them a morality alien to the Father's Scriptures; for this humanity is instant by instant drawing away from the Kingdom of Heavens; for you violate the Father's law at every instant; only by changing the life system stops the distancing from the Kingdom of Heavens; for even the seconds are living before the Father; the seconds requested a covenant with you in order to know a life on a remote planet called Earth; and by requesting such experience, they did so by thinking in a life system which came out of the Father's Scriptures, and not of money; for no one knows it in the Kingdom of Heavens; behold your demon; there is no other one than what keeps you divided

in rich and poor; the demon has never wanted the unification of this world; for the privilege which came out of this shameful life system, keeps them blind; the damned money turns them insensible before the justice which is requested by the peoples; behold the yoke which came out of the own men; satan turned into a life system; the end of satan's reign has come to an end; for no human creature will want to keep on living in a life system, which instant by instant draws him more and more away from the Father's Kingdom; I verily say unto you capitalists of the world, that an entire humanity shall despise you; they shall flee from you as one flees from a pest; it is the justice that you yourselves requested the Father; I verily say unto you that you shall remain in the greatest poverty that you can imagine; with the same rod that you measured others, you shall be measured; just as you created poverty in millions of beings, thus shall poverty dwell in you; now you shall be the poor; for no one was ordered to have more than another;

were you demons of usury and ambition not taught that everyone is the same in rights before God? And knowing it, why did you create a life system in which some had more and the others less? From you damned beings came every human sorrow; every human injustice; and you shall pay them all; behold the beginning of your weeping and gnashing of teeth; it came out of your own selves; you are the demons of yourselves; for you are divided between light and darkness; for you were hypocritical by serving two masters; you served your excessive ambition and you tried to serve the living God; you shall certainly be accused of being hypocritical before the Creator of life; nothing shall remain of you in this world; only the bitter remembrance of an unfair epoch and full of anguish; behold how your reign ends up into; your arrogance; a reign which should have never ever existed; for no one of those who got to know you shall enter the Kingdom of Heavens; your inheritance is the weeping and gnashing of teeth of a world; you were blind

and blind you shall fall; just as you fell in the pharaonic era; behold satan and his end; for every brother who divides his brother is a demon before the Father; yours, followers of Osiris is the legion of satan, all the ideas that you emanated in life carry the germ of the selfish division; other infinite worlds shall be born with your ambitious philosophy; I verily say unto you that none of you shall find compassion; you shall live isolated from the world; you shall envy the affection one has for an animal; you shall curse having violated the Father's law; behold your end followers of gold; this world becomes free with your disappearance; for this world was born free in the Father's laws, and not in the laws of money; you and your money are the great unknown people in the Kingdom of Heavens; I verily say unto you, that you shall beg in the streets of the world; just as you made others beg; all the suffering that this world underwent because of your excessive ambition shall fall on you; in other existences you shall pay for even the most

microscopic pain caused in others; just as many in this world are already paying; exploiters of this world, your final judgment starts; for it is the end of your reign in this world; you shall cry claiming for mercy; for none of you spirits of capitalism, shall be resurrected in flesh; only those who were exploited will be; for they attained it with their patience; but, he who doubted or negated the Resurrection shall not be resurrected; behold another weeping and gnashing of teeth of the skeptical beings; spirits who were deceived in a false spirituality; deluded by the power of gold; a power which entertains and draws one away from the Kingdom of Heavens; the demon of ambition has caused many planetary dramas; infinite humanities have fallen into the false way that leads to the Father; believing that it was the true one; I verily say unto you that many things have taken place in this world; and your fall shall be the greatest event for the long-suffering of this world; it shall belittle every event that occurred in the past; when you

disappear demons of gold, the human evolution shall take another course; a course which you are far to suspect; for it will be the innocence which shall lead the destiny of this world; an innocence which shall know nothing about money; but, it shall know the story of a tragedy that this demon caused; because of him an entire world did not enter the Kingdom of Heavens; a world that lived its final stage; which shall be known as the Era of the Weeping and Gnashing of Teeth; the era that was announced to you in the Scriptures as the Final Judgment; a judgment that starts as a Doctrine for every understanding; and which ends with the Resurrection of every flesh; of the spirits who believed in it; for it was written: Let the children come to me for theirs is the Kingdom of Heavens; which means that the new world shall be of a child's philosophy; only joy shall remain reigning in this world; a joy which was momentarily sullied by a corrupting strange life system, called capitalism; which created the self-interested

joy; the hypocritical joy; none of those who got to know this strange joy, no one shall enter the Kingdom of Heavens.-

**ALPHA AND OMEGA.-**

**ALL THE SPIRITS WHO COMMUNICATED WITH MEN,  
ARE JUDGED IN THE KINGDOM OF HEAVENS; NO  
ONE REQUESTED FATHER JEHOVAH TO PERTURB  
THE EVENTS AND HAPPENINGS OF THE TRIALS  
OF LIFE; IT IS MORE LIKELY FOR ONE WHO GAVE  
PREFERENCE TO THE FATHER TO ENTER THE  
KINGDOM OF HEAVENS, THAN FOR ONE WHO  
PREFERRED THE SPIRITS.-**

Yes little son; the spiritual communication was not requested by anybody; what the incarnated spirits requested was to be exposed to be tempted in communicating with beyond; and to overcome with endurance to such inclination; for no one requested Father Jehovah to perturb the events of the trials of life; behold the weeping and gnashing of teeth of every spiritualist of the world; and of all those who one way or the other, requested the

assistance of the spirits; the Father did not prohibit it to them; He left it to the human free will; for the act of doing one thing is more authentic when it is born from the own creature; all with no exception requested to feel the attraction of communicating with the spirits; some in a great degree and others in a minor degree; that is why some did it and others did not; he who did it, fell in the trials of life; for he preferred the children of the Father than the own Father; all promised the Father to fulfill what is of the Father above everything; which means above every spiritualist communication; above every other power; I verily say unto you spiritualists of the world that you cultivated a strange faith; mentioning the Father in that, and if there was faith, you shall have the points of that faith; in its attribute and quality; for there are many kinds of faith; yours spiritualists of the world was a divided faith; a faith shared between the spirits and the Father; your points of spiritualist faith is similar to that of the strange religious faith; which got

divided in many beliefs, being there one God only; it is written that only satan divides and he divides himself; which means that every evil provoked by him, falls back in himself; spiritualism and every science are living; and they speak in the presence of the divine Father; for the entire universe is living in the presence of the living God; matter and spirit are so in their respective laws; every spiritualist had free will in choosing his faith; if the spiritualists of this world recurred to the spirits, it was because the so-called religions erred the way of interpreting the Father's Scriptures; three quarters of spiritualist faith of each spirit, falls on the so-called religious; for they casted the first stone of error into the world; they proclaimed being the first in the truth; in its beginning, the religious rock created absolutism; getting to the extreme of killing; for they sent many innocent beings to the stakes; it would have been better for the so-called religious not to have invented such form of interpretation of the divine truth; for they caused an immense

harm to millions of beings; who decided to find the truth by other means; among them are the spiritualists; I verily say unto you that the Catholic Church shall pay for each soul who because of her, shall not be able to enter the Kingdom of Heavens; for no belief, starting from the religious one, shall see the Father's glory; all the human beliefs are influenced by a strange morality, which came out of a strange mode of life; whose source was gold; I verily say unto you that it is enough to have known a strange morality for the time of one second or less, and one misses the opportunity of entering the Kingdom of Heavens; for the promise of living in the Father's morality above everything, came out of everybody; certainly a morality similar to the Father's shall never come out of gold; behold because of the so-called capitalists and the so-called religious beings, this humanity shall not enter the Kingdom of Heavens; for they instilled in them strange customs and fashions, which embarrasses the Kingdom of Heavens; these demons divided

the world; the capitalists divided them in rich and poor; the religious beings divided them in many beliefs; being there one God only; no humanity who promised to fulfill the law of God above everything, and did not fulfill it, shall enter the Kingdom of the Father; the originators of your tragedy are the capitalists and the religious beings; the so-called religions are not of the Father's Scriptures; nor are they known in the Kingdom of Heavens; the religions are not trees planted by the Father; and they shall be uprooted from the human evolution; likewise the so-called capitalism; this philosophy of every selfish one shall not remain on Earth; for their creators requested to be judged on the own Earth; the capitalist demons of the old world shall be resurrected among the dead; so that they can see the strange seed that they left in this world; so that these blinds can see the centuries of sorrow, injustice, and exploitation that their inheritance left; behold the instant is approaching; for this immoral system of governing and exploiting shall

not pass the year 2000; little is the time left for this strange life system; it is strange for it did not fulfill the equality taught by the Father; what is of the Father divides no one; the human self-interest does divide; possession because of the ambitious rich, turns into ambition for everyone; if the men of the past had guided themselves by the Father's Scriptures, you children of the present would have had equal rights; you would have been living in Communities; which is the same as saying in Terrestrial Communism; if it had been that way, I verily say unto you that all of you would have entered the Kingdom of Heavens.-

Yes little son; so it is; just like I have been telling you since you were a child; just as every spirit perturbed the trials of life, likewise every crew member of a flying saucer must render divine account before Father Jehovah; the Earth has had many visits; many legal ones before the Father; and other illegal ones; what is of the Father is not just reduced to the humans; for the entire infinity

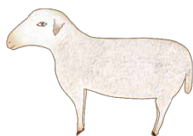

is also His creation; *So I can see divine Father Jehovah; I can see, as You know, immense armies of space beings, within the suns; I can see them rendering divine account before You: what a dazzling spectacle!! Something that shall never be equaled on this Earth; I see that all of them shine like a sun;* So it is little son; they are first-born solar sons; they are sons whose antiquity escapes the human calculation; for what is of the Father does not get reduced to just one son; what is of the Father has got no limit in anything imaginable; I know little son that this Revelation shall raise much speculation in the world; everything is possible in the Father; he who exalts the Father with stories, attains infinite points; for everything exists in the Father; everything imagined, He turns them into a reality; all those who thought that way in life, are very close to the Kingdom of Heavens; the divine points concerning the Father, has got no equal; for if the Father is infinite, infinite are His divine awards; he who belittled the Father's power in life, belittled himself; for the entire universe

shall ridicule him; in the entire infinity all the heavens shall close on him; for having mimicked the One who has created everything, the everything above everything of the universe, takes everything away from him; behold the weeping and gnashing of teeth of all those who negated the Father in life; for darkness are theirs; for one cannot serve two masters; either one serves the living God or one does not serve Him; or one serves the demon of skepticism; he who served the demon of skepticism, rejected the light; for the opposite is credulity; everything exists in the Father; he who rejected the light, attained darkness; for no one is alone in the universe; either one is of the light or one is of darkness; behold according to your beliefs is what you are; each creature fixes his position in the universe according to his thinking; for one becomes responsible for each idea that was generated in each one's mind; for each idea travels to the cosmos and waits for its Creator; behold every good idea is a paradise; it gets positioned in

the spaces of light; every evil idea is positioned in darkness; and every spirit who generated evil ideas, has to go to the own darkness in order to rescue his own work; for Father Jehovah's justice starts from the invisible to the visible; from the ideas to the visible pores; from the interior to the exterior; from what is occult to the light; behold nothing occult shall remain occult; for what is occult is not of the Kingdom of Heavens; what is occult came out of darkness; I verily say unto you that no one requested what is occult; for everyone knew that by exercising what is occult, one would not enter the Kingdom of Heavens; it is more likely for one who cultivated sincerity and simplicity in life to enter the Kingdom of Heavens, than for one who preferred what is occult; no so-called occultist shall see the Kingdom of Heavens again; just as he occulted in life, likewise the entire universe shall be occulted to him; what is up above is the same as down below.-

**ALPHA AND OMEGA.-**

**DIVINE LAW OF HUMAN TRIALS; THE SUPREME TRIAL IS THAT IN WHICH ONE SEES FOR THE FIRST TIME WHAT WAS REQUESTED IN THE KINGDOM OF HEAVENS; EVERY SPIRIT IS TRIALED IN LIFE.-**

Yes little son; I know that you are thinking of your terrestrial brother José; you see little son; having so much preparation in my Scriptures, and he fell before what he himself requested in the Kingdom of Heavens; this child as well as the others who were trialed, requested in the Kingdom of Heavens to be the first in making the world know the Revelation of the Doctrine of the Lamb of God; I verily say unto you little son that all promise the Father in the Kingdom, to be the first about everything regarding the Father; it is because of this universal request of the spirits that it was written: Thou shalt adore your God and Creator, above everything; the

Creator of everything includes everything; for the Father is in everything and in everyone; it is the everything above everything; brethren of the world: When one believes he has faith, that faith must be above everything in the world; one cannot serve two masters; he who hesitates in the faith, serves the master of hesitation; and the faith and the spirit get divided; this is what happened to your brother José of the so-called Witness of Jehovah; Father Jehovah does not judge his children of the worlds for what they are in the worlds; He judges them for the ideas they had in life; He judges them for their work; and there is no work that does not have ideas; for you were taught that the Father is everywhere; He is also in what you do not see; He is in the ideas that you generate daily; you feel the ideas, you do not negate them; but, no one has seen an idea with his eyes; your brother José as many in this world, requested the public judgment; at everyone's sight; for nothing is occult in the Kingdom of Heavens; nor should have anything been

occult in this world; your brother José as those who were called first, shall be accused in the Kingdom of Heavens of hiding the Revelation from the rest; because of them this Revelation is delayed; because of them, this humanity keeps on getting more and more away from the Father's Kingdom; for at each instant, at each second that goes by, more violation is accumulating in each creature; I verily say unto you, you who despised what is of the Father, shall not enter the Kingdom of Heavens; just as you despised the Father for the things and the influence of this world, likewise shall you be despised up above and down below; every ungrateful who despises the Father, for he has cultivated a false humility; have you forgotten the divine parable: May he who has a mouth speak? he who has eyes see? he who has ears hear? in other words, it means that one has to let others know about every News of the Father; one has to announce it to the world; for what is of the Father is universal; it is in everyone; he who hides any knowledge from others in

life, is accused before the Father of intellectual selfishness; he must add up all the seconds of time in which the deceit lasted; to occult is to deceive; the other creatures by ignoring a truth, which is already on Earth by the Father's grace, lived being deceived; for every light of truth is requested in a given time; the skeptical beings and those of materialistic faith, alter the history of the times and requests, made by the creature; for every request of life has got its time; as every event occurred in each life also has it; for no one is disinherited; all are equal in rights before God; behold the weeping and gnashing of teeth in each one; for every repentance also requested its time; and in the time that you are in, you requested many kinds of time; I verily say unto you that the Truth, the Revelation was requested by this flock in the form of a Doctrine; just as it happened in the past; those spirits who lived another world because of their customs, requested the Mosaic Law; then came the Christian Doctrine; and now, the Doctrine of the Lamb of

God; every Doctrine is living; for it comes out of the living Word of the Father; I verily say unto you that this humanity shall not enter the Kingdom of Heavens; for it was divided in its innocence; only satan divides himself; your own weeping starts from your own customs; for men gave you a life system which is immoral before the Father; they divided you in rich and poor; and the so called religions divided your spirit and your faith in many beliefs; being there one God only; and I verily say unto you that no spirit that was divided in what is material and spiritual, shall enter the Kingdom of Heavens; it is more likely for one who did not get to know any religion to enter the Kingdom than for one who got to know it; the first one was influenced by a philosophy which did not divided him; the latter one got to know division; his own living virtues underwent an experience which do not lead him to the Kingdom; for they trusted the spirit; they made divine living covenants; and spirit and virtues promised the Father to fulfill what is of the

Father, above everything; above every government system which did not take into account the Scriptures and mandates of the Father; everything that the spirit requested was also requested by the virtues; for everyone is the same before God; even though the requests between spirit and virtues are not the same; the law of which you came out, looks at you equally; even if you are unequal in the thinking; not because of that you stop being equal before God; I verily say unto you that all those who requested to be the first in seeing the Revelation, they requested to see it in Scripture; for the forms of expression of the Father have no limits; Were you not taught that what is of the Father is infinite? Nothing of the Revelation is out of the Scriptures; for Father Jehovah never contradicts Himself; even by trialing His creatures; it is man who contradicts himself; for he drew away from what was mandated to him; he did not fulfill his own promises; and I verily say unto you that it is enough to know one second or less than a second in the violation of

what is of the Father, and one does not enter the Kingdom of Heavens; this is because among infinite laws, that even the most microscopic time that you could conceive, has got its rights before God; they are as living as you are; no one is less before the Father; not even the concepts of nothingness, thought by certain minds; I verily say unto you that every humanity that follows every violator of the law, such humanity runs the same law in their future destiny; for the Father's laws were given to everyone; I verily say unto you that all those who requested to govern and lead the nations, are the first in being judged; for they have got the responsibility of millions of minds; it would have been better for you leaders of the world, not to have come to the human life if you have led the nations without taking the Father's Scriptures into consideration!! Were you not taught that what is of God is above everything? Above everything that has come out of the mind; I verily say unto you that it is more likely for one who was not a leader

to enter the Kingdom, than for one who was; he who was not, did not do covenants with the demon of division; he who was, did so; my divine Word says: Only satan divides himself; you were warned through the centuries; I verily say unto you that no leader, King, president and every creature who led a nation's destiny has entered the Kingdom of Heavens; so shall it be in the latter times too; I verily say unto you that according to the divine parable: Only satan divides himself, this world should have had only one leader; for what is of the Father is the union; and what is of the demon, the disunion; by forgetting my Scriptures, the spirits who led and are leading this world, perpetuated injustice; they govern this planet with a human calculation; with an unknown destiny; man judges man; and he does it in man; not in the Father; for he does not take His mandates into account; it is because of this cause that the world has never known the true peace and happiness; for it is a life system which came out of men; which came out

of imperfect beings; I verily say unto you that by not fulfilling what is of the Father, this world is twenty centuries delayed; infinite geniuses do not want to come to this world in order to make this world advance; for those who have come, none of them has entered the Kingdom of Heavens again; for they return divided in their innocence and spirit; the self-interested and selfish life system of this planet, catches them; I verily say unto you that is a saying in the Kingdom that when coming to certain planetary dwellings, it is difficult to enter the Kingdom of Heavens again; but the spirits trial their power; for all the spirits of all the worlds, request to trial lives which they do not know; every spirit is born again with that objective; and he does it in virtue of his free will; no one comes forcefully in order to know lives, for everything is done by means of agreements and covenants, in the Kingdom of Heavens; the old world got to know the Ark of Covenants; they never knew their infinite meaning; for they requested to be trialed in it; to

be trialed in faith; for they did not know the real cause of the Ark; the same thing happened to you; you were trialed in the divine psychology; in the way they were written, the divine free will of the divine Father Jehovah; you got divided when you tried to interpret it; for you created the so-called religions; you confused the world of faith; the spiritual world; the truth is just one; its interpretation should have also been one; the living God is one; I verily say unto you that every confusion which is created in the worlds, is judged up above as well as down below; no one has the right to confuse another; for no one requested such thing in the Kingdom of Heavens; it was written: Do not do to others what you would not like them to do to you; and I verily say unto you that there is no greater misfortune than the cause which does not allow the creature to enter the Kingdom of Heavens; the so-called religions provoked this cause; for they should have never divided humanity in many beliefs; for no spirit who has been divided in his

faith shall enter the Kingdom of Heavens; the Celestial Fraternity is a living complement; and when one of the divine beings is not in agreement, he requests to go away from the Kingdom of Heavens; he requests to be born on a remote planet; this means to you that it is wiser to renounce a religion or philosophy that divides the rest; and not to become a cause of division; I verily say unto you that all those who divided others in life, shall not enter the Kingdom of Heavens; just as he divided in this world, so shall he be divided in others; with the same rod that he divided in the world, so shall he be divided; I verily say unto you that all the minds that divided others, not a single one of them shall remain in this world; for every philosophical tree that divided in knowledge, was not planted by the divine Father Jehovah; it shall be uprooted; they shall disappear from the human evolution; for satan was trialed; and he fell before the world; and along with him the world that followed him and imitated him; I verily say unto you that this world

shall enter into an epoch of weeping and gnashing of teeth; into an epoch of spiritual sorrow and repentance; an epoch which has never been seen nor shall be seen; an epoch which shall witness the fall of a proud world; of a world that did things on its account; of a world that ended up scandalizing with their own bodies; of a world that was deluded by the god gold; a world created by a group of ambitious demons; a world that despised the laws of the Father; a world that corrupted its customs; a world that created immorality; a world that requested to be trialed, and its time is up; a world that requested the final judgment on a planet called Earth; a mandate done in the Kingdom of Heavens; to be fulfilled on a dust-planet; a world of the flesh; I verily say unto you that the humble of this world shall take their Government; just as it was mandated many centuries ago already; and it was not fulfilled; for men did the opposite to what was written; the humble are the first, says my divine Word; but the ambitious men for power and possession,

did not pay any attention to the Father's Word; now, they are harvesting their fruit; for he who had in abundance, it shall be taken away from him; and he who had nothing, shall be restituted; I verily say unto you that the so-called rich, are unknown in the Kingdom of Heavens; for inequality does not exist there; all are equal there before God; for love is not measured by what one has; it is measured by what one is; by knowledge; by the creative power; there, one does not know the word: This is mine; for possession does not exist there; no one is anybody's slave; what is private does not exist; this phenomenon is proper of creatures who are starting to live; it is an attachment to matter, which they are starting to know; it is an experience and a complex; for sooner or later, the spirit will detach from it; for flesh and its passions are weak; knowledge eliminates them, in the eternal succession of existences, which the spirit shall have; for every spirit is born again; and he goes to the many dwellings that the Father has; I verily say unto you that

everything that you requested in the Kingdom, you shall witness them all; and I verily say unto you that in each one of you, ire shall be born against your own life system; such is satan's fruit; he ends up collapsing himself; I verily say unto you that you have struggled fruitlessly in this life; for due to religious and exploitative creatures, none of you shall enter the Father's Kingdom; no divided spirit has ever entered; I verily say unto you that you shall witness the greatest Revelation that shall be known in this world; it shall be so immense that there will be no other; and it shall not be a revolution with force; like the revolutions of men; it shall be Father Jehovah's Knowledge against the human pride; I verily say unto you that the world shall be divided between the Orient against the Occident; between the true faith and the false faith; between those who served one Master and those who served two; I verily say unto you that no one who divided into two, shall remain in this revolution; behold the Armageddon; which means People who get

armed, with the good Deeds that they did in life; for every heaven is born from work; and each one makes his own heaven; and it is your thinking the generator of work; the ideas of future planets of your heavens come out of your thinking; I verily say unto you that this divine Revelation shall shudder you; for if you thought evil ideas, you shall have created your own future hell-worlds; and if you generated good ideas in life, you shall have created your future paradise-worlds; I verily say unto you that in your microscopic ideas, which travel to space, is everything that you were in life; your philosophical thinking is in there; all your individual inheritance; all your inclinations; and I verily say unto you that the creatures of your future worlds shall have your characteristics; for every inheritance is expansive; it never ceases from expanding in the universe; behold the supreme Revelation; the reason why the Thinking Expansive Universe of Father Jehovah has got no limits; nor shall it ever have any; all the creatures of all the

worlds when they think, they are creating future worlds; and they have been doing it for eternities that you shall never be able to calculate; and your Earth was not born yet; it was written that nobody is disinherited; what the Father has is inherited by the children; if you came out of an Eternal Father, you have eternity; your Father Jehovah creates in a colossal and infinite way; and you in a microscopic way; you are so microscopic that you have never seen your own ideas; nor shall you see them; one has to be born again in order to attain such power; behold a divine Revelation, which shall impose itself over any human knowledge; your science did not request in the Kingdom to explain the origin of eternity; this is why no wise man of the Earth has been able to explain the origin of his own world; besides, all of you requested a life of trials; which included the forgetfulness of the past; not remembering one's place of origin; I verily say unto you that you had a light among you for many centuries; a light that explained to you the origin of

the world; in my Scriptures there is a parable that says: One has to be humble in order to be great in the Kingdom of Heavens; and the Science of the Lamb of God complements such parable; for his Doctrine is the complement of the Scriptures, already known; the Lamb of God says: One has to be humble, very little and microscopic in order to be great in the Kingdom of Heavens; which means: One has to be a microbe coming from the invisible to the visible; he who has not been very little, cannot be great; no one was born gigantic; neither up above nor down below; for every law that comes out of the Father is for the entire universe; it is fulfilled up above and down below; what is up above is the same as down below; it had the same beginning; there are the heavens of the macrocosm, which were very little and humble; nothing of what was created was gigantic in its beginning-creation; I verily say unto you that this law is either for matter and for the spirit; for everyone has the same rights before the Creator; the laws of the Father

are not limited to just one world; for what is of the Father has neither a beginning nor an end; His laws are for all the worlds; for no one is disinherited; in all the worlds when the Revelation awaited by them arrives, surprises take place; skepticism cannot be missing; just as it happened in this world; the children of the rock were the first ones in rejecting it; they fell in their spiritual trial; for every spirit is trialed in life; and the supreme trial of every spirit arrives when the instant of recognizing the Revelation arrives; which he himself requested in the Kingdom of Heavens; the Revelation was requested like a normal event, within the human events; for the divinity is the first one in fulfilling with humanity; many await the appearance with prodigies; it was certainly written that way; but they forget that what is up above is the same as down below; that the divine Father Jehovah has got free will, as the children have; and every free will of every child is subordinated to the Father, in other words, the Father's things shall take place as

He wants; it was only announced to the children; each one in his own evolution, forms his own image of how the Revelation could be; and I verily say unto you that no human mind has formed an image of the Revelation, that could even be near it; for they have forgotten humility; they have not lived it; it was written that every humble is first before the Father; and he is in everything that you can imagine; and so it is that even the Revelation has got the seal of humility; it starts with it; it gets mingled at the beginning with the own human events; up to the last instant, of before the instants, in which the Revelation shall be revealed to the world, you are trialed; for that is how you requested it in the Kingdom of Heavens; and you requested in its beginning the absence of the Father; for you requested life trials; and it was conceded to you; I verily say unto you that by not seeing the Father, your award increases in all the acts of life that you requested; this form of life increases in its attribute and quality; in its philosophy and hierarchy; I verily

say unto you that if you saw Me, your spiritual award would diminish; for you would see the light before time; before the requested time; your life trials would not be concluded; your Father Jehovah respects the time requested by His children, before they come to fulfill them to the remote planets; behold the Father's law as it has never been explained; nor shall it ever be; for the explanation that comes out of the Father has got no limits; nothing of His has it; one knows the tree by its fruit; what is of men is ephemeral; what is of the Father is eternal and immortal; do my Scriptures not demonstrate it to you? For my Scriptures are like a coin; which through the centuries you have only seen one side of the coin; much speculation and many interpretations for one side of the coin; the time to turn the coin over has arrived; another side and the same coin; the Revelation and the same Scripture; new speculation and interpretations; if your Creator expressed Himself by Parables, now He expresses Himself by a Doctrine;

what was said in one way instants before, now is it said in another; and without coming out of the Scriptures; for the Father never contradicts Himself through the centuries; the term instant is a comparison in the times; for there is everything in the Father's flock; one celestial time in the Kingdom of Heavens is equivalent to a terrestrial century; I verily say unto you that since what is of the Father has got no limits, there are times in such degree up to what your mind can imagine; each world as well as yours, has got its own time; what is up above is the same as down below; all have got the same rights; in matter as well as in the spirit; I verily say unto you that every written signal shall be fulfilled, for everything in the Father's living creation has got a divine order; an order which is eternal; and those who violate His Scriptures and mandates, alter this order; the Father is almighty; but, He trials his children in their own laws; for all of you are creatures of the universe; and you have got rights in it; for no one is disinherited, for being

the Father everywhere and in everyone, His justice is too; the way of expressing of His justice has no limits; the Father expresses Himself according to the evolution of the worlds; for there is everything in the Lord's vineyard; there is everything in the universe; being there everything imagined, is that you were taught that your Creator is infinite; and if you do not conceive infinity in the Father, it is because you are poorly evolved; your mental intuition is just being born; it is at the entrance that leads to infinity; you have been born a few times; for the more experience one has due to existences lived, the higher is the concept that one has about infinity; I verily say unto you that if you do not care about what is yours, you would care less about the infinity that surrounds you; this is called Mental Backwardness before the Everything above Everything; mental abandonment when one is amidst knowledge, and one does not pay any attention to it; I see that millions of easy-attitude children are blind because of their own comfort; they waste

time in inane things; they are ignorant beings surrounded by comfort; I verily say unto you that none of those who had abundance and was fatuous, shall enter the Kingdom of Heavens; it is more likely for one who with his abundance searched for the Father to enter the Kingdom, than for one who squandered abundance; it would have been better for him not to have requested abundance; for because of it no rich shall enter the Kingdom of Heavens; I verily say unto you that as long as there was one poor only, it is immoral to enjoy abundance; for you were taught that all are equal before God; you should have imitated Him; for it is more likely for one who tried to imitate the Father to enter the Kingdom, than for one who did not imitate Him; every similarity that gets closer to the Father's mandates, that one is the first in the Kingdom of Heavens; the first among all the similarities; I verily say unto you that the life system that was given to you, has nothing of being similar to the Father's; for you did not sow humility; you sowed

the opposite; inequality; abuse; exploitation; immorality; deceit; vice; scandal; I verily say unto you that all those who lived this life system shall not enter the Kingdom of Heavens; it is more likely for one who did not get to know corruption to enter, than for one who got to know it; even if he did not practice it; but his eyes saw it; it is more likely for one who did not see to enter the Kingdom, than for one who saw; I verily say unto you that it is more likely for an ignorant in corruption to enter the Kingdom, than for one who had knowledge of corruption, even by word; the first is innocent by ignorance; the second one is innocent by knowledge; in order to enter the Kingdom of Heavens one needs knowledge attained by the Father's laws; every knowledge has got morality; and the highest morality comes out of the Father; your world has created strange moralities; it is called strange what is not within the Father's morality; what was not taught to you; everything that men create is not eternal; what is of the Father is; it is

because of that that the Father's morality is the first of all; it judges the strange moralities; for their authors came out of the Father's laws; they return to Him sooner or later; there is no morality that mandates itself; they have got their time and their free will; I verily say unto you that no one who was immoral in life shall enter the Kingdom of Heavens; no strange morality has entered; that is why no rich shall enter the Kingdom of Heavens; for such morality has the god of gold; the most arrogant amongst all; for there is one God only; the term god is a usurpation to the Father; for the Father has created everything; I verily say unto you that all those who have worshipped false gods, none of them has entered the Kingdom of Heavens; neither the worshippers nor the worshipped; I verily say unto you that the lives systems that violate the Father's law, are like the false gods; none of their followers enters the Kingdom of God, the true God; the living God; I verily say unto you that all those who bowed before images, whichever their

form could have been, shall not enter the Kingdom of Heavens; it is more likely for one who did not know any image; your Father Jehovah is a zealous God of his laws; you were taught that each one makes his own heaven; that the temple is within you; and out of you; the conscience that respects the Father's laws does not need material temples; for none of them shall remain in this world; the material temples are a manifestation of the world of trials; a manifestation which came out of a form of interpretation, of creatures who promised to respect the free will of the creatures; and not to fascinate them and divide them; I verily say unto you that every temple becomes living in the Kingdom of Heavens; and when their creators have violated the law, the molecules of every material temple, speak in the Kingdom; for every little and humble, being this from the spirit or matter, is first in the Kingdom of Heavens; I verily say unto you that all the matter that you were to improve with some object, complains before the Father; for their

rights are listened to; just as the spirit's rights are listened to; no one is less before the Father; Father Jehovah's justice is so perfect that neither a molecule nor any virtue, remains without His justice; no one is disinherited; neither the elements nor the spirits; I verily say unto you that even the images that you worshipped, their molecules speak in the Father's Kingdom; every image is born from the elements; and when their creators make them by violating the law, they are accused by the molecules of the images; such is the living universe of Father Jehovah; I verily say unto you that even your molecules of flesh shall accuse you in the Kingdom; for all of you have scandalized with the physical body; and all of you promised in the Kingdom not to scandalize even in the most minimal way; for you knew that no scandalous being enters the Kingdom of Heavens; I verily say unto you that it is enough for a molecule of flesh to complain about scandal, and one does not enter the Kingdom of Heavens; for every little and humble as a molecule

of flesh is, is great in power and wisdom in the Kingdom of Heavens; I verily say unto those who showed their bodies or part of their bodies to the contemplation of the rest, they shall not enter the Kingdom of Heavens; they must pay molecule by molecule; pore by pore; and I verily say unto you that for each pore or molecule, you must fulfill an existence out of the Kingdom of Heavens; I verily say unto you that even the time that you used in your scandals, complain before the Father; for every second lived has got so much importance as the spirit who enjoyed the time; I verily say unto you that the entire Ark of Covenants requested to fulfill the Father's law in their respective laws; in these covenants the spirit is not the first one; much less after he violated the law; for the human spirit was mandated to be humble; and every humble is always de last one; I verily say unto you that your life system did not exalt humility; it did the opposite; it despised the first ones; were you not taught that every humble is first before the Father? Why

then did you not extol them? Why did you not let them govern the world? If it was taught to you that they are the first? I verily say unto you, usurpers of the power of others, that the world shall judge you; for with the rod that you measured you shall be measured; governing the world never corresponded to you, ambitious of gold; from the point of view of my Scriptures and my Commandments; you twisted the course of a history by not considering the Father above everything; above the own life system that you gave this world; which is a shame before the Father; your morality exploitative spirits, is a strange morality; it is not a tree planted by the Father, and it shall be pulled out From its roots; your morality has a complex by the ambition towards gold; and you have infected an entire world; a world which by imitating you, shall not enter the Kingdom of Heavens; for you corrupted their innocence; you are divided in mind and spirit among many masters; among many influences; and in order to enter the Kingdom it is necessary to

serve one Master; one sole God only; the living God; I verily say unto you that no divided spirit shall enter the Father's glory; and this tragedy of a world shall fall on you, demons of exploitation; it would be better for you not to be in this world; it was written that every humble will be extolled, and every self-extolled despised; for my laws did not mandate anyone to be self-extolled; all the contrary, my laws mandate to be humble above everything; I verily say unto you that the world shall ask you to render accounts to them; the weeping and gnashing of teeth came out of yourselves; it did not come out of the Father; you were the violators of the law; the weeping and gnashing of teeth is of an earthly origin; man's demon was the own man; for you divided this world; and only satan divides himself and he divides others; because of you demons of ambition was the Final Judgment written; and not because of any humble; I verily say unto you that your reign of dividing the world comes to an end; your fall demons shall be the fall of the yoke

of this world; without you, this world shall turn into a paradise; just as it was eternities ago; when no one knew ambition nor greed; with your arrival, demons of ambition, injustice and immorality started on this planet; and all the plagues that this world has got to know; I verily say unto you that your fall shall be a rejoice to every long-suffering being; to every displaced one; to every despised one; to every long-suffering; to every dispossessed one; rejoice in the spiritual world; the world of those who await; theirs is the Kingdom of Heavens; I verily say unto you that all the rich nations shall remain in the greatest poverty that you can conceive; for wealth is the great unknown one in the Kingdom of Heavens; in order to be judged, one starts from equality; what the Father and Son did not plant shall not remain; only the interior sowing remains; the ideas that were put into practice during life; knowledge and work; wealth is not of the Father; and it shall be crushed by knowledge; I verily say unto you that all those who are rich shall

curse being so; for no rich shall receive the award of the eternal flesh; Father Jehovah does not award those who because of their disproportionate ambitions, created suffering on others; He awards the long-suffering because he gave up; I verily say unto you that they shall envy every humble; for theirs is the eternal Glory; theirs is the resurrection of the flesh; I verily say unto you that the resurrection of the flesh shall be in the year 2001 in the remote India; for every humble, being this an individual or a nation, is first before the Father; your Father cannot award the nations, which made of gold their supreme goal; He cannot award them, for He would be going against his own laws; the Commandment says: Thou shalt not steal in any conceivable way; not even in unfair life systems; for wherever there is injustice, there is theft; justice is stolen from somebody; I verily say unto you that every rich is a thief; for he steals what belongs to another; he is rich because someone is lacking; I verily say unto you that in order to establish the equality taught

by the Father, it is necessary to take away from the one who has in excess; this is not theft coming from the Father; it is restitution; and it was written that He would come in order to retribute everything; I verily say unto you that the term everything includes everything; matter and spirit; for the Father is everywhere; and everyone requested to be judged; matter is so important to the Father as the spirit is; neither one nor the other are less; they are equal before the Father; those who were rich must surrender half of their belongings and valuables to those who have nothing; the other half belongs to them due to the effort; and because of the divine mandate that says: Thou shalt earn thy bread on the sweat of thy face; these children confused the law; for them it was like saying: Thou shalt exploit others; thou shalt live at the expense of others; thou shalt impoverish others; thou shalt starve others; I verily say unto you that no law mandated you to be rich; the earthly law is not taken into account when one is in Final Planetary

Judgment; every accused awaits for the judge's sentence; I verily say unto you that every rich shall disappear from this dwelling; for every life trial has got its time; just like all the life systems of the old world disappeared, likewise shall this one disappear; I verily say unto you that all those who violated the law in the past, also had their weeping and gnashing of teeth; and for the same cause; because of the ambitious beings of those epochs; the ambitious and usurers always give trouble to the Father; but, none of them shall remain in this world; they devastated the world for many centuries; the living beast which made the world undergo suffering; a beast that was a beast up to the last instant before the Revelation; a beast who did not get to know mercy; a beast that when it made charity, it made it because it had more than enough; and what they had more than enough, did not belong to them; for the idea of becoming rich came out of them; it was their invention; such philosophy is not worthy up above nor down below; they

are the great disinherited of the awards; for they have had their awards already, by enjoying gold; without caring for the suffering of others; yes, no one on this Earth nor out of her shall care for them either; those who were rich of the past and the present, shall not see the Father's glory; for one does not attain His glory by making others undergo suffering; one attains it with an elevated morality; with an honest work; with the sweat on the face; one does not attain it with exploitation; I verily say unto you that neither the parents nor the children of rich, shall enter the Kingdom of Heavens; every inheritance is transmitted; up to the fourth generation; I verily say unto you that every inheritance that came out of every violator of my law, shall not enter my Kingdom; I verily say unto you that fathers and mothers shall curse their children; and the children their parents; for having lived this life system for just one instant; one does not enter the Kingdom of Heavens; I verily say unto you that the divine Doctrine of the Lamb of God shall provoke

the greatest of the Revolutions in this world; for all have got a soul and a spirit; and no one wants to lose them; this Revolution shall not be of violence; it shall be of Knowledge; and all the peoples shall get armed with their own work; Armageddon means People Armed by Talents; by virtues; for the Final Judgment of the Doctrine of the Lamb of God shall be measured by what each one did in life; every instant gone by in life, shall be weighed in number; the calculation; in celestial points; for every good work is awarded; and every evil work punished; I verily say unto you that the New Knowledge shall provoke the fall of all the philosophies that divided this world; satan falls; for only satan divides himself; you are going to witness the Intellectual Judgment of this world; for that is how you requested it in the Kingdom of Heavens; you requested the Final Judgment, with first-hand knowledge; with the cause of everything; as things were done; for there is no judgment that has not got its cause; I verily say unto you that the Final

Judgment shall start with the greater violators of the law; by those who sustain the life system; by those who casted the first stone in their philosophy; all those who wanted to be the first in this world, shall be the first in the Father's judgment; all those who are fair by their own work, are not the first before the Father's justice; the sinners are the first in the weeping and gnashing of teeth; for nature feels resent towards them; the spiritual state of the creatures is in a direct relationship with the elements of nature of the world they are in; the everything above everything is in their isolated actions and in the infinity at the same time; behold the law of the events; when a Doctrine is destined to reign over the others; what is up above is the same as down below; the elements participate within their laws, in the same things that the spirits participate; for both matter and spirit have got the same rights; no human creature has seen the interior of the elements; the magnetic power that moves the molecules; what they have inside; I

verily say unto you that even the most microscopic and weak movement of nature, is led and controlled; just as you have a control; I verily say unto you that every control, being this spiritual or material, is controlled all at once from the Kingdom of Heavens; and the Heavens have the control of one over the other; for what is up above is the same as down below; it is an entire hierarchy that has no end; nor shall it ever have any; for the Father's creation has got neither a beginning nor an end; it is expansive within the expansive; I verily say unto you that the most advanced beings, after the Father, search and shall search for possible limits of the creation; only the Father knows; as He knows the name of each star and each world; of those that were, are, and shall be; for He is in everyone at the same time; I verily say unto you that every planetary science starts from what is the most rudimentary; in some world; and as knowledge increases in each creature, they are being born in other worlds; for every spirit is born again due to his

knowledge, which has cost him; behold the Salt of Life; the future which shall give place to the form that the future body shall have; for every build comes out of knowledge; were you not taught that everything is living in the creation of the living God? If everything is living, the Supreme Justice of the Father, makes the materialized inheritance be born from the own knowledge, which is also living; one of the infinite forms of creation of the Father; for matter as you know it, is not unique; it has never been; even more, the universe that you contemplate with the most powerful instruments, is unknown; and I verily say unto you that the creation is so infinite that no one knows anybody; and in despite of that the knowledge of the worlds exists; universes that shall have their end and shall disappear from space, without you having known them; thus has it been happening and shall happen; in a scale which shall never be calculated; only the Father knows about the existence of what He Himself has created; I verily say unto you that what is

created came out of what was; universes that were and are not now anymore left galactic inheritances; for all their creatures generated ideas; just as you generate them; for because of the ideas that travel to space, the future colossal planets are born; that is why it was written: Each one makes his own heaven; their own worlds; which come out of the knowledge of the salt of life; what the Father has in an infinite and colossal degree, the children have it in a microscopic degree; what is up above is the same as down below; and between the Creator and his children, are the material universes; an infinite scale of creations; which does not have a beginning nor and end; in which everything exists; I verily say unto you that when you generate ideas, what you do is to multiply the universe; multiply your heavens; multiply your inheritance; multiply your beginnings of worlds; behold the origin of every eternity; every eternity has got a microscopic beginning; just as it was announced to you in the parable: One has to be humble, very little and

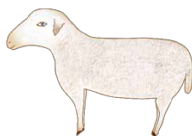

microscopic in order to be great in the Kingdom of Heavens; this parable is with a complement of Revelation; all of you were microbes; up above as well as down below; for the law of the Father is for the entire universe; and he who is not born very little and humble, does not see the Father's Kingdom; for every beginning is fair in the Father; I verily say unto you that trying to create life by your own knowledge, is impossible; since in your requests it is not written in the Kingdom of Heavens; it would be better for you not to try such thing; it is a waste of time; and what you shall get is just to multiply your errors; many do things that they would not like others to do to them; it is written: Do not do to others what you would not like them to do it to you; behold the last warning, to the audacious of science: I verily say unto you that it is more likely for one who was not a scientist to enter the Kingdom of Heavens, than for one who was; the first one did not cast the first stone in the knowledge of science; the second one casted it; and I verily say

unto you that the science of this world does not do the things by praising the Father; they do not even remember Him; it is more likely for a science that glorified the Father to enter the Kingdom, than for one that did not glorify Him; for never has ingratitude been awarded in the Kingdom; I verily say unto you that the science of this world shall pass into oblivion; for it is a science that requested to be trialed; for every spirit is trialed in life; and along with him, all the knowledge; that is why it was written: The Earth shall pass, but my Words shall not pass; the Earth that passes is the materialistic world; the world that served many masters; the world of trials; my Words shall not pass means that a new Doctrine remains in the world; every Doctrine of the Father comes out of His living Word; the same one that created the universe; for worlds and creatures came out of His living Word; I verily say unto you that this world shall see what no other generation saw; they shall see the Solar First-born Son Christ, in Glory and Majesty; for his

divine Salt of Life shines like a First-born Sun; creating in this world an immortal legend; overcoming all the laws of nature; confusing the science; a science that believed to know it all; and which shall pass before the First-born Son the greatest embarrassment; the greatest complex of inferiority; for its spirits requested such justice; embarrassment and complex are a consequence of not having cultivated humility in life; in the time that they requested in order to fulfill the trials of life.-

**ALPHA AND OMEGA.-**

**MAN COULD NEVER CREATE LIFE, AS THE ONE THAT WAS CREATED IN HIM HIMSELF; HUMAN LIFE WAS CALCULATED IN THE SUNS ALPHA AND OMEGA OF THE GALAXY TRINO; IN ITS CREATION THERE WERE AND THERE ARE THE LIVING SPIRITUAL MATHEMATICS THAT TALK TO THE OWN MATTER; THE RESURRECTION OF EVERY FLESH IS ALSO SPIRITUAL MTHEMATICS; NATURE; MAN'S MATHEMATICS ARE MATERIAL MATHEMATICS; WHOSE NUMBERS DID NOT REQUEST IN THEIR FREE WILLS TO TALK TO MATTER; THEY THE NUMBERS ALSO REQUESTED THE OBLIVION OF THE PAST, IN THEIR NUMERAL PHILOSOPHIES; JUST AS THE HUMAN SPIRIT REQUESTED IT; IN THE RESURRECTION OF EVERY FLESH WHICH SHALL TAKE PLACE IN THE YEAR 2001, THE WORLD OF KNOWLEDGE SHALL KNOW WHAT THE SPIRITUAL MATHEMATICS ARE; FOR**

**EVERY AWARD THAT HAS COME OUT OF THE  
FATHER IS GIVEN WITH FIRST-HAND KNOWLEDGE;  
IT IS MORE LIKELY FOR ONE WHO BELIEVED IN HIS  
OWN ETERNITY TO BE RESURRECTED, THAN FOR  
ONE WHO DID NOT BELIEVE IN SUCH DIVINE LAW.-**

Yes little son; so it is; those who saw the Scrolls of the Lamb of God are spirits of reduced knowledge in the laws of what is spiritual; the ignorance in them was augmented by a strange psychology, which came out of a strange life system; none of them knew the Father's Scriptures; having them promised to the Father in the Kingdom of Heavens; not even because the Revelation has no end, they realized it; this shows that before the Father even the most ignorant can request to be the first in seeing the Revelations, sent by the Father to the remote worlds; many of these backward spirits are warned in the Kingdom of Heavens; the warning consists of prophesying them in what they shall fail at the moment of trial; but, the spirits in virtue

of their free will, insist before the Father; they insist in requesting what they do not know; and the Father almighty concedes it to them; I verily say unto you that when one talks to Father Jehovah, at that instant the living numbers of what was spoken are being born; the most minimal expression is a living number; even the vision is an eternal number; matter and spirit are numbers; what is invisible and visible; what is not seen and what is seen; what was, is and shall be; everything imaginable is a number; every mental calculation, being this human or divine, is a living number; for no one is disinherited in any imaginable way; behold new mathematics are born in this world; for all the imagined things are restored; I verily say unto you that the new mathematics shall be demonstrated in the marvels that will come out of the First-born Son; they shall be demonstrated in the physical laws of nature; they shall be demonstrated in the magnetic law of the resurrection of every flesh; behold the weeping and gnashing of teeth of all

those who only believed in what they knew; of all those who doubted the law that would give them their own eternities on Earth; for none of these proud beings shall become a child again; these skeptical ones shall fulfill the mortal law; in order to attain immortality, one has to believe in it; this is the requirement of faith; for the immortality being living before the Father, opposes to continue in a covenant with the one who negated it; for immortality has got free will; just as the spirit has it; behold the light over one of the greatest mysteries, which the human gender requested; for being the law of the resurrection of the flesh, a divine and natural law in the Kingdom of Heavens, you requested it in mystery; you requested to know mystery in your own Scriptures; there are infinite kinds of mysteries; in matter and in the spirit; mystery is also a living number; men in their intention of perfection, in all the times, have intended to create life; to create it by other means; I verily say unto you that the human spirit requested the

aspiration of becoming perfect; for they did not know such sensation; one requests the Father what one does not know; and every request done to the Father turns into life; this world shall never be able to create the human life in their laboratories; for the human knowledge does not count with the divine participation of the living numbers; the living numbers lovingly order the elements of the universe; certainly the knowledge that you need in order to create life is infinitely another; life as you have, has got its cause in the solar knowledge; and its place of origin are the suns Alpha and Omega of the galaxy Trino; what happened there and it is still happening shall be explained in other Scrolls of the Lamb of God; life like yours is an unknown life in the universe; for by not having the universe any imaginable limits, no one is known; certainly just for some instants you are; those instants represent the entire life that a determined planet had; do not forget that being your Creator everywhere, embraces what is colossal; what is macro to you,

to the Father is micro; the worlds and their creatures are like molecules in the eternal creation of Father Jehovah; and I verily say unto you that the more colossal you are, you do not stop from being a molecule; behold a law which everyone undergoes; life is eternal; the spirit is born again into new forms of life; what comes out of the Father is not reduced to just one life; were you not taught that your God is living and infinite? This means that the number of lives that the Father can offer His children are infinite forms of life; what is of the Father does not stop in one life; that would be limiting the creative power of the Father; I verily say unto you that no one requested to limit his own Creator; in any imaginable way; in the place where you came out of, doubt does not exist in any imaginable way; doubt was requested by you as a trial; and you promised the Father to overcome doubt in the trials of life; and not that doubt overcame you; in every trial there are winners and losers; behold a light which has never been explained

to the world; the place where you came out of is a world of joy; amidst an unprecedented joy, you departed in order to know the human life; you were thinking that on the remote and unknown planet there was the same joy as in the Kingdom of Heavens; but the joy of this world Earth is a false joy; there cannot be a true joy when there is no equality in the facts; for every provoked inequality attracts bitterness, disillusion; the human creature in every epoch on his way through this world, found a strange psychology in the own living; a strange psychology left by others; for every inherited influence has got its author; it has got a living cause; it has got a point of beginning; in this world there have been infinite points of beginning; for there are millions of minds that think; one just needs to think, and he is generating a psychology; even if the author of it has not got the slightest idea of what the own psychology is about; every idea generated in life is psychological; it is even in the most primitive beings; the spiritual mathematics are also

psychological; in the macrocosm called Kingdom of Heavens, everything is living; the celestial psychology reigns there, no one has the oblivion of the past there; for one lives the universal reality there; everyone sees the place of their own origin there; what you call including or impossible, exists there; everything imaginable lives in the Kingdom of Heavens; everything is colossal and limitless there; behold every mind that in the remote worlds negated the divine power of Heavens, shall not enter the Kingdom of Heavens; for one does not attain glory without faith; faith is the Alpha and Omega of every living cause; faith is living in the presence of the Father; it was written: Faith moves mountains; it means: Faith opens the way which leads to the Kingdom of Heavens; for the psychological meaning of this divine parable, talks about an impossibility, according to the human psychology; from what is impossible the Father brings out what is possible; for even from nothingness He brings out life; faith is also living, numerical and

psychological; there are infinite kinds of faith; for every request of life is not the same in each living free will; and nevertheless, all the thinking spirits requested and promised the Father to live in equality in the trials of life; one always requests the Father what one sees and lives in the Kingdom of Heavens; all try to imitate in the remote worlds what they saw in their place of origin; behold an inherent truth which is in everyone; and it is in infinite degrees; all claim for a form of equality in the trials of life; for all of you were a product of a divine equality which came out of the Father; to be equal in possession is what is supreme in the Father; there are infinite ways of thinking in your free wills; you are a seedbed of living philosophies; and all at the same time have also got a philosophical free will; your supreme trial consisted in imitating what is of the Father in the best possible way; for the most microscopic imitation to the Father, is infinitely awarded by the Father; if in your thinking you did not take the Father's teachings into

account, you shall not enter the Kingdom of Heavens; for you violated your own promise made to the Father; the living promise: To do God's things above every imaginable thing, came out of you; this is equivalent to the divine mandate: Thou shalt adore your God and Lord above everything; this promise includes all what your mind has generated in ideas; instant by instant; it includes the most intimate of you; it includes thinking or not thinking in the Father; if your thinking in the trials of life had a close or the same psychology as that of the Father's, you shall be awarded by the Father; and if it was the opposite, do not expect anything from the Father; the Father awards the most minimal and also punishes the most minimal; being this in good or evil; you requested everything, for you did not know anything; when one leaves a life, every thinking spirit is already thinking in getting to know another life; for the spirit has got a free will; for the Father has it; all what the Father has, the children have it in a microscopic degree; what one

has is a living law; what is living has got a living relativity; what is living is living through all eternity; the life that you requested to know expresses itself in the Kingdom of Heavens again; for what is up above is the same as down below; nothing is impossible to the One who created everything; the human life has a free will of life; just like your spirit has a free will of spirit; no one is less before the Father; neither life nor the spirit; I verily say unto you that even the microbe and the molecule have got a living free will: behold every life accuses every spirit, who did not give it importance in the trials of life; and every spirit who violated in itself his law of spirit, punishes himself; a lifeless spirit is nothing in the cosmos; for ignorance draws one away from the Father; there are infinite kinds of ignorance; the voluntary ignorance is the most painful; your life by having a free will can choose and get united to another spirit; for the Ark of Covenants has got free will; no life is obliged to be so; for the infinite power of the Father excludes

such thing; the life that was given to you chooses its destiny, when it arrives into the Kingdom of Heavens; and since it has the free will of choosing, it can also if it wishes, continue being united to the same spirit; behold a law that shall make millions of beings weep; for I verily say unto you that every life demands every spirit to have fulfilled what is of the Father, in the trials of life, above everything; every life is demanding with the one it got united to; it is demanding with the spirit who it got united to; when the spirit violated the Father's law on the remote world, such spirit has not got the necessary morality to accuse another; in order to accuse another it is necessary to be clean in the everything above everything; so it is that every leader who did not know the Holy Scriptures of the Father by memory, should have never been a leader; for not knowing the divine mandate constitutes the greatest immorality; behold a weeping and gnashing of teeth of every blind leader; blinds because neither him nor his followers shall enter

the Kingdom of Heavens again; for they were blinds leading other blinds; the error of every leader was transmitted and imitated by an entire generation; and even by many generations; behold the strange weeping and gnashing of teeth of the strange world of gold; a world that was influenced by a strange and unknown psychology, which came out of the laws of gold; a world which was not requested by anyone in the Kingdom of Heavens; for no one requested to be exploited and deceived in any imaginable way; behold everything imaginable which came out of this strange life system is judged; what is invisible and what is visible; what was felt and was not seen; what was seen and was not understood; what is microscopic and what is big; what is seen and what is not seen; for it was written: The Father-God would judge everything; every known and unknown thing; and among what is unknown, felt by you, are the invisible ideas; the ideas which in their free will of ideas, only let themselves be felt; and they did not let themselves

be seen; your ideas shall be judged idea by idea; just like your time used in the trials of life shall be judged instant by instant; behold the judgment of the Father is in everything and in everyone; behold only what is of the Father remains in this world; for what is of the Father always triumphs in all the worlds; if men provoke the greatest revolutions in the search for every progress, more infinitely does the Father provoke it; for what is of the Father has no limits in anything known; the Revolution provoked by the Father shall be so immense that not even the dust of the strange life system which came out of gold shall remain; a Revolution that was announced to you as the Final Judgment; a Revolution that shall be remembered until the last molecule of this planet extinguishes; behold everything that was done and created by strange life systems, nothing remains of them; just as nothing is staying of what were the damned pharaonic dynasties; the human life is a momentary life; for when every spirit requests to know new lives, they do it by

requesting new attributes and qualities; new forms and touristic jails; for the spirit does not repeat in getting to know what he already knows; in virtue of his spiritual free will, every spirit chooses what is more convenient to his own perfection; every spirit molds himself to what he can in himself; just as it happens on Earth; what is up above is the same as down below; every spirit always expects to please the Father who created him, above everything; all come out of the Kingdom worshipping the Father; worshipping the Father is expressed in infinite ways; and above all the ways, the most sublime is that of work; followed by knowledge; the so-called material adoration never pleased the Father, in His divine free will; and if there was and there is a known material adoration, it is because the spirit requested it; he requested it because he did not know it; let it be well understood; he requested to know the material adoration and not let himself be influenced by it; he promised the Father to oppose mental resistance to every

material adoration; for precisely all the thinking spirits knew in the Kingdom what was or was not of the Father's pleasure; in this world, the strange form of faith called religion, taught and propagated as no other faith did, the strange material adoration; an unknown adoration in the Kingdom of Heavens; the so-called Catholic Church has provoked in the world of faith, a backwardness of twenty centuries; in the moral and spiritual level; when the creatures are influenced by strange psychologies of adoration, they fill their minds with strange and unknown sensations; and the consequence of this is superstition; behold the religious rock must pay all the seconds gone by of strange adoration in millions of beings, of many generations; the so-called religious beings must calculate the seconds contained in the twenty centuries; and they must particularly calculate all the seconds which were contained in all the time in which they were religious; of all the time in which they taught about God, dividing others; the religious rock leads

the reigning division and confusion in the world of faith; because of the religious beings was it written: Only satan divides, and he divides himself; I verily say unto you that no one requested the Father to divide another in any imaginable way; no one wanted in the Kingdom of Heavens to imitate satan; who had divided the Father's angels; any form of division is not known in the Kingdom of Heavens; the so-called religions are accused in the Revelation of Father Jehovah of having divided and confused the world in many beliefs, being there just one God; the so-called religions are unknown in the Kingdom of Heavens; as well as every form of philosophy that divides the Father's children in the remote worlds are unknown; behold the weeping and gnashing of teeth of every religious one; for it is more likely for a worker to enter the Kingdom of Heavens; who with his philosophy of work divided no one, than for a religious who divided many; division is living before the Father; as the entire creation is; and division expresses itself

before the Father in its living laws of division; every division accuses all those who used it by contradicting the Father's law; the living division does not want to be an accomplice in the mental division of the Father's creature; behold what being a rock in a determined belief leads to; rock symbolizes the mental selfishness of the creatures in the trials of life; there are many kinds of rock; for there are many kinds of selfishness; the greatest selfishness of this world came out of the religious rock; and since this rock constituted itself in the first one, it is also the first one in being judged; the so-called religious beings should have never forgotten that they would be judged too; for every planetary judgment that came out of the Father starts from the greater violators of His divine law; I verily say unto you religious beings of the world that none of you shall enter the Kingdom of Heavens; nor has any of you entered; no one who in this world served two masters has entered the Kingdom of Heavens again; this means that it would have been better

for you not have been religious if at the same time you recognized the strange life system, which came out of the laws of gold; I verily say unto you that a revolutionary of this world is worth more than you in the Kingdom of Heavens; a revolutionary is a prophet before the Father; and you religious beings are not; for your odd psychology of interpreting the Father's divine Gospel is not known in the Kingdom of Heavens; I verily say unto you religious beings of the world that your selfish rock is about to fall; you were trialed by the divine Father; once more, you fell in the requested trial; you did the same in other existences and in other worlds; you left confusion in other humanities; you did it because every spirit is born again in order to know new lives; I can see you now violators of my divine equality, in my divine presence; you will be requesting once more a new opportunity; you shall have the opportunity when you have paid up to the last molecule of ignorance, which you left in each creature of each generation; because of you religious

rock no human creature has entered the Kingdom of Heavens again; nor shall anyone enter; the entire christian world shall not enter the Kingdom of Heavens again; for with your strange psychology you divided everyone; no divided innocence enters the Kingdom of Heavens again; behold selfish religious beings that with the same rod you measured, you shall be measured too; just as you confused and divided a world, likewise shall you be confused and divided; with the same Scriptures with which you falsified the Father's divine Gospel, you shall be judged; behold your odd work; it produces a strange fruit for you; behold your weeping and gnashing of teeth; behold the greatest surprise for this world; those who called themselves the soul saviors, are the condemned ones; behold the prostitute's destiny; who traded with faith with the best bidder; behold you were the yoke of the world; it is your turn now religious demons to bear the same yoke; yes little son; I know that you can see the weeping and gnashing of teeth of those who dared

to bless the damned arms; with which millions of my children encountered death; a death which they did not request; every death that took place and was not written in the Kingdom of Heavens, is paid with death; in this life or in other existences in other worlds; I verily say unto you little son that no one in this world should have been exclusive in teaching the truth; for the truth has got free will; knowledge has got free will; faith has got free will; belief has got free will; just as the spirit has it; in the future which is approaching, the New World shall not have material temples; for they have had their time already; in the future the beings shall put the divine sacraments into effect at their own homes; for it shall be a world which shall not be indifferent to the law of the Kingdom, from the individual point of view; a psychology which the strange religious faith never achieved; the divine sacraments should have always been sealed at home; were you not taught that the living God is everywhere? Behold a divine universal law which

the religious rock never wanted to recognize; if they had recognized it, they would not have obliged anybody to go to the material temples; behold the law of everywhere shall accuse them of renegading from the universal law; the living philosophy of this law, shall request the Father to reject them everywhere; and they shall be rejected everywhere in this world; for the world shall see their own tragedy in them; their own weeping and gnashing of teeth; the world shall see in them the no entrance to the Kingdom of Heavens; the world shall see in them the own failure of the trials of life; behold that one part of the darkness of evil is paid in this life; and the rest in other lives; for what is up above is the same as down below; as everything imaginable has got free will, having debts have also got it; the final judgment requested by this humanity had as attribute and quality to get instructed when being judged; which is equivalent to know how everything was done; and await a new destiny; the new destiny includes the divine

resurrection of the flesh; this flesh is not perishable; for it is a flesh which did not request to be trialed in its philosophy and laws of flesh; the attribute and quality of this flesh is the immortality in a constant transformation; and its eternity is subordinated to the acts of the own free will; for the spirit can request the Father to know a world of mortal flesh again; the requests for perfection never cease; behold every thinking spirit departs to the infinite cosmos from infinite places; and all those places assimilate each other into one; behold the trinity of the places; an expansive and contractive trinity; in what is microscopic and macroscopic; in what is visible and invisible; the places of the Kingdom of Heavens are living; and their transformations assimilable; they are done at the speed of a thought; behold many are transformed and they do not realize it; this divine power is proportional to the power of each trinity of the place; this divine law is eternally expansive; for every place has got a space; the Trinity Father gets multiplied just as

the universe gets multiplied; the infinite trinities march parallel to the own creations; the divine trinity of the verb becomes expansive and doctrinarian in a transformation of truth; everything prophetic becomes a truth, at the instant in which one requested such truth; the trinity of what is prophetic is a trinity which awaits in time, space and philosophy; the Revelation as everything created has also got its trinity; the attribute and quality of this Trinity is to receive by divine telepathy of Father Jehovah, his divine mandates; the hierarchy in the Trinity of Revelation corresponds to the own hierarchy of the planet; on this planet Earth, her hierarchy is of the dust worlds; a microscopic dimension; the Earth occupies a place in the cosmos, which is expressed as follows: Planet Earth = one trillionth of a trillionth of a trillionth of solar creative line = a little sparklet of dimensional fire which came out of the suns Alpha and Omega = a divine solar creation in development in the galaxy Trino = primitive or first geometry, the right angle

of 90° = a planet which came out of the solar divine fertilization of the Sun Mother Omega and by the Sun Father Alpha = a planet of the flesh with 318 magnetic vibrations = a dust-planet perishable in the requested planetary time = a planet which requested the galactic company of a dwarf sun of pale yellow color = a planet that has already lived three quarters of a totality = a planet with a sprout of Revelation with a trinity of the First-born Sun = the initiation of a new world, written in the solar books of the Kingdom of Heavens; the position of a planet in the universe is infinite; for each molecule has its position in its microscopic dimension; for all are equal in rights before God; the position of the planets and suns is a living law; the creatures of remote galaxies and unknown life systems in other galaxies and systems, become identified when they meet in a determined point of the cosmos; just as you become identified in your living; what is up above is the same as down below; the solar powers which are the living virtues have got

their celestial ceremonial; just as you have it; and in these planetary salutations each one makes his own creative power be known; just as you make your capacity to work be known; what is up above is the same as down below; when the creatures of the cosmos present their celestial salutations, they do it by demonstrating their maximum creative power; in the most microscopic unit of time; behold the universal attribute and quality of the celestial salutations; it is a divine psychology detached from the own Father Jehovah; for if the Father does it in an infinite way, each creature of whichever world imitates the Creator, and in his respective living hierarchy; he does it in every degree of imitation; the oldest divine parable is the oldest divine mandate given to this world: Thou shalt earn thy bread on the sweat of thy face; the psychology of this mandate is infinitely expressed by infinite worlds; for what is of the Father does neither have a beginning nor an end; each mandate that comes out of the Father creates infinite universes; the present

worlds of the present universe come out of the divine idea generated by the Father; Let there be light and there was light; the present universe came out of the colossal idea which came out of the Father; and the attributes and qualities of each thinking psychology and of each world, only represent a microscopic instant in the celestial creation; this instant is infinitely expansive; which is equivalent to say that the universe is expansive; and every imaginable event happened, is happening and shall happen for ever and ever; behold all those who existed, exist, and shall exist will not have come out of the limits of a divine idea generated by the Father; I verily say unto you that the Father has generated infinite ideas; for what is of the Father has got no limits in anything imaginable; this means that there were and there are universes which you shall never know; behold what existed and was not known, becomes a reality in the Kingdom of Heavens; the colossal solar television exists there; the divine television that shows the

civilizations of worlds that are not in space anymore; as everything imaginable exists in the Kingdom, is that the planetary television of the future also exists; a solar television that shows the future creations of Father Jehovah; in the macrocosm called Kingdom of Heavens, there are all the imaginable forms of television; and that constitutes one of the marvels of the creation of Father Jehovah; just as you have terrestrial television; what is up above is the same as down below; but, the solar television is eternal; yours is not eternal; the Earth's television shall end when the Earth ends; and your dust-world passes to the category of a world that existed and is not found in space anymore; behold everything that existed is shown to every blessed one; but, in this world Earth no blessed one has been born yet; for the beast impeded it; the beast is the power that came out of the own human free will; and the beast took the form of a strange and unknown life system, which came out of the laws of gold; the beast built the

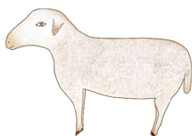

Father's children's hopes up, in the trials of life; the beast influenced every thinking spirit who got to know the beast; a strange psychology that includes self-interest, avarice, immorality, distrust, scandal, the force, made and makes no one of you enter the Kingdom of Heavens; I verily say unto you that none of you requested the Father an unfair life system; for all of you tried to imitate the Father above everything, in your requests of life; when you requested life to the Father, you did so by thinking in living the equality that you lived in the Kingdom of Heavens; the beast did not recognize this equality in the trials of life; the beast struggled and even defamed in order to combat against the equality taught by the Father; all those who opposed the Father fall in every judgment; for light and darkness requested a time of reigning; the beast has very little left; this immoral and unfair life system does not get to the year 2000; behold everything has got its end; the beast never understood the humble; for if it had understood my humble,

the beast would have been saved; it would have been saved from Father Jehovah's wrath; the beast had time enough in order to recognize its error in the trials of life; the beast let itself be surprised; the forgetfulness of the judgment preyed on the beast; the weeping and gnashing of teeth comes out of the own beast; tragedy is the fruit of the beast; for the beast does not give life as the First-born Son shall give it; the beast shall remain alone; and the world shall get angry with the beast; the beast shall become reduced into 666 men; three quarters of them shall know the solar fire; the beast shall perish by fire; and its sad history shall remain written once more as the spirits of darkness, who requested Father Jehovah to know a world of the light; they requested to be trialed in a form of life of the light; and they promised Father Jehovah not to let themselves be influenced by gold; for the beast had that complex; and Father Jehovah conceded the opportunity to the beast; and the beast fell again in its complex towards gold; and in its

fall it made the world that surrounded it fall, too; for the beast infected entire generations; behold the only history that shall remain of the request of life; for every life trial becomes a history and legend in the Kingdom of Heavens; the beast shall fall fighting for its reign of self-interests and privileges; the yokes that made entire generations undergo depravation; the beast shall be condemned again to darkness; for the beast promised the Father to fulfill the severity of the judgment; severity expressed in the divine mandate: Above every imaginable thing; the beast was severe against itself; the beast must pay every human sorrow caused in all the millions of beings of all the generations; it must pay up to the last molecule of painful flesh in what is physical and in what is mental.-

**ALPHA AND OMEGA.-**

**EVERY TRIAL THAT TOOK PLACE IN THE HUMAN  
LIFE WAS REQUESTED TO THE FATHER; FOR EVERY  
HUMAN TRIAL WAS NOT KNOWN BY THE SPIRIT;  
LIFE ON THE PLANETS IS ONE OF THE INFINITE  
FORMS OF LIFE OF THE THINKING EXPANSIVE  
UNIVERSE; FLESH IS ALSO OF INFINITE ATTRIBUTES  
AND QUALITIES; JUST AS THE SPIRIT IS.-**

Yes little son; everything that happened to a life on a determined planet, is requested in the Kingdom of Heavens; each act, each idea, each sensation, each breathing, each pore, each hair, each gesture, everything that one is in spirit and flesh, absolutely everything was requested; and every element that one got to know, one talked to them; for being everyone equal in rights before the Father, matter and spirit talk in their respective laws; no one is

less before the Father; neither matter nor the spirit; out of every world, other infinite facts take place; for there is everything in the Father's vineyard; that everything has got neither a beginning nor an end; your life was formed from the own elements of the Earth; this took place when the Earth was a microbe; it was a different dimension from the present one; for one has to be very little, microscopic and humble in order to become great in the space, planet, sun, or Kingdom of Heavens; when this happened, the microscopic heavens were open; and there was an immense traffic of space vessels; among them were the flying saucers; Adam and Eve saw them, and the pharaonic dynasty too; behold an epoch that preceded others; the beginning of the Earth has within itself, other beginnings; the beginning of the beginnings was fire; a story unknown to everyone; and being fire the beginning of the beginnings, there were other living laws, proper of the fire; fire started to be transformed progressively; the time of this process

escapes every human calculation; so many centuries have passed by as molecules has the planet; each molecule and each molehill were born from the past times; each molecule and each molehill have got a free will within their laws, different one from another; which means that each molecule and molehill have got their own dimension; colossal planets and immense spaces shall be born from them; everything is living and expansive; everything is translated into a materialized magnetism; matter and spirit fulfill this universal law; and every transformation in the own growth comes from invisible dimensions; the Father's mandate covers everything; what is invisible and what is visible; what is seen and what is not seen; every growth passes successively through many dimensions, which have other presents; until one arrives into the present in which the spirit reasons; the Alpha lines of the brains is a thinking beginning; this beginning has compromises with an entire microscopic cosmos; every spirit before materializing

itself into a present, got to know these microscopic dimensions; it got to know the microscopic humility; it knew in the galactic past that one had to be first very little and humble in order to become great in the Kingdom of Heavens; every spirit knew that there were infinite colossal forms in other galaxies; in other times, planets, spaces, and distant points of the universe; every spirit knew that what is of the Father has got no limits in anything imaginable; that everyone could become the size they wanted; for nothing is impossible to the Creator of the universe; that in order to attain it, they would have to be born again; they would have to go through infinite existences, through infinite planets; every spirit knew that the colossal suns of the universe had also been very little and humble; they knew that the divine mandates of Father Jehovah went back to eternities before the present suns; but no one knew of a precise date; nor shall anyone know it; for the more one knows, the less one knows; knowledge has no end; knowledge is like an Omega

Circle, that one does not know where it starts and in what point it finishes; the universe has got no limits; the Thinking Expansive Universe gets extended more and more; it is the divine inheritance of the Father in eternal growth; in this growth not only one model of being is repeated, but new models are being eternally born; nothing is limited in the Father's creation; nor shall it ever be; behold a law that is trialed up above as well as down below; when the own trials violate the Father's law, their laws take away future opportunities from the spirit that fell in its respective requested trial; everything living is an expansive law; which feels and thinks in its own laws; and when a spirit made wrong use of them, the living laws feel embarrassment, ire, anger, and even revenge; the living laws feel what the spirit has also felt; for both live the living equality; they live communism in the own feeling; the spirit and the body of flesh form a common covenant; which passing momentarily through an experience of planetary life, they get to know each other

mutually and they trial themselves mutually at the same time; each individuality has got different and infinite attributes and qualities, which have never been repeated nor shall they never be repeated; this demonstrates the intervention of the infinity; the individual forms have got no limits; for having each one of them come out of a same point of the universe, they become expansive keeping each one of them their own dimension; each individuality that has passed through the Earth has its own heavens, spaces, planets and philosophies; this is why it was written: Each one makes his own heaven; eternity also gets materialized; just as the spirit gets materialized; eternity and the spirit have got the same rights before the Father; the spirit is a beginning eternity, which was initiated starting from being a microbe; for one has to be very little and humble in order to become great in the Kingdom of Heavens; every solar innocence is advised in the Kingdom of Heavens, so that it can fulfill the Father's divine law; and so it is that every spirit

first starts getting to know the most elemental; it requests to know what is primitive first; if it did not live it, it would not know it in its own perfection; what one does not know, one has to live in order to know it; this constitutes the greatest merit before the Father; this merit of living every unknown experience, was announced to you in the divine mandate: Thou shalt earn thy bread on the sweat of thy face; this divine mandate covers all the mental and physical effort that came out of each creature of the Father; it was a divine advice which is summarized as follows: The greater the difficulty met by an accomplishment, the greater is the award; for the effort was greater; the greater the struggle against adversity; adversities and difficulties that the own spirit requested to know; every spirit requested to know what he did not know; and overcome what is unknown, without violating the law of God in the most minimal way; for he requested to be trialed; since all the Father's creation is constituted by laws, likewise, every

living trial is constituted by living laws; each individuality requested his own individuality, in order to trial himself; the responsibility of mental cause is in the most intimate of each one; it is in the spirit's virtues, and in the molecules of flesh; matter and spirit participate in the divine mandates of the Father; for everyone was born with the same rights; no one is less before the Father; neither the microscopic molecule nor the gigantic sun; neither the greater virtue nor the minor virtue; behold every spirit must render account before his Creator up to the last molecule of his own self; for his own everything above everything requested to participate in everything; in all the events and acts that happened to the creature in his life trial; the trials of life starts by searching; one is born searching for a truth; and according to the attribute and quality of the searched truth, thus shall be the attribute and quality of the future heaven that the spirit shall have; making by the use of his free will that what is down below be the same as up above; and what

is up above, the same as down below; when each spirit generates ideas, he generates them with attributes and qualities; these characteristics which are the spirit's inheritance shall get extended through the space forever and ever; for the source from which they emanated had an eternal inheritance which came out of the Father; behold every spirit that generated good and moral ideas in the trials of life, expanded seeds of future paradises; and whose creatures shall have the same thinking philosophy; and every spirit who generated evil and immoral ideas, expanded seeds of future hell-planets; whose creatures shall have the demoniac philosophy; virtue and evil are expansive; for the entire creation is so; for equality is in matter and spirit in the right to be eternal; each work done by the spirit gets transformed into universes, as time goes by; every act done with the participation of the mind, becomes a galaxy; starting from the dimension of a microbe; and successively passing through all the imaginable sizes; so it is that infinite

creatures live a present with their respective dimension; having already lived many presents and many dimensions; it is the eternal succession of the return to life; it is the being born again, into infinite lives; it is the own reincarnation; it is the spirit that recognizes new flesh; new experience; new destiny; what is of God does not get reduced to one sole existence; for what is of the Father does not have any limit in anything imaginable; he who believed that he had just one life, limited a life; the Father's power; and he who limited the Father does not enter the Kingdom of Heavens; it is more likely for one who exalted his Creator's power to enter the Kingdom of Heavens than for one who limited it; no one requested the Father to take His power away from Him on the remote planet, where a life request was going to be fulfilled; everyone promised to exalt Him, by living in the trials of life according to the Father's Scriptures and Commandments; this world according to what was promised to the Father should have not created the

strange life system based on gold; for such creation is infinitely away from the morality and Scriptures of the Father; the life system of this strange world of self-interest should have considered first and above everything, the Scriptures and Commandments of the Father; by not taking them into consideration, their authors and the world who imitated them condemned themselves; the blinds of the Father's laws fell, and the followers of blinds; for none of them shall enter the Kingdom of Heavens; the same always happens in the world that disown the divine rights of Father Jehovah; they always end up in planetary tragedies; this tragedy was announced to the world with many centuries of anticipation; for the Father sees the future and warns his children; because of your violation of the Father's Scriptures is that it was written: And there shall be weeping and gnashing of teeth; for your weeping comes out of the own strange and unknown life system based on gold; every custom that you learned from the strange and immoral life

system, based on gold, shall bring you tears; second by second; instant by instant; cell by cell; an eye for an eye, a tooth for a tooth; idea by idea; for everything that you are was malignantly influenced by satan; every disobedience in the corresponding degree is a demon before the Father; and the strange life systems of uncountable planets are other so many demons; the demon takes many forms in order to spoil the Father's creatures; in your world he took the form of capitalism; he took the form of an immoral life system; the attribute and quality of this strange life system is the illusion and pleasure even by violating the Father's own law; satan got what he set out; but, satan perishes; for no one who lived the so-called capitalism shall enter the Kingdom of Heavens again; I verily say unto you that every second of strange illusion is a wasted time for the spirit; for each second lived in strange illusion corresponds to you to live an existence out of the Kingdom of Heavens; this might seem too excessive to many; there is no such thing;

this is because the Father is infinite in anything imaginable; just as He is severe with darkness, He is also infinitely benevolent towards the light; since for each second of kindness or goodness, corresponds to you a life of the light; being each one able to choose the life of their likeness; for nothing is impossible to Who has created everything; it corresponds to you an existence lived in infinite paradises; I verily say unto you that you yourselves requested the Father to be severe with yourselves; you requested a divine justice whose attribute and quality left nothing thought by chance; not even one second thought in life; you requested a Final Judgment that covered everything; what is known and what is unknown; you requested a judgment above everything and above every act done; I verily say unto you that you were excessively severe in your request; but, it came out of you; you did not know such experience; all the events are requested in the Kingdom of Heavens; including the divine planetary final judgments; every grandiose event

for you is just a mere and microscopic event in the Kingdom of Heavens; without ceasing to be important after the Father; every justice is requested by the own spirit; everything is planned in the same place of origin of the universe; having everyone come out of the same point of origin of the universe, you go on getting to know other infinite places of living creations throughout your experiences among the worlds; for what is of the Father has no limits in anything imaginable; just as your place of origin are the suns Alpha and Omega of the galaxy Trino, others were born in other suns of the universe; whose exact number you shall never know; for no one is unique; only the Father is so; no one is unique in himself nor in his place where he came out of; many proclaimed themselves kings of the creation; no one of these arrogant beings of themselves shall enter the Kingdom of Heavens; it is more likely for those who were humble in their expressions to enter the Kingdom of Heavens than for those who expressed their

thoughts with pride; everything that one spoke in life, speaks again in the Kingdom of Heavens; for everything spoken becomes living in the Father's presence; and it asks for justice to the Father; and every spirit listens to what he said on Earth; behold one of the greatest surprises that the spirits find in their return from the remote planets; and according to the morality that the spirit cultivated, is the reaction that he feels; what is up above is the same as down below; and according to the morality that they were accustomed to, some become marveled, some get terrorized, some want to flee, others are filled with dread; since for each letter of indecency said, is a condemnation for the immoral spirit; for each indecent letter or expression said in the trials of life, corresponds to live one existence out of the Kingdom of Heavens; every immoral spirit must calculate his own number of bad words said in life; this mental effort for calculating his own errors is taken into account in the Father's justice; it is a form of repentance; the most minimal mental effort

is awarded by the Father; the most minimal mental effort are points of light that the spirit attains; repentance is also living before the Father; just as His infinite creation is; repentance defends the spirit who recurred to it before the Father; that is why it is more likely for a spirit who got repented to be saved than for one who did not repent; for the latter one annulled every possible defendant; one gets to the Father only by repentance; for the initiative must come out of the own spirit; it must come out of oneself; for it is more authentic before the Father; he who does not repent, attracts darkness; they get interested in every spirit who hesitates before the light; for they take advantage of his weakness; repentance creates other times and spaces, which make darkness to contain itself; for even darkness have got laws to fulfill; not violating them is darkness's own trial; light and darkness render account to the Father in their respective laws; the children of the light advance towards the Father; and when darkness is trialed, they sooner

or later recognize that they wasted time; for they have to start all over again; there is no darkness that sooner or later arrive to this unique conclusion; in this world Earth when the strange life system based on gold falls, darkness shall recognize this truth; every immoral reign is darkness; therefore, the strange life system called capitalism, is darkness; for it always fought against equality, taught by the Father; this beast did not hesitate in creating the so-called privileges; no privileged one of this world shall enter the Kingdom of Heavens; no one requested the Father to be privileged; for such immorality is not known in the Kingdom of Heavens; not even the so-called capitalism is known; I verily say unto you that no immoral philosophy is known in the Kingdom; immoral philosophy is the one that does not exalt the Father's law; every philosophy including the form of life, is trialed by the Father; it corresponds to the Father which philosophy must remain on Earth; Father Jehovah is the Supreme and divine Judge in every

life trial requested by His children; and Father Jehovah leaves the terrestrial communism for this world; He leaves the philosophy that got closer to His divine mandate; all are equal in rights before God; which means that the most microscopic imitation of what was said by the Father, is infinitely awarded; the system chosen by the Father can or could have had any name; what is important to the Father is the morality in its attribute and quality; there are many kinds of morality; the morality of the strange life system based on gold is a strange morality; it is a morality that is not known in the Kingdom of Heavens; that is why it is said strange morality; the morality of the terrestrial communist philosophy is known; for it tried to imitate the equality taught by the Father; it is a morality that had to overcome the immorality of the so-called capitalism; the strange morality of capitalism did not pass this trial; for it itself was the creator of the living immorality in this world; is it not then older than communism? For when capitalism

proclaimed itself being the first, it casted the first stone first; it was the first to teach morality to the world; what is sad about it is that such morality was a self-interested morality; for it was based on the gold standard; communism had to imitate it in order to compete with it; it did not have any other choice; but, all of you are judged starting from what is mental; and all fulfill one same law; I verily say unto you that the so-called capitalism is condemned before God; and Father Jehovah shall make it disappear from this world; just like He has made other strange life systems of the terrestrial past disappear; among many others is the damned pharaonic dynasty; the so-called capitalism has much to do with the damned pharaonic dynasty; the majority of its spirits who have a weakness towards gold, were followers of the demon Osiris; which means Only Gold; the capitalists of all the generations belonged to this demon's legions; every spiritual imperfection is kept through many existences; it is what originated capitalism; a darkness that

was born in the pharaonic era; a darkness that started through the eyes; for the damned pharaohs started with the material vanity; they coveted gold first as an art; then as a monopoly, up to influencing in the own necessities; in the own living; it was a very remote epoch, in which barter started to emerge; changing one thing for another; according to the needs; it is more likely for one who preferred bartering in his mind to enter the Kingdom of Heavens, than for one who preferred to be a merchant; the morality of the one who bartered has nothing to be ashamed of before the Father; the morality of the trader does get ashamed before the Creator; for the latter morality is not known by anybody in the Kingdom of Heavens; for no merchant has entered the Kingdom of the Father again; nor shall any of them ever enter; this is why it was written: It is more likely for a camel to pass through a needle's eye than a rich to enter the Kingdom of Heavens; this shows how rigorous the Father's law is; no merchant of the capitalism has ever been able

to enter the Kingdom of Heavens since this strange tree of darkness emerged; which has been to humanity like the lash of a beast; for because of capitalism, no generation of the world of trials has been able to enter the Kingdom of Heavens again; nor shall any of them enter; behold the inheritance left to others by those who violate the Father's law; no follower of the beast saw the Father's Kingdom again; nor shall any of them see His glory again; behold the weeping and gnashing of teeth of an entire world; the world was influenced by a strange philosophy which came out of darkness; behold the end of the world's yoke; behold the fall of the world of self-interest and the world of hypocrisy; behold the fall of the pharaonic serpent; the same one who deluded and deceived Eve; it kept on deceiving the world by means of the life system; behold all those who were careless in the trials of life shall have weeping and gnashing of teeth; for it would have been better for them to have lived like a hermit on Earth, and Father Jehovah would

have nothing against them; than having lived in a life system, which gave itself many delicacies, but which did so by violating the Father's law; for nothing of all the strange things that men created shall remain in the trials of life; nothing shall remain of what the arrogant beings of the world created; the supreme pride of this world was to have created an illegal and immoral strange life system before the divine Commandments of Father Jehovah; all the kinds of pride have come out of this strange life system; all the vices and sins; and every living condemnation; pride was fed by the strange power of gold, which exerted a strange influence over millions of beings; the power of gold is an ephemeral and microscopic power; with terrible living and future consequences for those who let themselves be deluded; for by each idea that the strange influence of gold had, one must fulfill one existence that must be lived out of the Kingdom of Heavens; which means to live in worlds of infinite categories of darkness; when what is ephemeral violates the

Father's eternal laws, it always ends up in a living tragedy; all the violators of the Father's law who passed through this world, whine in darkness; for the severity of the punishment came out of themselves, above everything; they themselves requested such justice; for everything is requested to the Father; I verily say unto you that such destiny awaits every violator of the Father's law, in this generation; starting from all the guilty ones who divided the world in nations, races, frontiers, religions, rich or poor; for it was written that only satan divides, in order to fight against the equality taught by the Father; no one in this world stood for what is of the Father; likewise the Father shall not stand for them either; he who abandons the Father is also abandoned; it is more likely for those who cared for the Father for just one second to enter the Kingdom of Heavens, than for those who did not care a single second; being everything living before the Father, the seconds are also living; and every second of time speaks before the Father; and

when a spirit never cared about his Creator, the seconds shared by his mental ideas, in the trials of life, feels ashamed of having accompanied an ungrateful being in life; and it is enough to listen to the complaint of a microscopic second of living time, and the spirit who originated the complaint, does not enter the Kingdom of Heavens; it is more likely for those who did not even let one of their living seconds complain to enter the Kingdom of Heavens, which accompanied them in the trials of life, than for those who made one sole second be scandalized; behold a law which is fulfilled by everyone all the same; a law in which the most little one, the most microscopic, the most humble, is first in the Kingdom of Heavens; the Creator listens to them first; the human spirit is the last one in being listened to; for every human being was mandated to be humble above everything; the humble always waits; he never casts the first stone of opinion in his own imperfection; behold another law in which almost all the human individualities

fell; for all of them cultivated a strange humility; a humility with an influence in gold; he who got to know this kind of humility, shall not enter the Kingdom of Heavens; it is more likely for those who had humility with no strange influence to enter the Kingdom of Heavens; for their humility would be assimilated to the celestial humility of the Kingdom of Heavens; if Father Jehovah let a creature with strange humility enter the Kingdom, such divine act would be an infinite injustice; for the celestial happiness of the Kingdom of Heavens do not deserve that; the happiness of the blessed has never been perturbed nor shall it ever be so; I verily say unto you that infinite creatures who got to know strange humilities in their respective planets, cannot enter the Kingdom of Heavens; they observe the supreme glory of the Father from the outside and with an infinite sadness; behold every terrestrial humility shall not see the Father's glory, for it was not a humility according to the Scriptures and Commandments of the Father; it was a

humility fed and deluded in gold; it was a strange humility which came out of a strange life system, based on gold; which came out of an unknown life system in the Kingdom of Heavens; no terrestrial son who cultivated a strange humility shall enter the Kingdom of Heavens; nor has any of them entered in the past; behold every human kindness that got to know the strange influence of gold, does not have the right to enter the Kingdom of Heavens; for one cannot serve two masters; one cannot be kind if the thought is in self-interest at the same time; for every mental idea gets divided in two masters of opposite powers; behold everything that you are, matter and spirit, should have always received one sole kind of influence in the trials of life; and not strange influences to the Scriptures and Commandments of the Father; for the Father is one; his Holy Scriptures one; the Father's equality is one; each one's destiny is one; I verily say unto you that if those who casted the first stone in formulating the life system had consulted with the

Scriptures and Commandments of the Father, I assure you that this humanity would not have Final Judgment; nor would they have weeping and gnashing of teeth; for Father Jehovah would have nothing against them; those who built their hopes up on gold were blinds; because of them was it written: Blinds leading other blinds; who condemned an entire humanity to not to enter the Kingdom of Heavens; behold what costs not to take into account what is of the Father; just like on Earth a son regrets when he feels the consequences of not having obeyed his terrestrial father, likewise the humanities who disobey the Creator regret it; what is up above is the same as down below; behold the tragedy which hovers over the human knowledge; for this humanity never imagined that this was the truth; its painful characteristic is a consequence of the human acts; it is a consequence of the human free will; having this humanity built their hopes up on their weakness for gold, the consequences fall back on them; but, the demons who forced

them to live such a strange and immoral life system, shall pay for them; three quarters of any mental or physical suffering is paid by the creators of the so-called capitalism; a strange and unknown philosophy to the Kingdom of Heavens; for it is not written in the Father's Kingdom, neither any form of exploitation; not even the most microscopic; behold the unknown capitalism has got no inheritance in the Kingdom of the light; for it did not come out of the light; behold every philosophical tree that Father Jehovah did not plant shall be uprooted; behold the labor and the pain of this uprooting is because of the so-called capitalists; the most ambitious spirits of the world; who having come from remote darkness, requested Father Jehovah to know a world of the light; an unknown form of life to them; and they requested the Father to be born again; what they did not request the Father was to teach their thinking darkness; for their spiritual trials consisted in that; it was a condition imposed by them themselves; for every spirit

tries to please the Father by all means, above everything; behold none of these demons of gold emerged triumphant from their planetary trials; all of them with no exception fell again in their weaknesses for possession; if the consequences of the fall had been only for them, it would have been an individual justice; but these damned beings dragged the entire humanity along with them; for because of the so-called capitalists no child of this world shall enter the Kingdom of Heavens again; for they imitated satan, in the trials of life; no one struggled against the strange influence of gold; knowing everybody that no rich would enter the Kingdom of Heavens; and almost all pretended to become rich; and by having the free will chosen such way, they fell before what was promised to the Father; they fell in their own requested trial; I verily say unto you that as long as you let yourselves be influenced by the strange power that gold exerts over your spirits, you shall never enter the Kingdom of Heavens; for that is not the way that you yourselves

promised the Father; everything that is promised to the Eternal, must be fulfilled; and if the children do not fulfill what they promised to the Father, the children get further away from the Kingdom of Heavens; infinitely greater is the distance that separates them from the Father's Kingdom; each second gone by and lived in such strange influence costs living one existence out of the Kingdom of Heavens; behold the meaning of the term: Above everything; in that term which came out of your own selves, are also the seconds lived by each individuality; behold the cause of the weeping and gnashing of teeth came out of your own selves; you were excessively severe to your own selves; you insisted before the Father; and the Father who is almighty conceded it to you; many blame the Father without searching for any cause; without investigating in the Father's Scriptures; they shall not enter the Kingdom of Heavens; for everyone promised the Father to search for the truth in the trials of life, above everything; that is why it was written:

He who searches shall find; behold the weeping and gnashing of teeth of millions of easy-attitude beings, who did not make the effort of searching in life; for none of them shall enter the Kingdom of Heavens; it is more likely for those who knew nothing about the Father's Scriptures to enter the Kingdom of Heavens, than for those who knew it, and ignored them; certainly no ungrateful one shall see the Father's glory; it is more likely for a spirit who requested to know the primitive life to see it, than for one who requested the illustration in life; for the more illustrated was a spirit, the greater is his responsibility before the Father; it is because of that that the divine justice starts by all those who gave themselves the greatest illustration; a strange illustration when one does not take what is of the Father into account.-

**ALPHA AND OMEGA.-**

## **THE PLAN WHICH WAS COMMENDED TO THE EMISSARY ALPHA AND OMEGA**

The Rolls of the Lamb of God.

3,000 Rolls of the Origin of Matter.

300 Rolls of the Origin of the Ideas.

300 Rolls of the Origin of the Most Holy Trinity.

300 Rolls of the Origin of the Flying Saucers.

500 Rolls of the subject about the beast.

The Origin of Matter; it shall be a work of 3,000

Telepathic Rolls ...

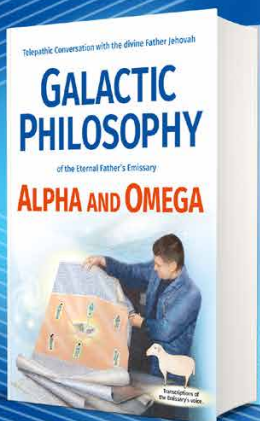

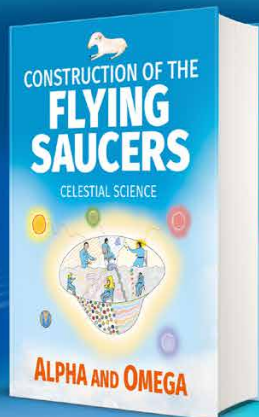

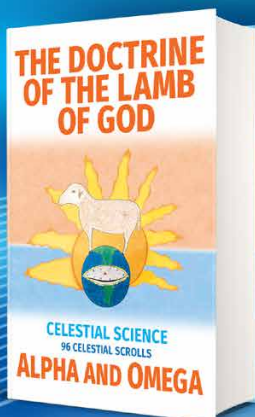

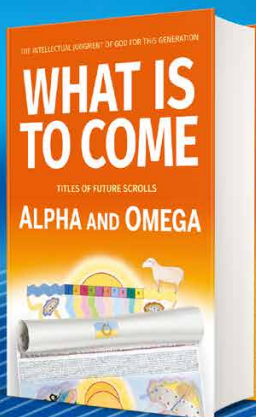

The Idea is a work of 300 Rolls ...

The silver ships shall be explained in 300 scrolls; but that is not the limit; it is the beginning; and the Translation of the Holy Scriptures, shall be 6,000 rolls of cardboard; each roll represents a parable of the Scriptures; the telepathic scripture has no end; for the universe does not have it; the living word of God does not have it either ... Here there is material to talk about for years; they are 4,000 Rolls ... and another one is born each day.
